SIXTH CONFERENCE
4 - 10 MARCH 1990 KUALA LUMPUR

PROCEEDINGS

VOLUME 4
TECHNICAL SESSION 13 - ROAD DESIGN, CONSTRUCTION AND RESEARCH (I)

1) Continuously Reinforced Concrete Pavements on the French Motorway Network
   by J.H. Aunis

2) The Performance of Continuously Reinforced Concrete Pavement on the Ayer Keroh-Pagoh Toll Expressway
   by R. Tyler and T.S. Yee

3) Trial, Application and Potential of Roller Compacted Concrete in Indonesia
   by Moh Anas Aly and Djawali

4) Performance of Jointed Reinforced Concrete Pavement Construction in Malaysia, with Particular Reference to Johor Bahru - Pontian Road Package 1B
   by C.B. Soh

5) Sprayed Seals Design, Construction and Research
   by J.J. Rebbechi and J.W.H. Oliver

6) A Study on the Use of Incinerator Residue as a Road Material
   by M.A. Aziz and S.D. Rameswary

7) Cement Stabilisation of Laterite Soils: State of Kedah - Malaysia
   by I.L. Sternberg

8) Construction Variability - Case Studies
   by A.A. Auff

TECHNICAL SESSION 14 - BRIDGES, TUNNELS AND GEOTECHNICAL (I)

1) Bridge Vibration Criteria
   by L. Tristanto

2) A System of Bridge Inspection and Data Management In Developing Countries
   by J.D. Parry

3) Bridge Management in Western Australia
   by P.M. Palmer and P.J. Wyche

4) Towards Evolving a Bridge Management System for JKR
   by K.W. Tham, C.L. Khoo and S.K. Ng

5) Stochastic Optimisation of a Network Level Bridge Management System
   by W. V. Harper and K. Majidzadeh
6) Maintenance of Bridges and Viaducts  
   by Dr. E. Scotto

7) Performance Assessment of Expansion Joints in Singapore  
   by K. Srivelan

TECHNICAL SESSION 15 - ROAD, DESIGN, CONSTRUCTION AND RESEARCH (II)

1) Initiation of an Analytical Flexible Pavement Design to Thailand Department of Highways  
   by Dr. T. Ruenkrairergsa and P. Somphud

2) A Low Cost Road Design System  
   by P.M. Morris and D.A. Hicks

3) Quick insitu CBR for Road Engineering from DCP/insitu CBR relationship Developed in Malaysia  
   by M. Sabri Hasim, M. Shafii Mustafa and Z. Ariffin M. Kasim

4) Rutting Characteristics of Unbound Aggregates  
   by M. Zakaria and G. Lees

5) The Design and Use of a Quarry Materials Inventory  
   by P.J. Beaven, J. Cook and B. Moestapha

TECHNICAL SESSION 16 - BRIDGES, TUNNELS AND GEOTECHNICAL (II)

1) Construction of Songkhla Bridges in Thailand  
   by W.H. Chen, Y.R Lin and T.C. Hsu

2) Eastern Harbour Crossing - Hong Kong  
   by J.M Turner and J.F. Webb

   by Zainal A. Ahmad

4) Urban Underground Works: A Way To Solve Many Problems  
   by W.De. Lathauwer

5) Maintenance and Operation of Honshu - Shikoku Bridges  
   by H. Tomioka

6) Standard JKR Specification for Bridge Loading  
   by S.K. Ng, M. Hisham M. Yassin and C.C. Lim
TECHNICAL SESSION 18 - BRIDGES, TUNNELS AND GEOTECHNICAL (III)

1) Retaining Walls and the Stability of the Slopes of Paris-Rome Motorway
   by Y. Guerpillon

2) Highway Slope Problems in Indonesia
   by W. Heath, B.S. Saroso and J.W.F. Dowling

3) Shear Strength Properties of Some Malaysian Residual Soils
   by Z.C. Moh and P. Wijemunige

4) Slope Stability and Protection
   by R.A. Nicolls

5) A Probabilistic Approach to Kuala Lumpur - Karak Highway Cut-Slope Instability Problem
   by M.A. Othman
