### IRSSD 98 Scientific Sessions

**Adolescent Idiopathic Scoliosis: A Molecular Biologist’s View from the Other End of the Pathological Telescope,**

Regulation of Spinal Growth and Remodelling, J. Urban

### Session 1. 3-D Imaging and Morphological Aspects of Spinal Deformity

Valuation of Body Surface Measurements: Accuracy Rating of Anatomical Landmarks, E. Hierholzer

Reliability of Rasterstereography of Thoracic Kyphosis, K.P. Singer, S. Goh, P. Leedman and R.I. Price

Relationship of Thoracic Kyphosis to Lumbar Bone Density, S. Goh, R.I. Price, P. Leedman and K.P. Singer

A Correlation Study of Global and Local Descriptors of the Scoliotic Spine Deformity, I. Villemure, C.-É. Aubin, J. Dansereau, Y. Petit and H. Labelle

Surface Topography and Cobb Angles in Idiopathic Scoliosis, C.J. Goldberg, D.P. Moore, E.E. Fogerty and F.E. Dowling

Clinical Trial of CPT (Complex Phase Tracing) Profilometry in Scoliosis, A. Merolli, P.L. Guidi, J. Kozlowski, G. Serra, L. Aulisa, P. Tranquilli Leali

Analysis of Intravertebral Axial Rotation in Adolescent Idiopathic Scoliosis Using Three-Dimensional MRI, D. Birchall, D.G. Hughes, L. Robinson and J.B. Williamson

The Three-Axes Model of Vertebral Column Deformation, M. Dudin and M. Olnev

Functional Classification of Patients with Idiopathic Scoliosis Assessed by the Quantec System: A Discriminate Functional Analysis to Determine the Patient Group With Different Curves, J. Thometz, X.C. Liu and J.P. Klein

Analysis of Posterior Trunk Symmetry Index (POTSI) in Scoliosis. Part 1, N. Suzuki, K. Inami, T. Ono, K. Kohno and M.A. Asher
Analysis of Posterior Trunk Symmetry Index (POTSI) in Scoliosis. Part 2, K. Inami, N. Suzuki, T. Ono, Y. Yamashita, K. Kohno and H. Morisue

Session 2. 3-D Biomechanical Analyses of Spinal Deformity

Rasterstereographic Functional Examinations: Precision Measurement of Kyphosis and Lordosis, E. Hierholzer and B. Drerup

Acquisition of 3D Vertebral Displacement During Surgery, F. Dufour, D. Chopin and A.P. Godillon Maquinghen

Geometric Torsion in Idiopathic Scoliosis: A First 3D Analysis and a Proposal to a New Classification, P. Poncet, J. Dansereau and H. Labelle

Detorsion of a Helix as a Model for Correction of the Scoliotic Spine, B.J. Sawatzky, B.L. Hughes and S.J. Tredwell

Flexion and Extension of the Vertebral Column Measured Using MRI, P.H. Dangerfield, J.C. Dorgan, K. Evans, N. Roberts, G.H. Whitehouse and M.M. Gunter

Biomechanical Modeling of the Control of Trunk Muscles, M. Beauséjour, C.-É. Aubin, A.B. Mitnitski and A.G. Feldman
First Poster Session

3D Geometrical Analysis of the CTM Brace Effect on Scoliotic Patient, D. Périé,
M.C. Hobatho, J. Sales de Gauzy, A. Sévety, A. Montéan and B. Peuchot 158

Thirty Years Experience of Dysplastic Scoliosis Conservative Treatment (By Materials of Boarding School #76 for Children with Scoliosis, Central Institute of Traumatology and Orthopaedics, Moscow, Russia), G.P. Dmitrieva and R.D. Nazarova 163

Medical Rehabilitation and Social Adaptation of Patients with Scoliosis who Passed the Treatment in the Boarding School #76 for Children with Scoliosis, Central Traumatology and Orthopedics Institute, R.D. Nazarova 165

Dynamic Treatment of Scoliosis (The Results of 174 Cases), S. Sastre, J.P. Lapuente, C. Santapau and M. Bueno 171

A Posture Measurement System for AIS, E. Lou, N.G. Durdle, V.J. Raso and D.L. Hill 175

The Range of Motion of the Scapula and its Functional Implications,
T.M. Lawrence-Tayler, M.M. Gunther and P.H. Dangerfield 179

Modeling the Human Spine for a New Treatment of Scoliosis, R.S.C. Hirsch, K. Craig and A. Carl 183

Disc and Vertebral Wedging in Patients with Progressive Scoliosis, I.A.F. Stokes, D.D. Aronsson and M. Jones 191

Technical Improvement of CPT (Complex Phase Tracing) Profilometry in Scoliosis, J. Kozlowski, G. Serra, A. Merolli and P.L. Guidi 194

Debate 2. The Scientific Approach to Treatment is Better Than the Empirical ("Trial and Error") Approach, Moderator: S.J. Tredwell, Debaters: C.-É. Aubin and M.A. Asher 198

Session 3. Aetiology, Pathomechanism, Progression, Prognosis, Bone and Connective Tissue

'Stress-Modulated Growth' and the Progression of Scoliosis, I.A.F. Stokes 205

Genomic Search for X-Linkage in Familial Adolescent Idiopathic Scoliosis, N.H. Miller,
P. Sponseller, E. Shugert, J. Bell, D. Schwab and N. Maestri 209

The Role of Fibrillin 1 and Fibrillin 2 in Severe Scoliosis, A. Child, M. Aubry, G. Brice,
E. Park, E. Putnam and D. Milewicz 213

The Role of the Exteroceptive System in the Aetiopathogenesis of Structural Scoliosis. An Investigation on Blind Children, S. Lupparelli, A. Merolli, F. Tamburrelli,
R. Marrocco and L. Aulisa 216

Neurophysiological Correlations in Idiopathic Scoliosis, Y. Olafsson, H.E. Persson,
T. Ödergren and H. Saraste 220

Study of the Natural History of the Back Trunk Shape by the Use of Scoliometer in Children Aged 5-12 Years, T.B. Grivas, B. Nakos, J. Kouvaras, N. Kalamakis and D. Polyzois 223
Length of the Multifidus Muscle in Adolescent Idiopathic Scoliosis, T. Maruyama 231
Creation and Correction of Vertebral Wedge Deformity by Mechanical Modulation of Growth, P.L. Mente, D.D. Aronsson, I.A.F. Stokes and J.C. Iatridis 234

Session 4. Principles of Management of Spinal Deformity

School Spinal Deformity Screening by Computer Optical Topography, N.G. Fomichev, V.N. Kharinov, V.M. Sarnadski, M.A. Sadovoy and O.A. Malakhov 241
Interobserver Reliability of Scolimeter Measurements of Rotational Deformity in Adolescent Idiopathic Scoliosis, L.M. Galatz, P.F. Sturm, S. Bomze and S. Simmens 242
Outcome Measurement of Scoliosis Rehabilitation by Use of Surface Topography, H.R. Weiss, C. Verres, K. Steffan and I. Heckel 246
Optimizing Surgical Improvement of Trunk Asymmetry from Idiopathic Scoliosis. A Preliminary Report, M.A. Asher and B.J. Manna 250
Safety and Efficacy of Thoracolumbar Instrumentation and Fusion Utilizing Lumbar Pedicle Screw Anchorage in the Treatment of Neuromuscular Spine Deformities, C. Whitaker, M.A. Asher and D.C. Burton 254
Evaluation of Three-Dimensional Correction of Idiopathic Scoliosis by Zielke Instrumentation. Surface Measurement Using Videorasterstereography, L. Hackenberg 258
A New Approach in the Surgical Treatment of Early Scoliosis, B. Xiong and J.A. Sevastik 266

Debate 3. Early Surgery is Preferable to Brace Treatment in Moderate Scoliotic Curves, Moderator: H. Labelle, Debaters: D.D. Aronsson and M.S. Moreland 274

Second Poster Session

Thoracic Microdiscectomy and Arthrolysis of Costotransverse Joint as a Means of Releasing Technique for Idiopathic Scoliosis, S. Kubo, N. Tajima, E. Chosa and K. Goto 285
Scoliosis and Pain - Is There Any Relationship?, H.R. Weiss, C. Verres, K. Steffan and I. Heckel 293
Energy Status in Patients with Idiopathic Scoliosis, D. Tessakov 297
The Significance of Postoperative Suction-Reinfusion System to Avoid Homologous Transfusion Comparing Different Methods We Applied to Scoliosis Surgery, K. Inoue and N. Suzuki 303
