AMERICAN INSTITUTE FOR DECISION SCIENCES

PROCEEDINGS

13th Annual Meeting
of the
American Institute for Decision Sciences
Boston, Massachusetts
November 18-20, 1981

Volume 1

Proceedings Coordinators
Gary R. Reeves
James R. Sweigart
University of South Carolina

Program Chairperson
Robert E. Markland
University of South Carolina

Associate Program Chairperson
Terry Rakes
University of South Carolina
# TABLE OF CONTENTS

## ACCOUNTING

### Auditing I
- Improving the Response Rate to a Mailed Randomized Response Questionnaire and Evidence About False Sign-Offs by Internal Auditors
  - Thomas A. Buchman
- Users' Perceptions of Opinions on Internal Accounting Control
  - Andrew H. Barnett and M. Peter Dillaway
  - J. L. Boockholdt and D. R. Finley

### Auditing II
- Components of Lack of Normality in Major Estimators Used in Accounting and Auditing Applications
  - Gordon L. Duke, John Neter, and Robert A. Leitch
- The Perception of Messages Communicated by Narrative Disclosures
  - Robert W. Ingram and Katherine Beal Frazier
- Modeling Selected Audit Report Decisions: A Game Theoretic Approach
  - Stan Fromovitz and Stephen E. Loeb

### Managerial Accounting
- A Cost Allocation Model for Hospital Surgical Suites
  - Clifford R. Skousen and Gerald L. Hooper
- The Effect of Outcome Knowledge on Managerial Performance Evaluation Process
  - Lawrence A. Tomassini and Petrea K. Sandlin
- Modifying the Accounting-Based Performance Measure for a Due-Date-Based Production System
  - June D. Tyler

### Tax
- Estoppel Versus the Commissioner—A Current Look
  - Jerome S. Horvitz
- Inflation and the Taxation of Corporate Income
  - Mark L. Frigo
- Optimum Decision Analysis for the Application of the Net Operating Loss Deduction
  - Woody M. Liao and Jerome S. Horvitz

### Inflation Accounting
- Inflation Refinements in Inventory and Capital Budgeting
  - A. Wayne Corcoran and William C. Lawler
- The Impact of Price Level Changes in New England Based Companies
  - Gary A. Giroux, Steven D. Grossman, Stanley H. Kratchman, and Richard A. Rivers
- A Note on Forecasting Accounting Earnings: Results of a Comparative Experiment
  - Saleha B. Khumawala, Charles H. Brandon, and Jeffrey E. Jarrett

### Depreciation
- Uncertainty and Selection of Depreciable Lives
  - John C. Lere and Grover A. Cleveland
- Probabilistic Depreciation Using a Stochastic Concept of Conservatism
  - Amy Hing-Ling Lau and Hon-Shiang Lau
- Decision Theoretic Approach to Depreciation Decisions for the Small Growing Corporation
  - Donald Plane and Thomas A. Buchman

## FINANCE

### Financial Risk
- The Stationarity of the Industry Risk Structure
  - Moon K. Kim and John J. Chai
- Estimation Risk in Stochastic Dominance
  - Bill Stein, Roger Pfaffenberger, P. C. Kumar, and Tom Miller

### Interest Rates, Exchange Rates, and Commodities
- Exchange Rates, Interest Rate Parity, and Purchasing Power Parity
  - Yong H. Kim, David C. Leonard, and Michael E. Solt
- A Model for Investing in Soybean Futures
  - Edgar A. Ablowich and Lester W. Jacobs

### Risk-Return Analysis
- An Empirical Study of Stock Return Volatility
  - Edward L. Melnick and Dimitri Yannacopoulos
- Unanticipated Monetary Growth and Asset Yields
  - John E. Silvia and Randal E. Bottoms
- The Theoretical Relationship Between Systematic Risk and Price Elasticity of Demand
  - Thomas E. Conine, Jr.

### Financial Policy
- Capital Structure Under Personal Income Taxes
  - Stan Schenkerman
- Direct Equity Financing: The Resolution of a Paradox
  - Robert S. Hansen and John M. Pinkerton
Tutorial
Using the Tell-Back Interact System .......................................................... 154
John Hanke and John P. Dickson

Symposium
Intercollegiate Case Competitions for M.B.A. Students: Design, Implementation, and Benefits .................................................. 156
Thomas F. Urban

Educational Research in Business
Perceived Communications Barriers to Business Education Across Alternative Pedagogies .......................................................... 158
Alvin C. Burns and Steven P. Golen

A Conceptual Framework for the Discussion of the Effects of Dogmatic Thinking on Decision Making in the Business Course Environment .......................................................... 161
James J. Polczynski

Information Organization and the Learning of Business Discipline Basics .......................................................... 164
Alan J. Bush, William C. Moncrief, Alvin C. Burns, and Robert C. Mathews

Symposium: Innovative Approaches to Internationalizing the Business Curriculum
On the Teaching of Business in LDC’S .......................................................... 166
Paul Alper

MANAGEMENT INFORMATION SYSTEMS

Workshop
Educating the Information Resource Manager .......................................................... 171
Leslie D. Ball

Workshop
The Use of Prototyping in Information System Design .......................................................... 172
Thomas D. Clark, Jr., and A. Milton Jenkins

Implementation of Information Systems
 Developing Computer-Based Corporate Information Systems: A Management Perspective .......................................................... 173
William R. Boulton and K. Roscoe Davis

Modeling the Implementation Process for a Network Database .......................................................... 176
Prabuddha De, William D. Haseman, and Charles H. Kriebel

Integration of Job Design Variables into a Human Resource Information System: Conceptually Supportable Yet Not Done .......................................................... 179
Bruce H. Johnson, Gregory Moorhead, and Ricky W. Griffin

Decision Support Systems and Human Resource Information
Bridging the Gap Between Modeling and Data Handling in A Decision Support System Generator .......................................................... 182
Michael Sus-Yu-Lung Wang

An Analysis of Factors Affecting the Components of Human Resource Information Systems .......................................................... 185
Helen LaVan and Nicholas Mathys

Information Systems Design Theory
A Theoretical Basis for the Design of MIS in Strategic Management .......................................................... 188
William L. Fuerst and Carl P. Zeithaml

A Process Model of Information Requirements Analysis for Strategic Decision Support .......................................................... 191
Vasant Dhar and Joseph G. Davis

Information Systems
The Information-Communication Interface: A Typology of Decision Styles .......................................................... 194
Lyle Sussman and James Belohlav

Organizational Determinants of the Information System Post Audit .......................................................... 197
Scott Hamilton

The Use of Organization Development in Management Information System Change Projects .......................................................... 200
Gerry L. Desanctis and James F. Courtney

Decision Support Systems
Criteria for a DSS Generator .......................................................... 203
Ralph H. Sprague, Jr., and Raymond R. Panko

Successful Implementation of Decision Support Systems: The Role of the Information Transfer Specialist .......................................................... 206
Gemma M. Welsh

A Decision Support System for Identifying Critical Success Factors .......................................................... 209
G. Larry Sanders, James F. Courtney, and James R. Burns

MIS Curriculum and Applications
Curriculum Design for the DSS Specialization .......................................................... 212
A. S. Philippakis

Defining Word Processing Needs and Structure .......................................................... 215
Robert T. Keim and Peter J. Miller

An Update in a Longitudinal Study of the Adoption of an Electronic Mail System: The Effects of System Use .......................................................... 218
John P. Miller and Mary Lippitt Nichols

Design of Information Systems
Appropriate Technology in the Planning of Management Information Systems: "User Friendly" Design as a Paradigm for the Selection of Efficient Systems .......................................................... 221
Stephen R. Ruth

User Involvement in MIS: A Comparison of Two Empirical Research Studies .......................................................... 224
Charles R. Franz
MARKETING

Sales Forecasting
A Sales Forecasting Model for Competitive Bidding
Thomas C. Tucker .......................................................... 226
Selecting a Sales Forecasting Method for the Hotel Industry in a Major Metropolitan Area
Anthony C. Petto .......................................................... 229
Modeling Contemporaneously Correlated Sales Series with a Special Case of
Multiple Time Series Models
Sushila Umashankar ......................................................... 232

Survey Research Methodology I
Some Effects of Three Sources of Error in Market Survey Data
Michel Laroche and Zeki Gidengil ..................................... 235
Personalization as a Response Inducement Technique in Mail Surveys
Linda Neider and Paul Sugrue ........................................... 238
The Use of a Raffle as Incentive for Mail Survey
Ram Kesavan and Ken Kono .............................................. 240

Marketing Segmentation I
Solitary Bank vs. Joint Bank/Savings and Loan Customers:
A Psychographic vs. Demographic Appraisal
Dub Ashton and Maclyn L. Clouse .................................... 242
A Segmentation Analysis of Service Contract Ownership
Stuart Van Auken and Subhash C. Lonial ............................. 245
Segmenting the Elderly Market
Mary C. LaForge, Warren A. French, and Melvin R. Crask ........ 248

Symposium
Approaches for the Analysis of Categorical Data in Marketing Research
Nicholas M. Didow, Jr., William R. Dillon, Jay Magidson, Bengt Muthen,
and William D. Perreault, Jr. ........................................... 251

The Product Life Cycle
Modeling the Product Life Cycle: A Methodological Study of Basic Models
Mehdi K. Rashidi, James W. Gentry, and Billy M. Thornton ........ 253
The Product Life Cycle and Time Varying Advertising Elasticities: Another Look
Raj Arora ........................................................................... 256
The Uncertain Future of Horse Racing: An Application of the Product Life Cycle
Eugene M. Johnson and Charles P. Armstrong ....................... 259

Special Session
New Developments in the Measurement of Consumer Preferences
Ralph Day, Seo Eil Chaly, Ellen Day, and Tsung Wen Wu .......... 262

Nonstore Retailing
Mail Order: A Strategy for U.S. Business in Europe
Jerald L. Weaver .................................................................. 265
Catalog Buying Behavior: A Multivariate Approach
Uday S. Tate, John P. Daniels, and Terry T. Ball ..................... 269
In-Home Shopping: A Profile Comparison of Increased and Decreased Usage Groups
Barnett A. Greenberg and James R. Lumpkin ......................... 272

Conjoint Analysis
A Conjoint Analysis Approach to Advertising Theme Creation
Wilbur W. Stanton and Richard M. Reese ............................. 275
A Potential Problem in the Use of Orthogonal Arrays in Conjoint Analysis
James C. Anderson .......................................................... 278
Comparative Evaluation of Reliability Measures for Alternative Data Collection Procedures
Madhav N. Segal .............................................................. 281

Survey Research Methodology II
Offer of Results and Mail Survey Response from a Commercial Population:
A Test of Gouldner's Norm of Reciprocity
Roger A. Kerin, Thomas E. Barry, Alan J. Dubinsky, and Michael G. Harvey .... 283
Mailed Surveys of Organizations and Technological Innovations
John E. Ettile .................................................................... 286
Impact of Cover Letter Detail on Response Patterns in a Mail Survey
A. Parasuraman .............................................................. 289

On Payment Systems
Consumers Who Lose Control of Their Spending: Attitudinal and Behavioral Correlates
Elizabeth C. Hirschman ..................................................... 292
Attributes of Actual and Ideal Payment Systems
Elizabeth C. Hirschman ..................................................... 295
Consumer Acceptance of Credit Card Fees: A Trade-Off Analysis of Alternative Schedules
Inder Khara and Yitshak Dayan .......................................... 298

Symposium
Marketing and Educating for the Future
Ben M. Enis, J. Barry Mason, Ronald Stempfl, and M. Wayne DeLozier .... 301

Concepts Papers in Marketing
Modeling Multiple Criteria Product Development Decisions
Michael J. Stahl and Thomas W. Zimmerer ......................... 305
A Graphical Application of the Concept of Marginalism to the Determination of the Promotion Mix
Terence A. Oliva and R. Eric Reidenbach

Marketing Segmentation II
Segmentation of the Small Car Market: An Illustration Using Multiple Classification Analysis
Phillip B. Niffenegger

Objective Assessment of Cluster Analysis Output:
Theoretical Considerations and Empirical Findings
Robert A. Hansen and Glenn W. Milligan

Segmenting Consumer Checking Account Customers: An AID Approach
Jim L. Grimm and James B. Spalding, Jr.

Concerns in Sales Management
Understanding the Environment: A New Consideration for Salesforce Performance.
Eric N. Berkowitz and James L. Ginter

The Role of Communication Strategies in the Salesperson Selection Process
John R. Walton, Alan J. Dubinsky, and Cathie Michlitsch

Retailing Issues
Retail Employees’ Moral Judgments About Employee Theft.
Michael K. Mills

The Impact of a Major Competitive Environmental Change on Retail Images
John P. Dickson and John Hanke

Retail Gravity Models in Marketing
James J. Buckley, Alan H. Kvanli, and Warren S. Martin

ORGANIZATIONAL BEHAVIOR

Social Learning: A New Approach to the Theory, Research and Application of Organizational Behavior
Fred Luthans, Tim R. V. Davis, Henry Sims, Charles Manz, and Jeffrey Pfeffer
An Introduction and Theoretical Framework for a Social Learning Approach to Organizational Behavior
Fred Luthans

A New Perspective for Research of Organizational Behavior from Social Learning Interactionism: The Case for an Idiographic Approach
Tim R. V. Davis

An Application of Social Learning Theory: The Self-Management of Behavior in Organizations
Henry Sims and Charles Manz

A Critical Analysis of Social Learning Theory
Jeffrey Pfeffer

Workshop
Modeling Effective Leader Verbal Behaviors: An Approach to Individualized Management Development
Dennis A. Gioia, Henry P. Sims, Kenneth R. Graham, and Charles C. Manz

Cognitive Processes and Decision Making
Training and Instrumentation for Performance Appraisal: A Perceptual-Cognitive Viewpoint
Jack M. Feldman

Problem-Solving Styles and Participative Decision Making
David M. Schweiger and Arthur G. Jago

On the Efficiency of Human Heuristics: A Simulation Experiment
Gerald L. Rose

Career Issues
The Impact of Increased Female Managerial Participation in Selected High Status Professions on the Status of Those Professions
Michael D. Crino, Gerry L. DeSanctis, and Michael C. White

Predictors of Work-Related Competence: Are They Different for Men vs. Women?
Nealia S. Bruning and Robert A. Snyder

Staffing, Task Assignment, and Job Enrichment
Correlates of Staffing Sufficiency: A Test of an Optimal Level Hypothesis
Robert P. Vecchio and Mario Sussman
The Effect of Input/Outcome Orientation on Responses to Job Enrichment
Ray V. Montagno

Work Group Cohesiveness and the Task Assignment Decision
Steven C. Ross

Bias and Errors in Rating Processes
The Difference Experience Makes: Illusory Correlation in Performance Appraisal
Jack M. Feldman, G. Michelle Gatti, and Artegal Camburn

The Use of Random Versus Grouped Modes in Controlling Leniency in Leader Behavior Descriptions
Chester A. Schriesheim

The Effects of Stereotypes on Leader Behavior and Performance Ratings
Allyn G. Blencoe, Leanne C. McGrath, and Angelo S. DeNisi

Employee Commitment and Turnover
Modeling Turnover Behavior: A Comparative Analysis of Three Multivariate Turnover Models
Michael J. Stahl and Charles W. McNichols
