Table of contents

Preface XV
Acknowledgements XVII
Organization XVIII

1 Safety management and planning 3

Development and implementation of an occupational safety and health management system on construction sites – Experiences from twelve small and medium-sized contractors
U. Helledi

Partnering: Incorporating safety management 11
S. M. Rowlinson & J. Matthews

Factors affecting the safety performance of contractors and construction sites 19
K. W. Wong, P. C. Chan & K. K. Lo

Time/space chart drawing techniques for the safety management 25
A. Ciribini & G. Rigamonti

Construction safety management formula for success 33
J. A. Agrilla

2 International practices in safety management 39

Safety and construction in India
E. Koehn & S. Reddy

Health and safety practices on community projects:
The South African experience
T. Haupt & J. Smallwood 47

Philosophy of construction safety management in Japan 55
T. Watanabe & S. Hanayasu
The attitude of workers toward construction site safety – A study of site safety in Hong Kong
T.Y.F. Ma & A.P.C. Chan

Construction safety in China – The past, present and future
Fang Dongping, Song Hubin, Huang Xinyu & Qin Chunfang

3 Safety quality

Barriers to using Environmental, Safety and Health (ESH) record as a competitive advantage in the construction industry
A.B. Ngowi & P.C. Mselle

Appropriate project procurement systems for hybrid TQM
P.D. Rwelamila & J.J. Smallwood

The MASTER project: A partnership with OSHA
S.J. Spaulding

Implementing construction safety systems using quality system methodology
L.M. Alves Dias

Safety Management Assessment System (SMAS) applied to construction

4 Safety culture

Nourishing safety culture in the construction industry of Hong Kong
C.M. Tam & A.P.C. Chan

Creating a living community for the elderly – A study on group living for the elderly in Japan
S. Sasaki & K. Ueno

Fire safety attitudes and management culture in the construction industry
M.C. Puybaraud, R. Barham & J. Hinks

The mechanism of the occurrence of defective housing in Japan
K. Ohnishi & K. Ueno

Promotion of health and safety culture through accident cost awareness
M. A. Al-Mufti

5 Safety improvement

Concurrent engineering in construction – An opportunity to improve construction safety
C.J. Anumba
Psychological research in the development of the new safety ‘Sticker Sign’ for construction sites
H. Mutoh

Electrical contractor safety management evaluation
G. R. Smith, A. A. Olofa & J. W. Kranz

Perceptions of occupational health and safety among electricians
C. K. Miller & J. G. Everett

Safety in building management and maintenance: The Italian Fascicolo dell’Opera (Building Maintenance Safety File)
A. Gottfried & M. C. Dejaco

6 Work ability on construction sites

Work ability assessment of construction workers
J. Juntunen & H. Rytkönen

Putting environmental health and safety on the R.O.A.D.
C. Campion

Improvement of working conditions in the masonry sector
U. Berg

7 Cost and productivity

The cost of accidents in the South African construction industry
J. J. Smallwood

Safety costs money and can save money
A. J. Joseph

Social costs of construction accidents in Hong Kong
K. L. Ngai & S. L. Tang

Economic overview of construction safety
C. Reis, A. Soeiro & F. Santos

Fraud in construction and building: A safety, management and insurance perspective
J. E. Turner

8 Education and training

Teaching health and safety to construction engineers
J. Christian

College’s emphasis on construction safety
R. J. Coble, J. H. Hinze, M. J. McDermott & B. R. Elliott
Safety education expectations for construction engineering and management students
G.R. Smith & T.M. Arnold

Reducing construction-related injuries and illnesses through education
M.H. Sweeney, P. Becker, C.J. Bryant & J. Palassis

Continuous enhancement of health and safety awareness in undergraduate civil engineering courses
M.A. Al-Mufti

9 Design engineering safety

On the factor of safety for the shear strength of reinforced concrete beams
T. Tamura, T. Shigematsu & K. Nakashiki

On the safety of pre-cracked reinforced concrete member
H. Matsuo, T. Tamura, T. Shigematsu & K. Nakashiki

Earthquake technology for American and Japanese educational facilities
V.E. Garland

Analytical study on shear strength of R/C column under axial force
K. Yamazaki, T. Shigematsu, T. Hara & T. Tamura

Repair and improvement of safety for the cracked cooling tower
T. Hara, S. Kato & T. Shigematsu

10 Fatigue and human error

Implications for construction safety of studies of the management of human error
A.R. Atkinson

An investigation of job related discomfort and layout preferences of masons
R.M. Stino & J.G. Everett

A behavior-based approach to construction: Applied behavior analysis for construction safety
W.F. Maloney & G.R. Smith

Concrete slab placing and finishing: Physiological demands
T.S. Abdelhamid & J.G. Everett

Stress and construction
J.J. Smallwood & R. Ehrlich
11 Ergonomics

Ergonomic design considerations in construction
C.L. Zimmermann & T.M. Cook 361

Ergonomic and medical analysis of plasterwork a basis for ergonomic redesign
J. W. Wakula & F. Wimmel 365

Participatory approach to ergonomic risk reduction: Case study of body harnesses for concrete work
B. Gibbons & S. Hecker 373

Technological interventions to reduce the incidents of back injury in building construction
M. L. Davis, S. J. Lorenc & L. E. Bernold 381

Ergonomics, economics and operating engineers
C. L. Zimmermann & T. M. Cook 389

12 Safety assurance

Integrating construction worker protection into project design
J. Hinze, R. J. Coble & B. R. Elliott 395

Owner involvement in construction at a national laboratory
G. Lipka 403

Construction accidental injury insurance in China
Fang Dongping, Cao Xiaoling & Huang Xinyu 411

Communication of health and safety in the design phase
J. MacKenzie, A. G. F. Gibb & N. M. Bouchlaghem 419

Application of owner controlled insurance programs to construction
J. J. Lew & M. Overholt 427

13 Law and regulation

The role of the planning supervisor under new health and safety legislation in the United Kingdom
C. N. Preece, K. Moodley & C. Cavina 435

The integration of construction (design and management) regulations into small and medium companies
A. H. Tyler & A. Pope 447

Construction shortcuts: An invitation to disaster
A. W. Domel Jr 453
Historical and philosophical evolution of Italian laws about safety and health in construction sites
*F.Terranova & S.Bartolomeo*

The new construction safety regulations in Spain
*M.Casals, P.Alavedra & D.Giménez*

14 **Innovative safety technology**

The use of photogrammetry in accident investigations: A case study
*N.Holland & R.Warden*

Towards a virtual environment for safety-integrated site layout design and organisation
*G.A.John, C.J.Anumba & B.Hobbs*

The requirements of a multimedia system to support health and safety on construction sites
*P.Stephenson & K.Conheeney*

Mini excavators and narrow scissors lifts – Create new safety concerns
*B.Ross, B.McGoran & F.Walter*

Developing a proactive Safety Performance Measurement Technique (SPMT) for construction
*R.Kunju Ahmad, A.G.F.Gibb & R.McCaffer*

15 **Site safety**

Safety program for volunteer construction workers
*B.C.Paulson, Jr*

Problems of implementing safety programmes on construction sites and some possible solutions (Hong Kong experience)
*S.M.Ahmed, S.L.Tang & T.K.Poon*

How to manage safety in the construction sites
*F.Giofrè & C.Piendibene*

Safety management on construction sites in Quebec
*J.Brun, M.Arial & C.Loiselle*

The changing nature of confined spaces
*J.Hinze & S.Baseden*

16 **Automation and hazard management**

Computer aided construction safety management in 21st Century: A human perspective
*A.K.Singh & V.Sachdeva*

</table>
19 Medical and health management – I

Prevalence of carpal tunnel syndrome among construction apprentices
J.C.Rosecrance, T.M.Cook, C.L.Zimmermann, D.Johnson & K.P.Farrell

669

Hardhat ergonomists: A regional training strategy for identifying and reducing musculoskeletal hazards in construction
S.Moir, M.Vogel & B.Buchholz

675

The work related health atlas for the construction industry
L.Akkers

681

Skin cancer and construction industry workers: Is it time to cover up?
C.Pritchard

689

Pre-planning of health and safety
J.Smallwood & C.Wheeler

695

20 Medical and health management – II

Differences in musculoskeletal symptoms and job factor perceptions between Slovak and US construction workers
T.M.Cook, C.L.Zimmermann, J.C.Rosecrance & K.Hatiar

705

Health Trak: A participatory approach for ergonomic improvement in construction
B.Buchholz, S.Moir & J.Garrett

711

Prevention of silicosis in concrete and masonry workers
K.D.Linch

717

Mortality patterns among construction site electrical workers
C.F.Robinson, M.Petersen & S.Palu

723

Occupational health in construction
J.J.Smallwood & R.Ehrlich

733

21 Medical and health management – III

The NIOSH respirator decision logic – Interactive edition
J.S.Nelson, K.Manchego Crase & R.W.Niemeier

743

What's killing carpenters? Injury and illness prevention for the future
T.Alterman, C.F.Robinson, K.Sieber & J.Durst

749

Implementation of safety and health on construction sites
I.M.Eilenberg

755

Buildings for healthy living: Building related illness
I.Senitkova

763
Occupational health management in construction – Problems and solutions
*A.G.F.Gibb, D.E.Gyi & R.A.Haslam*

**22 Accident statistics and risk analysis**

Analysis of accidents in bridge construction
*F.A.Branco & L.M.Alves Dias*

Application of risk mapping to construction project jobsites
*J.A.Gambatese & P.J.Stewart*

Identification of work organization risk factors in construction work
*P.L.Grubb & N.G.Swanson*

Work accident evaluation: The basis for safe and occupational health programs planning
*S.M.S.da Cruz & V.L.D.V.Pereira*

A Pareto analysis of construction and maintenance operations accidents
*J.A.Kuprenas, M.D.Kenney, Jr & E.B.Nasr*

**23 Program implementation and audits**

Safety and health design and management on the construction site: Guidelines for roles and application tools
*A.Gottfried & M.L.Trani*

Impact of safety programs on project performance
*A.P.C.Chan, F.K.W.Wong & K.K.Lo*

Auditing for excellence – The value of safety program audits
*W.G.Thompson IV*

A proactive approach to monitor construction safety using indicators of safety and quality audits
*A.W.K.Kwok & S.L.Tang*

The implementation of a safety management behavioural audit: Field study results
*I.Cameron & A.R.Duff*

**24 Standards/fall protection**

Safety-campaign ‘Fall risk in construction work’
*U.Berg*

An evaluation of safety programmes in construction companies
*F.Geminiani*
Elements of a fall safety through design program
F.E. Weisgerber & M.C. Wright

Findings of fall protection on Maui, Hawaii
E. Baker & A. Singh

Benchmarking safety management systems in contracting organizations against best practice in other industries

25 Safety management

Safety on the construction site
H. Hessing

Evaluation of safety content of registrar of contractors’ examinations
K. D. Walsh, S.A. Rashid & H. H. Bashford

Construction safety in developing countries
R. J. Coble & T. C. Haupt

Techniques for risk assessment based on research in the demolition industry
R. Trethewy, J. Cross & M. Marosszeky

Fall prevention in construction by organizational intervention
P. Becker, M. Akladios, G. Hobbs & M. Fullen

Author index
