Environmental issues in open pit and underground mining

Air particulate matter monitoring in a major Ghanaian mining town – The case study of Tarkwa
N.Amegbey & S.Ndur

A multicriterial geographical approach for the environmental impact assessment of open-pit quarries
P.Berry & A.Pistocchi

Stability analysis of an abandoned open pit mine for landfill design
R.Ciccu, M.Costa, P.P.Manca & A.Muntoni

Environmental problems at the underground limestone Baltar mine, São Paulo, Brazil

Natural ventilation of a tunnel-shaft system
S.M.Eston, W.S.Iramina & N.Lins

Characterization of fluidized bed combustion residues for pneumatic backfill in underground mines
N.Ghafoori & B.Paul

Diesel emissions evaluation for the surface mining industry
D.R.Leslie

Disposal and utilization of mine waste rocks and flyash as a coal mine backfill

Subsidence prediction in Estonia’s oil shale mines
J.R.Pastarus & A.Toomik

Environmental effects of increased blasting density in Appalachian limestone operations
W.R.Reed, E.C.Westman & C.Haycocks

Analysis of Tuncbilek underground coal mine accidents based on risk analysis techniques
A.S.Selçuk, C.Karpuz, H.Ş.B.Düzgün & M.Sari

Emerging technologies for environmental protection

Soil venting for site remediation after hydrocarbon pollution
G.Bonifazi, F.La Marca, P.Massacci, A.Matocci & F.Luzzi

Control parameters in the sodium sulphate purification process

Assessment of the reliability of tailings dam structures by centrifuge modeling
E.De Souza & A.P.Dirige

About methods of resource recovery from industrial waste
G.R.Gillich

The role of LCA in performance assessment in minerals processing – A copper case study
D.P.Giurco, M.Stewart & J.G.Petrie
Design and reliability engineering of aquifer CO$_2$ disposal in Alberta

A.Hachiya & S.Frimpong

Fine coal recovery utilizing landfill-derived liquids

S.T.Hall

Biofiltration: A cost-effective technique for controlling methane emissions from subsurface sources

J.P.A.Hettiaratchi, V.B.Stein & G.Achari

Kinetics and spectroscopy of Pb immobilization on rock phosphate at constant pH

R.Melamed, P.Self & R.Smart

Silica micro encapsulation: An innovative commercial technology for the treatment of metal and radionuclide contamination in water and soil

P.Mitchell, J.T.Rybock & A.L.Anderson

Effects of recycling on sustainable supply for base metals

G.Mogi, T.Adachi, J.Yamatomi & S.Mismi

A design of cylindrical holes penetrating through the electrode used to prevent diffusion of hazardous heavy metal ions from waste landfills

N.Nakayama, T.Komai, Y.Ogata & M.Utagawa

Evaluation of gas emission from closed mines surface to atmosphere

Z.Pokryszka & C.Tauziède

Thermal water distribution monitoring system for Baile Herculane resort

I.Ruja, N.Potoceanu & S.Szabo

Mining waste: Transforming mining systems for waste management

M.Scoble, B.Klein & W.S.Dunbar

Application of thermal drilling machine to waste processing

S.Shimada

An integrated process for utilization of gypsum and pyrite wastes

D.Tao, M.Abdelkhalek, S.Chen, B.K.Parekh & M.T.Hepworth

Fluff separation by image analysis

C.Vergati, G.Bonifazi, F.La Marca & P.Massacci

Self-cleaning acoustic screen filter system for mine waste water

J.R.Woolsey & S.Z.Shkundin

Modeling of methane emission control from heavy oil wells

M.Yang, A.K.Mehrotra & J.P.A.Hettiaratchi

A review of emerging technologies for sustainable use of coal for power generation

T.M.Yegulalp, K.S.Lackner & H.J.Ziock

Mine site closure – Tailings disposal and rehabilitation

Natural regeneration of vegetation on the mining waste sites

C.Biro & M.Georgescu
Greenhouse growth trials of perennial ryegrass in coalline spoils
B.K.C.Chan & A.W.Dudeney

The environmental effects of rock drains
M.Fitch, M.Thompson & B.Kovach

Revegetation: Invasion and succession above the 45th parallel
H.G.Gerbrandt & P.T.Sawyer

High value tree reclamation research
D.H.Graves, R.J.Sweigard, R.Warner, J.M.Ringe & M.H.Pelkki

Stabilisation of erodible soil by fly ash and blast furnace slag
B.Indraratna & W.Salim

Beneficiation of Emel colemanite tailings by ultrasonic sound waves
H.Ipek & V.Bozkurt

Identification of long-term environmental monitoring needs at a former uranium mine
R.C.Lee, R.Robinson, M.Kennedy, S.Swanson & M.Nahir

Water quality issues associated with implementation of composite tailings (CT) technology for managing oil sands tailings

Development of composite tailings technology at Syncrude Canada

Environmental planning considerations for the decommissioning, closure and reclamation of a mine site
D.M.Mchaina

Development of an environmental impact and mitigation assessment program for a tailings storage facility stability upgrade
D.M.Mchaina, S.Januszewski & R.L.Hallam

Effect of a one-time application of municipal biosolids on plant growth at a metal mine tailings impoundment, five years of results
R.L.McNearny

Tailings revegetation – On non-ameliorated substrate
J.M.Osborne

Completion criteria – Case studies considering bond relinquishment and mine decommissioning: Western Australia
J.M.Osborne & D.R.Brearley

From abandoned pit to trailhead: One community’s success story
S.B.Patton & B.Hall

Modeling of sub-aerial tailings deposition and optimum deposition design in arid regions
Y.Qiu & D.C.Sego

Revegetation of alpine mines and quarries – An interdisciplinary research project
A.Sanak-Oberndorfer, T.Oberndorfer & R.Schaffer
In-pit tailings disposal management facility, Fosterville Gold Project, Australia: A case study
A.J. Trevenen, K. Biswas & V. Langdale

Sediment re-suspension in shallow water under wind-induced waves and current
Y. Yang, A.G. Straatman & E.K. Yanful

Mine site closure – Acid rock drainage

Bioactivation and bioaugmentation of a passive reactor for acid mine drainage treatment
S. Beaulieu, G.J. Zagury, L. Deschenes & R. Samson

Electrochemical prevention of acid mine drainage
J.H.R. Brousseau, L.P. Seed, M.Y. Lin, G.S. Shelp & J.D. Fyfe

Statistical design for reactive mixture selection in mine drainage treatment
I.A. Cocos, G.J. Zagury & R. Samson

The use of basic additives to tailings in layered co-mingling to improve AMD control
S. Fortin, A. Lamontagne, R. Poulin & N. Tassé

AMD generation at sub-zero temperatures
R.C. Godwaldt, K.W. Biggar, D.C. Sego & J. Foght

Treatment of acid drainage from a uranium mine by means of a passive system

Use of electric utility wastes for control of acid mine drainage
A.G. Kim

Development of a process to prevent acid generation from waste rock and mine tailings
R. Mehta, S. Chen & M. Misra

A comparison of acid rock drainage treatment scenarios at the former Britannia Mine
T.O’Hearn & B. Klein

Alternatives for mitigation of acid mine drainage in a coal mine
P.S. Soares, L.S. Borma, V.P. Souza, E. Van Huyssteen & J.P.S. Schultze

Arsenic problems in mine tailings
C.A. Taschereau & K. Fytas

Environmental impact – National reports

An approach to the environmental baseline chart in Argentina
J.C. Avila

Impact of small-scale gold mining on water quality
R. Cidu

Development of environmental, social and economic indicators for a mining city in Bolivia
A.-M. Fleury & R. Poulin

Regulations enforcing better environment protection in Polish coal mines
L. Gawlik & U. Lorenz
Study on the sustainable development for Shenfu-Dongsheng coal mining area
Z.Hu, J.Jiang, Z.Lu & H.Gu

Present situation and development of land reclamation in China’s metallurgical mines
J.Zhou & P.Lei

Environmental problems of mining in the Ural region of Russia
A.V.Khokhryakov & A.M.Olkhovsky

The challenge of sustainable small (and medium) scale mining in Guyana
K.Livan

Self-regulation and environmental management in the mining industry in Zimbabwe
– A survey of issues
O.Maponga

A new proposal for the Brazilian mining environmental regulation system
R.O.Neto, J.C.Koppe & J.F.C.L.Costa

Evaluation of ecological consequences of coal mine closure in Kuzbass coal region
E.L.Schastlivcev, L.P.Barannic, B.I.Ovdenko & A.A.Bykov

Computer modeling and applications

Determination of preventive maintenance schedule using statistical process control
H.Ankara, H.Ipek & A.Konuk

CO$_2$ emission forecast and economic modeling for Alberta under the Kyoto Agreement on global warming
A.Hachiya & S.Frimpong

Spatial indexing of environmental sensitivity for selection of industrial sites
H.I.Inyang & G.Fisher

Hydrogeological modeling of mining operations at the Diavik Diamonds Project
K.Kuchling, D.Chorley & W.Zawadzki

Elements of a resource-orientated analysis of the material flow of aluminium: A systems analysis approach
W.Kuckshinrichs, H.-G.Schwarz, P.Zapp & J.-F.Hake

The Brazilian program of high pressure water jet to cut ornamental rocks

Development of an air attenuation model for noise prediction in surface mines and quarries
K.Pathak, S.Durucan & A.Korre

Determination of ventilation system for mines by genetic algorithm
Q.X.Yun & K.M.Huang

Pollutants migration in groundwater below a phosphogypsum storage site
M.Zairi & M.J.Rouis

Methods of the connected geomonitoring for modeling a condition of natural systems in regions with intensive technogeny influence
M.A.Zhuravkov, A.N.Zemskov & K.R.Al-Momani
Waste characterization and modeling

Recovery of chromium from industrial wastes
*M.P.Antony, V.D.Tathavadkar, C.C.Clavert, A.Jha & M.Wilkinson* 751

Characterization of free silica in underground gold mines in Minas Gerais, Brazil
*R.Z.L.Cançado & A.E.C.Peres* 757

Deformation behaviors of oil sands mine waste soils: Compaction effects
*H.Li & D.C.Sego* 761

Development and field implementation of a new generation penetrometric sampling system

Study on anisotropic rock mass unloading mechanics in nuclear waste repository in salt mine
*Q.-L.Ha* 775

Properties of fly ash stabilized haul road construction materials
*D.D.Tannant & V.Kumar* 781

Author index 789
