CONTENTS—Volume 2

SPE/IADC 67754 Visualization: Game Changer, Facilitator or Gimmick? ............................................. 11
W. Wright, Schlumberger; J. Holt, BP; I. Rezmer-Cooper, Schlumberger; R. Minton, BP; and C. Ramshorn, Schlumberger

SPE/IADC 67755 Integration of Drilling and Geological Data To Understand Wellbore Instability ................................................................. 19
L.E. Beacon, H. Nicholson, and R.I. Corfield, BP

SPE/IADC 67756 Innovations in Reservoir Navigation ................................................................. 27
J. Coghill, M. Benefield, A. Poppitt, and J. Skillings, Baker Hughes INTEQ

SPE/IADC 67757 Real-Time Well Construction Monitoring—A Case History of Sincor’s Heavy Oil Project ................................................................. 37
A.J. Branch, Sperry-Sun Drilling Services; K. Andersen, Sincor/Statoil; J.L. Lavillonniere, Sincor/TotalFinaElf; T. Larsen, Sincor/Statoil; Y. Kremer, Sincor/TotalFinaElf; and G.A. Capacho, Sperry-Sun Drilling Services

SPE/IADC 67760 First Simultaneous Application of Rotary Steerable/Ream-While-Drill on Ursa Horizontal Well ......................................................... 51
L.F. Eaton, Shell Offshore Inc.; Scott McDonald, Hughes Christensen; and E.M. Rodriguez, Baker Hughes INTEQ

SPE/IADC 67761 Application of Multilateral Well Technology in the Deep Waters of the Campos Basin: History and Probable Evolution ................................................................. 65
Gabriel Sotomayor, Ronaldo Oliveira, and Ivan Alves, Petrobras

SPE/IADC 67762 New Mud Pulse Telemetry Techniques for Deepwater Applications and Improved Real-Time Data Capabilities ......................................................... 73
R. Hutin, R.W. Tennent, and S.V. Kashikar, Schlumberger

SPE/IADC 67763 Integrated Borehole Stability Studies: Key to Drilling at the Technical Limit and Trouble Cost Reduction ......................................................... 83

SPE/IADC 67764 Cost-Effective Composite Drill Pipe: Increased ERD, Lower Cost Deepwater Drilling and Real-Time LWD/MWD Communication ......................................................... 97

SPE/IADC 67765 A New Look at Deepwater Drilling Problems Combined With New PDC Technology Produces Savings of $5.9MM ......................................................... 105

SPE/IADC 67767 Reducing Drilling Costs in Deep-Water Gulf of Mexico Utilizing Two Piece Drill Out Reaming Technology ......................................................... 115
P.A. Watson and E.S. Kolstad, Union Pacific Resources Corp./Anadarko Petroleum Corp.; and T.T. O’Grady, Hughes Christensen/Baker Hughes

SPE/IADC 67768 Advances in Expandable Tubing—A Case History ......................................................... 129
Michael Ruggier and Scott Benzie, e²TECH; Rob Urselmann, Shell U.K. E&P; Henrik Mosser, Rohöl-Aufsuchungs A.G.; Roger van Noort, Petroleum Development Oman

SPE/IADC 67769 Determination of Borehole Quality, Diameter and BHA Directional Response: Eccentric Tool Test Program for Expandable Casing Application North Sea ......................................................... 139
R.J. Lodder, Shell U.K. E&P; Michael Ruggier, e²TECH; Allen Sinor, Douglas Bobrosky, and Steve Radford, Hughes Christensen Co.

SPE/IADC 67770 Solid Expandable Tubular Technology—A Year of Case Histories in the Drilling Environment ......................................................... 161

SPE/IADC 67772 Trends in Shallow Sediment Pore Pressures—Deepwater Gulf of Mexico ......................................................... 177

SPE/IADC 67773 Using Conventional and Unique Methods To Drill a Technically Demanding Shallow Flow Zone ......................................................... 189
P.R. Roller and M.D. Magner, Ocean Energy Inc., and R. Drury, M-I LLC

SPE/IADC 67774 West Africa Deepwater Wells Benefit From Low-Temperature Cements ......................................................... 203
Bernard Piot, Alain Ferri, S-P. Mananga, Collins Kalabare, and David Viela, Schlumberger
Successful Sealing of Vent Flows With Ultra-Low-Rate Cement Squeeze Technique

H.J. Slater, PanCanadian Petroleum Ltd., and D.A. Stiles and W. Chmielowski, Schlumberger

Shallow Casing Shoe Integrity Interpretation Techniques

A.K. Wojtanowicz and D. Zhou, Louisiana State U.

Erskine Field HPHT Workover and Tubing Corrosion Failure Investigation

A Practical Method for Evaluating Effects of Fracture Charging and/or Ballooning When Drilling High Pressure, High Temperature (HPHT) Wells

A Case Study of High Pressure Brine Flows Within the Zechstein Supergroup of the Southern North Sea

A.B. Finnie, Global Marine Integrated Services

New Operator Achieves Best-In-Class Performance in CNS

Pride Africa—Successful BOP and Riser Recovery Offshore Angola

Unplanned Disconnects in Deepwater Drilling: Prevention Measures and Emergency Response

D. Bruce, D. Foster, R. James, and M. Plaisance, Diamond Offshore Drilling Inc.; S. Chrisman, ExxonMobil Development Co.; and S. Kropla and C. Nelson, Newfield Exploration Co.

Breakthroughs in Casing Running Efficiency Utilizing Modern Pipe Handling Technology

S.R. Woelfel, Transocean Sedco Forex Inc., and P.T. Vollands, Varco Systems

Key Elements in Ultra-Deep Water Drilling Riser Management

J.N. Brekke, Global Marine Drilling Co.

Offsetting Kill and Choke Lines Friction Losses, a New Method for Deep Water Well Control

J.F. Haberer, ICO Worldwide

A New Method of Preventing Wear in Drilling and Combination Risers

J.F. Haberer, ICO Worldwide

Meeting Future Drilling Planning and Decision Support Requirements: A New Drilling Simulator

J. Booth, ExxonMobil Upstream Technical Computing; I.D.R. Bradford and J.M. Cook, Schlumberger Cambridge Research; J.D. Dowell, Texaco; G. Ritchie, Schlumberger GeoQuest; and I. Tuddenham, Schlumberger Cambridge Research

Delivering Exceptional Performance in the Ketch Field

N.A. Hashmi, John Foy, and Jorg Kohnert, Shell Expro

Tortuosity Versus Micro-Tortuosity—Why Little Things Mean a Lot

T.M. Gaynor, D.C.K. Chen, Darren Stuart, and Blaine Comeaux, Sperry-Sun Drilling Services

The Technical Limit—Illusion and Reality

D.W. Marshall, Equinox Project Mgmt. Ltd.

Planning and Execution of Big Bore Wells—Offshore NW Australia

S.P. Dolan, G.J. Williams, and R.J. Crabtree, Woodside Energy Ltd.

Managing Drilling Knowledge for Improved Efficiency and Reduced Operational Risk

Saad Bargach, C.A. Martin, and R.G. Smith, Schlumberger

Through Tubing Well Construction

Gary Moss, Chris Kuyken, and Frans Maessen, Shell U.K. E&P

Coiled Tubing Drilling: Continued Performance Improvement in Alaska

Evolution Toward Simpler, Less Risky Multilateral Wells

Adam Pasicznyk, Baker Oil Tools
SPE/IADC 67826 Operational Efficiency on Eight-Well Sidetrack Program Saves $7.3 Million vs. Historical Offsets in MP 299/144 GOM .................................................. 435
Chad Williams, Chevron USA Production Co.; J.S. Mason, Baker Hughes INTEQ; and John Spaar, Hughes Christensen/Baker Hughes

SPE/IADC 67827 A New Approach to Sidetrack Drilling of Marginal Wells Offshore .......... 445
M.H. Weatherly, Consultant, and Jack Hardy, Intl. Snubbing Services Inc.

SPE/IADC 67828 Variations in Formation Temperature Due to Mature Field Production Impacts Drilling Performance .................................................. 453
U.B. Sathwalli and P.V. Suryanarayana, Blade Energy Partners, and P. Erpelding, Schlumberger

SPE/IADC 67829 Designing Underbalanced Thru Tubing Drilling Operations .............. 461
S. Nas and A. Laird, Leading Edge Advantage Ltd.

SPE/IADC 67830 Chemically-Enhanced Drilling With Coiled Tubing in Carbonate Reservoirs .................................................. 473
Phil Rae and Gino Di Lullo, BJ Services Co.

SPE/IADC 67834 Design of Water Based Drilling Fluid Systems for Deepwater Norway .... 483
Eirik Sørgård and Eva Allerås, Norsk Hydro, and Gunnar Fimreite, Andrew Dzialowski, and G.S. Svanes, M-I LLC

SPE/IADC 68771 Development of External Pressure Resistant Tool Joint for Under-Balanced Drilling .................................................. 497
Andrei Muradov and J.E. Smith, Grant Prideco

Papers not received in time for publication:

SPE/IADC 67698 The Effects of Formation Hardness, Abrasiveness, Heterogeneity and Hole Size on PDC Bit Performance
G. Mensa-Wilmot, GeoDiamond

SPE/IADC 67699 Multi-Sensor MWD Tools Integrate Information and Reduce BHA Complexity
R. Randall and G.D. Folks, Baker Hughes INTEQ

SPE/IADC 67703 Experience Virtual Training for Drilling With DART
L.O. Malone, Deutag Drilling

SPE/IADC 67709 Redefining the Environmental Envelope for Surface BOP’s on a Semisubmersible Drilling Unit
K.T. Gallagher and D.F. Bond, Woodside Energy

SPE/IADC 67712 Dynamic Positioning—Past, Present, Future
C.N. Sims, Global Marine Drilling Co.

SPE/IADC 67720 Extended Reach Drilling, First Application in the Middle East
B.A. Montaron, Schlumberger, and J. Cushnie, Schlumberger Oilfield Services

SPE/IADC 67721 The Value of Rotary Closed-Loop Drilling Technology on Chevron Alba’s Horizontal
G.R. Holmes, Chevron UK Ltd., and J.A. Johnstone, Baker Hughes INTEQ

SPE/IADC 67726 The Global Impact of Expandable Sand Screens on Reservoir Drilling and Completion
P.D. Metcalfe, Weatherford Completion Systems, and R. Urselmann, Shell UK E&P

SPE/IADC 67730 Continuous Welded Tubing: A New Concept in Well Construction
T. Harrison and M. Keijser, Well Engineering Partners B.V.; E. Koster, BJ Services Intl.; K. Koch, Airborne Development; and P. Fokker, Netherlands Inst./Applied GeoScience

SPE/IADC 67741 Brent In-Fill Drilling Programme: Problems Associated With Drilling Depleted Reservoirs
M.A. Addis, Shell (SIEP-RTS), and M.B. Cauley and C.W. Kuyken, Shell UK Expro

SPE/IADC 67771 Expandable Technology Management in the Shell Group
J.A. Dewar, Shell Intl. E&P BV

SPE/IADC 67822 The Wells Decision Navigation—A Best Practice Decision Framework
J.B. Williamson, Global Marine Integrated Services

SPE/IADC 67833 Cuttings Transport: Experiments, Predictions and Field Applications
E. Vefring, J. Froyen, and R. Rommetveit, RF-Rogaland Research

SPE/IADC 68001 Two Methods for Achieving a Dual Gradient in Deepwater
J.M. Shaughnessy, BP Amoco Co. Ltd., and R.P. Herrmann

SPE/IADC 68049 Casing Running Tool (CRT)
J.G. Renfro, Varco Drilling Systems, and C. Chur, Deutag Europe GmbH
