"THERMO-BRIDGE"

between East and West for technology transfer and information exchange

11TH INTERNATIONAL CONFERENCE
on THERMAL ENGINEERING AND THERMOGRAMMETRY (THERMO)
with Exhibition and Pre-Session on Thermal Energy in Hungarian

RS 823
(11)
UB/TIB Hannover

UNIVERSITÄTSBIBLIOTHEK
HANNOVER
TECHNISCHE
INFORMATIONSBIBLIOTHEK

"THERMO"

az Európai Unióba való integrációért és a hazai továbbképzésért

**11. NEMZETKÖZI HŐTECHNIKAI és TERMOGRAMMETRIAI (THERMO)
KONFERENCIA**
kiállítással és hazai előszekcióval

16-18 June, 1999, Budapest, Hungary

(pre-session: 15th June)

Budapest, 1999. június 16-18. (előszekció: június 15.)

OSSKI Center (Törley Palace)

'Frédéric Joliot-Curie' Országos Sugárbiológiai és Sugáregészségügyi
Kutató Intézet (OSSKI)

Budapest, XXII.(Budafok), Anna u. 5.

ABSTRACTS

11th International THERMO Conference
16-18 June, 1999, Budapest Hungary

Scientific programme, June, 1999

Presented papers	Pages
1. Plenary lectures	
L.I. Kiss (Univ. of Québec at Chicoutimi, Québec, Canada): Measurement of the thermal diffusivity and conductivity in the 200-1200 °C temperature range	4
I. Dincer (King Fahd Univ.of Petroleum and Minerals, Dhahram, Saudi Arabia): Thermal energy storage technologies: energy saving and environmental impacts	13
2. Infrared imagery and analysis	
H. Haferkamp, M. Goede, J. Stein, I. Burmester (Laser Zentrum Hannover e.V., Germany): Automatic thermographic identification of plastics for the recycling process	25
B. Léger, J.M. Emidio, P. André (Lab. Aquitain de Recherche en Aérothermique, LARA; Univ. de Pau et des Pays de l'Adour, Bordes, France): Heat transfer coefficient determination on multiholed plate using an infra-red camera	30
H. Heinrich, K-H. Dahlem (Univ. of Kaiserslautern, Bauphysik, Kaiserslautern, Germany): Thermography in fire tests of glazing elements	36
B. Wiecek (Techn.Univ. of Lodz, Poland): Thermal management in microelectronic circuits: modelling and thermography applications	42
M. Schneider, M. Yoshida, M. Groll (Inst.for Nucl. Techn. and Energy Syst., Stuttgart Univ., Germany; Ariake Nat.Collage of Techn., Fukuoka, Japan): Optical investigation of mini heat pipes arrays by means of digital image processing	49
G. Rodan, N. Leonachescu, P. Spataru, P. Rodan (INCAS, Techn. Univ. Bucharest, Romania): Thermography in Bucharest subway	55
J. Vukovic (Croatian Inst. for Restauration, Zagreb, Croatia): Some investigation in IR-imaging in conservation of works of art (poster)	62

I.Benkő (Technical University of Budapest, Hungary): Infra-red image filtering as a tool of temperature-field analysis	68
Sz.Hajder, A.Poppe, V.Székely (Technical University of Budapest, Hungary): Verification of the THERMAN thermal simulation program	74
I.Szűcs, I.Réz, Mrs. K.Szemmelweisz (University of Miskolc, Miskolc, Hungary): Exploration of crass occasion of refractory concrete lining	80

3. Thermodynamics

A.Can, E. Buyruk, D. Eryener (Univ.of Trakya, Edirne; Univ. of Cumhuriyet, Sivas, Turkey): Restrictions and possibilities for heat exchangers projection according to entropy generation analysis	87
I. Kotcioglu (Ataturk Univ., Erzurum), T. Ayhan, H. Olgun, B. Ayhan (Karadeniz Techn. Univ. Trabzon, Turkey): Second law analysis for augmentation of heat transfer in a rectangular channel by means of wing-type vortex generator	98
L. Morosuk (Odessa State Academy of Refrigeration, Ukraine): Evaporating cooling of the refrigerant in the absorption-diffusion refrigeration machine	104
S.Czirbik (Dreher Breweries Ltd., Budapest, Hungary): Theory of analogy and similarity in the thermal engineerin	110

4. Heat and mass transfer

S. Kakac (Dpt. of Mech. Engng., Univ. of Miami, Coral Gables, USA): Two-phase flow instabilities in tube boiling systems	117
F. Miguel, A.M. Silva (Univ.of Évora, Dpt. of Phys., Évora, Portugal): Modelling mixed fluid motion through porous media	135
E. Hnatko (Mech.Engng. Fac., Slavonski Brod, Croatia): Convective heat transfer in cylinder of Diesel engine	138
Aydin Durmus, M.Esen, Ayla Durmus , (Univ.of Firat, Elazig, Turkey), T.Ayhan (Karadeniz Techn.Univ., Trabzon, Turkey): Effect of cut-out conical turbulators placed in the flow area on heat transfer and pressure losses	144
Ch. Nasr, J.-C. Rodet, F. Bataille, A.Lallemand (E.E.T. du CETHIL, INSA-Lyon, Villeurbanne, France): Thermal behaviour of a porous cylinder submitted to transpiration cooling (poster)	150

S. Torii, Wen-Jei Yang (Kagoshima Univ., Dpt.of Mech. Engng., Kagoshima, Japan; Univ. of Michigan, Mech.Engng.and Appl. Mechanics, Ann Arbor, Michigan, USA): Thermal propagation phenomena during asymmetrical collision of thermal waves in a thin film	156
M.E. Arici (Karadeniz Techn. Univ.,Trabzon, Turkey): Laminar flow heat transfer and pressure drop in a tube having several geometrical shaped inserts	162
E. Buyruk (Univ. of Cumhuriyet, Sivas, Turkey), A. Can (Univ.of Trakya, Edirne Turkey): Heat transfer and flow characteristics from a heated tube in a staggered tube bundle and in a single row in cross-flow/	168
T. Morosuk (Odessa State Academy of Refrigeration, Ukraine): The questions of the heat and mass transfer to the scheme selection of the absorption thermo-transformer	180
V.D. Goryachev (Tver Techn. Univ.), E.M. Smirnov (St. Petersburg Techn. Univ. Russia): Virtual environment for CFD research	187
Y. Brailovsky (J.-St. Co. „KISLORODMASH”, Odessa, Ukraine): Thermal conductivity of the cryogenic systems thermal bridges	191

5. Medicine and biology

A.Laki, E.Erdei, P. Göblyös (Dpt. of Radiology, Dpt. of Urology, I. Haynal Univ.of Health Sci.; Dpt. of Radiology, Nat. Inst. of Haematology and Immunology, Budapest, Hungary): Complex scrotal radiological examination of men with hypofertility	198
I.Benkő, G.J. Kóteles, G.Németh (Techn.Univ.of Budapest, Nat.Res. Inst. For Radiobiology and Radiohygiene, Univ. of Health Sci., Budapest, Hungary): New infra-red histographic investigation of the effects of beta-irradiation in medical field	201

6. Thermal measurements and defectometry

W. Bauer, M. Funke (Gerhard-Mercator Univ., Duisburg, Germany): Changes of emissivities of refractories in furnaces with protective atmospheres or vacuum	208
--	-----

N. Ginet, M. Lallemand (E.E.T. du CETHIL, INSA-Lyon, Villeurbanne, France): Rise velocity and frequency measurements of a single bubble in pool boiling using hot wire anemometry	214
I. Boras, S. Svaic (Univ.of Zagreb, Fac. of Mech. Engng. and Naval Arch., Zagreb, Croatia): Thermal non destructive testing (TNDT):quantification of the subsurface defects	220
L. Dumont, A. Degiovanni (L.E.M.T.A.-E.N.S.E.M, Vandoeuvre, France): Prediction of thermal contact resistance through roughness analysis	226
H. Ohue, Wen-Jei Yang, G. Kawashiba (Musashi Inst. of Techn., Dpt.of Mech.Engng., Tokyo, Japan; Univ. of Michigan, Dpt. of Mech.Engng. and Appl. Mechanics, Ann Arbor, Michigan, USA): Convective flow around a single bubble during growth and departure	232
W. Bauer, M. Rink (Gerhard-Mercator Univ., Duisburg, Germany): Emissivities of materials used for radiant tubes	238
G. Kurilenko (Novosibirsk State Univ., Novosibirsk, Russia): Development of thermographic approach for investigation of damaging processes in metal	243
L. Katona (SC-ICPET-CERCETARE-SA, Bucuresti, Romania): Two-color radiation pyrometer to monitor combustion chamber internal surface temperature	249

7. Environment and buildings

M. Andrassy, A. Galovic, M. Tadic (Univ. of Zagreb, Fac. of Mech. Engng. and Naval Arch., Zagreb, Croatia): Humidity and pressure of air, an application to regenerative dehumidifiers	251
H. Heinrich, K-H. Dahlem (Univ.of Kaiserslautern, Bauphysik, Kaiserslautern, Germany): The effect of groundwater flow on the heat loss from buildings to the ground	257
I.Benkő (Technical University of Budapest, Hungary): Thermal detection of buildings and environment by INFRAMETRICS devices	263
Z. Sahin, O. Durgun, A. Bilgin (Koradeniz Techn. Univ., Trabzon, Turkey): The using of Bycosin 1030 as an additive to Diesel fuel on the engine performance in Diesel engines	267
H. Bayindir, H.S. Yucesu (Firat Univ., Elazig; Karaelmas Univ., Karabük, Turkey): The effects of compression ratio and preheating on engine characteristics and air pollution in gasoline engines using alternative fuels	273

- L. Katona, C. Negreanu** (SC-ICPET-CERCETARE-SA, Bucuresti, Romania): Comparation of CO₂ removing technologies for different power plants, structural influences 279

- I. Szűcs, J. Mikó** (University of Miskolc), **L. Vass, S. Tanka** (Heating Plant of Miskolc, Hungary): Environmental-friendly combustion system of district heating plant 280

8. Combustion

- A.M. Depiak, I. Wierzba** (Univ.of Calgary, Dpt. of Mech. Engng., Calgary, Canada): An experimental investigation of catalytic oxidation of lean premixed methane-air mixtures 285

- G.A. Karim, E. Khalil** (Univ. of Calgary, Dpt. of Mech.Engng., Calgary, Canada): Detailed kinetic modelling of the effects of changes in the composition of natural gas on its autoignition in relation to engine applications 291

- A. Bentamer, J. Crabol** (Univ.de Paris X. Nanterre, Lab.d'Énerg. et d'Écon.d'Énergie, IUT de Ville d'Avray, France): The contribution of non-luminous gas radiation in global heat transfer during flame propagation in a closed vessel 299

- V.V. Ghia, V. Ghiea** (Inst. for Thermal Engines, Bucharest, Romania): Comparative method for efficient industrial combustion of residual methanol and fuel oils 306

- L. Katona, C. Negreanu, D. Mihai** (SC-ICPET-CERCETARE-SA, Bucuresti, Romania): Contribution on the computing of combustion gases thermodynamic and thermophysical properties of liquid fuel burned in O₂/N₂/CO₂ atmosphere 312

- D. Mandalopol** (Univ. „Ovidius” Constanta, Romania): Granular bed burning 313
