EUNIS 2001

The Changing Universities
The Role of Technology

Editors:
Prof. Dr. Jan Knop and Dr. Peter Schirmbacher

# Table of Contents

## Preface

11

## Keynote

13

**Prof. Dr. Detlef Müller-Böhling**

"Uni-www.ersity.de: Strategies for Universities in Transition"

13

**Manfred Paul (chairman of ZKI e.V.):**

Cooperation and Coordination of Information and Communication Services at German Universities

18

## Management of Universities

22

**Anne Boyer and Brigitte Nominé**

Managing services connected to new educative technologies in a medium size university

22

**Ulrich Kammerer, Dipl-Informatiker**

21st Century in Higher Education

- Satisfaction for Customers and Administration -

26

**Martin Price and Laure Burbridge**

IT Statistics - Why bother?

27

**Dr. Ludwig Leute and Dr. Wilfried Jauer**

Self Service anytime and anywhere

29

**François Cadé**

From Strasbourg (F) to Almaty (K): a successful transfer of NTI for management of university

30

**Yves Epelboin**

Approach to new technologies of Information and Communication for Higher Education: the Cultural paradigm

34

**Dr. J.D. Morgan**

Second order learning gains from virtual, bilingual teaching

38

**Juhani Anttila, Jorma Kajava and Juha E. Miettinen**

Changing technology requires changes to the ITC Security Education

41

**Mathew Boice**

Why integrate?

Service expectations in an online University world.

42

**Veaceslav Sidorenco**

Distance Learning Technology based on NetOp Virtual Classrooms

43

**Andrew Rothery and Anne Hannaford**

Collaboration or Catastrophe: can Libraries and Computer Centres work together?

47

**Stephan Prehn**

What is the “International University Network of Lake Constance”?

What is the “Internationale Bodenseehochschule”?

50

**Eric Zimmerman, Rochelle Kedar and Yosef Mackler**

KeyMail

Select Dissemination of Information on Research Funding Opportunities to University Scientists

52

**Dr. Stefan Gradmann**

Reducing White Noise

Towards a common information garbage policy

55
John Townsend, Head of Corporate Information Systems

The Oracle Student System (OSS) Implementation Project
A Learner-Centred Approach 60

Kestutis Pocius and Giedrius Deveikis
Admission to Lithuanian Universities:
Evolutional Development of the Consolidate Information System 63

Dr. Hannemor Keidel
The Increasing Role of Networking for the Cooperation between Universities in Europe 67

Dr. Uwe Haneke
Fully integrated business software and its impact on German universities 68

Ing. Gabriela Bláhová, Mgr. Jíří Hluchán and Ing. Josef Hajkr
Intranet based executive system of the Faculty of Business and
Management at Brno, University of Technology 72

A. Ediberidze, R. Khurodze and Sh. Nachkebia
Management of Georgian Technical Universities Organization and Structure 74

Ewa Magiera
The Strategy of IT implementation in the Higher Education
Institution on the example of the University of Silesia. 76

Irene Arditi, Alex Kresge, Marie-Christine Lacour and Marie-Lise Micheli
Between school and work, a virtual compagny 79

Janis Storis, Laila Niedrite and Alvars Niedritis
The influence of the Information System on administrative processes at the University of Latvia 80

Michal Brandejs, Iva Hollanová, Mirka Misáková and Jan Pazdziora
Administrative Systems for Universities Should Be More Than Just a Spreadsheet 84

IT and Networking Computing Security 88

Jorma Kajava
From a technological focus to a human emphasis:
re-introducing the end-user in information security education 88

François Morris
Enhancing information systems security in an academic organization 92

Alexander Hertz
Multifunctional Smart Card and PKI at the University of Mannheim 95

Ollivc Franck
An experiment in security at the University of Poitiers 97

Karel Dudáček, Jíří Ledvina, Václav Vais and Vlastimil Vavricka
Integrated Identification System at the University of West Bohemia 103

Iskra Mircheva
Aspects of healthcare computer networks security in the education
of students of medicine and healthcare management 108

Mikael Linden, Janne Kanner and Mika Kivilompolo
Feidhe (a project) 112

Anne Strachan, Tony Shaw and Donna Adams
Information Systems Delivery in a Tiered Security Environment 116

Martin Malžík and Tomáš Kamrád
Information systems Conception of University of Ostrava 120

Sigrun Fredenuud and Annick Bernhard
Quality process and Knowledge Management
Issues for the University Information Systems Management: 123

Lília M. Ribeiro, Maria Antónia Carravilla and Gabriel David
How the FEUP Removal to the New Premises Was Facilitated
by the Internal Information System 126
Prof. RNDr. Zdeník Ryjacek, Dr. Ing. Jan Rychlík

Information Systems Supporting CATS 130

Wolfgang Dalitz, Wolfram Sperber and Winfried Neun

Math-Net
a model for information and communication systems in sciences 131

Krementova veta, Surovec Roman and Petrík Milan

Metacase Tools for Multidimensional Development of Information Systems 134

Stasys Martišius and Dr. Linas Stabingis

Information System of Research, Studies and Consulting for Agriculture in Lithuania 138

Viljan Mahnic and Igor Rozanc

Data Quality: A Prerequisite for Successful Data Warehouse Implementation 142

Jean-François Desnos

A National Data Warehouse Project for French Universities 148

Serge Aumont and Olivier Salaün

S/MIME and Sympa mailing lists manager
Using signature and encryption with a mailing list manager 151

Cecile Ohm, Johanne Revheim and Jøstein H. Hauge

The integration of research information sources at university level 155

Christian Schwingenschlögl and Andreas Pilz

Network Security at the Institute Level 159

Andrē Flory and Pierre Soupirot

A Design and Implementation of a Data Warehouse for Research Administration Universities 164

Viljan Mahnic

Education in IT Controls at the Faculty of Computer and Information Science in Ljubljana 168

High Performance Computing

Manuel J. Galan, Fidel García, Luis Ivarez, Antonio Ocón and Enrique Rubio

'Beowulf Cluster' for High-performance Computing Tasks at the University:
A Very Profitable Investment. High performance computing at low price 173

Joachim M. Blum and Thomas M. Warschko

High Performance Parallel Computing with ParaStation3 177

N. Andronaty, Dm. Mishkoy, Gh. Mishkoy and I. Andronaty

Stationary Load Conditions and Virtual Queues in a Multiprocessor Networks 181

M.Sc. (Tech.) Kristel Sarlin

Update on Academic Networks in Europe 184

Ph.D. John A. Bielec and Kenneth S. Blackney

Drexel Goes Wireless 190

Salvador Abreu and Joaquim Godinho

Logic-based Network Configuration and Management 193

Susanne Naegel-Bakker, Ursula Hilgers and Dr. Peter Holleczek

Evaluation of Codec Behavior in IP and ATM Networks 197

Ursula Hilgers

QoS - ATM versus Differentiated Services 202

Claus Peter Buszello, Matthias Fay and Wolfgang Schmid

Cooperation - a better form of university networking?
Implementing remote administration for widespread Windows Networks 206

Mike Johnson

A Nationwide Access Management Service – Athens 210

Stoned Eeupot

Paris Academic Network Project 211

Luděk Matyska and Eva Hladká

Mobile Computing 214
Gregory D. Palmer, Jean-Francois Desnos and Claire Babanoury
The Value of High Performance Networking on International Distance Education Team Building, Technology Selection, and Innovative Teaching Methodology 219

Prof. Peter Kleinschmidt, Chair of Business Computing
Application Hosting for Education and Research Concepts of an SAP University Competence Center Powered by a SUN Server Farm 223

Jean Xech
The Construction and Administration of a Dynamic Web Site. 224

Viola Tegethoff
ELFI - Electronic Research Funding Information System 228

Peter Bogatencov and Grigore Secriereu
Networking Environment For Learning Technologies Implementation 229

Manuel Galán Moreno, Antonio Ocón Carreras, Agustín Fernández Padilla and Enrique Rubio Royo
"Securing a geographically distributed network: An example design" 232

Michal Brandejs, Ivana Hollanova, Mirka Misáková and Jan Pazdziora
In-house Developed UIS for Traditional University: Recommendations and Warnings 234

Erich Strohmaier
High Performance Computing in Europe and USA: A Comparison 238

Supporting Change in Teaching and Learning 242

Wolfgang Coy and Uwe Pirr
The Wizards of OZ Supporting Change in Learning and Teaching 242

Joel Greenberg, Director Interactive Media
A Hybrid System for Delivering Web Based Distance Learning and Teaching Material 246

Gabriel David and Lígia M. Ribeiro
Impact of the Information System on the Pedagogical Process 249

John F Poulton
Distance Teaching and On-line learning: enabling effective co-operation across national boundaries 252

K.J. Bredel, D. Guhl and J.C. Stettler
Quality Assurance of Educational Programmes at the Swiss Federal Institute of Technology Zurich (ETH Zürich) 253

Marja Kurttinen
Learning by Experience Networks in Learning Organizations 257

Bridget Khursheed
Invisible Learning in Online Systems 262

Federico Floeckiger
Open Distance Learning at Southern Switzerland Universities A comprehensive and multilingual approach involving universities, teachers, students, and administration 266

Professor Jennifer Rowley
Encouraging and Facilitating the Use of EIS 270

N. Wilson and R. Chisnall
The roles of organisational structure and continuing professional development in supporting changes in teaching and learning An Information Services’ Perspective 273

Thierry Aguéda
Collaboratives tools for the main actors of a university the first step to a “shared and broadcast information” culture. 278

Frances L. Murphy, Ph.D.
Using Technology in Early Childhood Environments Facilitating Learning and Child-Family-Community Connections 282
Josef Hajkr and Premysl Hoffmann
Internet as the Effective Tool for Managers Education 285

Pat Molholt
Curriculum Design Studio 288

Stylianos Hatzipanagos
Web Based Learning and "Off-the-shelf" Software: towards a Typology of VLE Interfaces 289

Gorazd Vrabic
UNIVERSAL - a new way of cooperation and exchange of distance learning resources 294

Eva Hladka and Ludek Matyska
Active networks and high speed content delivery 295

Libraries in the Digital Age 299

Ktarzyna Millenia Zurawska and Bronislaw Żurawski
Virtual Library as an educational tool for information specialists 299

Gérard Jean-François
New technologies for a multimedia project: the virtual reconstruction of the Ancient Rome in the fourth century A.C. 303

Alan Hogg
Libraries and Multimedia in the Digital Age 306

Arto Haataja, Jarkko Suhonen and Erkki Sutinen
How to learn introductory programming over Web 309

E. Kushtina and O. Zaikin
A knowledge base approach to courseware design for distance learning 313

Dawn Leeder
Building a web-based course for Cambridge medics: deconstruction, reconstruction, integration. 317

Poster 320

M.E. Burke
Rare antiques, fine furnishings and vintage champagne: new learning techniques and educational themes in 2001. 320

Katrin Lányi, Bernhard Barz and Uwe Pirr
Streaming Media 324

A. Lifshits and T. Gavrilova
On-line Learning for North-West of Russia 326

Susanne Dobratz, Peter Schirrmacher and Matthias Schulz
High quality electronic publishing in universities using XML - the DiDi principle (Dissertations project at Humboldt-University Berlin) 329
