PROCEEDINGS

FIRST WORLD CONFERENCE
ON
CONTINUING ENGINEERING EDUCATION

MEXICO
April 25-27, 1979

Editors:
Lawrence P. Grayson
National Institute of Education
Joseph M. Biedenbach
University of South Carolina
Foreword
Lawrence P. Grayson, National Institute of Education, and Joseph M. Biedenbach, University of South Carolina................................. ix

Organizing Committee........................................ x

Welcome from Conference Chairman
John P. Klus, University of Wisconsin-Extension........................ xi

Author/Session Chairman Index............................xii

Session Index..................................................xiii

Inauguration of Conference and Exhibit
Guillermo Soberon Acevedo, Universidad Nacional Autonoma de Mexico..........................xiv

Chronological History of the University of Mexico................................. xv

SESSION 1
Super Industrial Revolution

Session Chairman:
Javier Jimenez-Espriu, University of Mexico................................. 1

The Super Industrial Revolution
Alvin Toffler, Consultant................................. 2

SESSION 1A
Panel Discussion
Super Industrial Revolution

Discussion and Response to the Super Industrial Revolution
Javier Jimenez-Espriu, University of Mexico,
Myron Tribus, Massachusetts Institute of Technology
Paul Ortiz Ortiz, University of Mexico,
Pierre LeGoff, Institut Polytechnique National................................. 3
# TABLE OF CONTENTS

## PAPER/AUTHOR PAGE

<table>
<thead>
<tr>
<th>SESSION 2</th>
<th>Adult Motivation</th>
</tr>
</thead>
<tbody>
<tr>
<td>The Role of Motivation in Adult Education</td>
<td>Alfonso Henriquez De Brito, Cidade Universitaria</td>
</tr>
<tr>
<td>La Motivation Dans l'Education Des Adultes</td>
<td>Bertrand Schwartz, University of Paris</td>
</tr>
<tr>
<td>Perspective for the Motivation and Institutionalization of Continuing Education in Mexico</td>
<td>Emiliano Orozco Gutierrez, University of Mexico</td>
</tr>
</tbody>
</table>

## SESSION 3 | Continuing Education And the Government |
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Governments Influence on Continuing Education</td>
<td>Jose A. Nieto Ramirez, University of Mexico</td>
</tr>
</tbody>
</table>

## SESSION 4A | Professional Society Programs |
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>Group I Professional Society Programs</td>
<td>Vladimir Yackovlev, Central University</td>
</tr>
<tr>
<td>Finland: A National Program</td>
<td>Hannu Tapio Laine, Suomen Teknillinen Seura</td>
</tr>
<tr>
<td>Professional Societies and Continuing Education in India</td>
<td>A. Bhattachanayya, Indian Institute of Technology</td>
</tr>
<tr>
<td>A Traveling Road Show Concept for Continuing Education</td>
<td>George G. Armitage, Institute of Electrical and Electronics Engineers</td>
</tr>
</tbody>
</table>
An International Professional Society's Approach on Continuing Education for its Members
John F. Wilhelm, The Institute of Electrical and Electronics Engineers, Inc. 54

Social, Political Obstacles to the Latin American Technological Development: It's Impact in Up-To-Date Professional Knowledge
Marcus Kaplan, University of Mexico 58

The Swedish Civil Engineering Plan
Bertil Haard, Sveriges Civilingenjorsforbund 62

SESSION 4B
University Programs

Group II University Programs
Review of Educational Experiences in Engineering in Yugoslavia
Zlatko M. Kostrencic, Zagreb, Yugoslavia 63

Some Experiences in Continuing Engineering Education in Latin America
Pedro Martinez Pereda, University of Mexico 69

Industry-University Relations for a Successful Programme
G. Brown, Audrey J. Perkins, University of Surrey 74

The Wisconsin Model
John P. Klus, University of Wisconsin-Extension 79

Part-Time Post Graduate Evening Programme at HBTI Kanpur
N. L. Kachhara, Harcourt Butler Technological Institute 88

The Argentina Experience
Marcelo A. Sobrevila, Member of Argentine Union of Engineering Association 95

The 3-D Programme: An Experiment with Continuing Education at Danmarks Tekniske Hojskole and Danmarks Ingenioradkademi
Niels Krebs Ovesen, The Danish Engineering Academy 101

Continuing Engineering Education in Developing Countries
M. L. Jain, Thapar Institute of Engineering and Technology 108

Continuing Education in Socialist Countries
T. Biernacki, Politechniki Gdanskiej 110
Group III Industry/Government Programs
Joseph M. Biedenbach, University of South Carolina............................... 113

An Individualized Instruction Approach to Continuing Education for Engineers by Industry
Frank B. Donalson, NL Petroleum Services, NL Industries, Inc...................... 117

Bridging the Academic-Industrial Gap: GE's Entry-Level Process
George H. Hupman, Lindon E. Saline, General Electric Company.................... 124

Continuing Education in Agricultural Programs: Training for the Agricultural Population of Mexico
Antonio Murrieta Necolchea, Secretaria de Comercio.............................. 132

Facts and Figures on Continuing Education for Siemens AG Engineers
Ernst Golling, Siemens AG........................................................................ 140

A Case Study on a Successful Industry-University Solution to a Continuing Engineering Educational Program
John R. Van Horn, Eugene C. Benbow, Westinghouse Electric Corporation........ 149

Continuing Education in a Large Telecommunications Research and Development Establishment
Carl R. Wischmeyer, Bell Laboratories...................................................... 156

Continuing Education and Job Performance: The Casual Connection
Albert J. Morris, Genesys Systems, Inc...................................................... 159

Update '7X: A Balance of Problem Solving and Technical Perspective for Experienced Engineers
Gary L. Pastre, IBM General Products Division........................................... 174

The Role of Training in Corporate Survival for Technical Education.............. 180

The Myth of Engineering Obsolescence
D. A. Keating, J. D. Waugh, J. M. Biedenbach, University of South Carolina........ 185
SESSION 5A
Need Analysis
Discussion Group

Methods of Needs Analysis Continuing Education Programs
Myron W. Chin, University of the West Indies ...................... 191

SESSION 5B
Promotion Techniques
Discussion Group

Promotion Techniques for Continuing Education Programs
Sabah Al-Nassri, University of Technology, Baghdad, Iraq ............. 193

An Application of Critical Path Method in Planning Continuing Education Programme
Sabah Al-Nassri, University of Technology, and Mahesh Varma, University of Roorkee .... 195

SESSION 5C
Program Cost
Discussion Group

Continuing Engineering Education Costs - How Much and Who Should Pay?
Richard A. Kenyon, Rochester Institute of Technology ................. 205

SESSION 5D
Staffing Requirements
Discussion Group

Staffing Requirements for Continuing Education Programs
Jain Moti Lai, Punjabi University, Patiala .......................... 207

SESSION 5E
Program Evaluation
Discussion Group

Evaluation of Continuing Education Programs
A. M. Zahoorul Huq, Bangladesh University of Engineering and Technology .... 211

SESSION 6A
Group I

Group I
Johann L. Atrops, Institute for Technology in the Tropics ............... 213

Industrial Instrumentation Training Courses
of Technological Promotion Association (THAI-Japan)
Prasit Prapinmongkolkarn, Chulalongkorn University ................. 215
Appropriate Education for Nigerian Engineers
Swaminathan Madhu, Rochester Institute of Technology.......................... 221

Support for Continuing Education in a Developing Country
Omkar N. Wakhlu, University of Kashmir.... 226

The Importance of Continuing Education for Inspectors
A. F. Rashed, Alexandria University....... 233

Certification Programs in Business and Technical Disciplines
Roy W. Haley, American Production and Inventory Control Society............. 233

Sanitary Engineering for World Health (TDS)
Edmundo Elmore, Inter American Sanitary an Environmental Engineering Association.. 234

A National Program for Oil and Petrochemical Industries in Venezuela
Vladimir Yackovlev, Effrain Barberii, INATET...................................... 234

Group II

Donald Louis Mordell, Canadian College of Advanced Engineering Practice........ 237

Engineers/Managers in Europ
Eric Frank, School of Management.......... 238

An Undergraduate Program Designed for Lifelong Learning
E. T. Cranch, Worcester Polytechnic Institute........................................ 244

The Continuing Education in the Secretariat of Human Settlements and Public Works of Mexico
Francisco A. Beltran Ilizaliturri, Sub Secretaria de Obra Publicas............. 250

Professional Reference Programs - Keeping the Engineer Current in His Profession
Henry N. Oppenheimer, The MGI Management Institute............................. 260

A Learning Model for Updating Older Technical and Professional Persons
Samuel S. Dubin, The Pennsylvania State University................................ 265

Continuing Engineering Education - A New Zealand Viewpoint
Robert G. Norman, Ministry of Works and Development............................ 273
SESSION 6C
Group III
Mohammad Maqusi, University of Jordan...... 281
A Program for Control Education and Training
in Large Industrial Complexes
Salah E. Aidarous, Ain Shams University,
S.A.K. El Sheshe, General Organization
for Industrialization, and
A. G. Hamdy, Egyptian Iron and Steel
Company.......................... 282
Energy Use and the Role of Continuing
Education
Marc J. Pelegrin, CERT(Centre d'Etudes
et de Recherches de Toulouse).............. 287
Self-Development Through Lifelong Learning
John B. Holden, U.S. Department of
Agriculture.......................... 294
Project Satellite - An Experiment in Contin-
uing Education of Engineers in the West
Indies
Myron W. Chin, University of the West
Indies.......................... 300
Master of Engineering Degrees by External
Delivery: The Clemson University Program
- A Case Study
B. E. Gilliland, Clemson University and
D. E. Griffith, Oklahoma State University. .. 308
A Continuing Education Program for Process
Industries in France and Mediterranean
Countries
P. LeGoff, Institut National Polytechni-
pue de Lorraine,
Charpentier Jean-Claude, University of Nancy
and Mohy Sallaly, Cairo University............. 315
Power Engineering Programs in the USSR
Victor Bespalov, Moscow Power Engineering
Institute.......................... 322
Computerized Access to Engineering
Information
Nancy F. Hardy, Engineering Index......... 322
SESSION 7
Plenary Session
National Needs Analysis for Continuing
Engineering Education
Gerard Etienne, World Health Organiza-
tion.......................... 323
Developing a National Need Analysis
Samuel B. Gould, State University of
New York.......................... 324
Workshop I  Media-Based Continuing Education For Engineers

Lionel V. Baldwin, Colorado State University and
J. David Waugh, University of South Carolina........................ 329

A Decade of U.S. Engineering Education Outreach by Video
Hal F. Schulte, Jr., The University of Michigan ..................... 331

Marketing Continuing Education Materials World-Wide
John T. Fitch, Georgia Institute of Technology ...................... 338

The AMCEE Background and Status of Overall Activity
Jack Munushian, University of Southern California .............. 342

Some Future Trends in Technologically Aided Engineering Education
William R. Kincheloe, Jr., Stanford University .................... 346

A Bilingual Videotaped Technical Training Program
James L. Rogers, Case Western Reserve University .................. 353

Satellites for International Continuing Engineering Education
Kenneth S. Down, Stanford University ......................... 356

Modern Information Services for Worldwide Continuing Education
Lionel V. Baldwin, Colorado State University,
Morris E. Nicholson, University of Minnesota, and
Joseph M. Biedenbach, University of South Carolina ............. 359

AMCEE Videotaped Catalog and its International Implications
Robert M. Anderson, Jr., Purdue University ....................... 364

Making the Most of the Differences in Objectives Between Academia and Industry
Myron Tribus, Massachusetts Institute of Technology ............. 369

APPENDIX
Author/Session Chairman Address List ..................... 377
