Tailings and Mine Waste '01 © 2001 Balkema, Rotterdam, ISBN 90 5809 182 1

Table of contents

Preface XI

Site characterization

Identification of mine wastes using the CASI and SFSI hyperspectral imagers at the Bauer Mill tailings site, Stockton, Utah

Waste identification and characterization for the International Smelter area using CASI/SFSI hyperspectral remote sensing data

Characterization and control of alkaline seepage at closed tailings ponds, Arkansas
L.N.French & B.L.McCulley 13

In situ investigation of solute transport in a spent heap leach pad
G.Zhan & G.Danko 21

Design, operation, and disposal

Evaporation from wet and "dry" beaches of tailings dams
G.E.Blight 33

Sealing of penstock decant towers and pipelines on tailings dams in South Africa
D.J.Venter, R.J.Stuart & P.Labrum 41

Tailings dam penstock decants in the South African mining industry
R.J.Stuart, D.J.Venter & P.J.Shepherd 49

Fugitive particulate control at an iron mine tailings basin
K.G.Paterson & S.J.Vitton 57
A robust water-balance model for sizing heap leach solution ponds and reservoirs

J.R. Kunkel

Slope prediction for thickened tailings and pastes

F. Sofra & D.V. Boger

Tailings and disposal brine reduction – Design criteria for potash production in the 21st century

H.A.M. Rauche, D. Fulda & V. Schwalm

Geotechnical considerations

Geotechnical requirements for tailings dams in Western Australia

J. Ranasooriya

Evaluation of historic and future performance of a partially reclaimed tailings impoundment, Uravan, Colorado

Geotechnical characterisation of in-pit tailings at Ranger Uranium Mine, Northern Australia

H. Li, G. Cramb & A. R. Milnes

Closure of the Atlas Uranium Tailings Impoundment

M. E. Henderson

Slope stability performance of high heap fill structures for closure

A. J. Breitenbach

Rockfall analysis and prediction at the Summitville Mine Superfund Site

S. Laudeman

Assessing the engineering performance of tailings using a centrifuge

K. J. Stone & T. A. Newson

Modeling of a tailings impoundment raising

M. Barrientos & S. Barrera

Reduction of surface subsidence and brine inflow prevention in potash mines by subsequent backfilling

Liners, covers and barriers

Slope effect study on the capillary cover design for a spent leach pad

G. Zhan, A. B. Mayer, J. McMullen & M. Aubertin

On the mechanics of wind erosion from tailings dams

G. E. Blight & F. Amponsah Da Costa

</tbody>
</table>
A chemical and ecotoxicological assessment of the impact of marine tailings disposal

Conceptual regrading using three-dimensional GIS to evaluate mine reclamation
D.L.Jordan

Plant growth on aggregated materials generated from oil sands operations
X.Li, Y.Feng & M.Fung

Reprocessing, utilization, and treatment

Tailings, mine waste and mined land as future resources
D.L.Kuck

Waste disposal of dimension stones in the Lagoa Santa EPA
A.Curi, F.A.R.Carmo, J.L.Morais, J.G.Lima & R.C.Reis

The effect of microstructural evolution on the physical properties of paste backfill
T.Belem, B.Bussière & M.Benzaazoua

New technologies and approaches

Neural network analysis for acid drainage in waste rock pile
M.A.B.da Silva & M.de S.S.Almeida

Deep injection of warm tailings for thawing of frozen layers
P.G.Landine, N.Holl, D.Rezansoff, E.Yeates & H.K.Mittal

Application of cone penetrometer technology to phosphate mining exploration
W.L.Bratton & J.T.Alex

Hydrochemical and geotechnical properties of cemented uranium paste tailings
D.R.Jones, H.-Y.Li, T.D.Waite & B.Fenton

An alternative to conventional tailing management – “dry stack” filtered tailings
M.P.Davies & S.Rice

Case histories

Reclamation of the Big Springs subaerial tailings facility, Nevada
R.W.Reisinger, D.R.East, A.H.Gipson, J.E.Valera & J.A.Gorman

Grants branch lake: A successful experiment
D.E.Stump, Jr
The present condition of the “Schneckenstein” uranium tailings, Germany
T. Naamoun

Large-scale testing of co-disposal of coarse waste rock and tailings through pumping
Å. Sundqvist & S. Sundqvist

Sealing of decant structure at QCM using a tailings cement grout mix
C. Bédard, P. Gouslisty & J. Lemieux
