Proceedings
of the
International Conference
on
DECOMMISSIONING AND DECONTAMINATION
and on
NUCLEAR AND HAZARDOUS WASTE MANAGEMENT

Volume 1

September 13–18, 1998
Denver, Colorado

Sponsored by
American Nuclear Society
U.S. Department of Energy
Colorado & Idaho Sections of the American Nuclear Society
Fuel Cycle & Waste Management Division
Environmental Sciences Division
Decommissioning, Decontamination and Reutilization Division

Published by the
American Nuclear Society, Inc.
La Grange Park, Illinois 60526 USA
Volume 1

DECONTAMINATION AND DECOMMISSIONING

Management

Reactor D&D at Argonne National Laboratory—Lessons Learned / Charles R. Fellhauer (ANL) 3

Cost Results and Lessons Learned from Large-Scale Demonstration Projects / Mark D. Kessinger, Wendell L. Greenwald, Fred E. Huff (U.S. Army Corps of Eng) 9

Planning for the Decommissioning of Nuclear Liabilities in the UK / Peter A. V. Johnson, Martin T. Cross (AEA Technol–UK) 16

Decommissioning Plans for DOE’s Privatized Facilities / Candice C. Jierree, Gary Guinn (RMRS) 24

EPRI Decommissioning Technology Program / Christopher J. Wood, Carol Hornibrook, Robert C. Thomas (EPRI) 28

People and Customer Issues at the East Tennessee Technology Park (ETTP) Three-Building Decontamination and Decommissioning and Recycle Project at Oak Ridge, Tennessee / Grahame Codd (BNFL, Oak Ridge) 33

U.S. Department of Energy National Center of Excellence for Metals Recycle / Vincent Adams, Marvin Bennett, Lee Bishop, Karen Deacon, Telicia Mims (DOE, Oak Ridge), Roy Sheely (Bechtel Jacobs), Craig Johnson (SMS), Katherine L. Yuracko, Paul Selby, George Kerr, Michael Gresalfi (ORNL), Christine Goddard (IT Corp) 39

The German Release Criteria—Experiences in Application / C. Rittmeyer, W. Stegmaier (FzK–Germany) 47

A Life Cycle Analysis Approach to D&D Decision-Making / Katherine L. Yuracko, Michael Gresalfi (ORNL), Pete Yerace (DOE, Fernald), Michael Krstich, Douglas Gerrick (EMS), Jefferson Flora (WVDP) 53

Destruction of Organic Decontamination Liquid Wastes Using Electro-Regenerative Ag (II) / Wang Kyu Choi, Young Min Kim, Kune Woo Lee, Won Zin Oh (KAERI–Korea), Hyeog Nam (Chungnam Natl Univ–Korea) ........... 201

Nuclear Facilities

Plutonium Facility Decommissioning at Sellafield—Successes and Challenges / Andrew Roberts (BNFL, England) ................................................................. 207

The National Conversion Pilot Project—A Feasibility Study into Commercial Recycling at a DOE Weapons Plant / Andrew V. Roberts (BNFL, England) ................................................................. 214

Radioactive Dust Inside the Chernobyl Sarcophagus / Gunter G. Pretzsch, Florentin B. L. Lange (GRS–Germany), Sergey A. Bogatov, Alexander A. Borovoy (Kurchatov Inst–Russia) ................................................................. 221

A Study on Aerosol Particle Behaviors in Dismantling Nuclear Facilities / Taro Shimada, Mitsuo Tachibana, Satoshi Yanagihara (JAERI–Japan) ................................................................. 227

Radionuclide Characterization of HEPA Filter Arrays / D. W. Wootan (Fluor Daniel Northwest), P. E. Roege (B&W Hanford) ................................................................. 233

Large Scale Demonstration Project at Argonne National Laboratory’s CP-5 Reactor / Edward C. Wiese, Robert W. Rose (ANL) ................................................................. 241

Innovative Technology Performance–Demonstrations at Hanford’s C-Reactor Facility / John Duda (DOE, Morgantown), Kenneth M. Kasper (WPI) ................................................................. 245

Decommissioning the KNK Compact Sodium-Cooled Nuclear Reactor Facility / W. Kathol (FzK–Germany), V. Rüddinger (Kernkraftwerk-Betriebsgesellschaft–Germany) ................................................................. 251

Systems Engineering Approach to Planning of Nuclear Power Plant Decommissioning—Application of JPDF Dismantling Data to Tokai Power Station Decommissioning / Satoshi Yanagihara, Takenori Sukeyegawa (JAERI–Japan), Norio Tanabe (JAPCO–Japan), Junichi Takaya (Fuji Electric–Japan) ................................................................. 269

System for Tracking Remediation, Exposure, Activities and Materials (STREAM) Innovative Technology Demonstration at Hanford’s C Reactor / Stephen K. Pulsford, Marve H. Hyman (Bechtel Hanford), David B. Shaffer (Merrimac Assoc), Mahmoud Haghighi (Bechtel Jacobs) ................................................................. 275

Planning for the Potential Early Retirement and Decommissioning of Oyster Creek / James E. Hildebrand (GPU Nuclear, Oyster Creek) ................................................................. 279

Decommissioning Strategies, Challenges and Successes at Connecticut Yankee / Richard Sexton (CYACO), Eric L. Darois, James P. Tarzia (R.S.C.S.) ................................................................. 283
Nuclear Plant Decommissioning Immediate Dismantlement Versus SAFSTOR—A Utility Viewpoint / Michael H. Holmes (Utility Eng), Samuel W. Chesnutt (Pub Svc Colorado), Mary J. Fisher (Pub Svc Colorado, Denver) ........................................ 291

Licensing Experience at the Fort St. Vrain Decommissioning Project / Samuel W. Chesnutt (Pub Svc Colorado), Michael H. Holmes (Utility Eng), Mary J. Fisher (Pub Svc Colorado, Denver) .................................................. 294

Decommissioning Technology and Methods Utilized at the Fort St. Vrain Decommissioning / William J. Hug (Morris Knudsen) ........................................... 298

The Fort St. Vrain Decommissioning Final Radiation Survey / Frederick J. Borst (Pub Svc Colorado), Mary J. Fisher (Pub Svc Colorado, Denver) .............................. 304

Hazardous Sites

Contaminated and Activated Concrete: Characterization, Decontamination and Demolition Techniques / M. Klein, V. Massaut, H. Abderrahim, R. Mandoki, Ch. Plateau (SCK/CEN-Belgium), E. Rousseau (CSTC/WTCB-Belgium) ... 308

Lab and Field Testing Solidification Agents for In Situ Remediation of Mixed Waste in Underground Tanks / Peter Shaw (LMITCO) .................................................. 323

Decontamination and Decommissioning of Building 123 at the Rocky Flats Environmental Technology Site / K. A. Dorr (Kaiser-Hill), Mary T. Aycock (SEG), William Fitch (DOE, Golden) ................................................................. 329

Industrial Hygiene and Construction Safety Issues Encountered During Decommissioning: The Yankee Rowe Experience / Sheila M. Litchfield (Duke Eng/YAEC, Rowe) ............ 339

Decommissioning Safety—Lessons Learned: The Yankee Rowe Experience / Sheila M. Litchfield (Duke Eng/YAEC, Rowe) ................................................................. 342

WASTE MANAGEMENT

Programs—General

Radioecological Safety in FPC of Russia: Topicality of the Problem and Recent Developments / Boris A. Chepenko, Anatoly D. Shramchenko, Valentin P. Khlystov (MFPR—Russia), Alexander F. Nechaev, Anatoly A. Persinen, Igor A. Vasiliev (St. Petersburg Inst of Technology—Russia), Eugenii K. Nesterov (ECSD—Russia) ................................................................. 347

Development of the State System of Radioactive Waste Management in Russia / Nikolai N. Egorov, Victor A. Gubanov

The Treatment of Intermediate Liquid and Solid Wastes at Sellafield: The Sellafield Drypac Plant / Andrew R. Oldham (BNFL Seascale–UK) .................................................. 373

Application of Life Cycle Analysis: The Case of Green Bullets / James S. Bogard, Katherine L. Yuracko, Michael E. Murray, Richard A. Lowden, Norm L. Vaughn (ORNL) .................................................. 382

Radioactive Waste Management at the University of Colorado / Jennifer T. Opila, Margaret E. Ashton, Michelle S. Barry, Michael L. Hinojosa, Marilyn M. Williams (Univ of Colorado) .................................................. 390

The Concept and Mechanism of the Industrial Problem on RAW Utilization in the North of Russia Within the International and Federal Programmes and Projects / Konstantin Koupri (IELSA–Russia) .................................................. 395

New Options for Managing Depleted Uranium Materials / W. J. Quapp (Starmet), Carl R. Cooley (DOE, Gaithersburg) .................................................. 400

The DOE’s Carlsbad Area Office International Research and Development Program / Mark Matthews (DOE, Carlsbad), Kurt Larson, Wendell Weart (SNL) .................................................. 412

Role of Microorganisms in Nuclear Waste Management and Disposal / D. K. Jain (Ontario Hydro Technol–Canada) .................................................. 426

The Heilbronn Repositories—An Example for Safe Underground Waste Disposal / Gerd P. Bohnenberger (Sudwestdeutsche Salzwerke–Germany) .................................................. 431

Weldon Spring: Innovative Solutions for Waste Disposal and Leachate Collection / Serban Grozescu (Morrison Knudsen, St. Charles), Ronald Roger (Morrison Knudsen, Boise), Timothy Swisse (Morrison Knudsen, St. Charles), Glen Newton, Karen Reed (DOE, St. Charles), Kevin Pautler (Morrison Knudsen, St. Charles) .................................................. 437

High Level Waste

Uncertainty and Approximate Reasoning in Waste Pretreatment Planning / Stephen F. Agnew, Stephen W. Eisenhawer, Terrence F. Bott (LANL) ........................................ 561

Countercurrent Flowsheet Testing of the TRUEX Process with ICPP Calcine / Jack D. Law, Ken N. Brewer, R. Scott Herbst, Terry A. Todd (LMITCO) ............................... 566

Removal of Strontium-90 from Calcined Wastes with the SREX Process / Donald J. Wood, Nick R. Mann, Rich Tillotson, Patty A. Tullock, Terry A. Todd (INEEL) .......................... 571

Production of a High-Level Waste Glass from Hanford Waste Samples / Charles L. Crawford, Dario M. Ferrara, Bao C. Ha, Ned E. Bibler (Westinghouse SRC) .......................... 581

Predicting Flammable Gas Mixtures in Hanford Double-Contained Receiver Tanks / D. C. Hedengren, J. D. Bingham (MACTEC-MEIER Assoc), S. A. Barker, W. B. Barton, J. M. Conner, S. D. Estey, K. M. Hodgson (LMHCO) .......................... 589

Resolution of Hanford Tanks Organic Complexant Safety Issue / N. W. Kirch (LMHCO), J. E. Meacham (DE&S Hanford) ............................................................................. 595

Materials Corrosion in Simulated Idaho High-Activity Waste Glass Melts / S. K. Sundaram (PNPL) .......................................................... 598

Combined Reprocessing of HLW by Universal Solvent on the Base of Cobalt Dicarbollyde and Phosphorylated Polyethylene Glycol / Igor V. Smirnov, Vasily A. Babain, Andrey Yu. Shadrin (V. G. Khlopin Radium Inst—Russia) ................................................................. 606

Modeling the Corrosion of High-Level Waste Containers: CAM-CRM Interface / Joseph C. Farmer, Peter J. Bedrossian, R. Daniel Mcgright (LLNL) ........................................... 610

Prediction of Isolation Properties of Rocks Massifs for Disposal of High-Level Radioactive Wastes on the Basis of Kinetics Theory / V. N. Morozov, V. N. Tatarinov (RAS—Russia) .......................................................... 624
Technology and Experience

Processing Silts Containing Radioactive and Toxic Substances / Igor A. Sobolev, Sergey A. Dmitriev, Fedor A. Lifanov, Andrey P. Varlakov, Sergey V. Karlin (Moscow SIA Radon–Russia) .................................................. 633

Combined Processing Solid and Liquid Radioactive Wastes by Cementation Method / Igor A. Sobolev, Sergey A. Dmitriev, Fedor A. Lifanov, Andrey P. Varlakov, Sergey V. Karlin (Moscow SIA Radon–Russia) .................................................. 641

Some Applications of Polymer Modified Cement for Nuclear Wastes / N. K. Ghattas, S. B. Eskander, H. A. Shatta (EAEA–Egypt), H. Ghorab (Helwan Univ–Egypt), N. E. Ikliadious (Natl Rsch Center–Egypt) .................................................. 645

Sulfur Polymer Cement for Macroencapsulation of Mixed Waste Debris / Catherine H. Mattus (ORNL) .................................................. 652

Effect of Selective Sorptive Agents on Leachability of $^{137}$Cs and $^{85}$Sr / R. D. Spence (ORNL) .................................................. 659

Cementation of Residue Ion Exchange Resins at Rocky Flats / Donald F. Dustin, Thomas d. Beckman, Catherine M. Madore (SSOC) .................................................. 665

Technological and Economic Update on the Nitrate to Ammonia and Ceramic (NAC) Process / A. J. Mattus (ORNL) .................................................. 673

Large-Scale Treatment of High-Salt, High-pH Wastewater for $^{137}$Cs and $^{90}$Sr Removal, Using Crystalline Silicotitanate Resin / P. A. Taylor, J. F. Walker, D. D. Lee (ORNL) .................................................. 677

Pyrophoric Depleted Uranium Stabilization Using the RocTecLT™ Process / W. J. Quapp (Starmet), Gary Rendlund (Triox Technol), P. A. Lessing (LMITCO), D. S. Schlier (Starmet) .................................................. 697

Inertisation of Clinical Radioactive Wastes by Coal Ashes Vitrification / George Usai (Univ of Cagliari–Italy) .... 714

The Development of Numerical Simulation Code of Glass Melter / Kuk-ki Kim, Kun Jai Lee (KAIST–Korea), Chun Hyung Cho, Sung Jun Maeng, Myung Jae Song (KEPRI–Korea) .......................................................... 717

Dissolution Test for Low-Activity Waste Product Acceptance / W. L. Ebert, S. F. Wolf (ANL) ............................ 724

Neptunium Immobilization in Silica Gel from Liquid Wastes / Anna K. Nardova, Evgeny A. Filippov (RRI CT–Russia), Konstantin K. Korchenkin, Evgeny G. Dzekun, Alexander N. Mashkin ("Mayak" Production Assoc–Russia) .......................................................... 738
