TABLE OF CONTENTS

SESSION 1A – Landfill Case Studies 1

SESSION 1B – Management of Specific Wastes

- Toxicity Characteristics Leaching Procedure (TCLP) Studies for Characterisation of Hazardous Solid Wastes from Picking and Electroplating Industries (Case Studies) and Design of Secured Landfill Disposal System,” T.A. Sihorwala and Ritesh Vijay.
- “EXAFS Studies of Copper Species in the Ash of Printed Circuit Board Wastes,” Kuen-Song Lin, H. Paul Wang, Y.-L. Wei, and Yi-Chi Chien.

SESSION 1C – International Case Studies 1

SESSION 1D – New Products from Waste

- “Products from Flash Pyrolysis of Plastics,” Yoshimitsu Uemura, Miho Azeura, Yoshihiro Ohzuno, and Yasuo Hatate.
SESSION 2A – Landfill Gas

- “Anaerobic Purification of Landfill Gases,” Rainer Angerhofer and Martin Faulstich.

SESSION 2B – Use of Waste Materials in Construction

- “Leaching Sludge Waste Integration for the Production of Cement Blocks,” Belzahet Trevino Arjona and Sarynna Lopez Meza.

SESSION 2C – Public Involvement, Education and Packaging

SESSION 2D – Planning and Economic Analysis

- “End Use Planning for the Rehabilitation of Glenridge Quarry Landfill Site,” Susan L. Girt and David G. Smith.

SESSION 3A – Industrial Wastes

- “Stability Evaluations of Copper Ethyl Xanthate and Copper Butyl Xanthate in an Acid Solution,” Yi-Kuo Chang, Juu-En Chang, Tzong-Tzeng Lin, and Yu-Ming Hsu.
SESSION 3B – Recycling of Specific Materials

- “Recycling (Waste Paper as a Candidate),” Sathyavathi Muthu.

SESSION 3C – Use of Waste Materials in Construction 2

SESSION 3D – Recycling and New Approaches

- “Recycling of Polyurethane Foam Solid Waste Derived from Used Automotive Seats,” Fyodor Shutov.
- “Affordable Technology for Solid Waste Management,” Brij Kumar Dubey.
- “Current Status and Strategic Focuses of Urban Household Refuses in China,” Yongfeng Nie, Jinhui Li, Qingzhong Bai. Dongjie Niu, and Hongtao Wang.

SESSION 3E – Waste Management Policy and Planning for the New Millennium in the Northeastern States of USA

SESSION 4A - Landfill Case Studies 2

• “Geotechnical Properties of Decomposed Solid Waste Materials,” S. Sadek, M. El-Fadel, C. Manasseh, and A. Abou-Ibrahim.
• “Operational Characteristics of Two Aerobic Landfill Systems,” Mark Hudgins and Sid Harper.
• “Municipal Solid Waste Landfilling in China,” Yun-min Chen and Min-yun Hu.

SESSION 4B - Compost Facilities and Utilization

• “Successes at an Integrated MRF/Composting Facility,” William T. Paletski.
• “Regulation for the Admission of MSW and Sludge to a Compost Plant: The Case of a Consortium of 17 Small & Medium Municipalities,” Gian Franco Saetti.
• “Integrated MSW Management: Costs, Calculations, Index and Benchmarking,” Adelio Peroni and Gian Franco Saetti.

SESSION 4C - Use of Waste Materials in Construction 3

• “Performance of Rubberized Asphalt under Static and Repeated Loading,” Ashraf M. Ghaly.
• “Strength Characteristics of Concrete Made with Recycled Fine Aggregate and Crushed Stone Fines,” Ravande Kishore, N.K. Bairagi, and P. Kumar.
• “Polish Experience with Application of Waste Rubber to Road Pavement Construction,” Piotr Radoszewski, Maria Kalabinska, and Jerzy Pilat.

SESSION 4D - Management of Fly Ash in India

SESSION 4E - Research Advances 1

• “Capillary Wicking Layers to Enhance Moisture Distribution in MSW Landfills,” C. Zeiss and R. Li.

SESSION 5A – Leachate Management

• "The Introduction of Landfill-Derived Liquids into Froth Flotation Systems," Beverley Blackburn and Steve Hall.

SESSION 5B – Medical Wastes

• "Characterization, Handling and Minimization Medical Waste from a Hospital Laboratory," Antonio P. Silva, Belzahet A. Trevino, Martin M.T. Hernandez and Maria del Carmen Franco C.
• "Medical Waste Compositions and Management in Chiang Mai, Thailand," Khajornsak Sopajaree.

SESSION 5C – International Case Studies 2

• "Solid Waste Management Issues with Regards to Incineration in Hungary," Zoltan Bartfai and Istvan Szalkay.
• "Waste Composition Study in Northwestern Puerto Rico," Roxanna Longoria, Marly Martinez de Andino, and Christopher Underwood.

SESSION 5D – Special Topics 1

• "Life Cycle Assessment and Buffer Capacity Concept in Environmental Systems Evaluation," Marco Lucentini, Dong Wei.
SESSION 5E – Research Advances 2

- "Initial Studies on Sludge Drying Using Microwave Heating," Dafang Fu, Mingyuan Cai, Allen C. Chao, and Juzheng Liu.
- "Multi-Stage Anaerobic Digestion of Bio-Wastes," Martin Faulstich and Frank Tidden.

SESSION 6A – Advances in Leachate Treatment

SESSION 6B – Organic Wastes

- "Efficiency of Different Microbial Communities in Anaerobic Waste Digestion," Oliver Christ and Martin Faulstich.

SESSION 6C – Waste Minimization

- "Waste Minimisation Project Clubs in the UK – Putting the Environment on the Business Agenda?" Adam D. Read.
- "The Role of UK Waste Minimisation Clubs in the Correction of Market and Information Failures," Rachel M. Pratt and Paul S. Phillips.
SESSION 6D – Emissions Analysis and Special Topics 2

- “SNCR DeNO\textsubscript{x} System on a Full Scale Hospital Waste Incineration Plant: Detection of Control Parameters and Optimization,” Antonella Fiore, Renato Gavasci, Francesco Lombardi, and Sarantuyaa Zandaryaa.

SESSION 7A – Landfill Gas 2

SESSION 7B – Recycling Analysis and Solid Materials Usage

SESSION 7C – Advances in Solid Waste Management 1

SESSION 7D – Special Workshop

SESSION 7E – Research Advances 3

• “Return to Sender,” Randy Romine.

SESSION 8A – Thermal Treatment

• “Characterization of Cold Start and Upset Conditions in MWCs,” Marjorie J. Clarke.
• “Incineration of Residual Waste in Industrial Processes in Germany,” Martin Faulstich and Lars Jorgens.

SESSION 8B – Policy and Management

• National Cleaner Production Centers Policy and Regulation on Waste Reduction,” Ali Asghar Tofigh.
• “The UK Landfill Tax Credit System – Progress, Research Funding and Partnership Opportunities?” Adam D. Read.
• “The UK Landfill Tax: An Evaluation of the First Three Years,” John R. Morris, Paul S. Phillips, and Adam D. Read.
• “Back to the Future: Lessons Learned from a Large Scale Change Management Program,” Alonso Perez, Pavan P. Singh, and Andrew Pollock.
• “Proposed Management of Municipal Solid Wastes in Indian Cities,” Harvinderjit S. Sahota.
• “Waste Management Policy Implementation – Thoughts, Data and Anecdotal Evidence from English Local Authorities,” Adam D. Read.

SESSION 8C – International Case Studies 3

• “Solid Waste Management in Istanbul and Some Geotechnical Aspects,” Mustafa Yildirim and Kutay Ozaydin.
• “Solid Waste Disposal and Treatment in Railway Area, Pune City, India,” R.S. Dubey and Sunil Gupta.

SESSION 8D – Waste Solidification and Construction Wastes

SESSION 9A – Landfilling Innovations

- “Biological Pretreatment of MSW As a Measure to Save Landfill Volume and Deter Birds,” Florian Koelsch and Richard T. Reynolds.
- “Approaching Sustainable Landfilling,” Alexander Zach, Marion Humer, Tanja Gomiscek, Carolin Heib-Ziegler, Doris Grassinger, and Peter Lechner.

SESSION 9B – Advances in Solid Waste Management 2

SESSION 9C – Risk Assessment and Hazardous Wastes

- “Determination of Risk Due to Hexavalent Chromium Contamination Using CalTOX Model,” Dorairaja Raghu and Shailesh Chirputkar.

SESSION 10A – Groundwater Impacts of Disposal Sites

- “Water Transport in a Bottom Ash Landfill from a Municipal Solid Waste (“MSW”) Incinerator,” Frank Hartmann, Hans-Peter Bader, Ruth Scheidegger, and Peter Baccini.

SESSION 10B – Composting Techniques

- “Composting of Grass Clippings, Dry Leaves and Wastewater Sludge by Ventilated Pile,” Somjai Karnchanawong and Arnuparp Kaewkong.
SESSION 10C – Advances in Solid Waste Management 3

• “Economics of Scale in Treatment and Disposal of Municipal Solid Waste,” Shoou-Yuh Chang, Xin Chen, and Angel L. Rivera.

SESSION 10D – Special Topics 2

• “Processing of Coal Smalls from the Safronovskaya Dressing Factory,” S.B. Leonov and O.N. Belkova.
• “Making Good Use of the Things That We Find – The Womble Agenda for Sustainable Waste Management in the UK,” Adam D. Read.
