Contents

Preface  
D.E. Ward, D. Klatte and J.-J. Rückmann 13

On Smoothness Properties and Approximability of Optimal Control Functions  
U. Felgenhauer 23

Sensitivity Analysis for Optimal Control Problems Subject to Higher Order State Constraints  
K. Malanowski and H. Maurer 43

Computational Sensitivity Analysis for State Constrained Optimal Control Problems  
D. Augustin and H. Maurer 75

W. Alt 101

A Finite Algorithm for Solving Infinite Dimensional Optimization Problems  
E. Schochetman and L. Smith 119

Continuity of Approximation by Neural Networks in $L^p$ Spaces  
P.C. Kainen, V. Kürková and A. Vogt 143

Stability of Discrete Approximations and Necessary Optimality Conditions for Delay-Differential Inclusions  
S. Mordukhovich and R. Trubnik 149

Solving Strategies and Well-Posedness in Linear Semi-Infinite Programming  
M.J. Cánovas, M.A. López, J. Parra and M.I. Todorov 171

On Linear and Linearized Generalized Semi-Infinite Optimization Problems  
J. Rückmann and O. Stein 191

On Logarithmic Smoothing of the Maximum Function  
F. Guerra Vazquez, H. Günzel and H.Th. Jongen 209

One-Parametric Linear-Quadratic Optimization Problems  
P. Jonker, G. Still and F. Twilt 221

Normal Forms in One-Parametric Optimization  
A.A. Davydov and H.Th. Jongen 255
Second-Order Epi-Derivatives of Composite Functionals  
A.B. Levy 267

On Differentiability of Metric Projections onto Moving Convex Sets  
D. Dentcheva 283

Upper Subderivatives and Generalized Gradients of the Marginal Function of a Non-Lipschitzian Program  
D.E. Ward and G.M. Lee 299

Contingent Derivatives of Implicit (Multi-) Functions and Stationary Points  
D. Klatte and B. Kummer 313

Portfolio Selection Problem with Minimax Type Risk Function  
K.L. Teo and X.Q. Yang 333

Well-Posedness and Optimization under Perturbations  
T. Zolezzi 351

Stability in Linear Programming Models: An Index Set Approach  
S. Zlobec 363

Envelope Theorems in Dynamic Programming  
F. Zhao and A. Ben-Israel 383

A Note on Backward Error Analysis for Generalized Linear Complementarity Problems  
J. Gwinner 391

Data Perturbations of Matrices of Pairwise Comparisons  
A. Farkas and P. Rózsa 401

Log-Sigmoid Multipliers Method in Constrained Optimization  
R.A. Polyak 427
