Contents

SPE/IADC 47775 Prevention of Shallow Gas Migration Through Cement ................. 9
Khalid Al-Buraik and Khalid Al-Abdulqader, Saudi Aramco, and Riad Bsaibes,
Schlumberger Dowell

SPE/IADC 57536 World Record Horizontal Bit Runs in Oman ....................... 17
Wilco Geldof and Eric Merrall, Petroleum Development Oman, and David Kent and
Mike Daulet, Baker Hughes INTEQ

SPE/IADC 57537 Using New Advances in LWD Technology for Geosteering and
Geologic Modeling ......................... 27
M.S. Efniik, M. Hamawi, and A. Al Shamri, Abu Dhabi Co. for Onshore Oil
Operations, and A. Madjidi and C. Shade, Schlumberger

SPE/IADC 57540 Multilateral Tieback Insert Provides a Low-Cost, Sealing
Multilateral Junction ...................... 37
Jonas Lindvall, Bas Hengeveld, and Moghrob Al-Asmy, PDO, and Robert Chadwick,
Charles Dewey, and Bruce McGarian, SRB

SPE/IADC 57541 Equation for Estimating Mud Minimum Rate for Cuttings Transport in an
Inclined-Until-Horizontal Well ............ 47
Rudi Rubiandini R.S., Bandung Inst. of Technology

SPE/IADC 57544 Translating Health, Safety, and Environmental Values Into Performance .... 63
Kamal Radwan, DuPont Safety Resources

SPE/IADC 57545 Developing Competence-Based Learning in Oman’s Drilling and
Well Services Sector ................... 71
I.A. Davidson, The Academy for Fire Fighting and Safety, and K.B.A. Al-Hashmi and
Isam Al Zadjali, Ministry of Oil & Gas Oman

SPE/IADC 57546 T.R.A.M.S.—A New Standard for Rig Audit Inspection
Management and Sharing ................. 75
I.W. Thomson and D.G. Hay, Aberdeen Drilling Consultants Ltd.

SPE/IADC 57547 “DIP” Fire Fighting and Blowout Control System ............ 81
Davorin Armanda, Ante Kovacic, Vjekoslav Posavec, and Danko Seletkovic,
CROSCO, Integrated Drilling & Well Services

SPE/IADC 57548 HSE Management System Challenge ......................... 85
Reda Ibrahim, National Drilling Co.

SPE/IADC 57549 Safety Case for Mobile Offshore Drilling Units in View of Offshore Safety
Legislation and Forthcoming ISM Code ............ 91
P.K. Gupta, Oil and Natural Gas Corp. Ltd.

SPE/IADC 57550 Spectral Gamma Ray Measurement on Cuttings:
An Alternative to MWD .................. 101
J-L. Alixant, Petroleum Development Oman, and D.A.L. Collie,
Robertson Research Intl.

SPE/IADC 57551 Improving the Working Environment and Drilling Economics Through
Better Understanding of Oil Based Drilling Fluid Chemistry ............. 111
R. James, P. Navestad, and T. Schei, Phillips Petroleum Co. Norway, and T. Geddes,
G. Nelson, and D. Webster, Carless Refining & Marketing Ltd.

SPE/IADC 57552 Bit Optimization in Kuwait ......................... 119
Ali Al-Saleh, Kuwait Oil Co.

SPE/IADC 57553 Rig Equipment Planning for a Deep, Deviated High-Pressure/
High-Temperature Khuff Well .............. 125
Noureddine Hadj-Moussa, National Drilling Co.

SPE/IADC 57554 Core Data Acquisition—An Alternative Approach .................. 131
A.M. McKay, T.A. Moore, and P.E.B. Arno, Corpro Systems Ltd.
Cost Savings Through an Integrated Approach to Drillstring Vibration Control

P.C. Kriesels and W.J.G. Keultjes, Shell EP Technology Applications and Research;
P. Dumont and Issam Huneidi, Al Furat Petroleum Co.; and O.O. Owoye and
R.A. Hartmann, Shell Petroleum Development Co. Nigeria

A New Effective Method of Maintaining “Hole Gauge” Using Synthetic Diamond Inserts on Downhole Drilling Tools

Theoretical Maximum Performances, ProStar Rig 2000

E. van der Leij and F. Zaadm, Deutag Europe, and G. van Twyl, P. de Jong, and
B. Anderson, RLG Int.

Formation Drillability—Definition, Quantification and Contributions to Bit Performance Evaluation

Graham Mensa-Wilmot, GeoDiamond, and Bill Calhoun and V.P. Perrin, Chevron Drilling Technology Center

Downtime Reduction With Updated Maintenance System

Mahmoud Khelifi, National Drilling Co.

Successes in Production-Liner Cementing in Oil-Based Mud: A Case Study

Bader Al Khayyat, Kuwait Oil Co.; J.A. Morris, Chevron Oil Co.; and
Sharifudin Salahudin, Kris Ravi, and Juvenal Faria, Halliburton Energy Services Inc.

A New Well Design and Construction Process

Tim Clay and Andy Hatch, ARCO British Ltd.

Horizontal Drilling Experience in the Panna Field

Kallole Ghosh, V.K. Wali, A.J. Brumbaugh, Anil Jaggi, Enron Oil & Gas India Ltd.,
and Jeff Baca and R.K. Murthy, Baker Hughes Inteq

Trial of an Expandable Sand Screen to Replace Internal Gravel Packing

Mark van Burein and Léon van den Broek, Petroleum Development Oman, and
Calum Whitelaw, Petroline Wellsystems

Successful Drilling of an Underbalanced, Dual-Lateral Horizontal Well in the Sajaa Field, Sharjah, UAE

The Galileo Experience

M.G.M. Koper, Nederlandse Aardolie Maj. B.V.

Underbalanced Drilling With Coiled Tubing in Oman

J. Van Vernooy, N. van Beele, and T. Hoekstra, Petroleum Development of Oman,
and A. Fleck, G. Bell, and A. Weihe, Baker Hughes INTEQ

Cost-Effective Development of Qatar’s Al Shaheen Field Through Continuous Drilling Optimisation

H-H. Rønnau, Jesper Nørrelund, Stig Dilling, M.J. Pitts, and M.W. Jeppesen,
Maersk Oil Qatar AS

Improving Drilling Efficiency Through the Application of PERFORM, Performance By Risk Management

W.D. Aldred, Anadrill Schlumberger

Optimizing Drilling Performance by Wellbore Stability Evaluation and Directional Drilling Practices

S. Hassan, Petrobel; and T. Klimentos, M. Badri, M. Sengul, and A. Zeid,
Schlumberger

Blowout Occurrence Caused by Annular Gas Flow After Cementing

K. Kadry, PETROBEL

A New Hydraulics Model for Slim Hole Drilling Applications

S.A. Hansen, Rolv Rommetveit, Njal Sterri, and Bjarne Aas, RF-Rogaland Research,
and Antonino Merlo, ENI s.p.a.-AGIP Div.
How To Manage Drill-In Fluid Composition To Minimize Fluid Losses During Drilling Operations ................................................. 329
S. Cobianco, M. Bartosek, and A. Lezzi, EniTecnologie S.p.A., and A. Guarneri. ENI-Agip

Designing Effective Zonal Isolation for High-Pressure/High-Temperature and Low Temperature Wells ........................................ 337
Ewout Biezen and Kris Ravi, Halliburton European Research Centre

An Innovative, Environmental Friendly and Cost Effective Approach for Polymer Based Mud System in Upper Assam Oil Fields of India ............. 347
S. Dayawant, ONGCL

Custom-Blending Foamed Cement for Multiple Challenges ....................... 353

New Developments in the Mechanized Running of Tubulars ..................... 363
David Harris, Weatherford, and Albert Peyon, Schlumberger, Sedco-Forex

No manuscript received for the following:

Drilling Multilateral Wells: Using Lessons Learned To Minimize Risk and Maximize Return
J.P. Oberkircher, Sperry-Sun Drilling Services

Evaluation of Horizontal Wells Performance Using Coiled-Tubing Logging
A.M. Al-Qahtani, Saudi Aramco

Production Performance of Multilateral Wells
A.H. El-Sayed, King Saud U.

Well Logging Tool Limitations in High-Pressure/High-Temperature Deep Wells, Case History
S.A. Talabani, Baker Hughes E&P Solutions, and A. Ataya, Abu Dhabi Co. Onshore Oil Operation

Casing Design Optimization in Kuwait Operations, Abdali Field
M. Boushairi and B. Al-Jadi, Kuwait Oil Co.

The Application of Anthropometric and Ergonomic Design to Driller’s Consoles
S.E. Graves, S.W. Dodson, and Martin Decker, TOTCO; A.J. Legault, Transocean Offshore Inc.; M.S. Flanegan, Design Edge; and M.W. Norman and Martin Decker, TOTCO

Optimizing High-Temperature Kill Pills: The Asgard Experience
C.F. Svoboda, M-I Drilling Fluids Co.

The Changing Face of Underbalanced Drilling Technology
R.R. Teichrob, Husky Oil Operations Ltd., and D.C. Baillargeon, RDS—Tesco Corp.

The Athel Silicilyte Coring
J. Alixant, L. Bolle, and J. Kraaijevanger, Petroleum Development of Oman, and M.V. Ratchinsky, Dansk Operatorselskab I/S

The Evolution of Foam Cementing Applications—North Field, Offshore Qatar
S.T. Howard, Mobil Oil Corp.; D.R. Aberdeen, Ras Laffan LNG Co. Ltd.; J.R. McDermott, Mobil Oil Qatar Inc.; S. Terry, BJ Services Middle East; and G.O. Benge, Mobil E&P Technical Center

Cementing Under Extreme Conditions of High Pressure and High Temperature
M. Shaheen, Dowell Schlumberger Inc., and G.S. Haddad. Schlumberger

Drilling Cuttings Injection—A Permanent Solution for a Global Concern on the Road Toward Achieving Zero Emission Targets for Drilling Wastes
A.S. Abou-Sayed, Advantek Intl.
