# Electrocoat 2000

**The Environomic Solution**

April 26-28, 2000 Orlando, Florida

## TABLE OF CONTENTS

### Keynote Presentation

- **“E-Coat And Beyond”** ................................................................. 10  
  Jim Blankemeyer, MetoKote Corporation

### Electrocoat Basics

- **“Electrocoating: Basic Equipment and Components”** ......................... 18  
  David Myers, Milbank Systems, Inc.

- **“System Selection: Square Transfer and Programmed Hoist Systems”** ........ 28  
  Jim Miller, Therma-Tron-X, Inc.

- **“Overhead Conveyors Used With E-Coat Systems”** ............................ 35  
  Edward C. Diekmann, George Koch Sons, LLC

- **“Electrocoat Technologies: Overview & Basics”** ................................ 46  
  Dale Berwanger, The Valspar Corporation

- **“Electrocoat for Advanced Users”** .................................................. 53  
  Robert Gatz, BASF Corporation

- **“Preparation and Pretreatment of Painted Parts”** ............................... 71  
  John Zbiegien, PPG Industries

- **“Pretreatment of Various Substrates Prior To Electrocoating”** ................. 80  
  Terrence R. Giles, Henkel Surface Technologies

- **“How to Calculate VOC’s and HAPs”** ............................................ 92  
  Paul A. Kuehn, PPG Industries

- **“Electrocoat and Abatement”** ....................................................... 97  
  Wade S. Klos, Eisenmann Corp.
"Water Conditioning & Waste Treatment for Electrocoating" 101
Gordon S. Johnson, TTX Environmental

Technology Outlook

"Advances in Cathodic Epoxy Technology" 111
Henry T. Austin, PPG Industries

"Bag-Less Filtration" 115
Joseph J. Subda, DuPont Performance Coatings; Bill Wells, MBS International; Ken Burke and Charlie Sawyers, Ford Motor Co.

"Planning for a Successful Product Conversion" 123
Geoff Ladell, The Valspar Corporation

"Alternative pH-Control for Cathodic Electrodeposition Systems" 129
K.H. Grosse Brinkhaus, BASF Coatings AG

"An Alternative to Anode Cells" 134
L. Karl Legatski and Eric M. Legatski, CellTech, Inc.

"Advances in Bulk Coatings of Small Parts" 141
Roger Kelly and Gordie Schafer, PPG Pretreatment & Specialty Products

"New Filtration Technology for Electrocoat Paint Systems" 148
Brian Donovan and Xavier Gabarre, Pall Corporation

"Why Current Monitoring is Important in an Electrodeposition (ED) System" 152
Fredrick Hess and Ed Ross, UFS Corporation

Troubleshooting & Process Improvement Workshops
Workshops are designed to be interactive, therefore outlines are provided. No technical papers are available.

Electrocoat Process and Products 166
Moderator: Geoff Ladell, The Valspar Corporation
Panelists: Robert Gatz, BASF Corporation
          Kevin Cunningham, General Motors
          Roy Goldsberry, DuPont Performance Coatings
          Joe Tirado, MetaKote Corporation
          Kathy Bubash, PPG Industries
          Mike Bourdeau, The Valspar Corporation

Ultrafiltration 167
Moderator: Tony Cimorelli, PTI-AMT Advanced Filtration
Panelists: Rob Oberling, PTI-AMT Advanced Filtration
          Mark Rizzone, Koch Membrane Systems
          Rick Monzo, PPG Industries
          Joe Subda, DuPont Performance Coatings
Environmental .................................................................................................................. 169
Moderator: Cheri Brent, PPG Industries
Panelists: Steve Schulte, Hixson, Inc.
Michael Peterik, Eisenmann Corporation
Arthur Gilbert, Mercury Marine
R. Edward Bish, Jamestown Paint Co.
Pete Clark, Lilly Industries
Gene Schuchert, Amana

Pretreatment/Phosphate ................................................................................................. 170
Moderator: Jeff Ross, Henkel Surface Technologies
Panelists: Randy Brent, PPG Pretreatment & Specialty Products
Terry Giles, Henkel Surface Technologies
Bill Neeb, Henkel Surface Technologies
Dave Wright, Nalco Finishing Technologies Group
John O’Connor, Coral Chemical Co.

Ancillary Systems & Equipment .................................................................................. 172
Moderator: Doug McPheron, PPG Industries
Panelists: Gordon Johnson, Therma-Tron-X
Fred Hess, UFS Corporation
Bob Blank, Eltech Systems Corporation
Karl Legatski, CelTech, Inc.
Craig Henry, J.P. Tech
Mike Arnold, Controlled Power

Primary Equipment ...................................................................................................... 174
Moderator: Wade Ficklin, George Koch Sons, LLC
Panelists: Jack Dean, Detroit Electro-Coatings
Ed Diekmann, George Koch Sons, LLC
Craig Henre, JH Thornton
Rick Monzo, PPG Industries
Tom Kelly, BASF Corporation

Electrocoating – Maximizing Your ROI ........................................................................... 176
“The Cost Advantages of Electrocoat” ............................................................................ 176
John Shaffer, PPG Industries

“Maximizing Production Capacity and Efficiency Through Your Production System” ......................................................................................................................... 182
Michael J. Bourdeau, The Valspar Corporation

“Electrocoat Calculator II” .......................................................................................... 187
Joseph J. Subda and D. Roy Goldsberry, DuPont Performance Coatings

Shaping The Future, Today ............................................................................................. 204
“Environmentally and Economically Friendly E-Coat” ............................................. 204
Diane Rudolph, Rittal Corp.
“Old System, New Results” ......................................................... 208
Rick L. Walker, Air System Components

“Job Shop Friendly Electrodeposition Coatings” ............................ 214
Lin E. Peterson, Industrial Finishing Services

“Recovering Paint Solids Through DI Dip Rinse Ultrafiltration” .... 225
Paul D. Adams, Jr., Toyota Motor Manufacturing and Mark Rizzone, Ph.D.,
Koch Membrane Systems

“Meeting The Challenges of Contract Electrocoating” .................. 229
Keith Anderson, Carolina Coating Systems

“Coating Large Enclosures” ..................................................... 236
Jim K. Barnett, The Knapheide Manufacturing Company

“State of the Art Electrocoat System Runs Steady Production” ...... 240
Robert Edenborg, John Deere Harvester Works

“Electrocoat: An Alternative to Powder Coatings” ...................... 247
Tom Nordwig, The Toro Company

The Electrocoat Association

Providing technical and educational information for YOU.

Contact us today to find out why electrocoat is the environmental and economical coating solution for today’s finisher and how your membership can provide these benefits and services:

- Product and process information
- Market information
- Operating cost studies
- Quarterly newsletter
- Networking opportunities
- Direct promotion to potential customers
- Special discounts on Association events
