

PROCEEDINGS OF THE SECOND INTERNATIONAL SYMPOSIUM ON ENVIRONMENTAL
HYDRAULICS/HONG KONG/CHINA/16-18 DECEMBER 1998

Environmental Hydraulics

Edited by

J.H.W.Lee

The University of Hong Kong, China

A.W.Jayawardena

The University of Hong Kong, China

Z.Y.Wang

International Research and Training Centre on Erosion and Sedimentation (IRTCES), China

A.A.BALKEMA/ROTTERDAM/BROOKFIELD/1999

Table of contents

Editor's foreword	XV
Organization	XVII
1 <i>Hydrodynamic and water quality modelling</i>	
1.1 <i>Hydrodynamics and water quality of Hong Kong waters</i>	
Keynote lecture: The CBS (Characteristic Based Split) algorithm in hydraulic and shallow water flow <i>O.C.Zienkiewicz & P.Ortiz</i>	3
Keynote lecture: Recent advances in computational hydraulics <i>T.J.Weare</i>	13
3D water quality modelling of Deep Bay <i>T.A.Nauta, H.S.Lee, A.Kwok & E.Gmitrowicz</i>	23
3-dimensional water quality and hydrodynamic modelling in Hong Kong I. Concepts and model set-up <i>A.K.M.Ng, A.Roelfzema & L.J.M.Hulsen</i>	31
3-dimensional water quality and hydrodynamic modelling in Hong Kong II. Forcing residual currents <i>R.E.Uittenbogaard & L.J.M.Hulsen</i>	37
3-dimensional water quality and hydrodynamic modelling in Hong Kong III. Stratification and water quality <i>L.Postma, G.S.Stelling & J.Boon</i>	43
1.2 <i>Numerical modelling</i>	
Invited lecture: Strategy for coupling hydrodynamic and water quality models for addressing long time scale environmental impacts <i>A.F.Blumberg & J.J.Fitzpatrick</i>	53
Impact of a tide-overtopping barrage on water quality and subsequent management <i>J.M.Maskell & B.Ng</i>	61

Salinity simulations in San Francisco Bay <i>E.S.Gross, J.R.Koseff & S.G.Monismith</i>	67
On the use of laboratory observations to validate numerical models <i>D.L.Boyer, N.Pérenne, D.C.Smith & C.Robichaud</i>	75
Prediction of the behaviour of marine oil spills: Applications based on random walk techniques <i>Z.Li & C.T.Mead</i>	81
Modelling of sediment plumes caused by dredging operations <i>P.A.Mackinnon, Y.Chen & G.Thompson</i>	87
Three-dimensional mathematical modeling of pollutant transport in stratified estuaries <i>D.L.Young, B.C.Her & Y.F.Wang</i>	93
1.3 <i>Jets and plumes – I</i>	
Invited lecture: The effects of wind stress on the spread of a buoyant surface layer <i>B.C.Wallace & D.L.Wilkinson</i>	101
Numerical simulation on turbulent buoyant jets in a cross-flow of stratified fluids <i>R.R.Hwang & T.P.Chiang</i>	109
The axisymmetric jet in a coflow <i>S.J.Gaskin & I.R.Wood</i>	117
A semi-analytical self-similar solution of a bent over jet in crossflow <i>Li Lin, J.H.W.Lee & V.Cheung</i>	123
The spreading rate of a single coflowing axisymmetric jet <i>H.J.Wang & M.J.Davidson</i>	129
Momentum-based solutions for buoyant jet trajectories in still and flowing ambient fluids <i>K.L.Pun, M.J.Davidson & I.R.Wood</i>	135
Anisotropic buoyant turbulence model and its application <i>X.Zhou, Y.Chen, K.Yang & Y.Li</i>	141
Discharge and mixing of artificially upwelled deep ocean water <i>C.C.K.Liu & H.Lin</i>	149
Experiments on 2-D submerged vertical jets with progressive water surface waves <i>J.Kuang & C.T.Hsu</i>	155
Turbulence of a non-buoyant jet in a wave environment <i>M.Mossa</i>	161
Laboratory measurements of a jet discharged into waves <i>C.Swan & S.H.Kwan</i>	167
Numerical simulations of a jet in a wave-induced oscillatory flow <i>S.H.Kwan & C.Swan</i>	173

1.4 *Jets and plumes – II*

Radially spreading surface flow <i>M.MacLatchy & G.Lawrence</i>	181
Laboratory experiments on the impact of a buoyant jet with a solid boundary <i>A.Cavalletti & P.A.Davies</i>	187
Barge dumping of rubble in deep water <i>J.Bühler & D.A.Papantoniou</i>	193
Effects of boundary and buoyancy on jet behavior in cold water <i>R.Gu</i>	199
A numerical study on the stability of a vertical plane buoyant jet in confined depth <i>C.P.Kuang & J.H.W.Lee</i>	205
Simultaneous velocity and concentration measurements of buoyant jet discharges with combined DPIV and PLIF <i>A.W.K.Law & H.Wang</i>	211
A study of plane wall jet for destroying density current <i>Z.Zhang & W.Duan</i>	217
The velocity field of a circular jet in a counterflow <i>C.H.C.Chan & K.M.Lam</i>	223
On the penetration of a round jet into a counterflow at different velocity ratios <i>C.H.C.Chan, S.Bernero & K.M.Lam</i>	229

1.5 *Outfall modelling*

Round plumes at plane surfaces <i>W.E.Frick</i>	237
3-D numerical simulation on dilution behavior of near field for river diffuser <i>W.Huai, W.Li & T.Komatsu</i>	243
Evaluation of mixing zone models: CORMIX, PLUMES and OMZA with field data from two Florida ocean outfalls <i>H.Huang, R.E.Fergen, J.J.Tsai & J.R.Proni</i>	249
Jet scouring of ambient sediment in the outfall of stage 2 Shanghai Sewerage Project <i>H.Wei, C.Liu & J.H.W.Lee</i>	255
Near field dilution study of bailong gang wastewater outfall of stage 2 Shanghai Sewerage Project <i>H.Wei, G.Xu, J.H.W.Lee & K.W.Choi</i>	261
Application of thermal plume modelling and establishment of initial mixing zone <i>Y.Chen & G.Thompson</i>	267

2 Transport and mixing processes

2.1 Turbulent shear flows

Keynote lecture: Turbulent transport and mixing in a stratified lake <i>J.Imberger</i>	275
Invited lecture: Setting the stage: Large eddy simulation of laboratory scale flows <i>R.L.Street</i>	277
Invited lecture: Large scale flow structures and mixing processes in shallow flows <i>G.H.Jirka</i>	287
Mutual-interaction between bursts and boils very near the free-surface of open-channel flows <i>I.Nezu & T.Nakayama</i>	297
3-D turbulent structures in partly vegetated open-channel flows <i>I.Nezu & K.Onitsuka</i>	305
Coherent flows structures in unsteady open-channel flows over dune bed <i>A.Kadota, I.Nezu & K.Suzuki</i>	311
Coherent structures in unsteady open-channel flows <i>K.Onitsuka & I.Nezu</i>	317
Body-force effect of friction on quasi-two-dimensional turbulent flows in shallow waters <i>W.Altai & V.H.Chu</i>	323
Effects of vegetation on flow structures and bed profiles in curved open channels <i>A.Tominaga, M.Nagao & I.Nezu</i>	329
Experimental study of wakes behind submerged solid plate and porous plate <i>D.Chen & C.C.Cheng</i>	335

2.2 Turbulent mixing in open channel flow

Mixing processes at river confluences: Field informed numerical modelling <i>S.N.Lane, K.F.Bradbrook, S.W.B.Caudwell & K.S.Richards</i>	345
Numerical modelling of two-dimensional turbulent air-water flows with evaporation <i>H.Q.Ni, L.X.Zhou & Z.J.Zou</i>	351
Generalized second moment method for advection and diffusion processes <i>V.H.Chu & W.Altai</i>	357
Transverse mixing of solute and suspended sediment from a river outfall during over bank flow <i>K.J.Spence, I.Guymer, J.R.West & B.Sander</i>	363
Lateral turbulent dispersion in compound channels: Some experimental and field results <i>X.Liu, D.W.Knight, B.Jiu & T.Gong</i>	369
Numerical investigation of zero-mean flow turbulence near a free surface <i>Y.Sugihara & N.Matsunaga</i>	375
Improvements of depth-averaged κ - ϵ turbulence model <i>S.Yano, T.Komatsu & Y.Nakamura</i>	381

Vertical mixing processes due to waves and currents <i>J.M.Pearson & I.Guymer</i>	387
A theoretical study on complete mixing distance in open-channel uniform flow <i>K.Z.Huang & Tao Jiang</i>	393
Measuring velocities in a suspension <i>T.Dreier, J.Bühler, W.Kinzelbach & M.Virant</i>	399
 2.3 Stratified flows	
On the ‘stratification drag’ <i>A.N.Srdić-Mitrović & H.J.S.Fernando</i>	407
Interfacial instabilities in exchange flows <i>D.Z.Zhu & G.A.Lawrence</i>	413
Laboratory investigation of a three dimensional wall attached density current down an inclined slope in a rotating tank <i>N.E.Kotsovinos & P.Kralis</i>	419
Vertical velocity profiles of turbulent two-layer flow <i>Y.Wang, A.Dittrich & F.Nestmann</i>	425
Regimes of exchange flows <i>D.Z.Zhu & G.A.Lawrence</i>	431
Laboratory model studies of flushing of trapped salt water from a blocked tidal estuary <i>P.A.Davies, Y.Guo, M.J.Coates & J.Cremers</i>	437
Simulation of steady three-dimensional boundary-attached density currents <i>G.M.Horsch, G.C.Christodoulou & M.Varvayanni</i>	443
Turbulent gravity current of lock release type: A numerical study <i>G.Q.Chen & J.H.W.Lee</i>	449
A computational fluid dynamics (CFD) investigation of stratified flows <i>B.Donnely, G.A.Hamill, D.J.Robinson, P.Mackinnon & H.T.Johnston</i>	455
Application of computational fluid dynamics (CFD) to model entrainment across a density stratified interface <i>Y.Oh, R.Burrows & K.H.M.Ali</i>	461
Contaminant transport in a temperature-stratified reservoir <i>R.Gu & S.W.Chung</i>	467
Numerical calculation on generation process and diffusion phenomenon of muddy water caused by sand dumping into water <i>T.Shigematsu, K.Oda & S.Horii</i>	473
 2.4 Air-water interaction	
Accuracy of tracer measurement of gas-desorption rates <i>C.S.Melching</i>	481

A relationship between spray quantity above white caps and wind shear stress <i>N.Matsunaga, M.Hashida & K.Uzaki</i>	487
Numerical modeling of wind-induced currents in shallow lake <i>J.Li, S.Liu, S.Li & X.Yu</i>	493
Heat balance analysis in the Bay of Tokyo <i>P.J.Baruah & S.Kazama</i>	499
<i>2.5 Environmental fluid mechanics</i>	
Large eddy simulation of oscillating flows over a flat plate <i>C.T.Hsu & X.Lu</i>	507
Steady streaming in an oscillatory flow over a periodic wavy surface <i>X.Lu & C.T.Hsu</i>	513
Dispersion of vapour in a layered unsaturated zone <i>C.O.Ng</i>	519
Shear flows in shallow water: Foundation and accuracy of the rigid-lid assumption <i>M.S.Ghidaoui, J.Q.Deng & A.A.Kolyshkin</i>	525
Dispersion of a small solid spherical particle in turbulent flows <i>D.Jiang, Z.Huang, W.Qian & W.Wang</i>	531
<i>3 Hydraulics and water quality</i>	
<i>3.1 Water quality model studies</i>	
Invited lecture: Modelling salt, sediment and heavy metal fluxes in estuarine waters <i>R.A.Falconer & B.Lin</i>	539
A post audit of nutrient reductions in two estuaries <i>W.S.Lung</i>	549
Transmission of nitrogen and phosphorus in the Maizuru Bay and proposal of improvement method for water quality <i>A.Daido, H.Miwa & H.Ikeno</i>	555
Modelling the effects of macrophyte decomposition on the nutrient budget in shallow lakes <i>T.Asaeda, T.V.Bon, T.Fujino & V.K.Trung</i>	561
Water quality simulation in reaches of Hanjiang River by 2D model <i>D.H.Zhao, C.Qi & H.W.Shen</i>	567
An improved phosphorus budget model and its application to Lake Yanaka <i>G.Huang & N.Tamai</i>	573
Water quality model and management information system for a shallow water sea bay <i>J.Tao & Z.Wang</i>	579
La Laguna Las Peonias – A case study of an inverse estuary <i>A.Koenig, J.H.W.Lee & F.Arega</i>	585

Non-dimensional steady-state model for volatile toxics in a lake <i>C.Gualtieri & G.P.Doria</i>	591
Field observation of heat budget on a tidal flat <i>N.Matsunaga, M.Kodama, Y.Sugihara & K.Fukuda</i>	597
Analysis of water quality variation along a regulated stream in Sri Lanka <i>K.D.W.Nandalal</i>	603
Contaminant transport model of confined dike facilities <i>T.Kuppusamy</i>	609
A method of estimating the effective hydraulic conductivity for moisture transport in porous media <i>A.W.Jayawardena & P.B.G.Dissanayake</i>	613
 <i>3.2 Cooling water studies</i>	
The generating method of river-regime-fitted or river-mainstream-fitted orthogonal grid and its applications <i>Y.H.Dong</i>	621
Numerical simulation and experimental study of cooling water project and thermal pollution of HL Thermal Power Plant <i>W.Jiang, Y.Lin & Z.Wang</i>	627
Numerical simulation for eutrophication in lakes with cooling water circulation <i>K.Chen & P.Li</i>	633
 <i>3.3 Environmental impact studies/Three Gorges Project</i>	
Hong Kong's worst red tide <i>M.D.Dickman</i>	641
Fisheries at Shimonoseki area and waste management <i>T.Kano, K.Torii & H.Yamakawa</i>	647
Impact of quarrying coarse gravel from river channel <i>J.Peng</i>	653
Impact of the Yangtze Three Gorges Project on hydraulics and water quality <i>Z.Fang</i>	659
The contents, methods and progresses of water pollution control of the Three Gorges Reservoir on the Yangtze River (WPC-TGR) <i>Z.L.Huang, Y.C.Chen, Y.L.Li & C.B.Jiang</i>	663
Preliminary study on longitudinal dispersion coefficient for the Three Gorges Reservoir <i>Z.Huang, J.Li & J.Huang</i>	669
Impact of sediment movement on the water quality of Three Gorge Reservoir <i>J.Huang & J.Li</i>	675
Numerical simulation of flow in scour of downstream of Three Gorge spillway <i>Y.Chen & J.Dong</i>	681

Effects on the channel by diversion from the Yellow River 687
S.Hou, X.Chen, Y.Li & D.Yue

3.4 *Water quality management*

An application of the adjoint technique to locating wastewater discharges into a surface water system 693

J.Q.Deng, M.S.Ghidaoui & D.A.McInnis

Simulation of coastal water pollution with fuzzy parameters 699

H.Mpimpas, P.Anagnostopoulos & J.Ganoulis

Study in the method of predicting the water environmental capacity in a river basin 705

L.Liu & X.Zhang

4 *Sediment-water-environment interactions/ Other topics*

4.1 *Sediment/ Contaminant transport*

Invited lecture: Effect of sediment on pollutant transport-transformation 713

Z.Wan & H.Suiliang

Invited lecture: The influence of fine sediments on water quality 723

N.V.M.Odd

Modeling transport and fate of contaminants with sediment interaction and transient storage in streams 733

Z.Yi & M.M.Aral

Artificial flood release, a tool for studying river channel behaviour 739

A.Krein & W.Symader

Turbulent effect on heavy metal release from river suspended sediments 747

X.D.Zhou, Y.Wang & T.L.Huang

Desorption of cadmium from suspended particles in a turbulence tank 751

H.Suiliang & O.W.H.Wai

4.2 *Modelling of collection and treatment systems*

Towards a model to understand foul flushes in combined sewers 759

R.M.Ashley, S.Tait, A.Fraser, T.McIlhatton, D.Phelan & S.Arthur

Modelling of critical flux in cross-flow microfiltration 765

D.Y.Kwon & S.Vigneswaran

Flocculation with the aid of hydraulic jets 771

N.Suresh Kumar, S.G.Joshi & B.S.Pani

Floating medium flocculator/ filter: Is unsaturated flow regime superior to saturated flow regime? 777

S.Vigneswaran, R.Ben Aim, A.Shanoun, V.Jegatheesan, S.Santhikumar & H.H.Ngo

Mathematical modelling of declining rate filtration <i>U.K.Manandhar, S.Vigneswaran & H.H.Ngo</i>	783
Hydrodynamic and sediment problems of biological contact aeration process for water supply source pre-treatment <i>B.Huang, G.Lai, J.Qiu & Z.Li</i>	789
Water mixing and exchanging in biological contact oxidation process flumes of water supply works and wastewater engineering <i>Y.Lai, G.Lai & Z.Li</i>	795
4.3 Sediment management	
River catchment sanitation by sediment management – A Flemish case study <i>M.Huygens, R.Verhoeven, C.Janssens & M.Vangheluwe</i>	803
Disposal of contaminated mud in Hong Kong: A review of the environmental monitoring programme <i>A.L.C.Chan & A.Dawes</i>	811
Development of Hong Kong's decision criteria for sediment disposal <i>P.C.K.Lei, A.W.K.Fok, A.Dawes & P.G.D.Whiteside</i>	817
In situ sediment treatment in Kai Tak Nullah Approach Channel to control odours and methane gas production <i>J.M.Babin, T.P.Murphy & J.T.Lynn</i>	823
Managing contaminated sediment in a scenic river across a new town <i>D.S.W.Tang & L.M.C.Lau</i>	829
4.4 Eco-hydraulics	
Observations on characteristics of flow and production of attached algae at riffles and pools in gravel rivers <i>Y.Toda & S.Ikeda</i>	839
A field observation on water purification system in reservoirs using wave energy <i>T.Komatsu, T.Okada, S.Marui, Y.Matsunaga, S.Nakashima & K.Fujita</i>	845
Basic concepts of urban disaster prevention channels into environmentally friendly channels <i>S.Shigeoka, K.Teshima & M.Oono</i>	851
Experimental studies on a system for catching <i>Oncomelania</i> in irrigation channels <i>H.Chen, Z.Pan & C.He</i>	857
A low flow increase for improving river environment <i>H.Sakata</i>	863
4.5 River hydraulics/hydrology	
A study on the numerical model of non-equilibrium sediment transport in unsteady flow <i>S.H.Lee</i>	871

River junction design for urban flood control: A case study <i>J.H.W.Lee, H.W.Tang, W.C.Chan, G.Wilson</i>	877
The influence of sea level rise upon flood/tidal level of the Pearl River Delta <i>Z.Li, B.Huang & J.Qiu</i>	883
Different alignments of a new hydraulic structure using 2-D mathematical model <i>S.A.S.Ibrahim, M.B.A.Saad & A.A.El-Desoky</i>	889
Velocity distribution at channel bifurcations <i>M.Lutfor Rahman, M.R.Kabir & M.M.Hossain</i>	895
Regulator with gravity flap gate <i>M.R.Kabir, J.J.Veldman & A.K.M.Nazrul Islam Howlader</i>	901
 4.6 Coastal hydraulics	
A soft coastal defence system for the Belgium East Coast <i>M.Huygens, N.Van de Voorde & R.Verhoeven</i>	907
Attenuation and phase delay of dynamic pressure propagated into reclaimed zone behind caisson-type seawall <i>T.Shigemura, M.Yokonuma, K.Hayashi & K.Fujima</i>	915
A constrained dual membrane wave barrier <i>E.Y.M.Lo</i>	923
Effects of coral reefs on the nearshore coastal dynamics <i>H.Karunarathna</i>	929
Modelling wave propagation in nearshore area <i>B.Liu & Z.Zidan</i>	935
Study on water quality model for mild slope beach bay <i>Z.Wang & Z.Huang</i>	941
 4.7 Miscellaneous	
Stochastic analysis of Richards equation under uncertainty in unsaturated soil parameters <i>K.S.Hari Prasad, J.Q.Deng & M.S.Ghidaoui</i>	949
Characteristics of ocean currents near Hong Kong by analysis of two ADCP data sets <i>Y.G.Wo & J.H.W.Lee</i>	955
Experimental study on the resistance of roll-wave flow <i>M.Miyajima</i>	959
Development of a non-contact method of measuring river depth from the air <i>Y.Okamoto</i>	965
Effects of colloidal chemistry on fine particle deposition within a viscous porous flow <i>Z.Wang</i>	971
 Author index	 977
