Innovations in Mineral and Coal Processing

Edited by
Suna Atak, Güven Önal & Mehmet Sabri Çelik
İstanbul Technical University, Coal and Mineral Processing Section, Turkey
Table of contents

**Foreword**

**1 Comminution, classification and sizing**

- Effect of feed moisture on the performance of the high pressure roll mill
  *D.W. Fuerstenau & A.-Z. M. Abouzeid*
  
- Improvement of the technological processes on the basis of activation ore grinding
  *T.S. Yusupov, G.N. Anoshin, E.A. Kirillova & V.A. Chanturia*
  
- Microwave processing and grindability
  *A. Güngör & Ü. Atalay*
  
- Cascadography, an attempt to characterize the shape of ground lead flakes
  *M. Noaparast & A.R. Laplante*
  
- Evaluation of autogenous grinding of ores
  *N. Cristea, I. Craescu & E. Danciu*
  
- Effect of heat treatment on grindability of ulexite
  *S. Sener & G. Özbayoğlu*
  
- The use of brittleness test in determination of grindability and crushing resistance of rocks and marbles
  *T. Özkahraman & M. Şirin*
  
- An original hydro-dynamic device for impulse supplying of hydrocyclones
  *S. D. Djendova*
  
- A new efficiency index for the evaluation of separator performance
  *M. M. Tarshan*
  
- The breakage characterization of pyrite by image analyzer
  *R. Bozkurt, A. Taşdemir & O. N. Çelik*
  
- High speed screening technology in a grinding and flotation circuit
  *O. N. Guven & I. Bozdoğan*
  
- Selective liberation of sphalerite and Cu-(Fe) minerals from Majdanpek
  *R. A. Tomanec, D. Vučinić & Z. Soljanik*

Beneficiation studies of Zagros celestite
M.Oliazadeh & H.Mohammedi

Production of inorganically modified clays suitable for use with water based paints as thickeners and thixotropic agent

Morphological properties of hydrothermal $\text{BaZrO}_3$ powders
A. Dias, V.T. L. Buono & V.S.T. Ciminelli

Relevant aspects of barite separation from a phosphate ore via flotation
R.C. Guimarães & A.E.C. Peres

Recovery studies of ulexite ores from Eti-Holding Bigadiç Mine
S. Delice, M. Gündüz & Ş.G. Özkan

Kyanite from Minas Gerais, Brazil: Characterization for use in ceramic materials
P.R.G. Brandao & S.L.C. Mendes

The use of micronized mica in the ceramics industry
M. Agus, P. Saba, G. Alfano, M. Surrracco & M. Oi

Preliminary technological assessment of albite flotation tailings for rutile recovery
B. İpekoglu, Ş. Hoşkan, K. Çınku & M. Akser

Magnetic separation and flotation of albite ore
İ. Bayraktar, S. Ersayın & Ö. Y. Gölsoy

Concentration of magnesite ore by heavy medium separation and washing-screening after partial calcination
N. Gence

The effect of particle size on recovery in concentration of feldspar by using MFC
K. Bilir, B. Öteyaka & Y. Üçbaş

Effect of depressants in flotation of celestite-calcite ore from Sivas-Nasır
T. Güler, C. Hiçyılmaz & Ü. Akdemir

Evaluation of feldspar ores with high titanium contents
O. Kangal, A. Giiney & V. Gürkan

Glass sand production by flotation and magnetic separation technology
E. Teodorescu, I. Sarachie, T. Prida, I. Ivan & T. Popa

5 Coal processing

Multisectional flotation column in coal preparation
J.B. Rubinstein, B.I. Linev & S.T. Hall

A new coal tailings washing plant
M. Rumberger

Production of activated carbon from bituminous coals
B. Döngel, İ. Toroğlu & A. Yavuzdoğan
Bacterial desulphurization of coal from Lupeni in Romania
P. Fecko 361

Utilization of ferrofluids in brown coal preparation
M. Lovás, Š. Jakabský, S. Hredzák, A. Mockovčiaková & L. Turčániová 367

Parnaby process – A new trend in Yugoslavian coal cleaning
M. Canic, I. Smovic, S. Djokic & N. Kostovic 373

The effect of components on the blend coal plasticity
V. Arslan & M. Kemal 379

The application of pelletizing pan for coal fines agglomeration
I. Simovic, M. Canic, N. Kostovic & S. Djokic 387

Some possibilities for improvement of the lignite coal briquettes mechanical indexes
S. K. Hristova & L. P. Yankova 393

Physical concentration of Seyitömer oil shales by selective flocculation
H. Koca 397

Influence of solvent preswelling on coal utilization processes
W. Klose, H. Wobig & J. M. Rincón 403

The production of the environment friendly domestic fuel by the coking coal blend briquettes
Ü. Özden 409

Production of ecologically clean fuel by semicoking and desulphurization of lignites
D. Renda, G. Önal & I. Mustafaev 417

Desulfurization of Tunçbilek lignitic coals by washing
V. Arslan 421

Generating incremental income through plant optimization and advanced fine coal cleaning
A. Patwardhan, H. Sevim & R. Q. Honaker 427

6 Hydro- and biohydrometallurgy

The role of biohydrometallurgy in mineral processing
F. D. Pooley 435

Oxidative leaching of polymetallic sulphide concentrates
W. Mulak 447

Complex treatment of lead slimes of copper production

Manganese dioxide reductive leaching by sulphuric acid solutions containing carbohydrates
F. Veglio', M. Centofanti, F. Beolchini, S. Ubaldini & L. Toro 457

Kinetics of tellurium and selenium cathodic reduction in electrochemical processing
of tellurium- and selenium-containing concentrates
Possibility of copper recovery from cement slurry by hydrometallurgical procedures
R. Marković, S. Živkovic-Nikolic, V. Cvetkovski, Z. Gojkovic & V. Stangacilovic

Use of dithizone in the process of gold and palladium extraction
Lj. Avramović, L. Jovanović, R. Jonović, Z. Avramović & M. Ristić

Hydrometallurgical treatment of anode slimes from the Sar-Chesmeh plant
L.N. Jovanović, R. R. Jonović, G. R. Jovanović & Lj. R. Avramović

Recovery of copper from a sulphide tailings by bacterial leaching
F. Göktepe & F. D. Pooley

Production of high grade manganese ore and iron pigment from low grade manganese ore
I. A. Ibrahim

Sulfate-reducing bacteria in mineral processing and hydrometallurgy
P. M. Solozhenkin, V. P. Nebera & I. G. Abdulmanov

7 Gold and silver

Technology of gold recovery from ores in Russia
A. A. Abramov

Gold recovery from alkaline cyanide solution by electroelution of anionic polymeric resin
V. A. L. Breguncci, C. P. R. Junior & A. H. Martins

Gold recovery by flotation and oil agglomeration
A. Akar, A. Akcil & A. Seyrankaya

The effect of slime on gold recovery in gold ore processing
S. Đ. Deušić, J. J. Pavlica & F. S. Gomes

Pyrrhotite bioleaching for gold recovery: A complete scheme of treatment
S. Ubaldini, R. Massidda, C. Abbruzzese, F. Veglio', F. Beolchini & L. Toro

Biological solvents of silver and gold: Their complexes in process of preparation of colloidal silver and liquid gold
V. K. Larin, P. M. Solozhenkin, S. R. Baratova & A. X. Abdyrakhmanov

Determination of the kinetic of gold dissolution process by cyanide and its effect on environment
I. Pop, P. Ilie, M. Podariu, I. Străut & E. Gaspar

Modeling of gold heap leaching for criteria of sustainability targets
L. R. P. De Andrade Lima, R. C. Villas-Bôas & H. M. Kohler

The column percolation of the low-grade silver ore at Gümüşköy, in Kütahya-Turkey
F. Akal, A. Yumuk & I. Benili

Mineralogical balance and reproducibility of gold recovery from copper deposit ‘Veliki Krivelj’, Yugoslavia
S. Radosavljević, N. Canić, Z. Bartulović, M. Stojanović & B. Spaskovski

Leaching of Gümüşhane – Mastra ore with thiourea
N. Gönen, K. Kekeç, B. Kizilkaya & M. Yıldırım
Hydrogen peroxide assisted cyanide leaching of Artvin-Cerattepe region gold and silver ores
F. Arslan, M. Miidiroglu & K. T. Perek

The improvement of plant performance of Kütahya 100th Year Silver Plant
H. Dinçer & G. Önal

8 Modelling, control and simulation

Simulation as an aid to design: A case study
S. Ersayın, H. Benzer & İ. B. Çelik

Modeling water recovery in flotation
Ö. Y. Gülsoy, S. Ersayın & F. Şahin

Empirical models for the enrichment of Zonguldak coals by oil agglomeration
Y. Üçbaş, B. Öteyaka & Ç. Hoşten

A comparison of flotation column scale-up models
E. C. Çilek & H. Özdağ

Computer aided design and cost estimation model of soda ash processes from trona
N. Durmaç-Hilmioglu & H. Okutan

9 Agglomeration and physical enrichment

Coating of iron oxide pellets for direct reduction
A. Basdag, A. I. Arol & B. O. Hanumanthappa

Effect of blending of the reduced sponge iron fine (DRI) with high manganese iron ore on the quality of the produced sinter
M. E. H. Shalabi, N. A. El-Hussiny, F. M. S. Zaher, N. N. El-Ibiary & S. Y. El-Affi

Kinetics of formation of sodium chromate during roasting briquettes of El-Barramiya concentrate with soda ash with or without CaO

Pre-reduction of fine chromite concentrates
N. Şirvancı, A. Güney, V. Gürgan, G. Önal, A. A. Sirkeci & O. Yücel

10 Process and plant design, and operating practice

The impact of globalisation on the availability of new mineral processing technology
R. J. Batterham & R. W. Shaw

Iron ore beneficiation in special consideration of the reduction of deleterious components for the downstream metallurgical process
E. Mertins

Technico-economical rationalization of a processing plant for barite ores: The case of the Montega Mine, Italy
M. Ghiani, A. Serci, R. Peretti, A. Zucca & R. Angius
Calculation of thickener dimensions for ulexite tailings from Eti-Holding’s Bigadiç Concentrator
S. Delice, Ş. G. Özkan, Ü. İpekoğlu

Comparison of new processing methods in the evaluation of Kirka tincal ore
N. Öziyürk, G. Önal & M. Z. Doğan

Beneficiation of Murgul copper ores
V. Gürkan, F. Arslan, S. Tüfekçi & K. T. Perek

Calcination of Malatya-Hekimhan siderite ores
F. Arslan, G. Ateşok, A. Gül, H. Dinçer & K. T. Perek

Proposal of a new process for beneficiation of Küre copper ores
F. Arslan, A. Güney, A. A. Sirkeci, V. Gürkan, G. Bulut, K. T. Perek, A. Gül & G. Önal

Preconcentration of a low-grade sulfidic copper ore from Ergani Copper Mine
A. Gül, G. Önal & Z. Doğan

11 Gravity, magnetic, electrostatic

Theory of magnetocentrifugal separation of magnetic particulates
M. Sarikaya, T. Abbasov & S. Herdem

Dielectric separation of solids in water polarised by pulsating electrical field
U. Andres & I. Timoshkin

Separation by Wet High Intensity Magnetic Separation WHIMS JONES® and New Pneumatic Flotation System PNEUFLOT®
C. Hahn, H. Cordes & H.-D. Waldhecker

The use of magnetic separation techniques to reduce rejects with increased yields in the processing of various minerals and ceramics
G. Cox

A theory and experiments on a high gradient magnetic separator-filter performance
M. Sarikaya, T. Abbasov & S. Herdem

Wet low intensity magnetic separation of iron ore
R. T. Sundberg

The design of multi-stage pinched sluice concentration circuits using single stage test results
L. Ergün & S. Ersayın

Enrichment of low-grade Karaburhan chromite ores by gravitational methods
E. Sönmez & B. Turgut

Effects of fluid surface tension on medium resistance to magnetic separation

Gravimetric concentration of fine chromite tailings
T. Çiçek, I. Cöcen & S. Samanlı

Manganese recovery from lead-zinc ore of ‘Draznja’ deposit
D. Urosevic, Z. Lazarevic, M. Milosevic & K. Konc
12 Waste treatment and utilization

Recycling of chloridic used hardening salts
E.Gock, A.Jordan, J.Kähler, St.Wigger & U.Baudis

Evaluation of scrap battery recycle plant fly ashes
M.Kaya & V.Severcan

High sulphur coals and oxidised high rank coals as efficient sorbents for mercury removal from industrial waste solutions
J.Lakatos, S.D.Brown & C.E.Snape

Extraction of iron and production of building bricks from red mud
O.Bayat

Tailings management in cyanidation process
P.P.Manca, R.Peretti & A.Zucca

Removal of metal pollutants (Cd, U) from phosphoric acid (PA) solutions by ion exchange:
I Batch and column extractions
N.Kabay, M.Demircioğlu, N.Kocacik, E.Yiğit, H.Ekinci, S.Yaylı, M.Yüksel & M.Sağlam

Removal of metal pollutants (Cd, U) from phosphoric acid (PA) solutions by ion exchange:
II Mathematical modeling
M.Demircioğlu, N.Kocacik, E.Yiğit & N.Kabay

Arthrobacter sp. as a toxic metal biosorbing material: Ionic characterisation of the biomass and its use entrapped in a poly-HEMA matrix
F.Beolchini, F.Veglio', A.Gasbarro, L.Toro & S.Ubaldini

Transformation of metal speciation under an action of the aquatic vegetation in flooded gold-ore cyanidation tailings
S.B.Bortnikova, E.V.Lazareva, P.Szerbin & E.I.Hozhina

Remediation of contaminated mine and coal processing sites in the Lusatian lignite region
H.Z.Kuyumcu

Forecast of emission, range of hazardous concentration and emission of dust originating from the tailings pond ‘Veliki Krivelj’
R.Lekovski & M.Miljkovic

Thermodynamics of the ion-exchange reactions on calcium-clinoptilolite
D.R.Vučinić

Evaluation of induction furnace slags of MKE PİRİNÇSAN Plant
G.Ateşok, Y.Kaytaz, F.Boylu & Z.Doğan

Ozonation of cyanide ions and the influence of catalyzer on oxidation kinetics in the waste waters of gold-silver ores
P.Ilie, D.Baciu, L.Mihaly, M.Podariu & M.Morar

Boron removal from waste water of Kızıldere Geothermal Field by using ion-exchange resins
M.Badruk, N.Kabay, H.Mordoğan & Ü.İpekoğlu
Purification of highly toxic metallurgical effluents using organophosphorous compounds of the cyanex type
V.Kovatcheva-Ninova

Influence of current density on purification of oiled waste water by electroflotation
S.Milosevic, N.Canic, Z.Bartulovic, V.Milosevic & P.Krstovic

The recovery of zinc and cyanide from recycled water by using Acidification-Filtration-Reneutralization (AFR) process
T.Çatalsank & H.Kurama

Environmental impact in Jiu Valley Coal Field due to mining activity
E.Traistă & C.Badulescu

Evaluation of electric arc furnace dust and minimization of negative effects on environment
A.Seyrankaya, A.Akar & Y.Çilingir

Treatment of cyanide containing waste waters in a continuous current field mixed with mine waters
I.Straut, P.Ilie, M.Podariu & L.Chihaiia

Natural degradation behaviour of a cyanide leach solution under laboratory conditions
M.Tanriverdi, H.Mordoğan & Ü.İpekoğlu

Utilization of fine sediments from Vratchva 1 tailing pond of CWC ‘Bobov dol’
L.V.Kuzev

Bio-reclamation revitalisation of ‘Topolnica’ tailings in PRMB ‘BUCIM’ Radovis, Republic of Macedonia
S.Iliev, V.Kocevski & A.Andonovski

Flocculation of clayed waste water
D.R.Vučinić, R.Tomanec & S.Deušić

Technological and ecological contributions concerning the circulation of liquid phase in the cyanidation process of pyrites with gold content
I.Pop, P.Ilie, G.Parasca, M.Podariu, G.Ardelean & I.Straut

Mining industry reorganisation impact assessment in Jiu Valley, Romania
E.Traista, C.Ionescu & M.Popescu

Thermodynamic treatment of cationic surfactant adsorption onto a clay adsorbent
E.Sabah, O.Özdemir & M.S.Çelik

Use of graphical interconnection method in leaching experiments
M.L.Cunha & M.H.Bastos
