Contents — Volume 1

**Session 2 Innovation**

1. Innovations in the Asphalt Paving Industry  
   *Dr J Don Brock*, Chairman/CEO, Astec Industries, USA

2. Use of Crumb Rubber in Slurry and Microsurfacing and Chipseals  
   *Glynn Holleran*, Vice President, Valley Slurry Seal Company, USA

3. Emulsion-Treated Bases: a South African Perspective  
   *Benoit Verhaeghe*, Project Manager, CSIR Division of Roads and Transport Technology, South Africa

**Session 3 Open Graded Asphalt**

4. Selection and Design of Asphalt Mixes - Australian Provisional Guide  
   *John Bethune*, Director, R&D & Special Projects, AAPA

5. Evaluation of Stone Mastic Asphalt Performance  
   *John Rebbechi*, Technical Consultant, CSR Emoleum

6. Long Life Open Graded Asphalt  
   *Reg Leach*, A/Manager Surfacing Technology, Main Roads, Western Australia

7. European Experience with Stone Mastic Asphalt  
   *Wilhelm Hartung*, Managing Director, Laxå Bruks AB, Sweden

**Session 4 Spray Seal (1)**

8. AUSTROADS Sprayed Seal Design Method  
   *Ray Gaughan*, Manager Bituminous Surfacing, Roads and Traffic Authority, NSW

9. Considerations for Selection of Cover Aggregate Spreaders for Construction of Sprayed Bituminous Surfacings  
   *Steve Hogan*, Principal Engineer (Road Surfacing), Department of Main Roads, Queensland

10. Analytical Design of Cover Aggregate Spread Rates for Sprayed Bituminous Surfacings  
    *Steve Hogan*, Principal Engineer (Road Surfacing), Department of Main Roads, Queensland

11. Calibration of Bitumen Sprayers  
    *Walter Holtrop*, Manager, Pavements Training & Advisory Centre, AAPA

**Session 5 Asphalt Performance**

12. Innovating: The way ahead, international trends in developments of binders and asphalt  
    *Dr Toon Gerritsen*, Head, Shell Bitumen Research, The Netherlands

13. The Effect of Mixture Variables on the Fatigue Performance of Bituminous Materials  
    *Jim Carswell*, Asphalt Research Leader, BP International, United Kingdom

14. Modelling the Durability of Porous Asphalt Surfacing  
    *Folkert van Gorkum*, Managing Director, C.R.O.W., The Netherlands

**Session 6 Reports from 1997 AAPA Study Tour**

15. Overview of 1997 AAPA Study Tour  
    *Ken Wonson*, General Manager, Technology, Boral Asphalt

16. The Design and Performance of SMA, OGAC and Intersection Mixes  
    *Graham Shardlow*, Manager (Infrastructure Delivery), Metropolitan District Main Roads Queensland

continued
17 Evaluation of Long Term Pavement Performance and Application to a Pavement Management System  
Stuart Colhoun, Regional Engineer WA/SA, Pavement Management Services

18 Design and Performance of Heavy Duty Asphalt Pavements  
Ross Paul, Manager, Pavement Services, Materials Technology Department, VicRoads

19 Application of Quality Control and Quality Assurance to Performance Based Specifications  
Ralph Railings, Principal Engineer, Investigations, Department of Transport, Tasmania

Session 7A  
Polymer Modified Binders

20 Development of PMB Specifications for Asphalt Rut Resistance  
Dr John Oliver, Chief Research Scientist, ARRB Transport Research

21 Effect of Cutter on the Performance of Polymer Modified sealing binders  
Sam Maccarrone, Technical and R&D Manager, Mobil Oil Australia

22 AUSTROADS Polymer Modified Binder Field Trials  
Ray Gaughan, Manager, Bituminous Surfacings, Roads and Traffic Authority, NSW

23 Polymer Modification of Bitumens: Manufacture and Application of Premium Binders for Improved Spray Seal Performance  
Willem Vonk, Department Manager, Shell International Chemicals, Amsterdam, The Netherlands

Session 7B  
Asphalt Mix Performance

24 The Influence of Fine Aggregate on Asphalt Rutting  
Allan Alderson, Senior Research Scientist, ARRB Transport Research

25 Bituminous and Concrete Surfacings Trial: Report on Performance Monitoring  
Richard Yeo, Senior Research Engineer, ARRB Transport Research

26 The Effect of Rap on the Fatigue Characteristics of Residential Asphalt Mixes  
Steven Alford, Research Officer, Brisbane City Council, Queensland

27 Repeated Load Triaxial Testing on Bituminous Materials  
Dr Kejing Chen, Engineer, Department of Transport, Tasmania

Session 8A  
Spray Seal (2)

28 Development of a Micro Rheometer for Binder in Pavements  
Michael Swain, Industrial Physicist, CSIRO

29 Development of Bitumen Emulsion Precoats  
John Lysenko, Technical Manager, Pioneer Road Services; John Rebbechi, Technical Consultant, CSR Emoleum

30 Evaporation of Cutters from a Chip Seal  
Dr Arie Meydan, Technical Consultant, VicRoads

Session 8B  
Pavement Rehabilitation

31 Cold Open Grade Asphalt Use in South Australia  
Kym Neaylon, Senior Surfacing Engineer, Department of Transport, South Australia

32 Laboratory Test Specimen Preparation for Cold Recycled Asphalt Materials  
Don Jordan, Senior Lecturer, Department of Civil & Building Engineering, Victoria University of Technology, Victoria

33 Impact Absorbing Asphalt  
Peter Spendlove, Managing Director, Sports Advancement & Research, United Kingdom
