</table>
Mining method decision support system in gently inclined coal seams
X.Zuo, Y.Wang & X.Zhang

3 Mining geomechanics

Slenderness ratios in dependence of modulus of deformation and uniaxial compressive strength
S.Abani

Optimum cutting plan in tunnel excavation with waterjet slotter
A.Bortolussi, R.Ciccu, B.Grosso & P.P.Manca

Use of wavelet transform for processing of mining induced seismic events
N.Častová & Z.Kaláb

Strata control at the face with fully mechanized sub-level caving
D.Zhang

The evaluation of reused effects of roadways retained along gob edges
D.Zhang, J.Xu & D.Lu

Rock and gas outbursts
M.Gawor, J.Litwiniszyn, J.Rysz & A.Z.Smolarski

Solving the problems of outbursts of coal and gases in the Paskov Mine, partial enterprise, Staříč plant
V.Hudeček & V.Pintzker

The determination of rocks’ mechanical properties with the use of ultrasounds
T.Chrzan

Analysis of seismic events induced by blasting operations in the opencast mine
Z.Kaláb, J.Knejžlík, R.Kořínek, P.Žurek, J.Doležal & M.Neuman

Instrumentation for measurement of acoustic emission during laboratory tests
J.Knejžlík

Acoustic emission from different types of carboniferous rocks during uniaxial loading
P.Konečný

New achievements in geomechanics and their importance for mining theory and practice
P.Konečný

Analysis of a roof failure in a bauxite mine
D.H.Kotinis, A.I.Sofianos & A.P.Kapenis

New aspects of prediction ground movement in coal mines
V.A.Nazarenko

Rock characterization and stress analysis at Baltar mine, Brazil
E.C.Sansone & L.A.Ayres da Silva

Stress calculations around general shaped mine openings using conformal mapping
L.Sudak, J.Szymanski & S.Planeta
Automated construction of structural-and-strength maps of stowed workings
V.B.Vishnya & G.Ph.Gavryuk

4 Modern trends of mining technologies and mechanization

New trends in the longwall mechanization of thin seams in Poland
J.Antoniak, J.Bajorski, M.Bula & J.Kania

Development of a new VÍTKOVICE spreader
K.Bartoš

Full scale and small scale cutting tests for equipment selection in a Celestite Mine
N.Bilgin, C.Balci, Ş.Eskikaya & D.Ergunalp

The performance measurement results of stone cutting machines and their relations with some material properties
A.Ceylanoğlu & K.Görgülü

Testing of powered support
V.Čokorilo & V.Milisavljević

The increasing of the mining machines and equipment operation period
R.P.Didyk, E.A.Masakovsky & S.V.Polyakov

Application of electronic control systems in heavy machines for open pit mining
J.Fiedler

Practical way for plant equipment selection on stone quarries
F.Fujimura, L.Soares, W.T.Hennies & M.A.R.Silva

Problems related to transportation of mineral materials through living environment
M.Grujic & R.Nedeljkovic

Fatigue-load testing of conveyor belts
M.Hardygora & D.Woźniak

Prospects of using of electrical loader of high-speed digging
V.P.Chuprin

Equipment for stray currents restriction in mines
A.B.Ivanov & A.S.Golovchenko

Calculation of slurry transportation by PRO-HITRA software
B.Kolonja, D.Knezevic, D.Gagic & R.Stankovic

Design of mining robotics systems
V.L.Konyukh

New progress of mining mechanization in China
Z.M.Kou, J.Huang & J.S.Hao

Temperature influence on rheological properties of conveyor belts
S.Markusik & C.Pypno
Planning for faster drivage rate with roadheaders in Indian longwall mines: A field investigation  
V.M.S.R. Murthy, J.L. Jethwa & A.K. Ghose  
Benefits of studies on LHD reliability and availability for mines  
J. Parasyczak, J. Vachon & L. Grammond  
Magnetic defectoscopy of steel ropes  
J. Pištora, M. Lesňák & D. Ciprian  
New electric-power supply system with the inductive power receipt at the electric locomotives for coal mines  
G.G. Pivnyak & A. Ya. Ribalko  
Parameters optimization methods of the power pack with advanced hydro-static drive for rotary blasthole drill  
R.Y. Poderni, M.R. Chromoy & V.F. Sandalov  
Study on the support technology of roadway driven along next goaf for fully mechanized caving coalface  
Q. Chen, X. Chen, T. Jin, F. Li & W. Li  
Dynamic status of a bevel gear as a function of lubrication conditions  
A. Skoć & J. Spalek  
Developments in haul road design technology  
R. J. Thompson & A. T. Visser  
A study on haulage technology and equipment in large open pit mines in China  
X. Wang & L. Zhao

5 Technology of driving, drilling and blasting

Assessing rock fissuring in the blasting process  
S. Arad, V. Arad & L. Radermacher  
Design and primary investigations of heads with replaceable bits for rotary drilling in rocks  
A. Bęben, M. Maziarz & R. Tylek  
Damages to the roadway tunnels in the coal mining area of Hebi, P.R. China: Proposals to minimise damages and numerical analysis  
M. Fuchsberger & H. F. Schweiger  
Techniques of drilling rescue holes with simultaneous casing from underground workings  
A. Gonet, A. Zięba, J. Pawlikowska & S. Stryczek  
Procedure of calculating bench blasting parameters applied in Polish quarries  
T. Chrzan  
Impact of inherent fractures on fragmentation of blasted coal  
K. K. Kabongo  
Use of a method of the equivalent circuits at modeling of technical objects  
Yu. I. Klimov
The prediction and identification of the faults and changes of the properties of rockmass based on the analysis of the data logged in real time during boring

V.Krúpa & E.Lazarová

The new method of calculation of the granulometre composition of exploded rocks

B.Rakishev & Z.Rakisheva

Technological and ergonomic aspects of selected muds application to the drilling of rescue holes in underground dog headings

S.Stryczek, A.Gonet, A.Zięba & M.Wójcik

The total open stope design approach (Part 1)

J.Szymanski, A.Karami, S.Frimpong & L.Sudak

6 Monitoring and management of mining operations and technologies

Methane-fire hazard monitoring and ventilation control system

W.Balicki & S.Wasilewski

Mathematical modelling and computer simulation of conveyor belts mechanical parts cooperation for supporting diagnostic inference

W.Bartelmus

Management of effective utilisation of mined coal by computer simulation

A.Burý

Information and control system of ČSM Coal Mine preparation plant

R.Danel & J.Skotnica

Computer simulation of methane emission in long wall faces

B.Firganek

The methods of monitoring and management of mining operations at open-pits via modelling

System of procurement and elaboration of basic geological and topographical data files for mining projecting, control, monitoring and supervision of Most Coal Company, JSC coal mines operations

M.Havlíček

Study of dynamic characteristic and balance adjustment of multi-cable friction hoist steel cable tension

C.Jia, Z.Yang, D.Han & P.Zhang

Control system for the operational parameters of the multirope hoisting installations

I.Nicolae, M.Andrei, A.Dorin & P.Florin

Dynamic simulation on mine-wide transport for designing and dispatching

V.L.Konyukh, V.A.Davidenko & J.R.Sturgul

Detailed control technology for surface mines by process stations

A.Kužela

9 Mineral processing

Modern methods and means of controlling processes in coal processing plants
S.Arad, V.Arad, M.Preda & L.Radermacher

Oil agglomeration in new combined technologies
V.S.Biletskyi, B.N.Samilyn & A.Kheloufi

Artificial sand production using hydrocyclone
N.G.Carvalho, B.B.Lira & N.V.Oliveira

Spiral separation: The state-of-the-art in coal slimes preparation
A.Kirnarsky & M.Sbitnev

Direct-flow lamellar classification of coal slimes
V.I.Krivotshekov

The wettability of minerals and coal by magnetizable fluids
M.Lovás, Š.Jakabský, A.Mockovčiaková & S.Hredzák

Flotation rates and particle size distribution in the copper ore flotation plant ‘V.Krivelj’
Z.S.Marković, N.M.Magdalinić & M.Ž.Trumić

Processing of uranium ore on the chemical treatment plant GEAM Dolní Rožínka in the conditions of completely closed technological waters cycle with minimalising of environmental impact
J.Mitáš, V.Neterda, J.Loučka & P.Koscielniak

Iron ore production process in variable magnetic field
G.G.Pivnyak & S.I.Vipanasenko

Methodics of determination of brown coal preparability by the analysis of microsamples from segments of drilling cores
P.Rucký

Contributions regarding a stochastic approach of a floatation technological system
L.Samoila & B.Giurgiulescu
Improving the technology of disthene concentrate obtained at the Volnogorsk State Mining Metallurgical Works

A.N. Shlomin

Crushing process in stone quarry plant

L. Soares, F. Fujimura, W.T. Henties & M.A. R. Silva

Using discrete simulation for a mine mill

J.R. Sturgul, M. Goetze & F. Ritter

New generation coefficients for the flotation and reflation of OKR’s coal sludge

J. Vidlář, R. Orlík & M. Žila

10 Mining and the environment

The prospects of reducing environmental pollution at the collieries belonging to Petroșani Autonomous Bituminous Coal Administration

V. Arad, S. Arad, B. Costinas & Gh. Marchis

Environmental impact evaluation of gold mines in the northwest of Argentina

J. C. Avila

Mathematical model setup of the dependence between the hydrodynamic parameters of hydrogravimetric concentration of ash processing in case of thermoelectric plant ash recycling

C. Badulescu & I. Andras

Monitoring analysis of major and trace elements in hard coal waste by XRF and ICP methods

K. Bojar ska & Z. Bzowski

Biotechnology for heavy metals elimination

P. Danihelka, I. Chovancová & K. Špinková

Feasibility consideration for underground disposal of power plant wastes

V. Dirner

Mining and evaluation of stressed soils: Stochastic aspects of empirical modelling approach

L. Dušek, M. Škoda, L. Růžek & J. Sixta

Possibility of complex solving problems of energetical wastes – Fly ashes

L. Floreková & F. Michalíková

Underground waste dumping

H. Gondek & V. Dirner

Protection of groundwater resources quality and quantity in mining areas

A. Grmela

Conditions of Antonín seam exploitation in the open pit Družba near Sokolov with regard to the protection of thermal and mineral water resources in Karlovy Vary

A. Grmela & J. Štěrba

Mines in urban areas and its conservation problems

W.T. Hennes & D. Migliorini Jr
Project preparation of mining begins at liquidation of mining activity  
J. Kašpar & H. Lorencová  

885

Backfill operation planning utilising power plant ashes to minimize mine damages  
P.N. Martens & M. Kaufmann  

889

Noise associated with mining excavation equipment  
G. Massassi, W.T. Hennies & S. Médici de Eston  

897

Preserving of the geoenvironment by filling of underground spaces with hydraulically transported waste slurries  
M.G. Milchev & E.D. Krusteva  

903

Environmental self-diagnosis handbook for metal and non-metal mines  
R. Moraru & G. Babut  

907

The Darkov and Louky reclamation projects overview  
J. Němec, H. Orsdg & V. Dirner  

911

The Karviná Township reclamation concept  
J. Němec, H. Orsdg & V. Dirner  

913

Rehabilitation of the quarry of Akra Tourla Salamina, Greece: A case study on the evaluation of reclamation alternatives  
K. Panagopoulos, D. Kaliampakos, M. Menegaki & I. Bardani  

915

Some applications of GIS ARC/INFO in the evaluation of urban radon risk  
A. Poláček, P. Jančík & K. Müller  

921

Anthropogenic soils on spoil rock banks in North Bohemian Coal Basin, Czech Republic  
H. Raclavská, K. Raclavský, D. Matýsek & B. Stalmachová  

925

Ecological risks in polymetallic mining district of Zlaté Hory, Czech Republic  

933

Abandoning of mining activities – Impact on groundwater and surface water systems  
N. Rapantová  

941

Management of ‘mines-preparatory mills’ coal flows with regard to the region’s environment conditions  
V.I. Salli & V.N. Boitchenko  

947

Environmental protection in the production of gravel and sand in Croatia  
B. Salopek & G. Bedeković  

953

Polluting sources and their impact on the environment in the Jiu Valley coal field  
R. Sarbu, M. Georgescu, V. Ciocan, C. Badulescu, E. Traista, R. Sarbu, I. Ciontos & C. Biro  

959

Economic appraisal of the reclamation of sand deposits located at the Northern Area of João Pessoa City, Brazil  
C.M. Muniz Silva, A.de A. Lima, A. Stellin Jr & L.G. Cominato  

967

Mining waste and land reclamation in Ostrava-Karviná Coal District, Czech Republic  
D. Smolík, K. Raclavský & V. Dirner  

971
Evaluation of dust prevention in deep mines in the light of modern measuring methods
V. Smrž & V. Dirner

Watered depressions as ecological phenomena in regions affected by mining activities
B. Stalmachová

Rehabilitation of residual pits in post-mining area: A goal of Czech brown coal opencast mining industry
I. Svoboda

Aspects upon environment of the capitalising of heavy minerals from titano-zirconifer sands
I. Vasile, D. Georgescu, C. Vasile & G. Urs

11 Supplement
Economical and technological aspects of Bucket Wheel Excavator and Crusher/Conveyor systems
D. Schröder
