Earthquake Geotechnical Engineering

Edited by
Pedro S. Sêco e Pinto
Portuguese Society for Géotechnique (SPG), Lisboa, Portugal
National Laboratory of Civil Engineering (LNEC), Lisboa, Portugal

VOLUME 3
Keynote lecture / Theme lectures / General reports / Panelist's contributions

A.A. BALKEMA/ROTTERDAM/BROOKFIELD/1999
Table of contents

Keynote lecture
Performances of storage tanks during the 1995 Kobe earthquake
K. Ishihara & K. Furukawazono

Dynamic characterization of soils:
- Theme lecture
- General report
- Panelist’s contributions
Dynamic soil properties: Laboratory, field and correlation studies
On the dynamic characterization of soils
J. D. Bray, M. F. Riemer & W. B. Gookin
Visualization of soil behavior from dynamic centrifuge model tests
B. L. Kutter & A. Balakrishnan
Dynamic characterisation of soils from laboratory tests
M. Maugeri & A. Cavallaro
Soil characterization by shear wave velocity
M. Hatanaka

Strong motions and site amplification:
- Theme lecture
- Panelist’s contributions
Strong ground motions and site amplification
A. M. Ansal
Modeling of liquefaction-induced shear deformation
A. Elgamal, Z. Yang, E. Parra & R. Dobry
Site effects: Recent considerations and design provisions
K. D. Pitiakis, D. G. Raptakis & K. A. Makra
Liquefaction
   - General report
   - Panelist's contributions
Liquefaction and deformation of silty and fine-grained soils
T.L.Youd & S.D.Gilstrap
Estimation of minimum undrained shear strength for flow liquefaction using the CPT
P.K.Robertson
Constitutive modeling of cyclic mobility and implications for site response
S.L.Kramer & P.Arduino
Soil liquefaction in Peru
J.E.Alva-Hurtado

Slopes and embankments
   - Theme lecture
   - General report
   - Panelist's contributions
Effect of subsurface liquefaction on stability of embankment resting upon surface
I.Towhata & T.Mizutani
Slopes and embankments
P.S. Sêco e Pinto
Assessment of residual strength for embankments
P.M. Byrne & M.H. Beaty
Seismic slope stability – The critical acceleration
S.K. Sarma
A review of experimental studies of seismic behavior of reinforced soil structures
N. Sitar & L. Nova-Roessig

Codes, standards and safety evaluation
   - Theme lecture
   - General report
   - Panelist's contributions
Codes, standards and seismic safety evaluation of earth structures
W.D.L.Finn
Session: Codes, standards and safety evaluation
A. Pecker
Recent advances in US codes and policy with regard to seismic geotechnics
R.B. Seed & R.E.S. Moss
Seismic design codes for liquefaction in Asia
S.Yasuda
