Second International Workshop on Freight Vehicle Design

Proceedings

Manchester Metropolitan University

3rd April 2001

Official Publication:
Railways

Rail Technology Unit
Second International Workshop on Freight Vehicle Design
3rd April 2001

Contents

Keynote Address: Lord Tony Berkely, Chairman of The Rail Freight Group

Paper 1: Radial Arm: A Retrofit Kit to Improve the Dynamics of Freight Car Bogies
Dr lng Walter Kik, Argecare

Paper 2: Recent Experience with the Engineering Acceptance of New Freight Vehicles
Jeremy Evans, AEA Technology Rail, David Bridges, EWS

Paper 3: Modelling Leafspring Suspensions for 'Virtual' Acceptance Testing
Yann Bezin, Dr Simon Iwnicki, Rail Technology Unit

Paper 4: Support Engineering in the Railway Industry
Rob Knotts, MIRCE Akademy

Paper 5: Intermodal Transport – What Does the Market Want?
Phil Mortimer, Advanced Railway Research Centre

Paper 6: Container Carrying Road Vehicles With Intermodal Lifting Capability
Doug Baker, Containerlift Services Ltd.

Paper 7: Tread Brake Friction Material – A Noise issue
Stephen Morris, BBA Friction

Paper 8: The Application of CAE to Rail Industry Noise and Vibration
James Hargreaves, Ove Arup & Partners

Dr Hugues Chollet, INRETS

Paper 10: The Influence of Underframe Structural Flexibility on Freight Wagon Hunting
Dr Sebastian Stichel, KTH Stockholm

Paper 11: Modelling Vertical Train-Track Interaction Under Higher Axle Loads
Dr Martin Li, Banverket

Paper 12: The Design of New Generation Freight Cars in Russia
Prof. Yuri Boronenko, Dr Anna Orlova, St Petersburg State University of Means of Communication

Paper 13: Interaction of Three-Piece Bogies With Sorting Yard Retarders
Dr. B Kharitonov, Russian Scientific Research Institute for Railway Transport

Poster Presentations:

Poster 1: Simulation of Freight Bogies with Friction Dampers
N. Bosso, A. Gugliotta, A. Soma, Politecnico di Torino

Poster 2: Design of Special Freight Vehicles by RITES Ltd.
Ravi S. Kochak, RITES Ltd.

Poster 3: Evolution of Investigations of a Wheel with Differential Rotation for Railway Vehicles
Dr Leonid Vinnik, Electric Rolling Stock Repair Plant, Moscow

Poster 4: Computer Modelling of Hunting in Vehicles Equipped with Differential Rotation Wheelsets
Prof Henrich Bourtchak, Dr Leonid Vinnik, Electric Rolling Stock Repair Plant, Moscow
