Geoengineering in Arid Lands

Edited by
A.M.O. Mohamed & K.I. Al Hosani
UAE University, United Arab Emirates
Table of contents

Foreword XIII
H. Bin Jouan Al-Dhahiri

Foreword XV
R. El Diasty

Foreword XVII
S. Al Dhaheri

Foreword XIX
K. I. Al Hosani

Preface XXI

Organization XXIII

Introduction XXV

Non-technical keynote lecture

The sun, the desert and the sea under-utilized resources XXIX
N. Saab

Geotechnical Engineering

1 Keynote lectures

Coupled thermo-hydro-mechanical processes in geomechanics: A perspective of modelling, computations and experiments 3
A. P. S. Selvadurai

Natural consolidation process and cementation of marine sediments 13
M. Fukue

Recent advances in constitutive modelling of unsaturated soils 25
R. S. Sharma

Numerical analysis in geotechnical engineering: Case histories 35
Y. El-Mossallamy
The behaviour of arid climate soils in the Gulf area
N.E. Ismael

Foundation failures from inorganic contamination
S.M. Rao

Reversibility of swell behaviour of bentonite inundated with liquids
H.A. Alawaji

2 Behaviour of soft sediment
Khalifa city ‘b’ ground conditions program
J.A. Tose & A. Taleb

Empirical correlations between engineering properties and index properties of soils
R.G. Robinson & M.M. Allam

Lessons learned from using Jack up barges for geotechnical drilling
A. Fakher & B. Pahlavan

3 Soil properties and behaviour
Pollution effects on soil geotechnical properties
P.V. Sivapullaiah

Estimation of the viscosity of clay suspensions
M.M. Allam & A. Keyhani

Assessment of internal fabric of particulate materials
K.A. Alshibli & M.Z. Al-Hamdan

4 Soil stabilization
Effects of added lime on the soil engineering properties
M.M.A. Osman

Stabilization characteristics of cement-kiln dust
T.O. Al-Refeai

Ground improvement using lime-fly ash column method
S. Chandrakaran & M.R.M. Nambiar

Stabilization of desert sand using water-born polymers
A. Al-Khanbashi, A.M.O. Mohamed, A. Moet & B. Hadi

Effect of sulphate on the properties of lime stabilised kaolinitic soil
P.V. Sivapullaiah, A. Sridharan & H.N. Ramesh

Roadway embankment stabilization using a superlight weight fill
M. Mathioudakis & W. Jukofsky

Evaluation of stabilized base, sand seal and slurry seal pavement sections in Oman
G.A. Ali, M. Al-Aghbari & A. Al-Jahadhamy
5 Soil strength and stability

The effect of clay content and slake durability on the compressive strength of weak rocks
M.Al-Saifi, M.Al-Hatmi & T.Cheema

Flexible geogrids installation damage under various conditions
C.Hsieh, J.H.Wu, C.K.Lin & M.-C.Wong

Laboratory pull-out tests evaluation for geogrid strip reinforcement
I.Vaníček & A.-A.A.Hasaan

New design method of polymer liners subjected to external pressure for rigid pipe rehabilitation
K.M.El-Sawy

Investigating landslide hazards in Muscat area, Sultanate of Oman
Y.Al-Sinani, T.Al-Hosni & T.Cheema

Evaluation and prediction of collapse potential of arid soils
H.A.Alawaji

The negative role of sulfate resistance cement on the soil-concrete structures interaction
V.R.Ouhadi

6 Hydrodynamics

Large scale experiments data analysis for estimation of hydrodynamic force coefficients
Part 1: Time domain analysis
M.Naghipour

Large scale experiments data analysis for estimation of hydrodynamic force coefficients
Part 2: Frequency domain analysis
M.Naghipour

Calculating sand movement quantities in desert using probability distributions
O.S.Abu-Hajar

A novel technique to investigate the suspension of solid particles in rectangular bio-reactor
O.Chaalal, A.Y.Zekri & H.El Mahadi

7 Unsaturated soil behavior

Strength of partially saturated remolded clays
H.O.Tumi, M.A.Benltayef & A.S.Alaroud

The use of thermocouple psychrometer in the retention curve determination
S.M.Merayyan & C.J.Miller

A numerical method for evaluating diffusivity parameters for coupled heat and moisture flow in unsaturated soil
I.Shoospasha & A.M.O.Mohamed
Coupled heat and moisture flow in unsaturated soils under opposing thermal and hydraulic gradients
*I. Shooshpasha, A.M.O. Mohamed & R. N. Yong*

8 \textit{In-situ soil investigation and testing}

In-situ investigations in Riyadh limestone
*H.A. Alawaji & A.O. Alshenawy*

Comparison of field measured and predicted soil suction and volume changes in expansive soil
*B. M. El-Garhy, A. A. Youssef & W. K. Wray*

The mineralogical composition of the Dammam Formation aquifer in Kuwait
*K. M. Hadi*

\textit{Geoenvironmental Engineering and Management}

1 \textit{Keynote lectures}

- Bioreactor landfills: Experimental study
  *M. A. Warith*

- Saltwater intrusion into coastal aquifers
  *M. Sherif*

- Review of microbial enhanced oil recovery
  *A. Y. Zekri*

- Evidence of Holocene transgression, dolomitization and the source of arsenic in the Bengal delta
  *A. A. Khan, S. H. Akhter & S. M. M. Alam*

- Aspects of medical waste management plans – The Syrian example
  *M. K. Kayyal*

- Role of regulatory agencies in risk management of polluted sites
  *A. M. O. Mohamed*

2 \textit{Landfilling}

Landfill as a tool for controlling the environmental pollution of the natural protectorates – Saint Katherine area as a case study
*El-A. H. Shendi & M. H. Geriesh*

Assessment of municipal solid waste compost characteristics
*S. Jilani*

3 \textit{Pollutant transport}

Influence of hydraulic hysteresis on the migration of contaminants in subsurface
*M. H. A. Mohamed & R. S. Sharma*
Sorption distribution coefficients: Discrepancy between batch and column techniques  
*M.A. Marqa*  
403

Parametric sensitivity analysis of tracer and groundwater contaminant transport models  
*I. Kocabas*  
411

Modeling flow and solute transport in the unsaturated zones  
*E. Khalifa*  
421

**4 Groundwater assessment**

Scale-dependent saltwater intrusion modeling  
*K.I. Hamza*  
429

Characterization of hydrodynamic dispersion in porous media  
*M.A. Marqa*  
435

Experimental and numerical study of leachate movement from municipal landfill  
*E. Ghahremani-Gargari & A. Fakher*  
443

**5 Hydrogeology**

Modeling groundwater conditions in Al-Wafra area of southern Kuwait  
*A. Akber, M. Sherif & H. Ghoneim*  
451

Numerical modeling of subsurface drainage in Kuwait city  
*M. Al-Rashed, F. Székely & M. Sherif*  
459

Modeling flow in the unsaturated zone in Shwab dam site area  
*H. Imran & E. Khalifa*  
467

Geochemical associations in the marine sediments off Ras Al-Kheimah, United Arab Emirates  
*A. El-Sammak*  
473

Petrography of calcretes and their effects on the hydrology of Kuwait group aquifer  
*M. Al-Senafy & K. Al-Fahad*  
481

**6 Assessment of polluted sites**

Electrical properties of soils contaminated with oil  
*M. Fukue, T. Minato, T. Ide & N. Taya*  
487

Results of geophysical site investigations near a destroyed building in El-Sahab sector, Suez government, Egypt  
*E. H. Shendi*  
493

Soluble mineral content of soils using electrical conductivity  
*M. Karakouzian, M. Schweppe & B. Johnson*  
499

Using ArcView GIS to assess groundwater quality beneath two landfills near Ottawa  
*M. A. Warith, A. F. Lukasheh & R. L. Droste*  
505
Groundwater deterioration from a tailing dam leakage, Sultanate of Oman
B.Al-Belushi, H.Al-Zidi & T.Cheema

7 Environmental management
Selected environmental issues and remedial actions for water supply and wastewater sector in Egypt
H.I.Saleh

Emission control in oil refineries in India: A case study
M.Z.Hasan, B.Shrinivas Rao & B.Padma Rao

Eco-Scavenging – An environmental friendly manual scavenging of M.S.W.: A pilot study in Karachi
A.F.Khan & W.Akhtar

Water supply and wastewater management progress for population development in Egypt
H.I.Saleh

Utilization of paper waste sludge in concrete
B.Ahmadi, W.A.Al-Khaja & I.M.Madany

Pollution hazards and their remedies in wool processing industries:
Case Study – El Marj Blanket Complex
F.A.Elmabrouk

8 Bioremediation
Biodegradation of crude oil
A.R.Hashem & S.A.Al-Harbi

Microbial process for pollution control: Bioremediation
N.Ahmed, S.Raihan & U.Badar

Modeling the temporal degradation of municipal solid waste compost
W.E.Elshorbagy, H.A.Abu Qdais & M.F.Hamoda

Enhancement of sludge stabilization by vacuum disintegration of bacterial cells
B.E.Abbassi

Sludge-solid waste mixture decomposition in landfills
D.S.El-Monayeri & A.K.Ghoneim

Industrial wastewater treatment using Advanced Integrated Wastewater Ponds (AIWPS)
E.Enssani & W.J.Oswald

9 Electrochemical treatment and monitoring
Flow of electrostatic charges in porous media during electrochemical remediation
A.M.O.Mohamed
Heavy metals removal from municipal wastewater sludge under the effect of electric current application
A.M.O. Mohamed & H.I. Saleh

Electrochemical remediation of nitrate-contaminated sandy soil
W.E. Elshorbagy, N.M. Eid, D. Larson & D. Slack

Development of an electrical polarization technique for subsurface pollutants detection
A.M.O. Mohamed, R.A. Said & N.K. Al-Shawawreh

10 Physico-chemical treatment of solid waste

Removal of suspended solids from the effluent of textile industry: A case study
S. Ara & W. Akhtar

The use of peat and compost for removal of boron from landfill leachate
M. Sartaj & L. Fernandes

Influence of clay minerals on municipal sludge degradation
A.M. Elleboudy, D.S. Elmonayeri, S.A. Bayomi & H.A. Fouad

11 Pollutant-soil interaction

Effect of soil parameters for characterizing gasoline contaminated soils using soil vapour
Y.M. Lam, J. Sugawara, D.P. Menagh & K.T. Law

Oligomerization of chloro and nitro aromatic compounds by iron and nickel enriched clays
J.A. Landry & S. Desjardins

Geoenvironmental study – Treatment of acid mine drainage using zeolite clinoptilolite
L.Y. Li

12 Agriculture pollution and management

Effect of zinc chloride and lead on seed germination and early seedling growth of rice and alfalfa
M.N. Al-Yemeni & A.A. Al-Helal

Author index
