CONTENTS

IADC/SPE 39246 Short Radius Horizontal and Multilateral Re-entry of Oil and Water Injection Wells ............................................. 9
I.A. Al-Ghamdi, A.A. Al-Hendi, and O.J. Esmail, Saudi Aramco

IADC/SPE 39315 Determination of Temperatures for Cementing in Wells Drilled in Deep Water .................................................... 19
D.G. Calvert, Mobil Technology Co., and T.J. Griffin Jr., Schlumberger Dowell

IADC/SPE 39374 Hybrid Coiled Tubing System for Offshore Re-Entry Drilling and Workover ................................................. 29
Bruce Selby, Halliburton Energy Services; Nagan Srinivasan and Bob Donnally, IRI Intl.; and Randy Vincent and Jerry Wilke, Halliburton Energy Services

IADC/SPE 39387 Drilling Optimization and Use of Titanium Motor Results in 40% Reduction in Short Radius Drilling Time .............. 41
M.R. French and Mangojak Siagian, PT Caltex Pacific Indonesia, and B.C. Sutcliffe and Jerry Jones, Baker Hughes INTEQ

IADC/SPE 47772 Reversible Invert Emulsion Drilling Fluids—A Quantum Leap in Technology ......................................................... 55
A.D. Patel, M-I L.L.C.

IADC/SPE 47775 Prevention of Shallow Gas Migration Through Cement .............................................................. 67
Khalid Al-Buraik and Khalid Al-Abdulqader, Saudi Aramco, and Riad Bsaibes, Schlumberger Dowell

IADC/SPE 47778 Unique PDC Bit Technologies Combine to Consistently Reduce Drilling Time in Interbedded Formations ............. 75
S. Taylor, Hycal; A. Besson and D. Minto, Total; and I. Mampuk, Hycal

IADC/SPE 47783 Puncak Jaya, Kinabalu Alliance .................. 83
S.B. Wee and K.C. See, Sarawak Shell Berhad, and M.W. Edmondson, Safemal (M) Sdn Bhd

IADC/SPE 47784 Barite Sag: Measurement, Modelling, and Management .......................................................... 89
P.A. Bern, BP Exploration; E. Van Oort and B. Neusstadt, Shell; H. Ebeltoft, Statoil; C. Zurdo, Elf; and M. Zamora and K. Slater, M-I Drilling L.L.C.

IADC/SPE 47785 Case History on Planning, Drilling and Completing the World Record ERW-XJ 24-3-A14 ......................... 99
M.J. Zhang, China Offshore Oil Nanhai East Corp.

IADC/SPE 47786 Management of Wellbore Instability & Formation Damage by Improved Drilling Mud Design ..................... 113

IADC/SPE 47789 Fatigue Life Evaluation: A Key to Avoid Drillpipe Failure Due to Die-Marks ......................................................... 125

IADC/SPE 47790 The Impact of Compression Forces on Casing String Designs and Connectors ...................................................... 137
M.J. Jellison and J.N. Brock, Grant Prideco Inc.

IADC/SPE 47791 Optimization of Drilling Parameters with the Performance of Multilobe Positive Displacement Motor (PDM) .................................................. 149

IADC/SPE 47794 Changing the Growth Equation: Integrated Solutions’ Contribution Through a Step-Change in Performance .......... 157
Jim Reynolds and Bob Pendergraft, Halliburton Co.

IADC/SPE 47795 Wellbore Stability Analysis and Guidelines for Efficient Shale Instability Management ........................................ 165

IADC/SPE 47827 Mud Reformulation and Solids Control Equipment Upgrades Improve Hole Cleaning and Reduce Environmental Discharges—A Case Study 325
F.L. McCollum and A.W. Kamaruddin, Esso Production Malaysia Inc., and H.J. Longwell III, Exxon USA

IADC/SPE 47828 Applications of a Near Surface Disconnectable Drilling Riser in Deepwater 331
E. Kogure and M. Ohashi, Japan Drilling Co., and S. Urabe and A. Tanabe, Japan Natl. Oil Corp.

IADC/SPE 47830 A New Approach to Designing High-Performance Lightweight Cement Slurries for Improved Zonal Isolation in Challenging Situations 339
Philippe Revil and Bipin Jain, Schlumberger Dowell

IADC/SPE 47831 Advances in Metering and Control Technology Improves Design and Execution of Foamed Cement Jobs 349
R.A. Judge, BJ Services, and Glen Benge, Mobil E&P Technical Center

IADC/SPE 47832 Zirconium Citrate: A New Generation Dispersant for Environmentally Friendly Drilling Fluids 357
L.F. Nicora, Lamberti SpA, and Giovanni Burrafato, ENI SpA

IADC/SPE 47840 Turbo Drilling Through Coil Tubing Using Foam in Sub-Hydrostatic Well: A Case History for Jotana Field in Cambay Basin, India 365
Manoj Kumar, P.C. Jain, A.K. Srivastava, and Anil Johari, ONGC

IADC/SPE 47845 Case History—Hydraulic Rig Assist Utilized in Workover Program in Dayung Gas Field, Indonesia 371
Memet Rachmat, Gulf Indonesia Resources, and P.W. Courville, Halliburton Energy Services

IADC/SPE 47847 Slickline Power Unit on Coiled Tubing Provides Innovative Solution for Setting a Nippleless Lock in a Multilateral Completion 387
Jack Hall, Halliburton Worldwide Ltd., and B.M. Wijngaards, Petroleum Development of Oman

IADC/SPE 48139 Ultra-High Pressure Deep Well Drilling Experience in Yingke-1 Well 401
M.-L. Zhu, S.-Q. Wang, Yuncai Mao, and Jie Dong

No manuscript received for the following

IADC/SPE 46044 Coiled Tubing Drilling on Tripod Platform in Java Sea

IADC/SPE 47773 Drilling Highly Deviated Safe Wells Through Troublesome Shales
J.M. Pasnak, Saudi Aramco

IADC/SPE 47781 An Economic Analysis of Horizontal Well Drilling in Anisotropic Reservoirs

IADC/SPE 47788 Optimum Mud Weight and Trajectory Planning: Key to Avoiding Borehole Instability in Highly Stressed and Shaley Formations

IADC/SPE 47792 Cutting Insert Technology for Downhole Milling
W.A. Blizzard, EVI Weatherford

IADC/SPE 47798 Multi-Lateral Drilling: Engineering Input
C.S. Heywood, Santa Fe Energy Co.

IADC/SPE 47808 A New Advanced Model for Prediction of Fluid Hydraulics Under Downhole Conditions
A.T. Hemphill, Baker Hughes INTEQ, and D.E. Jamison, Baroid Drilling Fluids Inc.

IADC/SPE 47818 Contracting HTHP/Deepwater Drilling Rigs in a Competitive Market: Challenges Faced by the SE Asia/Australia Drilling Consortium
J.F. Combes, W. Australian Petro. Pty. Ltd.

IADC/SPE 47824 Area-Specific Analysis Reflects Impact of New Generation Fluid Systems on Deepwater Exploration
J.E. Friedheim, M-I Drilling Fluids Co. LLC
IADC/SPE 47825 World's Largest Bi-Center Bit Successful in Malaysia Directional Application
C.M. Fielder, Diamond Products Intl. Inc., and F. Jaafar, Esso Production Malaysia Inc.

IADC/SPE 47833 Evaluation of Materials for Wellheads and Downhole Completion of the Onshore Gas Development II Thamama Sour Gas Wells
A.A. Gharra and L.H. Remisio, Abu Dhabi Co. Onshore Oil Opn.

IADC/SPE 47835 Introduction of Multi-Lateral Wells in the Amin Oil Field in Oman
B. Hengeveld, Petroleum Development of Oman, and P.K. Kapteijn, Shell Intl. E&P BV

IADC/SPE 47838 Technologies of Drilling Deep Horizontal Wells to Develop Tazhong 4 Oilfield
J. Tang, X. Teng, and C. Wang, Tarim Petr E&D Admin Bureau

IADC/SPE 47841 Technology of Ultrahigh Density Drilling Fluids
X. Zhao, U. of Petroleum China; M. Lei, DianQianGui Petr Expl Bureau; Y. Xiao, U. of Petroleum China; and D. Hu, DianQianGui Petr Expl Bureau

IADC/SPE 47842 Construction and Operation of a New Technology Slimhole Land Rig: Challenges and Field Experiences
