Table of contents

**Preface**  
Preface  

**Design, operation and disposal**

- Upstream constructed tailings dams – A review of the basics  
  *M. P. Davies & T. E. Martin*  
  Page 3

- Slurry distributor for tailings dam construction  
  *J. E. Lemieux & C. Y. Bédard*  
  Page 17

- Sand transport and placement  
  *S. Barrera & C. Riveros*  
  Page 23

- Subaerial tailing deposition – Design, construction and operation for facility closure and reclamation  
  *B. Ulrich, D. R. East & J. Gorman*  
  Page 29

- Sustainable development in disposal of tailings  
  *E. I. Robinsky*  
  Page 39

- System aspects of pumping and co-disposal of waste rock and tailings  
  *A. Sellgren & G. Addie*  
  Page 49

- Principles of tailings dewatering by solar evaporation  
  *G. E. Blight & L. Lufu*  
  Page 55

- Slurry impoundment internal drain design and construction  
  *R. E. Snow, J. L. Olson & W. Schultz*  
  Page 65

- Paste dewatering techniques and paste plant circuit design  
  *R. A. Tenbergen*  
  Page 75

- Tailings management framework at QCM  
  *C. Y. Bédard & J. E. Lemieux*  
  Page 85
Instrumentation and monitoring behaviour of uranium tailings deposited in a deep pit
Y. Sheng, P. Peter & A.R. Milnes

Three-dimensional modeling for waste minimization and mine reclamation
C.H. Dunning & J.R. Arnold

Geotechnical considerations

Settling of tailings
G. Ter-Stepanian

Prediction of long-term settlement for uranium tailings impoundments, Gas Hills, Wyoming

Consolidation behaviour and modelling of oil sands composite tailings in the Syncrude CT prototype

Tailings as a construction and foundation material

Disposal of industrial waste liquids by evaporation and capillary storage in waste dumps
G.E. Blight & A. Kreuiter

Static liquefaction as an explanation for two catastrophic tailings dam failures in South Africa
A.B. Fourie, G. Papageorgiou & G.E. Blight

A study of granulation distribution in a beach of tailings dam
M.J. Lipiński & A. Gołębiewska

Exploiting the rheology of mine tailings for dry disposal
F. Sofra & D.V. Boger

Dynamic run-out analysis methodology (DRUM)
P. Tan, Y. Moriwaki, R.B. Seed & R.R. Davidson

Liners, covers and barriers

Geomembrane/soil interface strength relationships for heap leach facility design
J.E. Valera & B.F. Ulrich

Use of a chemical cap to remediate acid rock conditions at Homestake’s Santa Fe Mine
D.A. Shay & R.R. Cellan
Groundwater and geochemistry

Application of 3D groundwater models to the assessment of ARD source loadings in surface water bodies
M. M. E. Uwiera & M. J. Reeves

Probe sampling and geophysics applied to groundwater evaluation of mine dumps
F. Malen, R. Wanty, J. H. Viellenave & J. V. Fontana

Analyzing flow through mine waste-dumps
R. Bari & D. Hansen

In-situ and laboratory testing for predicting net infiltration through tailings
D. A. Swanson, G. Savci & G. Danziger

Use of a partitioning interwell tracer test (PITT) to measure water saturation in the Vadose Zone
P. E. Mariner & D. R. Donohue

Metal solubility and solid phase stability in arid, alkaline environments
J. Van Middlesworth, J. Anderson & A. Davis

Mineralogy of precipitates formed from mine effluents in Finland
L. Carlson & S. Kumpulainen

Arsenic release from oxide tailings containing scorodite, Fe-Ca arsenates, and As-containing goethites
E. A. Soprovich

Surface water quality

Environmental monitoring of the Mantaro River, Central Peru
N. Lozano

Metals-fixation demonstrations on the Coeur d'Alene River, Idaho – Final results
B. C. Williams, S. L. McGeehan & N. Ceto

Laboratory simulation of HCN emissions from tailings ponds
A. Rubo, A. Dickmann & S. Gos

Remediation and reclamation

Improved metal phytoremediation through plant biotechnology
E. A. H. Pilon-Smits, Y.-L. Zhu & N. Terry

Successful revegetation of neutralized heap leach material
R. Cellan, A. Cox, L. Burnside & R. Gantt
Alternatives analysis for mine waste relocation repositories  
B.R. Grant, M. Cormier & W.H. Bucher

**Radioactivity and risk**

Speciation of $^{226}$Ra, uranium and metals in uranium mill tailings  
S. Somot, M. Pagel, J. Thiry & F. Ruhlmann

Distribution of radionuclides in the tailings of Schneckenstein, Germany  
T. Naamoun, D. Degering, D. Hebert & B. Merkel

Identification of long-term environmental monitoring needs at a former uranium mine  
R.C. Lee, R. Robinson, M. Kennedy, S. Swanson & M. Nahir

Waste waters remediation from $^{226}$Ra removal  
E. Panțuru, D. Filip, D. P. Georgescu, N. Udrea, F. Aurelian & R. Rădulescu

**Policy and procedures**

Communication with the public about tailings projects  
J. Boswell, D. de Waal & N. Hattingh

Trends in the stewardship of tailings dams  
T. E. Martin & M. P. Davies

The Canadian Mine Environment Neutral Drainage 2000 (MEND 2000) program  
G. A. Tremblay

**New technologies and approaches**

AMD treatment, it works but are we using the right equipment?  
J. H. Smith III

Using Envirobond™ ARD to prevent acid rock drainage  
M. Gobla, S. Schurman & A. Sogue

Treating metals contaminated sludges with Envirobond™  
B. Littlepage, S. Schurman & D. Maloney

Hyperspectral mapping of abandoned mine lands, drainage, and watershed impacts in Utah  

Increased accuracy in suction measurements using an improved thermal conductivity sensor  
D. G. Fredlund, F. Shuai & M. Feng
Tailings management using TDR technology
K.M.O’Connor, D.A.Poulter & D.Znidarcic

Use of risk assessment to evaluate effects and plan remediation of abandoned mines
T.P.Boyle

Case histories

Stream morphology and habitat restoration of Pinto Creek, Gila County, Arizona
S.C.Bourcy & R.E.Weeks

Stabilization of the Pinto Valley tailings impoundment slide
L.A.Hansen, N.J.LaFronz & M.B.Yasin

Evaluation of mine tailings impact to the environment in mineralized terrains
R.A.Mongrain, B.E.Lary, T.O.Looff & E.L.J.Bingham

Water management during the Pinto Valley removal action
R.E.Weeks, R.Krohn & T.H.Walker

Mine waste management at Ok Tedi mine, Papua New Guinea – A case history
L.Murray, M.Thompson, K.Voigt & J.Jeffery

Acid In Situ Leach uranium mining – 1. USA and Australia
G.M.Mudd

Acid In Situ Leach uranium mining – 2. Soviet Block and Asia
G.M.Mudd

The Shikano North pervious tailings dam
H.D.Plewes, T.D.Pitman & K.Christensen

Operational results of a 1,200-gpm passive bioreactor for metal mine drainage, West Fork, Missouri
J.Gusek, T.Wildeman, C.Mann & D.Murphy

The Bradley Tailing Diversion and Reclamation Project
L.R.Yenne, W.S.Eaton, C.N.Hatton & D.E.Burnham
