1988 PROCEEDINGS
1988 Annual Meeting
Decision Sciences Institute
November 21-23, 1988
Las Vegas, Nevada

VOLUME 2
Marketing
Microcomputer Applications in Business and Education
Multiple Criteria Decision Making
Organizational Theory and Behavior
Production and Operations Management
Public Sector Applications
Quantitative Techniques and Methodology
Service Management
Strategy and Policy

Ernest C. Houck, Proceedings Coordinator
Virginia Polytechnic Institute and State University

Bernard W. Taylor, III, Program Chair
Virginia Polytechnic Institute and State University
CONTENTS—VOLUME 2

MARKETING

662 Critical Aspects of the Advertising/Sales Relationship
    Robert R. Johnson

663 Estimation of the Advertising/Sales Relationship
    Robert R. Johnson

Topic Table: Topics in Product Policy and Marketing Strategy
664 Business Alliances to Win Project Contracts in Africa
    Michael Taku and Gary E. Popp
664 Product Life Cycle Generation: A Dual Model Approach
    Wayne H. Goff
664 Regression Modeling of the Number of Product Offerings of U.S. Auto Manufacturers Using Concurrent-Period and Lagged Independent Variables
    Albert E. Avery and Algin B. King

International Marketing
665 The Value of Computer Based Marketing Planning Systems in International Marketing
    Lawrence Dandurand
669 American Business' Missing Link—Foreign Language Proficiency
    Stanley R. Renas, Rasoul Afifi, and Sheng Liang Deng
672 Power-Conflict Relations in Distribution Channels: An International Study
    Ugur Yavas and Ghazi Habib

Issues in Marketing Research
675 Statistical Estimation of Importance Weights in the Multiattribute Attitude Model: Multiple Regression or Structural Equation Analysis?
    Lexis R. Higgins and Scott C. McIntyre
678 Surveys versus Diaries in Measuring Consumption: Some Further Evidence
    Michael Y. Hu, Rex S. Toh, and Steven Fisher
681 Factor Analysis, Multidimensional Scaling and Cluster Analysis: A Comparison When Applied to Product Attribute Data
    Fahri Karakaya and Michael J. Stahl

Service Industry Marketing and Personal Selling
684 Keys to Profitability: Results from Service Industries
    William L. James, Ven Sriram, Michael F. Canders, and Mary Kate Clarke
688 Creating a Selling Environment in a Sales Management Course
    John H. Hallaq
691 A Successful Application of Discriminant Analysis to the Salesperson Selection Process
    James Randall and David Good

Effects of Advertising
694 Backmasking: Can It Influence Behavior?
    James B. Hunt and David J. Lill
697 Comparative Advertising with Direct Mail: Some Insights and a Descriptive Model for Marketing Financial Services
    Judy Wiles and Emin Babakus
700 Changing Patterns of Children's Television Viewing during a Period of Expanding Cable Penetration
    Robert L. King

Topic Table: Topics in Marketing, Promotional Strategy and Brand Development
704 Marketing Strategy Template for Planning Using Lotus 1-2-3
    Richard D. Nordstrom
704 Small Business Brands: A Matter of Development
    Carlton A. Maile and Donna M. Bialik
704 A Cross-Cultural Examination of Sport as an Advertising Theme to Target Collegians
    Stephen J. Grove, Mary C. LaForge, Patricia A. Knowles, and Richard A. Dodder
704 Buy N Get One Free
    K. N. Lau and A. Kagan
704 Consumer Buying Behavior and Optimal Advertising Pulsing Decisions
    Hossein Arsham
Marketing Information and Expert Systems
705 Vertical Market Choice Using Expert Systems
    C. M. Sashi and Vaman S. Kudpi
708 Computer Ethics and Computer Based Crime: A Marketing Information Dilemma
    George W. Wynn, Joan K. Pierson, and Karen A. Forcht
712 Documentation Recommendations: Marketing Information and Other High Documentation Needs
    George W. Wynn, Joan K. Pierson, and Karen A. Forcht

Issues in Product and Pricing Policy
717 Optimal Pricing Policy for a New Product under the Threat of Competitive Entry
    Hani I. Mesak
720 Product Selection and Retention: A Quantitative Decision Model
    Carlton A. Maile and Donna M. Bialik
723 The Morphological Method for Generating New Product Ideas
    Jaya Singhal

Topic Table: Behavioral Topics in Marketing
726 Selecting Target Markets Using AHP
    Vijay Bhasin and James Moore
726 Determinants of Preferences for Local Goods across Product Categories
    Ugur Yavas
726 The Elderly Consumer: A Unique Challenge for the Non-Store Retailer?
    R. Eugene Klippel, Robert L. Anderson, and David J. Ortinau
726 Motivating Industrial Salespeople: An Empirical Test of Alderfer's Existence, Relatedness, and Growth Theory
    Emin Babakus, Robert L. Berl, N. C. Williamson, and Patrick L. Schul
726 Strategies for the Minimization of Learned Helplessness in the Salesforce
    Tammy G. Hunt and James B. Hunt

Issues in Retailing and Channels of Distribution
727 A Causal Modeling Analysis of Intrachannel Conflict and Satisfaction
    John F. Gaski
730 Perceived Risk and Convenience as Predictors of Consumer Telephone Shopping
    Peter K. Tat and Robert L. Berl
734 Competitive Pricing Level Considerations and Pricing Emphasis within a Strategy Mix: Can They Affect Retail Profitability?
    L. Lynn Judd and Raymond E. Taylor

Industrial Marketing
737 Competitive Excellence: A Manufacturing-Marketing Synergistic Model
    Amiya K. Chakravarty and Sanjoy Ghose
740 The Effect of "Decontrol" on Jobbers within the Petroleum Industry
    Wendell C. Hewett

MICROCOMPUTER APPLICATIONS IN BUSINESS AND EDUCATION
743 Microcomputer Lab in POM
    Steve H. Zanakis, Tomislav Mandakovic, and Sushil K. Gupta
744 Designing User Friendliness into Personal Computer Simulations

Microcomputers in Business Education I
745 The Merger of Expert Systems and Microcomputers as a Training Paradigm
    Thomas A. Rathburn and G. Jay Weinroth
748 The Effects of Computer-Assisted Instruction: A Methodological Evaluation of Learning Outcomes
    Peter W. Stonebraker and Ray W. Coye
751 Attitudes about Computers: The Influence of Education
    John R. Tanner and Daniel G. Hotard

Topic Table: Microcomputer Software Development and Evaluation
754 Simulating Statistical Sampling Distributions: A Microcomputer Approach
    Wade M. Jackson, Donald W. Satterfield, and Lloyd D. Brooks
754 The Differences between GPSS/PC and GPSS V and Their Impacts on Simulation
    Wei Shih and Joane T. Krosendijk
Microcomputer Simulation Software Evaluation Using the Analytic Hierarchy Process
Ha Jin Hwang and Kwan Hee Park

Software Quality Can Be Measured
Jagannathan V. Iyengar

Evaluating Microcomputer Applications Courses in Business Curricula
Mehdi Khosrowpour, Gayle Yaverbaum, and Barbara (Mex.) L. Bleau

Apple Macintosh: Increasing Your Productivity with the PC Alternative
Michael A. Cox

Modeling Labor Availability by a Cusp Catastrophe in a Configurable Business Simulation
Precha Thavikulwat

Networking and Business Simulations: Opportunities and Problems
Ronald Tuninga and Arthur Sybrandy

The Responsiveness of Players' Strategies to the Simulation Environment

Penney Wise & Pound Fuelish
Rick Hesse

A CAD/MRP Interface with CAPP: A Case of Wire Products
Joaquin Vila, Madison M. Daily, and Yildirim Omuratag

An Analysis of How the Use of Personal Computers in an Introductory Business Statistics Course Affects the Overall Performance of the Students
Robert E. Meier

Personal Computer Use in the Executive MBA Program
Carter L. Franklin

Perceived Student Satisfaction with Using Spreadsheets in Introductory Managerial Finance Courses
Theodor Kohers and Robert Nagy

CD-ROM Technology Applications in Business and Business Education
Henry Feeser

Software Decision Making in a Teaching Environment
James J. Divoky and E. Lee Wilson

Integration of Micro-Software in Quantitative Courses
Ashok K. Soni and Donald L. Harnett

Accounting Educational Standards for Computer Literacy
Henry Wichmann, Jr., E. T. Robinson, and Katherine R. Seaver

Simulating MRPII Systems for Teaching and Research Using an Integrated Spreadsheet System
Stephen A. DeLurgio and Jiguang Zhao

Stochastic Linear Programming on Spreadsheets
Chang-tseh Hsieh and Rodney L. Carlson

A Forecasting Model of Management Decision Making under Uncertainty Using the Electronic Spreadsheet
Seyed-Mahmoud Aghazadeh

The Application of Bar Coding Technology in Retail Stores
Joy A. Daniel and Batoul Modarress

Preparation of Manufacturing Overhead Variances Analysis: An Application of Lotus 1-2-3
Nabil Hassan, C. Edward Campbell, and Sarah Palmer

An After-Tax Three-Phase Dividend Discount Model and PC Program
Richard W. Taylor

Developing a Modestly Priced Microcomputer MIS/DSS System with Multi-Tasking and Multi-User Capabilities
Vincent E. Cangelosi and Harold P. Langford

Education Input in the Information Industry: An Empirical Investigation
Thomas V. Atkins and Nicholas C. Georgantzias
The Effect of Local Area Network Technology on the Time Utilization of Information Workers
Joanne Sulek and Ann Marucheck

Evaluating the Effectiveness of Microcomputer-Based DSS
Kathy B. Gaines and A. Ansari

Microcomputer Applications

Course and Classroom Scheduling: Assessing a Market for Computer Software Support
Clare Comm and Dennis Mathaisel

Microcomputer Applications in the Gaming Business: Taking a Byte out of Casino Profits
Marvin Karlins and Edyth Karlins

Spreadsheet Macro Programming Quality in End-User Applications
Robert Klepper and Chuck Litecky

Innovative Approaches to Using Microcomputers in Education

End-User Systems Development: A Proposed Pedagogy
Uthai Tanlamai and Peter Simis

Using Integrated Decision Support Software (IDSS) to Explore a Firm's Financial Transactions
Louis M. Johnson, Jr., Thomas A. Gavin, and J. Kim DeDee

The Computer as Symbolizer: From Personal Efficiency to Personal Effectiveness
Charles F. Douds

MULTIPLE CRITERIA DECISION MAKING

Multiple Objective Programming

A Comparison of Multiobjective Programming Reflection of Utility
David L. Olson, John Mote, and M. A. Venkataramanan

On the Origin and Persistence of Error in Goal Programming
Hokey Min and James Storbeck

Multicriteria Optimization

Experiments on Zionts-Wallenius Efficiency Procedure—Theory and Empirical Results
Hae Chung

A Bicriteria Model for a Reverse Distribution System: The Case of Product Recall
Hokey Min

An Interactive Branch and Bound Algorithm for Bicriterion Nonconvex Mixed Integer Programming
Yasemin Aksoy

Topic Table: MCDM

Smoothing the Scheduling of Periodic Production
Peter M. Ellis

A Method to Establish Top Level Objective Importance Weights
R. C. Ellis

Selecting a Doctoral Program Using the AHP
Vijay Bhasin and Suresh Tadisina

Assessing Faculty for Promotion and Tenure
Krishna S. Dhir

Multiple Criteria Analysis

Analytic Hierarchy Process in Developing Combined Objective Functions
David L. Olson

A Mass Concept for Optimal Scaling in the Method of Abstract Forces
Marvin D. Troutt and Roy J. Clinton

ORGANIZATIONAL THEORY AND BEHAVIOR

Managers and Leaders

Sex and Humor Effects in Evaluating Leaders
Wayne H. Decker

Identity as a Manager: A Replication and Extension
Harold J. Joseph, Ramon Aldag, and John Keenan

Japanese vs. American Management: Analysis of the Evidence
Richard M. Hodgetts and Fred Luthans
Topic Table: Empirical Issues in Organizational Behavior and Organizational Theory
846 An Empirical Examination of Critical Success Factors of Conflict in Project Management
Mahmoud Falaki, Mahnmmad Khujasteh, and Edgar L. Williams, Jr.
846 The Effects of Group Size on the Performance of Nominal Groups
Gene E. Burton
846 Power Zones and Physician/Administrator Decision-Making
Janelle Heineke and Larry Meile
846 A Multiple Intervention Program for Improving Productivity in a Hospital's Diagnostic Services Department
Michael Koshuta and Michael K. McCuddy

Topic Table: Current and Emerging Issues in Organizational Behavior and Organizational Theory
847 Organizational Relationships between Artificial Intelligence and Industry
Lexis F. Higgins and Scott C. McIntyre
847 Information Systems Professionals and Leadership: Some Emerging Behavioral Patterns
A. B. Shani, Lars E. Perner, and Eldon Y. Li
847 Sheraton's Entry into China: Cultural and Operational Issues
Joseph W. Weiss

Statistical Applications in Organizations
848 Construct Validation: An Application of Meta-Analysis
Kenneth P. Carson and Angelo J. Kinicki
851 Strategies for Covariance Structure Modeling of Panel Data: The Effects of Residual Misspecification on Structural Outcomes
Gerald E. Fryxell and Larry J. Williams
854 Path Analytic Assessment of Two Models of IR's
Thomas J. Callahan, James Skivington, and Robert Munczka

Conflict and Values
858 The Impact of Type A Behavior and Personal Control on Perceptions of the Jury Decision Making Process
Pamela L. Perrew, Jack M. Nelson, and Patrick F. Maroney
861 Rank and Situational Differences in Managerial Use of Conflict Resolution Modes
Joan Mills and Leonard H. Chusimir

Issues in Organization: Expert Systems, Organizational Decline, Executive Compensation
864 An Organizational Perspective on Expert Systems: Human Information Processing and Organizational Technology
Harold D. Carrier and Robert O'Keefe
867 The Growth of Decline: Research Streams in the Current Literature on Organizational Decline
Mark A. Mone and William McKinley
870 Corporate Write-Downs and Top Executive Change: The Executive Compensation Link
Sharon M. Moody and Aaron L. Phillips

Attendance, Turnover, and Commitment
873 Post-Decision Accommodation for Those Who Remain: Attitudinal and Behavioral Consequences of Voluntary Faculty Turnover
Patricia M. Seybolt
876 Job Involvement and Organization Commitment: A Comparison of Dual Career and Single Career Families
David Elloy, Randolph Flynn, and Luke Novelli

Topic Table: Employees, Manager, Values, and Ethics
879 Work Values, Work Importance, and Job Attitudes of Chinese Managers: An Exploratory Investigation
Lee A. Graf, Masoud Hemmasi, Yuhua Liang, and Mike Tcheng
879 Corporations and Employee Smoking: New Directions
J. Carroll Swart
879 Whistleblowing and Communication Climate: Implications Regarding Managers' Response to Fraud, Waste and Mismanagement
John P. Keenan
879 Psychological, Demographic, and Situational Determinants of Insider Trading
Mario G. C. Reyes and David E. Terpstra
879 Business Owners and Corporate Managers: The Distinctive Difference
James W. Carland, JoAnn C. Carland, and H. Wayne Stewart

PRODUCTION AND OPERATIONS MANAGEMENT
880 Integrated Finite Loading Systems
Kenneth R. Baker, Robert F. Guise, Arthur V. Hill, Steven R. Lawrence, Gary L. Ragatz, and Thomas G. Schmitt
Master Production Scheduling
881 PDP—A New Approach to Master Production Scheduling
   Barbara Blankenship and Batoul Modarress
884 An Analysis of Lot-Sizing Cost and Schedule Stability in Freezing the Master Production Schedule under Demand Uncertainty in a Rolling Schedule Environment
   V. Sridharan and William L. Berry
887 Demand Management in the Assemble-To-Order Environment
   Gary M. Kern and Hector H. Guerrero

Issues in Cellular Manufacturing
890 Economic Justification of Engineering Data Base Systems for Group Technology Applications
   Urban Wemmerlöv and Nancy Lea Hyer
893 A Comparison of Dynamic Scheduling Heuristics for Cellular Manufacturing
   Farzad Mahmoodi, Kevin J. Dooley, and Patrick J. Starr
896 The Role of Group Technology in Manufacturing Strategy
   Nancy Lea Hyer and Narinder Kathuria

Topic Table: Production Planning and Inventory Control
899 A Multifunctional Iterative Aggregate Planning Model
   K. Ravi Kumar, Deborah Scholz, and William Youngdahl
899 How Good Are Aggregate Production Plans that Are Generated Using Spreadsheet Software?
   Richard J. Penlesky and Rajesh Srivastava
899 Production Characteristics—A Framework for Linking Control Systems and Environment
   Daniel C. Steele
899 Analysis of Reject Allowance Policies in an MRP Environment
   Ibrahim Kurtulus and David W. Pentico
899 An LP-Based Heuristic Procedure for Multi-Item Lot-Sizing Problem with Capacity Constraints
   Harish C. Bahl and Bahman Mirshab

900 Tutorial: Cutting and Packing Problems—A Review of Current Research
   Paul E. Sweeney

Production Planning
901 The Effect of Subcontracting Capacity on Pricing
   Cheryl Gaimon
903 Disaggregate Planning in a Coordinated Production Environment
   G. Keong Leong, Michael D. Olliff, and Kenneth Darby-Dowman

Topic Table: Issues in Materials Management
906 A Simulation Study of the Effectiveness of Buffering Techniques in an Assemble-to-Order Environment
   Chairat Hiranyavasit, K. Kern Kwong, and Wing Fok
906 The Purchase Discount Quantity Decision under Open Order Rescheduling in Multi-Level Assembly Systems
   Rajesh Srivastava and W. C. Benton
906 Analysis of Improvement Steps in Capacitated Lot-Sizing Heuristics
   Peter J. Billington
906 A Quantity Discount Model with Price Sensitive Demand
   Prafulla Joglekar and Jack Rappaport
906 A Quantitative Procedure for Estimating the Cost of Imported Merchandise When Currency Futures Are Used for Managing Exchange
   Joseph R. Carter, Shawnee K. Vickery, and David Mendez

Topic Table: Issues in JIT and FMS
907 Modeling the Loading Decisions in FMSs via Petri Nets
   Chen-Hua Chung and In-jazz Chen
907 Just-In-Time Manufacturing Research: A Review and Critique
   Arthur V. Hill, Karen Goodner, and John Lunde
907 Impact of Container Conveyance Cost on the Optimal Lot Size for a Just-In-Time Inventory System
   Stephen H. Goodman and Arthur A. Rasher
907 Application of Just-In-Time: Comparing U.S. Companies and Japanese Subsidiaries in the U.S.
   Farzaneh Fazel and Masoud Hemmasi
907 The Impact of Computer Facilities on Unmatured or Small Just-In-Time Production Systems
   Gyu Chan Kim

908 Research Trek: The Search for Research Opportunities in Purchasing in the 1990’s
   Robert Landeros and Vicki L. Smith-Daniels

**Inventory Models**

909 A Demand Theoretic Analysis of Economic Manufacturing Quantity: Implications for Traditional, OPT, and ZI Approaches

Jaya P. Molloy

912 Comparison between Sole- and Dual-Sourcing Stochastic Lead Time Inventory Models: Analysis of a Simplified Base Case

R. V. Ramasesh, J. K. Ord, and J. C. Hayya

915 Tracking Signals for Inventory Systems Performance

Charles Watts, Chan K. Hahn, and Byung-Kyu Sohn

**Productivity and Work Measurement**

918 Developing Productivity Standards in a Physical Distribution System

Brian F. O'Neil, Michael R.W. Bommer, and Kathleen Sliva

922 Appraising the Productivity of Flexible Manufacturing Systems

Roby Rajan

925 Regression Analysis for Predicting Machine Efficiencies: A Response to Short Product Life-Cycles

Gary P. Fellers and Patsy A. Lewellyn

**Multi-Level Inventory Systems**

928 A Comparative Analysis of Distribution Requirements Planning and the Pull Approach in an Integrated Multiechelon Distribution System

R. Dan Reid

931 Evaluating Performance Impact of Forecast Error Patterns upon Multistage Production-Inventory Systems

T. S. Lee, Jerome D. Wiest, and Xiande Zhao

934 Optimal Policy Approximation for Multi-Echelon Inventory Systems

Khalil F. Matta and Diptendu Sinha

---

**ix**
968  Measuring Manufacturing Flexibility  
John Robb Dixon

MRP Issues
971  The Impact of Component Part Commonality on Manufacturing System Performance  
J. S. Kim, David A. Collier, and Daniel J. Bragg
974  An Environmental Classification Scheme for Analyzing Multi-Level Assembly Systems  
Rajesh Srivastava and Richard J. Penleaky
977  An Investigation of Alternative Dampening Procedures to Cope with MRP System Nervousness  
Chrwajjhy Ho and Phillip L. Carter

Quality Control
980  Simultaneous Optimization in Process Quality Control via Prediction-Interval Constrained Programming  
David L. Olson, Jerry C. Wei, and Edna M. White
983  Designing Acceptance Sampling Plans under Lot Splitting  
Alfred L. Guiffrida and David P. Christy
986  Setting Process Control Limits: Resistant versus Non-Resistant Measures  
T.J. Wharton and Edna M. White

Just-In-Time Systems
989  Sequencing Rules for Kanban-Controlled Lines  
Blair J. Berkley
992  Derivation of a Revised Economic Order Quantity Model for Just-In-Time Systems  
Stephen H. Goodman and Arthur A. Rasher
995  Modeling Safety Stock and Stockout Costs in a JIT Environment  
Scott R. Swenseth and Frank P. Buffa

Production-Distribution Systems
998  Analysis of Capacity Utilization in a Multistage Manufacturing/Distribution System: A Simulation Study  
Robert B. Handfield, Ronald T. Pannesi, and Ann S. Maruch
1001  A Study of Some Specialized Fixed Charge Problems in Production and Service Environments  
Manohar S. Madan and Anand S. Kunnathur
1004  An Efficient Approach for Determining Optimal Joint Production-Distribution Policy  
Wai K. Law

Design of Assembly Lines
1007  Assembly Line Research: Historical Patterns and Current Directions  
Roger J. Gagnon and Soumen Ghosh
1014  A Multivariate Analysis of Flow Line Output  
Neil B. Marks
1017  A Chance-Constrained Programming Approach for Stochastic Assembly Line Balancing Problem  
Dooyoung Shin

Multistage Lot Sizing
1020  Cost of Capacity in Multi-Level Production Systems  
Peter J. Billington and Robert A. Millen
1023  An Incremental Approach to Lot-Sizing with Quantity Discounts  
Kevin Gorman
1026  Lot-Sizing Rules for a Multistage Production System  
Enar A. Tunc and William A. Miller

Scheduling I
1029  An Efficient Heuristic for Scheduling the Operation of a Continuous Miner and Bolter  
John J. Bernardo and Edward Gillenwater
1032  Variance Minimizing Schedules: Heuristic Solution and Lower Bound for Performance Evaluation  
Prabuddha De, Jay B. Ghosh, and Charles E. Wells
1035  Combining Simple Priority Rules: An Approach to Improve the Performance of a Flow Dominant Shop  
Samir Barman and R. Lawrence Lafoge

Models for Cellular Manufacturing
1038  A Simulation Investigation of the Stochastic Behavior of Selected Group Technology Similarity Coefficients  
Kathleen M. Harrigan and Charles T. Mosier
1042  A 0-1 Integer Programming Cell Formation Model for Cellular Manufacturing  
Jerry C. Wei and Norman Gaither
1045  Demand Changes and Robustness in Cell Design  
Bharat K. Kaku and Assoo J. Vakharia
Scheduling II
1048 The Effects of Bottleneck Operations in a Job Shop
Paul Sungchil Park

1051 Tooling Constraints and Shop Floor Scheduling: Evaluating the Impact of Sequence Dependency
Soumen Ghosh, Gary L. Ragatz, and Steven A. Melnyk

1054 A Multiple Vehicle Scheduling Algorithm Employing Operator Theory
Paul M. Bobrowski and Gary M. Kern

Safety Stock in MRP Systems
1057 A Modified Heuristic for Allocating Safety Stock in a Multistage Environment
James A. Messersmith, W. C. Benton, and Keong Leong

1060 Safety Factor as a Buffering Technique in MRP Systems
Jaya P. Moily and Sharma Pillutla

1063 Effectiveness of Safety Stock to Reduce MRP System Nervousness
V. Sridharan

Teaching and Research in Operations Management
1066 Production and Operations Management Option at MBA Level—A Survey
Harish C. Bahl

1068 Using Taguchi Methods as a Quality Management Tool
Barbara Warsavage and Richard Discenza

1072 Decision-Making in Operations Management Using Net Present Value: Opportunities for Research
John J. Kanet and Raymond A. Jacobs

Clustering Techniques for Group Technology
1075 A New Similarity Index and Clustering Methodology for Formation of Manufacturing Cells
Asoo J. Vakharia and Urban Wemmerlöv

1078 A Comparison of Array-Based Clustering Techniques for Manufacturing Cellular Formation
Chao-Hsien Chu and Mayshing Tsai

1081 A Graph-Theoretic Approach for Component Family Identification
Fazlollaah Amirahmadi

International Production
1084 A Location Life Cycle Theory for High Technology Multinational Manufacturing Corporations
Peter Haug

1087 A Comparative Study of Strategic Role of Manufacturing Function in American and Japanese Companies
Masoud Hemmasi and Farzaneh Fazel

1090 A Binational Production Sharing Program: The Maquiladora Industry
Juan J. Gonzalez and John P. McCray

Location and Layout
1093 A Graph-Theoretic Heuristic Approach to Layout
Edward F. Stafford, Jr.

1096 Performance of the Simple Add Heuristic Adjusted for the Multi-Period Environment
Amir M. Hormozi and Basheer M. Khumawala

1100 Discrete Implementation of Full Turnover Assignment in Automated Storage and Retrieval Systems
Bruce C. Raymond

FMS Scheduling
1103 Scheduling in Random Flexible Manufacturing Systems
Jim Hutchison

1106 FMS Implementation Procedure: A Case Study
Allen E. Smith and Timothy D. Fry

1109 Decision Rules for Switching Flexible Capacity between Competing Products
Amiya K. Chakravarty

Topic Table: Inventory Issues
1112 Guidelines for Setup Reduction Programs to Achieve Zero-Inventory
James R. Freeland, John P. Leschke, and Elliott N. Weiss

1112 Optimal Lot Sizing and Lead Time Reduction
Silvanus T. Enns, Arthur V. Hill, Arunaro Mukerjee, and Thomas R. Rohleder

1112 Modeling Price, Production, and Salvage Capacity Decisions as a Newsboy Problem with Market Valuation Methods
George Tannous and Paul M. Mangiameli

1112 An Analysis of the Tradeoffs between Single and Dual Vendor Procurement Systems When Quantity Discounts Are Involved
Jack L. Martin, Udayan Nandkeolyar, and Alfred L. Guiffrida

1112 Procurement: Optimal Splits and Quantity Discounts in the Dual-Sourcing Deterministic Model for Bottleneck Strategic Items Where No Shortages Are Allowed
Jack L. Martin, Marianne Hooper, and Jack C. Hayya

Purchasing Strategies

1113 Source Selection Criteria Importance for Different Buyer/Seller Relationships: An Empirical Study
Robert Landeros

1116 Integrating Purchasing's Strategic Development with Supplier Performance Criteria
David M. Lyth and Robert F. Reck

Issues in Setup Cost Reduction

1120 Setup Cost Reduction Model
S. L. Kim and Jack C. Hayya

1123 Effects of Setup Time Reduction on Batch Flow Processes
Joseph D. Blackburn and Mark C. Springer

1126 Investing in Setup Cost Reduction in the Joint Economic Lot Size Model
John F. Affisco, M. Javad Paknejad, and Farrokh Nasri

Inventory and Scheduling Issues

1130 A Multi-Family Capacitated Dynamic Lot-Sizing Model with Coordinated Replenishments
S. Selcuk Erenguc and H. Murat Mercan

1133 Integrating Petri Nets and Minimax Algebra Based Performance Evaluation for Project Management
Chen-Hua Chung, John J. Bernardo, and In-jazz Chen

1136 An Investigation of Resource Imbalance in a Project Environment
Ellen Dumond and John Dumond

Topic Table: Scheduling Topics

1139 Comparative Evaluation of the Simulation and Heuristic Approaches to the Flowshop Scheduling Problems
Jatinder N.D. Gupta

1139 A Preliminary Investigation of Multi-Criteria Based Sequencing Rules for Assembly Shops
R. S. Russell, P. R. Philoopen, and T. D. Fry

1139 Scheduling against Due Dates in a Sequence Dependent Setup Environment
Gary L. Ragatz and Joseph R. Carter

1139 Forecasting of Airport Passenger Traffic
B. P. Lingaraj and Chand K. Chauhan

Topic Table: Design Issues in Operations Management

1140 Maintenance Scheduling Policies under Varying Load and Due Date Tightness Conditions in a Job Shop
Avijit Banerjee, Jonathan Burton, and Maryanne Atkinson

1140 Worker Flexibility and Redundancy to Decrease the Severity of Machine Breakdowns
Chwen Shieu, Jim Hutchison, and Lee Krajewski

1140 Maintenance Float Policy: A Critical Component of Capacity Strategy
Nicholas C. Georgantzas and Michael N. Chalin

1140 Computer Integrated Manufacturing and International Location Decisions
Peter Haug

1140 Dynamics of the Output Interval in Unpaced Production Lines
Hon-Shiang Lau and G. E. Martin

PUBLIC SECTOR APPLICATIONS

Topic Table: Applying the Functional Areas of Business to Public Sector Decisions

1141 Manufacturing Methods in Health Care
James A. Pope and Roger W. Pettitt

1141 Strategic Planning and the Middle Level Clinical Nurse Specialist
Kim DeDee and Lynda DeDee

1141 A Model for Selecting the 64 Teams for the NCAA Basketball Championship Tournament
Frank A. Condie and Jay C. Andersen

1141 Application of Marketing Decision Variables to a Critical Public Sector Problem—The Financing of Public Schools
Gordon L. Wise, Glenn T. Graham, and Duane L. Bachman

1141 Transition in the Rural-Urban Fringe: Land Ownership and Values
John L. Adrian and Cran Upshaw
The Role of Decision Science in International Affairs and Public Policy: What Might It Be?
Herbert F. Spirer

Should the Decision Sciences Institute and Decision Scientists Have a Social Conscience and Agenda?
Herbert F. Spirer

External Funding Opportunities in the Decision Sciences and How to Improve the Chances of a Successful Grant Proposal
Hope M. Baker

Health Care Applications
Managerial Work: Manager/Subordinate Perceptions in a Health Care Setting
Mary A. Curran and Kent E. Curran

Improving Resource Allocation in a Teenage Sexual Risk Reduction Program
Robert E. Markland and Murray L. Vincent

Outshopping for Medical Services: A Demographic and Psychographic Approach
Robert A. Swerdlow, Mark Guidroz, and Marleen Roosth Swerdlow

Financial Decisions in the Public Sector
A Path Model of Local Budgetary Decision Making in Response to the Reagan Retrenchment: The Case of New York Counties
Donald E. Lifton and Linda R. Lifton

A Goal Programming Model for Funds Management in a Public University
Rajesh Tyagi and Laurence J. Moore

How to Evaluate the Financial Impact of an Intercollegiate Sport
Clifford R. Skousen and Frank A. Condie

Statistical Analysis of Public Sector Issues
Economic Awards in Urban Mass Transit Industry Contracts: Does Method of Negotiation Dispute Resolution Make a Difference?
Ann C. Wendt and Susan A. Chesteen

Robert J. Solomon

Estimating Performance with Data Envelopment Analysis and Regression
William G. Ludwin and Thomas L. Guthrie

Public Institutions and Their Environments
The Impact of Civil Law Reform on the Cost of Automobile Insurance: A Cross Sectional Multivariate Analysis
Daniel T. Winkler, Joseph E. Johnson, and George Flanigan

A Mathematical Model of Quality in Publicly Funded Institutions
Priscilla Chaffe-Stengel

A Framework for Technology Transfer
Christian N. Madu

Topic Table: Managing the Public Enterprise
Drug Testing in the Workplace: Balancing Individual, Organizational, and Societal Rights
Brian Heshizer and Jan Muczyk

Marrying Federally Mandated Technology Transfer to the New Product/R&D Funds Allocation Criteria in the Private Sector
Thomas J. Steele, W. Lee Schwendig, and George A. Johnson

Environmental Pollution and Resource Management: Priority Problems or Passing Fancies?
Gene E. Burton

Logistical Modeling
Two-Tier Emergency Medical Service Systems: An Analysis and Extension of Current Location Methodologies
John J. Bernardo and John F. Repede

The Multiple Vehicle Routing Problems with Simultaneous Delivery and Pickup Points
Hokey Min

Modeling the Aviation Logistic Support System for a Navy Aircraft Carrier
Shu S. Liao, Thomas P. Moore, and Andrew G. Mackel

QUANTITATIVE TECHNIQUES AND METHODOLOGY
Networks Tutorial
Jay E. Aronson
Recent Advances in GPSS/H
Thomas J. Schriber

Quantitative/Statistical Models
On the Robustness of the Extreme Deviate Test for a Single Multivariate Outlier against Heavy-Tailed Distributions
Dean M. Young and Samuel L. Seaman
Analysis of Demand for Competing Advertising Media Services
Warren R. Hughes

Topic Table: Linear Models and Applications
Solving the Inverse Method Algorithms for Network Problems Using Concurrent Languages: Pascal and C
Jeong Duk Jung, Elias R. Callahan, Jr., and Kai Siak Koong
Analysis of Parts Inventory Using 0-1 Integer Programming
Parviz Ghandforoush

Quantitative Techniques for Decision Analysis
A Clarification of the Role of Mixed Strategies in Elementary Decision Analysis
Marvin D. Troutt and M. Diane Pettypool

Management Science/Operations Research
A Modified Scheduling Method for Random Process FMS Production
Krishnamurty Muralidhar and Marc Schniederjans
Common Errors in Linear Programming
Jack F. Williams
The Study of the Effects of Increased Resource Consumption on Optimal Warehouse Capacities
Sadik Cokelez

Management Science
A Numerical Algorithm to Solve the Problem of Dynamic Limit Pricing of an Exhaustible Resource under a Threat of Potential Entry
Vijay S. Desai
Determination of Time Period for Full Refund in a Warranty
Amitava Mitra and Jayprakash G. Patankar

Quantitative Models and Applications
An All-Integer Programming Algorithm Based on Group Theory and Bounded Partial Enumeration
Abbas Zaatari and Larry M. Austin
Facilities Layout: A Computerized Stochastic Programming Model
Masud Mansuri

Topic Table: Management Science/Statistical Model and Applications
Analysis of Associations between Market Segmentation Variables and Their Categorical Descriptors via a Discrete Multivariate Covariability Measure
Jamshid C. Hosseini, Robert R. Harmon, and Rajshekhar G. Javalgi
Nonparametric Estimation of the Variance When Samples Are Randomly Censored
Helmut Schneider and Binshan Lin
Direct Measurement of Acquisition Impact: An Application of the Box-TIAO Intervention Model
Sangsoo Kim and Dan Clapper
Small Samples and Metamorphosis at Thirty
M. Ahmadi, P. Dileepan, and F. M. E. Raiszadeh
Is This the Beginning of the Decline in Competitive Trend?
Mohsen Attaran and Massoud M. Saghafi

SERVICE MANAGEMENT
Symposium: A Discussion of the International Aspects of the Service Industry
David M. Lyth
Managing Health Services in a Changing Environment
Satish Mehra
Innovation in the Teaching of Service Management
Ivor P. Morgan
Methodologies for Assessing Service Location
Sheryl E. Kimes

Incorporating Quality Considerations into the Design of a Customer Processing Service Operation
David M. Lyth and Robert Johnston

STRATEGY AND POLICY

Environmental Analysis and Strategic Decision Making
1270 Environmental Awareness: A Measure of Strategic Management Skills
Gene E. Burton
1273 Applying a Macro Management Methodology to Expert System Development
John R. Montanari and Barbara W. Keats
1276 Strategic Pre- Partial- and Post-Decision Support
Nicholas C. Georganantas

Shifts in Strategic Management Research Methods
1279 Research in Strategic Management: Past, Present, and Future
Pamela A. Posey and E. Lauck Parke
1282 Current and Future Utilization of Quantitative Methods in Strategic Management Research
Agnes K. Missirian

Strategic Management in Different Organizational Contexts
1285 Strategic Planning: Applied Governmental Models
Max S. Wortman, Jr.
1291 Practical Strategic Planning in the Federal Government
William A. Ward and Eugene Gomolka
1295 Strategic Management in Nonprofit Organizations
Lynn Neely

Topic Table: Breadth in the Strategic Management Field
1298 Manufacturing and Business Strategies: Linkages among the Miles-Snow Types
Shaker A. Zahra and Sidhartha R. Das
1298 Share in: The Missing Link of MNC Global Strategy and Structure
Nicholas C. Georganantas
1298 Strategic Time
Arkalgud Ramaprasad and Charles I. Stubbart
1298 Legal Strategies for International Contract Negotiation and Dispute Resolution
Linda Berns Wright

Strategic Groups and Generic Strategies
1299 Using Time-Series Analysis to Identify an Industry's "Inventive Strategic Groups"
Philip P. Crossland and L. A. Digman
1302 When Strategy and Objectives Clash
Stanley F. Slater
1305 Decline in the Aerospace/Defense Industry: Applicability of Generic Turnaround Strategies
Willie E. Hopkins and Shirley A. Hopkins

Topic Table: Corporate Governance and Strategic Decision Making
1308 An Analysis of Why the Outside Dominance Perspective of the Corporate Board of Directors Has Failed to Generate Research Support
E. James Flynn and Andrew R. Weiss
1308 Measuring Consensus among Decision Makers
F. Karakaya and M. J. Stahl
1308 Patterns of Strategic Decision-Making in Excellent and Non-Excellent Companies
Robert E. Jones, R. Dale VonRiesen, and Lester W. Jacobs
1308 Sources of Strategic Issues and Characteristics of Strategic Issue Management Systems
D. A. Baucus and E. J. Ottensmeyer

Performance and Productivity in Manufacturing
1309 An Empirical Analysis of Five Performance Types in the Manufacturing Sector
Peng S. Chan, E. James Flynn, and Ravi Chinta
1312 Systematic Management in Medium Size Manufacturing Firms
J. Kim DeDee
1315 A Systems Approach to Manufacturing Automation Decision Making
Christian N. Madu
