Perspectives on Knowledge Management and the Role of IT

Knowledge Management: Hype, Fiction and Reality (PANEL) .......................................................... 684

Knowledge Management Systems: Research and Practice

Perspectives on Knowledge Management Systems - Theoretical Framework and Design of an Empirical Study .......... 685
R. Maier, F. Lehner
Developing a Relevant Research Agenda in Knowledge Management - Bridging the Gap Between Knowing and Doing .......................................................... 694
E. Truch, J. -N. Ezingeard, D. W. Birchall
Features Missing in Action: Knowledge Management Systems in Practice ............................................. 701
R. Lindgren, C. Wallström

IT and Business

The Government's Role in Improving Electronic Commerce Adoption .................................................. 709
A. Papazafeiropoulou, A. Pouloudi
The Emergence of Electronic Trading in Global Financial Markets: Envisioning the Role of Futures Exchanges in the Next Millenium .......................................................... 717
M. Barrett, S. V. Scott
IT Alignment and Organisational Performance in Small Firms ............................................................. 723
M. King, P. Cragg, H. Hussin

Information Systems Strategy and Policy

Integrating e-Business, Knowledge Management and Policy Considerations Within an Information Systems Strategy Framework (PANEL) .................................................... 730
Author Index ........................................................................................................................................... follows page 734

VOLUME 2

The Media

Features of the Internet

The United States Responds to Spam ........................................................................................................ 737
J. C. Sipior, B. T. Ward, P. G. Bonner
Technological Protections for Digital Copyright Objects ........................................................................ 745
R. Clarke, S. Nees
Internet Newspapers: Are Some More Equal than Others? .................................................................. 753
E. Dans

Business Applications

Towards an Entertaining Business Model: A Teaching Case ............................................................... 763
C. Loebbecke, P. Powell
Corporate Media - An Approach for Corporate Community Management ........................................ 771
V. Porak, U. Geissler, S. Einwiller
Constructing New Media ....................................................................................................................... 779
M. Klose, U. Lechner

Banking (including Insurance Stream)

Financial Services and Customer Orientation I

IT-Enabled Sophistication Banking ........................................................................................................ 789
H. U. Buhl, D. Kundisch, A. Leinfelder, W. Steck
The Introduction of e-Commerce Systems in the Banking Industry - An Example of the BBBank and Some Empirical Results ................................................................................... 796
E. Bock
Competitive Advantage, Online Brokerage and IT: Evidences from Italian and German Companies .......... 803
A. Carignani, F. Seifert
Financial Services and Customer Orientation II

Unbundling Processes in On Line Trading: Economic and Technical Drivers ............................................. 812
C. Bauer, J. Colgan, J. Wreford

Preferenc Based Customer Models for Electronic Banking ................................................................. 819
M. Fridgen, J. Schackmann, S. Volkert

Online-Brokerage – Transforming Markets from Professional to Retail Trading .................................... 826
C. Weinhardt, P. Gomber, C. Holtmann

E-Commerce Services

The Italian Legislation on Digital Signatures and the Role of Italian Banks as Certificate Authorities:
A Strategic Analysis ................................................................................................................................. 833
F. Virili, F. Cantoni

Risk in Electronic Commerce: It Does Matter, but Not Equally for All Companies ............................... 838
D. Schoder

Electronic Notary System and its Certification Mechanism .................................................................... 844
S. Nakahara

Risk and Insurance Services

Prediction of Insolvency of Life Insurers Through Neural Networks .................................................... 850
E. P. Goss, G. S. Vozikis

Combining Configuration and Evaluation Mechanisms to Support the Selection of Modular Insurance Products ............................................................... 858
M. Stolze, S. Field, P. Kleijer

The Future Role of Banks in Electronic Commerce – Trust as the Crucial Factor of Success in “Business Enabling” ................................................................. 866
T. Kiefer

Infrastructure Models

Individual Risk Management for Digital Payment Systems........................................................................ 875
M. Reichenbach, T. Grzebiela, T. Költzsch, I. Pippow

Supporting a Multiple Channel Architecture Design: The UML Contribution in a Virtual Banking Environment ............................................................................ 883
A. Carignani, M. De Marco, C. Rosenthal-Sabroux

Full Bindingness and Confidentiality ....................................................................................................... 889
A. Weber

Payment Services

InternetCash System based on NTT Electronic Money ............................................................................. 897
K. Toramatsu, T. Nagayoshi, J. Kikuchi

Using EMV Smartcards for Internet Payments ........................................................................................ 901
E. Van Herreweghen, U. Wille

Security and Productivity Improvements - Sufficient for the Success of Secure Electronic Transaction? ........................................................................ 909
M. Fritscher, O. Kump

The Software Industry

Organization and Strategy

Managing Knowledge in Medium-Sized Software Companies ............................................................ 917
A. Teubner, M. Nietsch

Managing Work Within a Virtual Manufacturing Enterprise- Revising Project Planning Practice ........................................................................ 926
S. Balint, A. Kourouklis

Development and Implementation Strategies for International ERP Software Projects ...................... 932
M. Rebstock, J. G. Selig

Software Management

A Study of Requirements Negotiations in Virtual Project Teams .............................................................. 937
D. E. Herlea Damian, M. L. G. Shaw, B. R. Gaines

A Comprehensive Change Management Framework for Information Technology-Driven Change in Organisations ................................................................. 945
E. van Rooyen

A Systematic Analysis of the Effect of Task Clarity on Software Development Design ......................... 953
W. Mellis
Product Policy and Pricing

Expanding IS Outsourcing Services Through Application Service Providers ........................................... 961  
W. L. Currie

Business Models for ASP Marketplaces ........................................................................................................ 968  
G. Tamm, O. Günther

Pricing in Network Effect Markets .................................................................................................................. 976  
O. Wendt, F. von Westarp, W. König

Retailing

Data Mining and Knowledge Discovery in Retail Information Systems

Translating Advances in Data Mining to Business Operations: The Art of Data Mining in Retailing ................... 987  
H. G. L. Dillon, B. G. Hope

A Strategy for Mining Association Rules Continuously in Pos Scanner Data ............................................... 995  
E. L. Terra, A. A. Borges Jr.

A Data Mining Framework for Optimal Product Selection in Convenience Stores .................................. 1001  
T. Brijs, G. Swinnen, K. Vanhoof, G. Wets

Efficient Consumer Response and Supply Chain Management

The Issue of Mutuality in ECR Adoption: A Case Study .............................................................................. 1009  
S. Kurnia, R. B. Johnston

Inter-Organizational Systems and Supply Chain Management - An Information Processing Perspective ........ 1017  
G. P. Premkumar

The Online Retailing Challenge: Forward Integration and E-Backend Development .................................... 1025  
C. Schlueter Langdon, M. J. Shaw

Retailing Online - From Groceries to Bits and Bytes

Retailing Digital Products ............................................................................................................................... 1029  
R. Luxem, L. H. Ehlers

Business Model for Electronic Commerce – Analysis of Grocery Retailing Industry .................................... 1037  
J. Kallio, T. Saarinen, M. Tinnilä, V. K. Tuunainen

Battling over Books (and More): The Internet-Based Competition Between Bertelsmann Online and Amazon.com .......................................................... 1045  
T. Jelassi, A. Enders

Electronic Commerce

The Effects of Internet Experience and Attitudes Toward Privacy and Security on Internet Purchasing ........ 1053  
J. F. George

A Multidimensional Approach to Product Advertisement in the Virtual Retail Environment .................... 1059  
K. C. Pramataris, D. Papakiriaikopoulos, T. Motsios, G. J. Doukidis

E-Channel Competition: A Strategic Approach to Electronic Commerce .................................................. 1066  
D. Görsch, M. Kühn Pedersen

E-Commerce Research

Panels on Electronic Commerce (PANEL) ....................................................................................................... 1074

Global E-Commerce Development

Panels on Electronic Commerce (PANEL) ....................................................................................................... 1074

Tourism

Session 1

Virtual Reality and the Tourism Product: Substitution or Complement? .................................................... 1077  
S. Sassmann, H. Vanhegan

Cross-Supplier Bundling of Tourist Products with Multi-Vendor Catalogs ................................................. 1084  
K. Stanoevska-Slabeva, B. Schmid

Decision Support for Flight Re-Routing in Europe ......................................................................................... 1090  
P. A. Leal de Matos, P. L. Powell
Session 2

Web Marketing Tourism Destinations .......................................................... 1096
  P. Rita
An Approach to Enable Interoperability in Electronic Tourism Markets ................ 1104
  M. Kaukal, W. Höpken, H. Werthner
Diffusion of Internet Technologies in Travel Agencies in Australia .................... 1112
  C. Standing, T. Vasudavan

Public Administration

Electronic Government

Citizen Information Services using Internet Technologies ..................................... 1123
  C. Bouras, S. Kastaniotis, V. Triantafillou
Internet Based Self Service Systems for Customer-Oriented Processes in Public Administration .................................................. 1131
  F. Bodendorf, G. Saueressig
Organizational, Technological and Regulatory Challenges for Realizing Electronic Government .................................................. 1136
  G. Aichholzer, R. Schmutzer

New Perspectives on Information Management in Public Administration

User Needs for Electronic Document Management in the Public Administration: A Study of Two Cases .................................................. 1144
  P. Tiitinen, V. Lyytkäinen, T. Päävärinta, A. Salminen
Digital Material in a Political Work Context - The Case of Cuparla .................. 1152
  G. Schwabe, H. Krcmar
Towards an Enterprise Architecture for Public Administration using a Top-Down Approach .................................................. 1160
  V. Peristeras, K. Tarabanis

New Perspectives on Information Systems in Public Administration

Yarra Valley Water: A Successful Change Programme for a Corporatised Water Utility .................................................. 1168
  J. Brudenell, G. A. Sandy
Intra-Censal Geographical Information Systems: Application to Binational Border Cities .................................................. 1175
  J. Pick, W. J. Hettrick, N. Viswanathan, E. Ellsworth
Functional Integration Test of Mass Processes with Electronic Signatures in Public Administration .................................................. 1182
  B. Lüpken, F. Losemann, T. Engel, C. Meinel

Experiences with the IVBB

Berlin-Bonn Information Network (IVBB) .................................................. 1187
  B. Zypries

Public Administration in the Era of the Internet

Administration 21 - Public Administration in the Era of the Internet (PANEL) .............. 1194

Impact of IS on the Public Administration

Invisible IT-Harems and Emerging "Wicked" Issues for Public Policy .................. 1195
  N. Korac-Kakabadse, A. Kouzmin, A. Korac-Kakabadse
Defining Business Process Requirements for Large-Scale Public Sector ERP Implementations: A Case Study .................................................. 1203
  G. Blick, T. Gulledge, R. Sommer

The Learning Administration - Shaping Change and Taking Off into the Future

The Learning Administration - Shaping Change and Taking Off into the Future .................. 1210
  H. -J. Bullinger, W. Brettreich-Teichmann, G. Wiedmann
Health Care

Transforming Health Care Management Systems

Transforming Healthcare in Australia: The PeCC Initiative ................................................................. 1219
E. More, G. M. McGrath

Combining IT Support Across All Health Sectors Within an IT Teaching Centre ........................................ 1227
B. Regan, J. Aisbett, G. Gibbon, C. Regan

A Hospital Perspective on IS

Building a Virtual Hospital ......................................................................................................................... 1231
E. Syrjänen

IT Induced Health Care Reconfiguration: German Hospitals in Transition ................................................ 1237
A. Heinzl, W. Güttler

A Framework for Clinical Decision Making and Medical Experience Storing ............................................. 1245
J. Colloc, L. Bouzidi

IS-Driven Health Care Network Transformation

Exploring IT-Enabled Networked Organisations in Health Care: Emerging Practices and Phases of Development ................................................................. 1253
R. R. Peterson, M. Smits, R. Spanjers

Restructuring the German Outpatient Health Care System: An Economic and IT Perspective ................ 1261
S. Gfrörer, M. Raupp, F. Schober

Leapfrogging for Modern ICT Usage in the Health Care Sector .................................................................. 1269
R. Suomi

Health Care Data Usage

Community Health Assessments: A Data Warehousing Approach .............................................................. 1276
D. J. Berndt, A. R. Hevner, J. Studnicki

Critical Analysis of an Information System for Community Nursing ......................................................... 1284
I. Bitenc, R. Leskovar, V. Rajkovic, M. Bernik, O. Sustersic

The e-Babies Project: Integrated Data Monitoring and Decision Making in Neo-Natal Intensive Care ...... 1289
R. Lister, G. Bryan, M. Trac

Medical Information Representation and Access

Computer-Based Drug Therapy: Challenging More than 700 Years of Traditions ........................................ 1294
R. Söderlund, M. Brännback

Representation and Communication of Pharmaceutical Expert Information ................................................. 1302
M. Wagner

Towards a Web-Based Medical Information Service for General Practice – The EVIMED Project ................ 1309
R. Grütter, J. Steurer

Security Issues in Health Care IS

The Electronic Patient Record as an Organisational Artefact ...................................................................... 1315
P. Toussaint, M. Berg

Towards a Secure Web-Based Health Care Application ............................................................................. 1323
S. Röhrig, K. Knorr

Secure Access to Medical Data over the Internet ....................................................................................... 1331
U. Ultes-Nitsche, S. Teufel

Higher Education

Effectiveness of, and Trust in, Electronic Systems for Individual and Group Learning Processes

Effective Flexible Delivery in Higher Education: An Australian Case ......................................................... 1341
P. F. Green, D. J. Lamb

Trust in Electronic Learning and Teaching Relationships: The Case of “WINFO-Line” .............................. 1348
H. F. O. VonKortzfleisch, U. Winand

Avoiding the Hermit’s Way of Distance Learning: Augmenting Individual Learning with Synchronous Internet-Based Seminars .................................................................................. 1355
T. Böhmann, C. Koppenhöfer, H. Krcmar
Virtual Educational Environments for New Academic Programs in the Fields of Information Systems, Media Systems and EC-Systems

A Completely Virtual Distance Education Program Based on the Internet – Case and Agenda of the International MBI Program
K. Kurbel

A Virtual Teaching Environment for Electronic Commerce
P. Joyce

The Seaway Tracker Project – Development of New Media Didactic Systems with an Interdisciplinary Approach
L. Botturi, G. Mittenecker, E. Plasser

Educating Future IS Researchers

Educating Future IS Researchers (PANEL)

Internet/Web-Based Learning: Interdisciplinary and Cultural Influences

Internet Use at the University: A Comparative Analysis Between Students of the Pennsylvania State University (USA) and the University of Cologne (Germany)
P. Ploenes

Information Systems Education in an Interdisciplinary International Arena
R. A. Boggs

Web-Based Learning: Aspects of Cultural Differences
C. Bauer, K. L. Chin, V. Chang

IS Professors in the Electronic World - Digging Their Graves or Digging a Goldmine?

IS Professors in the Electronic World - Digging Their Graves or Digging a Goldmine? (PANEL)

Management Education – “What Do Managers Need?” What Can Be Delivered by ICT, Pedagogy and New Management Approaches

Linking Information Technology and Pedagogical Innovation to Enhance Management Education
S. Vasquez Bronfman

Work-Based Learning and Knowledge Management: An Integrated Concept of Organizational Learning
S. Seufert

Multimedia Case Studies: Development and Use in Management Education
P. Bielli, S. Basaglia

Coordinating the Management of IS in Higher Education

Coordinating the Management of IS in Higher Education (PANEL)
