</table>
Candelaria (Triassic) and Diablo (Permian) Formations in southern Toquima Range, central Nevada ........................................ Forrest G. Poole and Bruce R. Wardlaw 271

The Fairview Valley Formation: A Mesozoic intraorogenic deposit in the southwestern Mojave Desert .................................................. Elizabeth L. Miller 277

Recognition of possible Aztec-equivalent sandstones and associated Mesozoic metasedimentary deposits within the Mesozoic magmatic arc in the southwestern Mojave Desert, California .................................................. Elizabeth L. Miller and Michael D. Carr 283

Petrology, sedimentation and paleogeography of the Smartville terrane (Jurassic) - bearing on the genesis of the Smartville ophiolite ................................................. Costas Xenophontos and Gerard C. Bond 291

Radiolarians from pre-Nevadan rocks of the Klamath Mountains, California and Oregon ................................................. William P. Irwin, David L. Jones, and Terry A. Kaplan 303

Early Mesozoic paleotectonic-paleogeographic reconstruction of the southern Sierra Nevada region ................................................ J. B. Saleeby, S. E. Goodin, W. D. Sharp, and C. J. Busby 311

Pre-Callovian rocks, west of the Melones fault zone, central Sierra Nevada Foothills ................................................. Philip S. Behrman 337

Paleogeographic significance of the Callovian to Kimmeridgian strata, central Sierra Nevada Foothills, California ................................................ Philip G. Behrman and Gary A. Parkison 349

Triassic and Jurassic paleogeography of the Sierra Nevada and adjacent regions, California and western Nevada ................................................ R. A. Schweickert 361

The age and sedimentation/diagenesis for the Bedford Canyon Formation and the Santa Monica Formation in southern California: A Rb/Sr evaluation ................................................. Joseph J. Criscione, Terry E. Davis, and Perry Ehlig 385

Allochthonous terranes in northern California?--A reinterpretation ................................................. M. C. Blake, Jr., and David L. Jones 397

Petrologic variations in Franciscan sandstone from the Diablo Range, California ................................................. Mark Ivan Jacobson 401

A Cretaceous and early Tertiary subduction complex, Mendocino Coast, northern California ................................................ Steven B. Bachman 419

The Goat Mountain schists and Pacific Ridge complex: A redeformed but still-intact late Mesozoic Franciscan schuppen complex ................................................ John Suppe and K. A. Foland 431

The Pelona-Orocopia schist and Vincent-Chocolate Mountain thrust system, southern California ................................................ Gordon Haxel and John Dillon 453

Paleogeography and paleotectonics of the late Mesozoic forearc basin of northern and central California ................................................ Raymond V. Ingersoll 471
The Great Valley sequence near Santa Barbara, California ............... Thomas C. MacKinnon 483

Basin analysis of the Eugenia Formation (Late Jurassic), Punta Eugenia area, Baja California ........ James R. Boles 493

Tectonic significance of upper Mesozoic Methow-Pasayten sequence, northeastern Cascade Range, Washington and British Columbia .................. Marilyn E. Tennyson and Mark R. Cole 499

The Salinian block--A Mesozoic granitic orphan in the California Coast Ranges ...... Donald C. Ross 509

Late Cretaceous paleogeography of the Salinian block, California ...... D. G. Howell and J. G. Vedder 523

Late Cretaceous depositional environments, northern Santa Ana Mountains, southern California ........ Frederick A. Sundberg and John D. Cooper 535

Late Cretaceous sedimentation in the Santa Monica Mountains, California ............................. Sean Mc.D. Carey and Ivan P. Colburn 547

Late Cretaceous geology of California and the problem of the proto-San Andreas fault ................ Tor H. Nilsen 559
