Completed Research Papers

Versioning Information Goods with Network Externalities
  Bing Jing, University of Rochester .............................................................................1

Information Complements, Substitutes, and Strategic Product Design
  Geoffrey Parker, Tulane University, and Marshall W. Van Alstyne, University of Michigan .................................................................13

An Approach to Intelligent Query and Component Retrieval for Web-Based Repositories
  Vijayan Sugumaran, Oakland University, and Veda C. Storey, Georgia State University .................................................................16

Personalization of Search Engine Services for Effective Retrieval and Knowledge Management
  Weiguo Fan and Michael D. Gordon, University of Michigan, and Praveen Pathak, Purdue University ........................................20

Issues in Predicting and Explaining Usage Behaviors with the Technology Acceptance Model and the Theory of Planned Behavior When Usage Is Mandatory
  Patrick Rawstorne, Rohan Jayasuriya, and Peter Caputi, University of Wollongong ........................................................................35

Technological Capacitation in Customer Service Work: A Sociotechnical Approach
  Stephen Corea, London School of Economics ................................................................45

A Framework Analysis of the Open Source Software Development Paradigm
  Joseph Feller and Brian Fitzgerald, University College Cork ........................................58

Factors Affecting Information Systems Volatility
  John Heales, University of Queensland ....................................................................70

Toward Social Constructivist Understandings of IS Success and Failure: Introducing a New Computerized Reservation System
  Nathalie Mitev, London School of Economics ..........................................................84

The Politics of IS Evaluation: A Social Shaping Perspective
  Melanie Wilson, University of Manchester Institute of Science and Technology, and Debra Howcroft, University of Salford .........................................................94

The Effect of Negative Buyer Feedback on Prices in Internet Auction Markets
Zoonky Lee, University of Nebraska, Lincoln, Il Im, New Jersey Institute of Technology, and Sang Jun Lee, University of Nebraska, Lincoln .......................................................... 286

Intelligent Agents for Retrieving Chinese Web Financial News
Christopher C. Yang and Alan Chung, The Chinese University of Hong Kong .......................................................... 288

A Framework of Knowledge Management Systems: Issues and Challenges for Theory and Practice
Jungpil Hahn and Mani R. Subramani, University of Minnesota .......................................................... 302

Creative Ties and Ties That Bind: Examining the Impact of Weak Ties on Individual Performance
Robin Teigland, Stockholm School of Economics, and Molly McLure Wasko, University of Maryland .......................................................... 313

Supporting Shared Information Systems: Boundary Objects, Communities, and Brokering
Suzanne D. Pawlowski, Louisiana State University, and Dan Robey and Arjan Raven,
Georgia State University .......................................................... 329

Power and Information Technology: A Review Using Metatriangulation
Carol S. Saunders, Traci A. Carte, Jon Jasperson, Henry Croes, and Weijun Zheng, University of
Oklahoma, and Brian S. Butler, University of Pittsburgh .......................................................... 339

Building Links Between IS Research and Professional Practice: Improving the Relevance and Impact of IS Research
Daniel L. Moody, University of Melbourne/Simsion Bowles & Associates .......................................................... 351

Adoption as Sensemaking: Toward an Adopter-Centered Process Model of IT Adoption
Larry Seligman, University of Cincinnati .......................................................... 361

The Influence of Persuasion, Training, and Experience on User Perceptions and Acceptance of IT Innovation
Weidong Xia and Gwanhoo Lee, University of Minnesota .......................................................... 371

Game Playing Behavior in Requirements Analysis, Evaluation, and System Choice for Enterprise Resource Planning Systems
Daniel E. O'Leary, University of Southern California .......................................................... 385

Enterprise Resource Planning and Organizational Knowledge: Patterns of Convergence and Divergence
Richard Baskerville, Georgia State University, Suzanne Pawlowski, Louisiana State University, and
Ephraim McLean, Georgia State University .......................................................... 396

Process Maturity and Software Quality: A Field Study
Donald E. Harter, University of Michigan, and Sandra A. Slaughter, Carnegie Mellon University .......................................................... 407

Measuring Software Volatility: A Multi-Dimensional Approach
Evelyn Barry and Sandra A. Slaughter, Carnegie Mellon University .......................................................... 412

Using a Case Study to Test the Role of Three Key Social Enablers in ERP Implementation
Suprateek Sarker, Washington State University, and Allen S. Lee, Virginia Commonwealth University .......................................................... 414

Five Roles of an Information System: A Social Constructionist Approach to Analyzing the Use of ERP Systems
Linda Askenäs and Alf Westelius, Linköping University .......................................................... 426
Table of Contents

Information Technology Governance by Design: Investigating Hybrid Configurations and Integration Mechanisms
Ryan R. Peterson, Ramon O’Callaghan, and Pieter M. A. Ribbers, Tilburg University .................................................. 435

Information Technology and Information Goods as Predictors of Organizational Expansion Activity
Virginia Franke Kleist, West Virginia University, Irene Hanson Frieze and William R. King, University of Pittsburgh .................................................. 453

Assessing the Impact of Decision Process on Effectiveness of Strategic IT Decisions: A Triangulation Approach
C Ranganathan, Southern Illinois University, and Vijay Sethi, Nanyang Technological University .................................................. 455

CIO Lateral Influence Behaviors: Gaining Peers’ Commitment to Strategic Information Systems
Harvey G. Enns, University of Dayton, Sid L. Huff, Victoria University of Wellington, and Christopher A. Higgins, University of Western Ontario .................................................. 457

Research in Progress

The Impact of Human Resources Practices on IT Personnel Commitment, Citizenship Behaviors, and Turnover Intentions
Guy Paré, Michel Tremblay, and Patrick Lalonde, HEC-Montreal .................................................. 461

Boot Camp or Bordello: Whipping Rookies into Shape
June Bradley, Bradley Mann Consulting, and G. Michael McGrath, Macquarie University .................................................. 467

Integrating Three Theoretical Perspectives to Explain Internet-Based Technology Usage by University Students: A Qualitative Study
Sabine G. Hirt and Moez Limayem, City University of Hong Kong .................................................. 473

The Impact of Enterprise Resource Planning Systems on Firm Performance
Robin Poston and Severin Grabski, Michigan State University .................................................. 479

A Delphi Examination of Public Sector ERP Implementation Issues
She-I Chang, Guy Gable, Errol Smythe, and Greg Timbrell, Queensland University of Technology .................................................. 494

A Contingency Analysis of Post-Bureaucratic Controls in IT-Related Change
May Tang, Siew Kian Sia, Christina Soh, and Waifong Boh, Nanyang Technological University .................................................. 501

Competition Across Channels: Do Electronic Markets Complement or Cannibalize Traditional Retailers?
Sivakumar Viswanathan, New York University .................................................. 513

Mechanisms for Coping with Unfair Ratings and Discriminatory Behavior in Online Reputation Reporting Systems
Chrysanthos Dellarocas, Massachusetts Institute of Technology .................................................. 520

Clicks vs. Bricks: Toward a Model of Internet-Induced Channel Competition
Paul Chwelos, University of California, Irvine, and Michael J. Brydon, Simon Fraser University .................................................. 526

Trust in E-Commerce Vendors: A Two-Stage Model
D. Harrison McKnight, Florida State University, Vivek Choudhury, University of Cincinnati, and Charles Kacmar, Florida State University .................................................. 532
Initial Trust, Perceived Risk, and the Adoption of Internet Banking
Kyu Kim, University of Cincinnati/Inha University, and Bipin Prabhakar, University of Cincinnati ............................. 537

Trading Partner Trust in Electronic Commerce Participation
Pauline Ratnasingham, Victoria University of Wellington, and
Kuldeep Kumar, Florida International University .................................................. 544

Wynne W. Chin, University of Houston, and Matthew K. O. Lee, City University of Hong Kong ................................. 553

Content Versus Structure in Information Environments: A Longitudinal Analysis of Website Preferences
Michael J. Davern, New York University, Dov Te’eni, Bar-Ilan University, and Jae Yun Moon,
New York University ......................................................................................... 564

Of Mice and Users
Paul Beckman, San Francisco State University ......................................................... 571

Virtual Teams: Managerial Behavior Control’s Impact on Team Effectiveness
Gabriele Piccoli, Cornell University, and Blake Ives, Louisiana State University ...................... 575

Knowledge Sharing Practices and Technology Use Norms in Dispersed Development Teams
Deborah Sole and Lynda Applegate, Harvard Business School ........................................ 581

A Qualitative Analysis of Structural Emergence and Ascendant Leadership in Technological Appropriation
David W. Miller and John P. Bartkowski, Mississippi State University, and Wm. David Salisbury,
Ohio University ........................................................................................................ 588

External IT Environment: Dimensionality and Measurement
C Ranganathan, Southern Illinois University, Carbondale, and Vijay Sethi, Nanyang Technological University ........... 594

A Content-Analytic Longitudinal Study of the Drivers for Information Technology and Systems Outsourcing
Jahyun Goo, Rajiv Kishore, and H. Raghav Rao, State University of New York, Buffalo ......................... 601

How Do Information and Communication Technologies Reshape Work? Evidence from the Residential Real Estate Industry
Kevin Crowston, Syracuse University, Steve Sawyer, Pennsylvania State University, Rolf Wigand and
Marcel Allbritton, Syracuse University ....................................................................... 612

Integrating Multi-Perspective Views into Ontological Analysis
Michael Rosemann, Queensland University of Technology, and Peter Green, University of Queensland ................ 618

Managing Accounting Information Quality: An Australian Study
Hongjiang Xu, University of Southern Queensland .................................................................. 628

Knowledge Discovery for Decision Support in Law
Andrew Stranieri and John Zeleznikow, LaTrobe University .............................................. 635

The Development of Measures to Assess the Performance of the Information Systems Function:
A Multiple-Constitutency Approach
Jerry Cha-Jan Chang, University of Pittsburgh/University of Nevada, Las Vegas, and William R. King,
University of Pittsburgh .............................................................................................. 640
### Value Assessment of IS/IT Service Provision Within Organizations
Gurpreet Dhillon and Jungwoo Lee, University of Nevada, Las Vegas

### The Relationship Between Psychological Ownership and IT-Driven Value
Michel Avital and Betty Vandenbosch, Case Western Reserve University

### Is More Information Better? The Effect of Traders' Irrational Behavior on an Artificial Stock Market
Wei T. Yue, Alok R. Chaturvedi, and Shailendra Mehta, Purdue University

### The Experimental Analysis of Information Security Management Issues for Online Financial Services
Mukul Gupta, Alok R. Chaturvedi, and Shailendra Mehta, Purdue University, and Lorenzo Valeri, King's College London

### Economic Mechanism Design for Securing Online Auctions
Wenli Wang, Emory University, Zoltán Hidvégi, IBM Corporation, and Andrew B. Whinston, University of Texas, Austin

### Managing Customer Turnover in Online Services: A Systems Thinking Approach
Amitava Dutta, George Mason University

### Effects of Consumer Lifestyles on Purchasing Behavior on the Internet: A Conceptual Framework and Empirical Validation
Dan Jong Kim, Bongsoon Cho, and H. Raghav Rao, State University of New York, Buffalo

### Electronic Commerce: The Impact of the Internet on Sales Practices in the Car Industry
Ulrike Schultze and Page Moreau, Southern Methodist University

Panel  Data Quality in Internet Time, Space, and Communities
Chair  Yang W. Lee, Northeastern University
Panelists  Paul L. Bowen, University of Queensland
          James D. Funk, S. C. Johnson and University of Wisconsin, Parkside
          Matthias Jarke, GMD-FIT and RWTH Aachen
          Stuart E. Madnick, Massachusetts Institute of Technology
          Yair Wand, University of British Columbia

Panel  The Role of IT in the Creation of Sustainable Communities
Chair  David B. Paradice, Florida State University
Panelists  James F. Courtney, Jr., University of Central Florida
          Kalle Lyytinen, University of Jyväskylä
          Jaana Porra, University of Houston

Panel  IS Research Ethics: Defining Ethical, Barely Ethical, and Unethical Behavior
Chair  Ned Kock, Temple University
Panelists  Robert Davison, City University of Hong Kong
          Roger Clarke, Australian National University
          Karen Loch, Georgia State University

Chair  Allen S. Lee, Virginia Commonwealth University
Panelists  Michael Myers, University of Auckland
          Guy Paré, École des Hautes Études Commerciales
          Cathy Urquhart, University of the Sunshine Coast
          Commentator: M. Lynne Markus, City University of Hong Kong

Panel  Addressing the IT Skills Crisis: Gender and the IT Profession
Chair  Denis M. S. Lee, Suffolk University
Panelists  Sue Nielsen, Griffith University
          Eileen M. Trauth, Northeastern University
          Viswanath Venkatesh, University of Maryland, College Park

Tutorials

Developing Internet Agents: A Tutorial Using Visual Basic 6.0
Gove N. Allen, University of Minnesota, and Salvatore T. March, Vanderbilt University

Web-Based Data Collection for the Analysis of Hidden Relationships (Web Mining of Hypertext Links)
Edna Reid, Nanyang Technological University

Partial Least Squares for IS Researchers: An Overview and Presentation of Recent Advances Using the PLS Approach
Wynne Chin, University of Houston
