SCHEDULE OF EVENTS & PROGRAM OF CONFERENCE SESSIONS
CONTENTS

Keynote Address: Sustainable paper consumption in the Netherlands
Arjan Alkema, Staff Member,
Vereniging Milieudefensie (Friends of the Earth), The Netherlands

Session 1: Market Trends, Fiber Supply

The role of recovered paper in the changing Eastern European
paper industry
Mary J. Cesar, Vice President,
Jaakko Pöyry Oy Consulting, Finland

A man on the moon
W.H.M. Tiddens, Managing Director,
Kappa Recycled Paper Europe, The Netherlands

Recycling in Asia – Growth or crisis?
Vijay Gupta, Managing Director,
WPS Pte. Ltd./Wirana International Pte Ltd., Singapore

Practicalities and advantages of the reclassification of wastepaper
Heiko Bayerl, Board Member,
Fa. Hamburger AG, Austria

Waste to wisdom, reality or rubbish
David Crabtree, Consultant,
Former Managing Director of Newsprint Management &
Supply Services Ltd., UK

The popularity of OCC and its influence on European recyclers
William P. Moore, President,
Moore & Associates, USA

Moulded pulp – an economic and ecological way to recycle paper
Waltram Ebmeyer, Packaging Engineer,
W.E. Pack Services, Germany

Experiences setting up and running Europe’s first deinked market pulp mill
David Stedeford, Director,
Greenfield Paper Co. Ltd., UK

Is the recovered paper goal out of reach?
Fred D. Iannazzi, President,
Andover International Associates, USA
Session 2: Pulping Processes

The compact RCF line – Efficiency yields simplicity
Jukka Heimonen, Research Manager,
Valmet Corp., Stock Preparation, Finland

Automatic wastepaper bale dewiring and pulper feed systems
Engelbert Treiblmeier, Senior Vice President, Sales,
FMW - Förderanlagen und Maschinenbau AG, Austria

Session 3: Deinking Technology

Modified process and equipment for DIP effluent treatment
Jia-Xiang Chen, Professor,
South China University of Technology, People’s R. of China

Rebuilding a deinking line – Practical experience
Wolfgang Sesterhenn, Assistant Manager,
Elektro Adelmann GmbH & Co. KG, Germany

Production of high quality tissue from low grade wastepaper
Aaron Karneth, Product Manager, Deinking,
Beloit Pulping, USA

Strategy adopted to convert a stone ground pulp mill to a deinked pulp mill
Jay T. Jeyasingam, International Consultant,
UNIDO and UNEP, USA

The role of enzymes in the modern deinking process
Barry Read, Business Manager & Sr. Consultant,
The Fibre Technology Association, UK

Session 4: Screening and Cleaning of Recycled Fiber

A new method for measuring pitch and stickies deposition potential and treatment efficacy in mill furnishes
Dr. Jos Philippaerts, Group Leader, Customer Applications Group Europe,
BetzDearborn Paper Process Group, Belgium

Taking a fresh look at screening and fractionation technology
D. Borschke, System Technology,
Voith Sulzer Stoffaufbereitung GmbH, Germany

Replacing dispersion with slotted screening
Timo Ala-Jääski, Manager, Marketing & Product Development
Ahlstrom Machinery Corp, Recycled Fiber Systems, Finland
Session 5: Sludge Treatment

Paper sludge has its uses at Bridgewater Paper Company
Tim Budd, Environmental Technologist,
Bridgewater Paper Co. Ltd., UK,

Recovery of the mineral fraction of de-inking sludge for paper filling and coating
Dr. Jonathan Phipps, Senior Scientist,
ECC International, UK

Deinking sludge converted to high quality building boards in a new full scale plant
Kenneth W. Christensen, Managing Director,
Full Circle Products Ltd., Denmark

Closing Session

Responsibilities along the paper recycling chain
Dr. Erwin Krauthauf, Mill Manager,
Haindl Papier GmbH, Schongau Mill, Germany

The increasing role of legislation in paper recovery
Carlos Reinoso, Manager, Recycling,
CEPI – Confederation of European Paper Industries, Belgium
