MedInfo '98

9th World Congress on Medical Informatics

Edited by

B. Cesnik
Centre of Medical Informatics, Monash University
Frankston, Australia

A.T. McCray
National Library of Medicine,
Bethesda, MD, USA

and

J.-R. Scherrer
University Hospital Geneva, Geneva, Switzerland
PART II

Chapter 9. Education

The Economic Implications of Users Willingness to Increase Knowledge Capital in Health Informatics
V. Vimarlund, T. Timpka and N. Hallberg

Educational Benefits and Cost Savings from an Interactive Multimedia “Best Practice”
D.H. Levy, B.J. Miller and D. Wagoner

Methodology for Developing Educational Hypermedia Systems
M. Bearman, M. Kidd and B. Cesnik

Lifestyle Evaluation System to Support Health Education

Using Multimedia Virtual Patients to Enhance the Clinical Curriculum for Medical Students
J.B. McGee, J. Neill, L. Goldman and E. Casey

Development of A Web-based CAI Program for Maternity Nursing Practice
I. Cho and H-A. Park

Problem Oriented Project Work in a Distance Education Program in Health Informatics.
A. Bygholm, O. Hejlesen and C. Nøhr

WEB-MO – A Computer Aided Learning on WWW
E.S. Bernad, A. Frantescu, S. Bernad and C. Vernic

Setting a National Informatics Agenda for Nursing Education and Practice to Prepare Nurses to Develop and
Use Information Technology
C.A. Gassert and M. Salmon

Innovative Informatics Education: Aligning Theory and Practice Through Strategic Partnership
K. Miller, D. Protti, I. Wright and M. Guerriere

Twenty Care Components: An Educational Strategy to Teach Nursing Science
V.K. Saba and S.M. Sparks

Assessing the use of low cost PC-based ISDN videoconferencing in hospital training
M. Crudele

Collaboration over the Internet - the Melbourne-Singapore way
L.G. Goh, S.T. Liaw and K.C. Lun

Model of Computerized Academic Medical Clinic
D. Sigulem, S.S.F.X. Gimenez, A. Cebukin, O.L. Cardoso, M.S. Chern, M.P. Ramos, M.S. Anção,
R. Wechsler, C.R. Serachi, H.H. Netto and S. Goihman

A Virtual University Web System for a Medical School
L-P. Séka, R. Duvaufrier, A. Fresnel and P. Le Beux

Curriculum Development and Courseware Implementation Using World Wide Web technology
J. Mantas and M. Diomidus

Investigating a Concept-Based Tool to Enhance the Process of Curriculum Development:
An Example for Healthcare Education
L. Alpay and R. Giffen

The Development of Digital Library System for Drug Research Information

An International Dermatological Image Atlas on the WWW: Practical Use for Undergraduate and
Continuing Medical Education, Patient Education and Epidemiological Research
G. Eysenbach, J. Bauer, A. Sager, A. Bittorf, N. Simon and T. Diepgen

Concepts of a Web-based Open Distributed Textbook for the Multimodal Diagnostics of Gastrointestinal Tumours
with MRI, CT and Video-endoscopy Addressing Students of Medicine and Students of Medical Informatics as two
Different Target Groups
A. Horsch, P. Hellerhoff, M. Hogg, H. Ahlbrink, T. Balbach, T. Liß, K. Minov and P. Gerhardt
Posters

Multimedia Development Methodology for Medical Education Computer Applications
D. Sigulem and V. Bernardo

A Bank of Digitized Medical Images for Using in Courses of Images Processing and Quality Evaluation
H. Schiabel, P.M.A. Marques, R.J. Ferrari, C. Chiaradia and A.F. Frère

The Effects of Internet Based Distance Learning in Nursing: Focused on the RN-BSN Program
K.H. Soon, K.I. Sook, C.W. Jung, K.M. Im and K.K. Seok

Evaluation of the educational properties of Computer Assisted Learning (CAL) in Histology and Immunodermatology
C. Kohler, T. Rogozinski, W. Kuza, W. Glinsk, W. Tyzarowsk and F. Kohle

Development of a Multimedia Textbook Titled "Emergency Nursing": Utilization of CD-ROM Title
S-M. Lee, S-O. Lee and J-S. Kima

Exploring the Advantages of Knowledge-Based Simulation for Ventilator Therapy Training
S-I. Lillehaug

AAMC Curriculum Management & Information Tool
A.A. Salas and M.B. Anderson

An Educational Software on Human Sexuality during Adolescence

Medical informatics in the beginning of the medical curriculum
T. Haas, S. Svaëina and M. Spunda

Construction of Three-dimensional Image Analysis and Processing System in Shimane Medical University
M. Nagira, N. Sasagawa and K. Yamamoto

‘Enabling People’ Through Learning Resource Centres: Information Management Skills for the Millenium
D. Millen and M. Sotheran

Use of WWW in a Control Survey of Morphological Laboratory Tests
M. Nishibori, K. Itoh, K. Watanabe, H. Kanno and Y. Ohba

A Health Education Computer Program For Reducing The Risk Of Lifestyle Related Diseases in Primary School Pupils

The Nancy Medical Faculty Experience in a Multi-modal Teaching of Medical Informatics for Second-year Medical Students and its Regional Extension.
F. Kohler, C. Bouchet, J. Morinet-Lambert and C. Kohler

Virtual Dissection System of Cadaver Heart Using 3-Dimensional Image

Internet Service of Korean Medical Association
H.J. Sohn, J. Kang, I. Shin and O.H. Kwon

Chapter 10. Evaluation

Impact of the TOP-FORUM Hypermedia System in a Pediatric Oncology Care Unit
G. Soula, J. Puccia, D. Fieschi, J-J. Bernard, C. Le Boeuf and M. Fieschi

Measuring and Improving Quality Using Information Systems

Computer-Adjusted Dosage of Anticoagulant Therapy Improves the Quality of Anticoagulation.
G. Chatellier, I. Colombet and P. Degoulet

Continuous Quality Improvement through use of Perinatal Clinical Record and Agustina Database

Siegfried: System for Interactive Electronic Guidelines with Feedback and Resources for Instructional and Educational Development
D.F. Lobach, C.S. Gadd, J.W. Hales and P. Baskaran

Activity Modelling for assessing the Usability of Telematics Applications in Healthcare.
M.C. Beuscet-Zéphir, P. Sockeel, B. Bossard and R. Beuscart

Chapter 11. Human Computer Interaction

Computer Experience and Computer Attitude: A Model to predict the use of Computerised Information Systems
F. Yaghmaie, R. Jayasuriya and P. Rawstorne

Toward Clinical End-user Computing: Programmable Order Protocols for Efficient Human Computer Interaction
H. Cho, Y.S. Kwak, Y.S. Noh, M.O. Yang and D.J. Kim

Study of User Preference of Graphic User Interface in Laboratory Information System

Design of a 3D Workbench Interface for Training in Dental Implantology
S. Seipel, I-V. Wagner and W. Schneider

Posters

Development of a Japanese into Braille Translating Server for the Internet
T. Kishi, H. Igarashi, M. Ohta, A. Morita, Y. Takaoka and S. Goto

The Value of the Nursing Managing System Structured with the Use of Software Available on the Market
K. Miyamoto, S. Nakamura, M. Abe, and K. Shimomura

Applications and Evaluation of Walkthrough Models of a Hospital
M. Konori, T. Hirahara, T. Matsuda and T. Takahashi

The Effects of Unity-balance Screen Design on Computer-based Medical Record System
H. Kwon

Chapter 12. Hospital Information Systems

On the way to a Web Based Hospital Information System: Concepts for the Use of a Medical Data Dictionary to Present Context Sensitive Information in an Intranet Environment
T. Bürkle, W. Ruan, A. Michel and J. Dudeck

Happy Birthday DIOGENE: a Hospital Information System Born 20 years ago
F. Borst, C. Lovis, G. Thurler, P. Maricot, P. Rossier, C. Revillard and J-R. Scherrer

Migrating towards a Client Server Architecture:
A Successful Application in a 2,200-Bed General Hospital
J.S. Lee, W.K. Min and J.H. Kim

From Legacy Systems Towards Modern Health Information Systems
B. Bercic, I. Zelic, G. Cerkvenik, S. Slavec and M. Rems

Towards Semantic Integration within an Existing Medical Information System
P. Staccini, M. Joubert, M. Fieschi and D. Fieschi

Vision of an ‘automated’ hospital information system
L. Balkányi and G. Lakner

“THE ELECTRONIC WARDEN” Management of the Data Security Access in a Heterogeneous University Hospital Environment in Belgium.
C. Piret, F.H.R. France, D.Clae and F.Dubr

Hospital Information System:
Resuability, Designing, Modelling, Recommendations for Implementing
B. Huet

A Practical Object-Oriented Approach to A Development of A Next Generation Hospital Information System
N. Sakamoto

A Hospital Information System based on Common Object Request Broker Architecture(CORBA) for Exchanging Distributed Medical Objects – an approach to future environment of sharing healthcare information–
K. Ohe
OOMM - Object-Oriented Matrix Modelling: an Instrument for the Integration of the Brasilia Regional Health Information System
  M. Cammarota, V. Huppes, S. Gaia and P. Degoulet 965

Why Good Hospitals Get Bad Computing
  H.L. Bleich 969

The Millennium Bug: A Prescription for Action
  L. Meador, E.C. Zimmerman and C. Safran 973

Information System for a Periodic Examination and Health Promotion Center
  B. Cho, T. Yoo, B.Y. Huh, S. Cho and H. Jeon 977

An Object-Modeling Method for Hospital Information Systems
  K. Seto, T. Kamiyama and H. Matsuo 981

An Integrated Environment for ECG Processing
  I. Chouvarda, N. Maglaveras, C. Pappas and A. Boufidou 986

Mobile PCIS: Point-of-Care Information Systems with Portable Terminals
  H. Sasaki, H. Sukeda, H. Matsuo, Y. Oka, M. Kaneko and S. Sasaki 990

The Erlangen University Hospital Communication Hub - Proprietary and Standardised Communication
  B. Wentz, D. Kraska, C. Seggewies, R. Bell and H. Seibold 995

Plug and Play - Fiction or Reality?
  R. Schweiger, T. Bürkle, S. Hölzer, A.G. Tafazzoli and J. Dudeck 999

Posters

The Rubic Cube of Executive Hospital Information A Three Dimensional Solution on AMIS/AS400 Platform
  G. Surjana and G. Gálb 1002

Intranet in the Hospital
  B. David 1002

Object-Oriented Analysis of Autonomous Distributed Total Hospital Information System.
  H. Kuma, K. Takano, M. Hagiwara and I. Watanabe 1003

User Participation in System Selection / Development: Is it Essential?
  S. Isaacs and D. Lakay 1003

New Abstraction Concepts of Information Modeling for Hospital Database Design and Data Analysis of Medical Record
  K.S. Um 1004

An Experience of Interface Between Multiple Instruments and a Personal Computer in LIS Using Multicard in Korea
  K.N. Lee, S.Y. Yoon and D.S. Oh 1004

Order Communication System Construction for Heterogeneous Terminal Communications in Eulji Medical Center
  D.H. Choi, M. Park and K. Choeh 1005

Town and Country Planning with a Medical Information System
  A. Quesnel, B. Quesnel, H. Picheral and R. Beuscart 1005

Physicians Usage and Acceptance of a Clinical Information System
  M.C. Mazzoleni, P. Baiardi, G. Franchi, M. Cortesi and F. Sozzë 1006

A case for the utilization of hospital information system according to the job and position in nursing unit
  J-S. Hong and S-J. Lee 1006

Experiences in US of BSP Methodology in Designing of Hospital Information Systems in Sarajevo
  I. Masic and Z. Ridanovic 1007

Ethics of Informatics Personnel: Cultural variations
  R. Davids and S. Isaacs 1007

Design of a General Hospital System Model for the School of Medicine UNAM Web
  R. Boom-Anglada, H. Delgado-Andrade, M. Barquin-Calderon and G. Barradas-Culebro 1008

Efficacy of On-Line Delta Check System in Laboratory Information System
  J. Nah, J.O. Lee and W.K. Min 1008

Computerized Systems in the Belgrano Hospital and the Promotion of Self-Governing Groups
  E. Rodas, P. Morici, R.G. Fernandez and A. Tonietto 1009
Chapter 13. Imaging & Image Management

Application of a 3D Display System for Biplane Cerebral Angiography
Y. Ooe, K. Ishihara, H. Otsuka, K. Yamada and M. Inoue

Detection of Compact Low-Chromatin Areas in Cell Nuclei Images
M. Zganec, J. Lavrenèak, A. Babize and M. Us-Krašovec

Development of Videostrobokymography for the Quantitative Analysis of Laryngeal Vibratory Pattern
J.S. Lee, E. Kim, K.S. Park, M.Y. Sung, M-W. Sung and K.H. Kim

Femoral Anteversion: Estimation by 3D Modelling
J.S. Kim, K.W. Choi and S.I. Kim

The Visible Human Project TM: A Resource for Anatomical Visualization
M.J. Ackerman

Extending a Teleradiology System by Tools for 3D-Visualization and Volumetric Analysis Through a Plug-in Mechanism

Development of Multispectral Autoradiography with Solid State Detector

Technical Aspects of Virtual Liver Resection Planning

Compression of Color Medical Images in Gastrointestinal Endoscopy: A Review
C.Y. Kim

Design of a Virtual Reality Laboratory for Interdisciplinary Medical Application
M. Mehlitz, T. Kleinoeder, G. Weniger and O. Rienhoff

Image Analysis and Pattern Recognition for Computer Supported Skin Tumor Diagnosis
H. Handels, T. Rob, J. Kreusch, H.H. Wolff and S.J. Pöppl

Complete Left Ventricular Wall Motion Estimation from Cascaded MRI-SPAMM Data
J. Park, D.N. Metaxas and L. Axel

A Marker-Free System for the Analysis of Movement Disabilities
L. Legrand, F. Marzani and L. Dusserre

Morphological Classification of Sperm Heads Using Artificial Neural Networks
W.J. Yi, K.S. Park and J.S. Paick

A hospital-wide distributed PACS based on Intranet
D. Bandon, Y. Ligier, G. Trayser, C. Girard, M. Logean and O. Ratib

Modeling and Performance Analysis of Image Transfer in PACS
H. Kimura and T. Akatsuka

Three-Tiered Integration of PACS and HIS toward Next Generation Total Hospital Information System

Implementation of a Low-Cost PACS/CR for Clinical Use in Yonsei Cardiovascular Center

Experimental Assessment of the Feasibility of Integrating an Endoscopic Imaging System into an Existing Hospital Information System
T-S. Chen, T.G. Gough, H.C. Lin and X.Z. Lin

An Architecture for Implementing Customizable Medical Image Processing Systems
A.M. Demiris, C.E. Cardenas, M.H. Makabe and H-P. Meinzer

Web based 3-D Medical Image Visualization on the PC

Posters

Original Techniques for Quantitatively Gamma-Chronogramms Processing
I.B. Bondareva, B.Y. Narkevich and L.Y. Fishman

Segmentation of Hippocampus Using Dynamic Contour Model and Region Growing
D.P. Jang, D.S. Lee and S.I. Kim
Chapter 14. Security

Results of European Projects Improving Security of Distributed Health Information Systems
B. Blobel and P. Pharow

Three Computational Systems for Disclosing Medical Data in the Year 1999
L. Sweeney

PCASSO: A Secure Architecture for Access to Clinical Data via the Internet
D.R. Masys, D.B. Baker, R. Barnhart and T. Buss

Security Aspects of Medical File Regrouping for the Epidemiological Follow-up
C. Quantin, E. Kerkri, F-A. Allaert, H. Bouzelat and L. Dusserre

Methods of Responding to Healthcare Security Incidents
S. Furnell, D. Gritzalis, S. Katsikas, K. Mavroudakis, P. Sanders and M. Warren

Privacy and Efficiency in Patient Focused Health Care Processes
O. Morger, U. Nitsche and S. Teufel

Confidentiality Principles for Medical Records on the World Wide Web
D.M. Rind and C. Safran

Access Control and System Audit Based on "Patient-Doctor Relation and Clinical Situation" Model
Y. Hirose

Posters

Common Security Solutions for Communicating Patient Data
A.R. Bakker

Information Systems Development at the District Level in the Health System in South Africa
H. Mahomed and J. Braa

Survey on the Security Problems of Network Server Software used in Japanese University Hospitals
S. Kataoka, T. Kiuchi and K. Ohe

Towards the Optimal Suppression of Details when Disclosing Medical Data, the Use of Sub-combination Analysis
L. Sweeney

Confidentiality Resides with the Patient and his Surrogate
C.W. Bishop

The Formal Representations of Security
H.U. van Piggelen

E-H. W. Kluge
Data Protection in the Erlangen Hospital Information and Communication System
B. Wentz, S. Knispel, A. Klingler, R. Bell and H. Seibold 1159

Chapter 15. Ethical & Societal Issues 1161

The Health On the Net Code of Conduct for medical and health Web sites
C. Boyer, M. Selby and R.D. Appel, 1163

The Information Needs of Health Agency Board Members: A Health Information System Challenge
A.C.L. Zelmer and A.E. Zelmer 1167

Healthcare Systems Process Reengineering for Developing Countries:
A Report to IMIA Working Group 9
W.P. Coleman, A. Gaynicotche and S.M. Mendoza 1171

Medical Informatics in the New Millennium
M.J. Ball and J.V. Douglas 1176

Health Informatics and the Humanities
E. Hultengren 1180

Health or Uni-disciplinary Informatics Initiatives - Why are we where we are today?
J. Roberts 1184

Setting a National Research Agenda in Nursing Informatics

Organizational & Medical Ontologies for Co-Operative Patient Management
S. Falasconi and M. Stefanelli 1192

People and Organizational Aspects of Medical Informatics
N.M. Lorenzi, R.T. Riley, A.J.C. Blyth, G. Southon and B.J. Dixon 1197

An Examination of the Variables Associated with the Adoption of a Computerized Innovation
(An Operating Room Simulation Model)
I. Podolak 1201

The Need for a Holistic View of Telemedicine, Focused on Patients and Society as Prime Stakeholders
R. Roberts and M. Rigby 1204

Medical Affective Computing: Medical Informatics Meets Affective Computing
C. Webster 1209

Global Healthcare and the Flux of Technology
T.L. Lincoln and C. Builder 1213

The Ethical Imperative of Child Health Population-based Data A Top-Down / Under-Up Analysis from the
United Kingdom and Australia
E. Waters and M. Rigby 1218

Towards an Ethical Protocol in Mental Health Informatics
M. Rigby, I. Hamilton and R. Draper 1223

Health Informatics in Canada: A Vision for the Next Millennium
R.C. Alvarez and J. Zelmer 1228

Health Care Workers and Their Needs: The Forgotten Shadow of AIM Research
S-I. Lillehaug and S. Lajoie 1232

Establishing the Feasibility of Cross-Mapping Independent Child Health Data Sets as a Means of
Comparing Health Status and Service Quality
R. Mechtler, M. Rigby and W. Ritchie 1237

Posters

MICUP: A Multi Clinic Computerised Integrated Program for the Management of Intensive Care Unit and Patients

Professional Ethics for System Developers in Health Care
T. Timpka 1242

Identifying Intra-Organizational Aspects of Electronic Communication
M. Kaag and C. Kooijman 1243
Chapter 16. Signal Processing

A Signal Analysis Method for Retinal Image Velocity Computation of Vestibular-Ocular Reflex Eye Movement Investigations
M. Juhola

Multimodal Time-variant Signal Analysis of Neonatal EEG Burst Patterns
H. Witte, P. Putsche, M. Eiselt, K. Hoffmann, M. Arnold, H. Jäger and L. Leistritz

Detection of Epileptiform Activities in the EEG Using Neural Network and Expert System
H. S. Park, Y. H. Lee, N. G. Kim, D. S. Lee and S. I. Kim

Posters

Segment Latency Corrected Average for Event-Related Evoked Potentials
Y. H. Lee, N. G. Kim, D. S. Lee and S. I. Kim

Computerised Regulation Diagnostics: From Detection of Disease to Quantitative Characterisation of Health Condition
J. Michel, H. Cammann, G. Uhlmann and W. Watzek

Application of MIDI Technique for Auscultation Signal Analysis
T. Modegi and S-I. Iisaku

Three-Dimensional Topographic Map based on PC

Program Package xIA for In-vitro Laboratories
M. Matovic, S. Mitrovic and M. Ravlic

Chapter 17. Aspects of Patient Care

A Model for Enhancing Worldwide Personal Health and Wellness
S. Marine, R. Guard, T. Morris, D. Haag, B. Kaya, J. Riep, L. Schick, G. Tsipis and S. Shoemaker

Quality Management in the Doctor’s Consulting Room
H.B. Slot, C. de Vos, B. Berghs, M. Hooymans and A. Bakker

Components of the Optimal Ambulatory Care Computing Environment

Virtual Patients for a Virtual Hospital
E. Loke and K.C. Lun

Telemedicine and Medical Informatics in the Multimedia Super Corridor:
The Malaysian Vision
S.S.R. Abidi, A. Goh and Z. Yusoff

Information Overload: Opportunities and Challenges for the GP’s Desktop
J. Noone, J. Warren and M. Brittain

Community Medical Care Monitoring System for Chronic Patient
T-S. Chen, P-S. Liao and P-C. Kuo

Development and Evaluation of Regional Health Database Systems

A Hypermedia Tool to Support the Interaction between Radiologists and Clinicians
M. DeSimone, C. Lalle and F.L. Ricci

Computer-aided Documentation and Therapy Planning in Pediatric Oncology
T. Wiedemann, P. Knaup, A. Bachert, U. Creutzig, R. Haux and F. Schilling

A Generic Model for Internet-accessed Databases in Epidemiology: A Nutritional Application
F. Hachem, J. Bellet, A. Flory and X. Leverve

Nurses’ Requirements for Information Technology in the Next Millennium
H.F. Marin, I.C. K. Cunha and C. Safran

Can the US Minimum Data Set Be Used for Predicting Admissions to Acute Care Facilities?
P.A. Abbott, S. Quirolgico, R. Manchanda, K. Canfield and M. Adya
Intervention classifications for Nursing Practice and the ICNP: Cultural Considerations for Korean Nurses  
S. Tak  
1322

Experience Journals: Using Computers to Share Personal Stories About Illness and Medical Intervention  
J. Gonzalez-Heydrich, D. Bromley, C. Strohecker, J. Marks, D.R. DeMaso, E. Ackermann,  
S. Gibson, C. Shen and M. Umaschi  
1329

A Telecommunications System to Manage Patients with Chronic Disease  
R.H. Friedman, J. Stollerman, L. Rozenblyum, D. Belfer, A. Selim, D. Mahoney and S. Steinbach  
1330

System Approach for A Multicenter, Multilingual International Telemedicine Conference  
N.M Hjelm, J C.K. Lee, A K.K. Li and C Hazlett  
1335

Posters  
The Case Cart Delivery System in Samsung Medical Center  
C.H. Lee  
1338

Attitudes of Adolescents to Interactive Computer-Based Health Education  
M. Bearman, A. Hall, M. Kidd, B. Cesnik, T. Keegel and W. McPhee  
1338

Gateway Information Facility for Transplant Services (GIFTS™): Using Imaging and the Internet to  
Improve Organ Donor Identification and Consent Tracking  
M. McLeod, B. Harper and R. Gray  
1339

Information Interventions in Chronic Disease  
P. Gorman  
1339

Defining a Practice - Based Nursing Data Set  
1340

Survey and Analysis of Location Problems of Emergency Medical Care Centers  
A. Ohuchi, Y. Yamauchi, T. Kurokawa and A. Miyakoshi  
1340

Supporting Hospital-Based Home Care  
A. van’t Hooft, P.W. Moorman, I. Elswijk and E.J. Elfrink  
1341

Automating Integrated Case Management in Health and Social Service Ministries  
J. Coke  
1341

Development and Application of the Health Emergency Information Network System in China  
L. Pinghe  
1342

Supporting Communication between Community and Hospital Care Professionals by means of X-500 Catalogues  
H. Adolfssoon and C. Spanne  
1342

A Remote Nursing Education Experiment by a Communication Satellite  
Y. Uto, F. Muranaga, K. Usuku and I. Kumamoto  
1343

The Computerized Management System For Medical Insurance In A Large Coal Mine In China  
J. Zhou, S. Zhang and J. Jia  
1343

Informatization of Community Nursing Process and International Classification of Nursing Phenomena  
O. Šušteršič, V. Rajković, R. Leskovar, I. Bitenc and D. Cibic  
1344

A Study towards the Categorization of Nursing Diagnosis, Etiologies and Interventions as Used in Korean Language  
M. Storey and K.H. Hur  
1344

SmartPAQ: A Web-Based Smartcard Patient Asked Questions System  
M.-P. Van Hoecke, M. Collins, R. Beuscart and A. Watson  
1345

The Safety of the Personal Handy - Phone System in Hospitals  
E. Hanada, Y. Antoku, S. Tani, M. Kimura, A. Hasegawa, S. Urano, K. Ohe, M. Yamaki and Y. Nose  
1345

The Superiority of M-Technology for the Hospital Information System:III. Comparison of System  
Performance Between Relational Database Management System and M-Technology  
1346
