Designing and Using Human–Computer Interfaces and Knowledge Based Systems

Edited by

Gavriel Salvendy
Purdue University, West Lafayette, IN 47907, U.S.A.

Michael J. Smith
University of Wisconsin, Madison, WI 53706, U.S.A.

# CONTENTS

## I. Future Directions

"Future Directions for Human-Computer Interaction"
Ben Shneiderman

## II. Software Psychology

"The Human Factors Design Process in Software Development"
Andrew M. Cohill

"Program Understanding as an Expectation-Driven Activity"
F. Detienne, E. Soloway

"A Qualitative Approach to Assessing Complexity"
C. Knowles

"Computer Based Collaboration for Software Development"
Mie Kishimoto, Shogo Nishida

"Evaluating and Debugging Analogically Acquired Models"
Beth Adelson

"Graphic Language Representation and Programming Behavior"
Albert N. Badre, Jeanette Allen

"Program Editing Based on Variable Plans: A Cognitive Approach to Program Manipulation"
Jorma Sajaniemi, Asko Niemeläinen

"Some Issues in Developing NUUMS"
Shijie Cai

"Beacons: A Knowledge Structure in Program Comprehension"
Susan Wiedenbeck, Jean Scholtz

"Reasoning and Explanation in an Intelligent Tutor for Programming"
Michael Ranncy and Brian J. Reiser

## III. Learning

"Online Assistance: The Development of a Help-System and an Online Tutorial"
Thomas Moll, Urs Fischbacher

"Level of Abstraction Structured Text in Varied Tutorial Settings"
James H. Wait, Sjef van den Berg

"The Effect of Program Authorship on Novice Debugging Performance"
Ray Waddington, Roger Henry

"Variations in Expertise: Implications for the Design of Assistance Systems"
Pierre Falzon and Willemien Visser

"An Analytical Review of Novice Typing Behavior and Evaluation of Educational Courseware Usefulness"
Yoshio T. Ikeda, Takashi Kondoh
"Subject Differences in the Reading of Computer Algorithms"
M. Crosby, J. Stelovsky

"The Implications of the New Skill Requirements for Training Programs"
Jasminka Novak

"Learning a New Programming Language"
Jeanne Scholtz, Susan Wiedenbeck

"Design for Trainability: Assessment of Operational Complexity in Man-Machine Systems"
Yan M. Yufik, E. James Hartzell

"Components of Computer Skill Acquisition: Some Reservations About Mental Models and Discovery Learning"
Marc M. Sebrechts, Richard L. Marsh

"Preference and Performance Differences for Three Syntax Diagrams"
David F. Loricchio

IV. Data Bases

"Towards Full Information Database Display"
T. Noreault, G.K.M. Tobin, R.M. Tobin

"The Use of a Generalized Hierarchy Exploration Tool in Search and Retrieval Systems"
Frank C. Carman II, Philip J. Smith, Steven S. Shute

"Graphical User Interface for Database Access and Expert Systems Applications in Construction"
Kenneth F. Reinschmidt

"Query Processing toward Complex View Support for a Library Database System"
Hideki Nishimoto, Shoji Ura

"A Friendly Graphical Environment for Interacting with Data and Knowledge Bases"
A. D'Atri, L. Tarantino

"A Spanish Natural Language Interface to Databases: A Context Free Language Approach"
Roberto N. Abuter

"Use of a Controlled Vocabulary Index in Information Retrieval Tasks"
Sally E. Doyen, Daniel D. Wheeler

"Digital Terrain Databases and Intervisibility: Human-Computer Requirements for Deployment Site Selection in C3I Systems"
S. Green, J. Ford

V. Graphics

"Human Performance in Computer-Aided Architectural Design"
D.L. Cuomo, J. Sharit

"Applications of CAD Modeling for Constructability Analysis of a Semi-Automated Piping Construction System"
Deborah J. Fisher, James T. O'Connor

"CRT Information Design in a Power Plant Control Room"
S.-L. Hwang, C.-Y. Chen
"Redesigning and Evaluating VDU Graphics for Process Control: Cognitive Ergonomics applied to the Operator Interface"
Tjerk W. van der Schaaf 263

"Effects of Display Mode on the Development of Mental Models Through Rule-Based Expert System Interaction"
Jack W. Posey, Ray E. Eberts 271

"Interactive Graphics Display Design Based on the Mental Models of Experts and Novices: Evaluating Users' Knowledge Acquisition"
Charles D. Caldwell, Ray E. Eberts 278

"The Design and Analysis of a Medical Imaging Workstation"
Jim Gee, Woodrow Barfield, David Haynor, Yongmin Kim 286

"Stereoscopic Computer Graphics for Neurosurgery"
Randy L. Sollenberger, Paul Milgram 294

"An Integrated Window Based User Interface for Engineering Design Using 3-D Graphics"
Klaus Lay, Andreas Brunn 302

"Presenting a Graphical Network: A Comparison of Performance Using Fisheye and Scrolling Views"
J.G. Hollands, T.T. Carey, M.L. Matthews, C.A. McCann 313

"The Interactive Adaptability of Graphics Displays"
R.W. Garneau, M. Holynski 321

"VIDEO: An Expert Consultant for Visual Design"
J.W. Roach 329

"The Design and Implementation of SunPict, a User-Extensible Visual Environment for Intermediate-Scale Procedural Programming"
David W. McIntyre, Ephraim P. Glinter 338

"Predictor Display for Woodshole Argo Submersible"
Chi-Cheng Cheng, Thomas B. Sheridan 346

"An Information Throughput Model for Complex, Transparent, Telescience Systems"
Richard F. Haines 354

"Human-Computer Interface Techniques for Map Based Diagrams"
Y.K. Leung 361

"Command and Graphic Interfaces: User Performance and Satisfaction"
J.W. Tombaugh, B. Paynter, R.F. Dillon 369

"Analysis of the Effectiveness of Graphics in Computer Aided Instruction"
W.J. Joel, R. White, W. Tucker 376

"QBD*: A Graphical Query Language with Recursion"
M. Angelaccio, T. Catarci, G. Santucci 384

VI. Dialogue Design

"Usability Engineering at a Discount"
Jakob Nielsen 394
"Fuzzy Data and Communication in Human-Computer Interaction: For Bad or For Good"
W. Karwowski, E. Kosiba, S. Benabdallah, G. Salvendy 402

"How Do We Trust Machine Advice?"
F. Javier Lerch, Michael J. Prictula 410

"Computer Interface for Severe Language Disability"
C. Goodenough-Trepagnier 420

"EASE: A User Interface for the Elderly"
M. Christensen, S. Chaudhary, R. Gottshall, J. Hartman, D. Yatcilla 428

"Constraining Ambiguity in a Specification Entry System"
Cheryl Street, Walling Cyre 436

"Webs, Trees, and Stacks: How Hypermedia System Design Effect Hypermedia Content"
Paul Kahn 443

"Human-Computer Interface Technology in Engineering/Construction"
Christopher Tilley 450

"Designing the Electronic Book: Human Psychology and Information Structures for Hypermedia"
Charles B. Kreitzberg 457

"Barriers to the Evolution to the Electronic Information Era"
Louis J. O'Kom 465

Morio Nagata, Tatsuya Imai 473

"Preliminary Explorations in the Development and Use of a Human Performance Model for Controlling the Critical Operations of a Flexible Manufacturing System"
Nobuto Nakamura, Gavriel Salvendy 479

"Multi-Dimensional Outlining"
K. Danielescn 487

"The Paper-Like Interface"
Catherine G. Wolf, James R. Rhyne, Hamed A. Ellozy 494

"Natural Language in a Desktop Environment"
Marilyn A. Walker 502

"The Perception and Tracking of State Changes in Complex Systems"
S.P. Davies, J.M. Findlay, A.J. Lambert 510

"Definition and Validation of User Interfaces"
M. Schlumberger 518

"Experimental Implementation Techniques for User Interface Adaptation"

"A User Interface Management System for Rapid Prototyping and Generation of Dialog Managers"
Johann Burgstaller, Joachim Grollmann, Franz Kapsner 533
