PART I

Editorial xxvii

Preface from the Scientific Program Co-chairs xxix

Message from the Organising Committee xxxi

MEDINFO 2001 Committees xxxiii

Chapter 1. Technological Infrastructure i

Groupware for Case Management and Inter-Organizational Collaboration: The Virtual Rehabilitation Team
M. Bång, A. Hagdahl, H. Eriksson, and T. Timpka 3

IP Videoconferencing using a Quality of Service Public Network
M. Crudele, G. Cinque, G. Neglia, G. Razzicchia, and M. Venditti 8

A Formal Framework for Modelling and Validating Medical Systems
G. Eleftherakis 13

An Open, Component-based Information Infrastructure to Support Integrated Regional Healthcare Networks

A Virtual Intranet and Data-warehousing for Healthcare Co-operation
E.M. Kerkri, C. Quantin, T. Grison, F.A. Allaert, A. Tchounikine, and K. Yézongn 23

NGI and Internet2: Accelerating the Creation of Tomorrow's Internet
M. Kratz, M. Ackerman, T. Hanss, and S. Corbato 28

Linking Personal & Public Health Information: A Vision for Community-Centered Health Information Systems
K. Kwiatkowski and P.F. Brennan 33

The Brazilian National Health Informatics Strategy
B. de F. Leão, M.M.V.B. Bernardes, J. Levin, L. Moura, E. Bandarra, L.M. Modesto, A.M. Sousa, R.E. Cunha
and M.R.M. Filho 38

Web Architecture for the Remote Browsing and Analysis of Distributed Medical Images and Data
M. Masseroli and F. Pinciroli 43

Enhancing Communications and Connectivity in Africa: The Multilateral Initiative on Malaria (MIM) Model
E.R. Siegel, J. Royall, and M. Bennett 48

"THE PILOT": A Tool for Connecting Existing HIS to an Extranet Quickly, Easily and Smoothly
S. Spahni, J.-R. Scherrer, J. Andany, S. Labussière, and D. Sauquet 53

Object-oriented Business Process Analysis of the Cooperative Soft Tissue Sarcoma Trial of the German Society for Paediatric Oncology and Haematology (GPOH)

Integrating Medical Applications in an Open Architecture Through Generic and Reusable Components
Y. Xu, L. D’Alessio, M.-C. Jaulent, D. Sauquet, S. Spahni, and P. Degoulet 63
# Table of Contents

**How the Open-Source Development Model Can Improve Medical Software**  
T.R. Yackel 68

**Posters**

Electronic Commerce in the Health Sector Applying the National Smartcard System  
T. Marcun, A. Groznik, M. Mursa, and M. Suselj 73

Preconditions for Information System Development for African Healthcare Institutions: The MINPHIS Experience and a Software Industry Survey in Nigeria  
H.A. Soriyan, A.D. Akinde, M. Korpela, and F. Ale 74

## Chapter 2. Standards for Interworking

XML and the VITAL Standard: The Document-oriented Approach for Open Telemedicine Applications  
A. Anagnostaki, S. Pavlopoulos, and D. Koutsouris 77

Semantic Features of an Enterprise Interface Terminology for SNOMED RT  
J.R. Campbell 82

A Survey to Identify the Clinical Coding and Classification Systems Currently in Use Across Europe  
S. de Lusignan, C. Minmagh, J. Kennedy, M. Zeimet, H. Bommezijn, and J. Bryant 86

Harmonization of Patient Data Card Structure with Messaging Standards  
I. Emelin and O. Galinovskaiia 90

The Creation of an Ontology of Clinical Document Names  
P. Frazier, A. Rossi-Mori, R.H. Dolin, L. Alschuler, and S.M. Huff 94

Achieving Reuse of Computable Guideline Systems  
P. Johnson, S. Tu, and N. Jones 99

Ontological and Epistemological Views of ‘Headings’ in Clinical Records  
S. Kay 104

An Exchange Format for Use-cases of Hospital Information Systems  
G. Masuda, N. Sakamoto, R. Sakai, and R. Yamamoto 109

The Cancer Informatics Infrastructure (CII): An Architecture for Translating Clinical Research into Patient Care  
J.S. Silva, M.J. Ball, and J.V. Douglas 114

A Methodology for Web-Enabling a Computer-based Patient Record with Contributions from Cognitive Science  
C. Webster 118

**Posters**

Enabling Health Online: The Case for Standards  
G.O. Klein 123

Development of an Evaluation System and Criteria for Health Related Web Sites  
H.-A. Park and Y.C. Chung 124

## Chapter 3. Human-computer Interaction

Using Cognitive Work Analysis to Design Clinical Displays  
J. Effken, R. Loeb, K. Johnson, S. Johnson, and V. Reyna 127

Capitalizing on Knowledge for an Adaptive User Interface  
C. Ghédira, P. Maret, J. Fayn, and P. Rubel 132
# Table of Contents

## Healthcare Applications based on Software Agents
- C. Mazzi, P. Ganguly, and M. Kidd

## Optimal Data Entry by Patients: Effects of Interface Structure and Design
- S.C. Porter and I.S. Kohane

### Posters

- **Analysis of the Pragmatic Use of EPR in General Practice**
  - M.-C. Beuscart-Zéphir, B. Rajanambah, F. Aneux, and R. Beuscart

- **Patterns of Usage of Internet Resources by Persons with Post Coronary Arterial Bypass Graft**
  - K. Hamilton, M. Rogers, A. Ground, D.H. Gustafson, and P. Flatley Brennan

- **A Pathway from Web to Telephone to Save Patients in Emergency Transfer, Applied to a Long-term-care System for High-risk Pregnancy in Mie Prefecture**

## Chapter 4. Knowledge Representation

- **An Evaluation of the Utility of the CEN Categorical Structure for Nursing Diagnoses as a Terminology Model for Integrating Nursing Diagnosis Concepts into SNOMED**

- **Conceptual Search in Electronic Patient Record**
  - R.H. Baud, C. Lovis, P. Ruch, and A.-M. Rassinoux

- **An Object-oriented Model for Representing Semantic Locality in the UMLS**
  - O. Bodenreider

- **Expression and Meaning of Medical Language: Building an Epistemological Framework for the Study of Semantic Distance**
  - C. Bousquet, M.-C. Jaulent, G. Chatellier, and P. Degoulet

- **Methods for Exploring the Semantics of the Relationships between Co-occurring UMLS Concepts**
  - A. Burgun and O. Bodenreider

- **Challenges in the Development and Testing of a Reference Terminology Model for Nursing Interventions**
  - P.S. Button, I. Androwich, C.N. Mead, C. Zingo, D. Konicek, and K.E. Campbell

- **Empirical Formulation of a Generic Query Set for Clinical Information Retrieval Systems**

- **Computerization of Guidelines: Towards a “Guideline Markup Language”**
  - T. Dart, Y. Xu, G. Chatellier, and P. Degoulet

- **Guideline for Health Informatics: Controlled Health Vocabularies – Vocabulary Structure and High-level Indicators**
  - P.L. Elkin, S.H. Brown, and C.G. Chute

- **From Paper-Based to Electronic Guidelines: Application to French Guidelines**

- **Sharable Computer-based Clinical Practice Guidelines: Rationale, Obstacles, Approaches, and Prospects**
  - R.A. Greenes, M. Peleg, A. Boxwala, S. Tu, V. Patel, and E.H. Shortliffe

- **A Clustering Method Based on Rough Sets and Its Application to Knowledge Discovery in the Medical Database**
  - S. Hirano, S. Tsumoto, T. Okazaki, and Y. Hata

- **Visualizing Complex Notions of Time**
  - R. Kosara and S. Miksch
# Table of Contents

Aggregating UMLS Semantic Types for Reducing Conceptual Complexity  
A.T. McCray, A. Burgun, and O. Bodenreider  
216

Building a Knowledge Base to Support a Digital Library  
E.A. Mendonça and J.J. Cimino  
221

An Automated Tool for an Analysis of Compliance to Evidence-based Clinical Guidelines  
B.A. Metfessel  
226

W. Moser, U. Heller, F.A. Gries, R. Engelbrecht, and DIADOQ  
231

The Nursing Terminology Summit: Collaboration for Progress  
236

Handling Expressiveness and Comprehensibility Requirements in GLIF3  
M. Peleg, A.A. Boxwala, S. Tu, R.A. Greenes, E.H. Shortliffe, and V.L. Patel  
241

The Interface between Information, Terminology, and Inference Models  
A.L. Rector  
246

Development of a Template Model to Represent the Information Content of Chest Radiology Reports  
R.A. Rocha and S.M. Huff  
251

GALEN Ten Years On: Tasks and Supporting Tools  
J. Rogers, A. Roberts, D. Solomon, E. van der Haring, C. Wroe, P. Zanstra, and A. Rector  
256

Comparing General and Medical Texts for Information Retrieval Based on Natural Language Processing:  
An Inquiry into Lexical Disambiguation  
P. Ruch, R. Baud, A. Geissbühler, and A.-M. Rassinoux  
261

Indexing Medical WWW Documents by Morphemes  
S. Schulz, M. Honeck, and U. Hahn  
266

An Approach to Guideline Implementation with GEM  
R.N. Shiftman, A. Agrawal, A.M. Deshpande, and P. Gershkovich  
271

Indexing of Medical Diagnoses by Word Affinity Method  
G. Surján and G. Héja  
276

Modeling Data and Knowledge in the EON Guideline Architecture  
S.W. Tu and M.A. Musen  
280

Representation of Clinical Practice Guidelines for Computer-Based Implementations  
D. Wang, M. Peleg, S.W. Tu, E.H. Shortliffe, and R.A. Greenes  
285

Building a Text Corpus for Representing the Variety of Medical Language  
P. Zweigenbaum, P. Jacquemart, N. Grabar, and B. Habert  
290

**Posters**

Towards Structured Requirements for Terminological Systems and Servers  
R. Cornet  
295

Structured Data Entry Applied to Reference Sources  
G.G. de Haan and A.M. van Ginneken  
296

Building an Ontology for End-stage Diseases and Organ Failure in the Context of Transplantation and Dialysis  
C. Jacquelinet, A. Burgun, D. Delamarre, N. Strang, B. Boutin, and P. Le Beux  
297

MEDAL: The Medical Algorithm Project  
G. Kantor, J.R. Svirbely, K. Johnson, M.G. Sriram, J.R. Rodriguez, and J. Smith  
298

Table of Contents

Automatic Extraction of Acronym-meaning Pairs from MEDLINE Databases
   J. Pustejovsky, J. Castaño, B. Cochran, M. Kotecki, and M. Morrell 371

Impact of a Modelization of the Task Allocation Problem on the Design of a Prescription Management Software for Intensive Care Units
   J.-M. Renard, N. Souf, J.-M. Brunetaud, and R. Beuscart 376

Comparing Frequency of Content-Bearing Words in Abstracts and Texts in Articles from Four Medical Journals: An Exploratory Study

Reading Factor: A Bibliometric Tool to Manage a Virtual Library
   B. Thirion, S.J. Darmoni, and J. Benichou 385

Enhancing Retrieval of Best Evidence for Health Care from Bibliographic Databases: Calibration of the Hand Search of the Literature
   N.L. Wilczynski, K.A. McKibbon, and R.B. Haynes 390

Is the Internet an Integral Part of General Practice in Australia?
   P.A.H. Williams and S.P. Maj 394

Patient and Clinician Vocabulary: How Different Are They?
   Q. Zeng, S. Kogan, N. Ash, and R.A. Greene 399

Posters

Data Quality Measurement and Assurance in Medical Registries
   D.G.T. Arts, N.F. de Keizer, and E. de Jonge, on behalf of the NICE foundation 404

Information Exploiting Analysis of Heart Rate Variability Power Spectra
   H. Cammann, J. Michel, and U. Manthei 405

Bridging Culture and Language: IPH Search – A Pilot Global Health Information System
   A.S. Kanter, F. Bukachi, and E. Johnson 406

Evaluation of a Rating Concept for Internet Health Information

Evaluation of New Treatments for an Old Disease: A Review of the Literature on Rheumatoid Arthritis using a Novel CD-ROM Database
   C. Levine, L. Nalysnyk, V. Ludensky, and S.D. Ross 408

Cancer Clinical Trials Treatment Management Application
   J.W. London and S. Mervis 409

Data and Software Components Management for the Design and Reuse of Medical Applications
   M. Miquel, P. Rubel, R. El Dajani, and F. Petitjean 410

Health Information Systems Programme (HISP) – The Success Story of a Development Project in South Africa
   N. Stoops, L. Williamson, A. Heywood, and C. Hedberg 411

Chapter 6. Decision Support

Implementation of an Expert System to Determine Eligibility and Priorities for Bone Marrow Transplants
   H.R. Alves das Neves, R. de Almeida Rocha, and J. da Silva Dias 415

A Before-After Study Using OncoDoc, a Guideline-Based Decision Support System for Breast Cancer Management: Impact upon Physician Prescribing Behaviour
   J. Bouaud, B. Séroussi, É.-C. Antoine, L. Zelek, and M. Spielmann 420

# Table of Contents

**Medical Case-based Reasoning Systems: Experiences with Architectures for Prototypical Cases**  
R. Schmidt and L. Gierl 518

**Algorithm-based Decision Rules to Safely Reduce Laboratory Test Ordering**  
J.R. Schubart, C.E. Fowler, G.R. Donowitz, and A.F. Connors, Jr. 523

**ASTI: A Guideline-based Drug-Ordering System for Primary Care**  

**Combining Diagnosis and Treatment Using Asbru**  
A. Seyfang, S. Miksch, and M. Marcos 533

**Building an Explanation Function for a Hypertension Decision-Support System**  
R.D. Shankar, S.B. Martins, S.W. Tu, M.K. Goldstein, and M.A. Musen 538

**A New Prognosis Factor Analysis Based on Nonhomogeneous Markov Description**  

**Combining Decision Support and Image Processing: A PROforma Model**  
M. Sordo, J. Fox, C. Blum, P. Taylor, R. Lee, and E. Alberdi 547

**Supporting Medical Decisions with Vector Decision Trees**  
M. Šprogar, P. Kokol, M. Zorman, V. Podgorelec, R. Yamamoto, G. Masuda, and N. Sakamoto 552

**Survival and Viral Load in Four Groups of HIV-1 Infected Hemophiliacs Compared by Three-way Data Clustering**  

**A Prototype Decision Support System for MR Spectroscopy-Assisted Diagnosis of Brain Tumours**  
J. Underwood, A.R. Tate, R. Luckin, C. Majos, A. Capdevila, F. Howe, J. Griffiths, and C. Arús 561

**Decisions at Hand: A Decision Support System on Handhelds**  
B. Zupan, A. Porenta, G. Vidmar, N. Aoki, I. Bratko, and J.R. Beck 566

**Posters**

**Captological Agents in Therapy, Between Intentions and Behaviour**  
B.E. Bárbat 571

**Integrating Decision Support with Electronic Referrals**  
J. Bury, M. Humber, R. Dunlop, and J. Fox 572

**An Application to Mine Time-series Data from Remote Clinical Trial Databases**  
F. Dong, S. Eslava, and M. Leon 573

**Improving the Efficiency and Effectiveness of Artificial Neural Networks As Clinical Decision-Support Systems**  
M. Frize, C.M. Ennett, and P. Hebert 574

**Degree of Patient Complaints and Its Influence on Clinical Diagnosis**  
S. Fujimoto, D. Danno, T. Fujimoto, M. Matsumura, M. Kanno, K. Maeda, and S. Nakamura 575

**Alerts and Warnings in Provider Order Entry at Massachusetts General Hospital, Boston, MA, USA**  
C. Glynn and S. Tavilla 576

**Document-based Approach for Guideline Implementation – XML and Related Technologies**  
S. Hoelzer, R.K. Schweiger, H.A. Boettcher, and J. Dudeck 577

**Hierarchical Clustering of Fuzzy Data on Female Urinary Incontinence**  
J. Laurikkala and M. Juhola 578

**Neural Network and Genetic Programming Prediction Models for the Design of Neural Network based ECG Classifiers**  
C. Nugent, J. Lopez, A. Smith, and N. Black 579
Table of Contents

Finding Useful Medical Information from the Internet
D. Parry 580

A Mathematical Model of Hospital Attraction Area
A. Quesnel-Barbet, A. Duhamel, B. Quesnel, P.J. Thumereille, and R. Beuscart 581

Problem of Incomplete Record Classification by Diagnostic Modules in Thyroid Laboratory Information System
Z. Sonicki, A. Morin, T. Plasaj, D. Sonicki, and Z. Kusic 582

Feature Subset Selection for Decision Tree Induction in the Context of Otonoeurological Data: A Preliminary Study
K. Viikki, E. Kentala, M. Juhola, and I. Pyykko 583

Use of an Artificial Neural Network (ANN) to Estimate Probability of Mortality and Duration of Ventilation in Neonatal Intensive Care Unit (NICU) Patients
C.R. Walker, C.M. Ennett, and M. Frizc 584

Heuristic Analysis of Emergency Department Charting Software using a Case Simulation Comparator Model
K. Walker, S. Rajappan, and T.R. Johnson 585

Chapter 7. Electronic Patient Records 587

XML-Based Application Interface Services – A Method to Enhance Integrability of Disease Specific Systems
U. Altmann, A.G. Tatazzoli, F.R. Katz, and J. Dudeck 589

Ranking of Information in the Computerized Problem-Oriented Patient Record
E. Bayegan, Ø. Nytrø, and A. Grimsmo 594

Implementing Real-Time System Interfaces to Support the Shared Care of Diabetes Patients

End-user Support: A Necessary Issue in the Implementation and Use of EPR Systems
A. Bygholm 604

Structured Data Entry of Clinical Information for Documentation and Data Collection
N.T. Cheung, V. Fung, Y.Y. Chow, and Y. Tung 609

Structured Physical Examination Data: A Modeling Challenge
P. Doupi and A.M. van Ginneken 614

The MOSORIOT Medical Record System (MMRS) Phase I to Phase II Implementation: An Outpatient Computer-based Medical Record System in Rural Kenya

Meta-Modelling: The Appropriate Solution for a Family of Applications
B. Hu et, J.-Y. Artigou, J. Poiner, and G. Blain 623

A Web-based Rapid Prototyping and Clinical Conversational System that Complements Electronic Patient Record System

Medical Records and Electronic Documents: A Proposal
F. Laforest and A. Flory 633

Paragraph-oriented Structure for Narratives in Medical Documentation
C. Lovis, R.H. Baud, C. Revillard, L. Pult, F. Borst, and A. Geissbuhler 638

Extracting Clinical Cases from XML-Based Electronic Patient Records for Use in Web-based Medical Case Based Reasoning Systems
S. Munickam and S.S.R. Abidi 643
## Table of Contents

### Dynamic Viewer of Medical Events in Electronic Medical Record
Y. Matsumura, S. Kuwata, H. Kusuoka, Y. Takahashi, H. Onishi, T. Kawamoto, and H. Takeda 648

### Recording Clinical Data – From a General Set of Record Items to Case Report Forms (CRF) for Clinics
A. Merzweiler, P. Knaup, R. Weber, H. Ehlerding, R. Haux, and T. Wiedemann 653

### Integration of Clinical Practice Guidelines into a Distributed Regional Electronic Patient Record for Tumour-Patients using XML: A Means for Standardization of the Treatment Processes
V. Mludek, A.C. Wolff, P. Drings, M. van der Haak, R. Haux, M. Wannenmacher, and D. Zierhut 658

### Patient Empowerment and the Electronic Health Record
S. Munir and R. Boaden 663

### Why Implementing EPR's Does Not Bring about Organizational Changes – A Qualitative Approach
R.E. Nikula 666

### Shared Experience in 13 Local Danish EPR Projects: The Danish EPR Observatory
C. Nøhr, M. Kristensen, S.K. Andersen, S. Vingtoft, S. Lippert, K. Bernstein, and M. Bruun-Rasmussen 670

### Clinical Benchmarking Enabled by the Digital Health Record
T.N. Ricciardi, F.E. Masarie, and B. Middleton 675

### Clinical Narrative and Clinical Organisation: Properties of Radiology Reports
J. Rooksby and S. Kay 680

### Dissemination of Electronic Patient Records Using Primary Care Referrals as a Vector for Change
D.Z. Sands, D.M. Rind, and C. Safran 685

### Application of an Intelligent Graphical Interface to Electronic Patient Records
R. Simkus 690

### A Multi-Disciplinary Approach to a User Interface for Structured Data Entry
A.M. van Ginneken and M.J. Verkoijen 693

### Using the eXtensible Markup Language (XML) in a Regional Electronic Patient Record for Patients with Malignant Diseases
A.C. Wolff, V. Mludek, M. van der Haak, W. Bork, H. Bülzebruck, P. Drings, P. Schmücker, M. Wannenmacher, and R. Haux 698

### Posters

#### Building the Basics of a Unified Healthcare Information System in Hungary
L. Békési, P. Simon, I. Loványi, and D. Kellner 703

#### Impact of an EMR on Communication between Tertiary and Primary Care Providers in a Neurology Teaching Clinic
J.A. Capp and D.B. Hoch 704

#### An Electronic Health Record System in the Neuropediatrics Clinic at CIREN
F.B. Fleitas, E.G. Figueredo, and G. Rodriguez 705

#### Development of the Set of Data Identifiers for Medical Record Information Exchange
K. Hatano, K. Ohe, and R. Yamamoto 706

#### Portable Patient Record Model (PPRM) for the Introducing of Smart Card System and Preparation of the Interactive Database Network
P. Simon, D. Kellner, L. Békési, I. Loványi, and I. Schiszler 707

#### Standard Protocol for Exchange of Health-checkups based on SGML: The Health-checkups Data Markup Language (HDML)

A UML-based Ontology for Describing Hospital Information System Architectures
  A. Winter, B. Brigl, and T. Wendt 778

Posters

A Computerised Nursing Process Support System at the HCPA

A Balanced Scorecard Approach to the Strategic Management of Healthcare Information Systems
  I.S. Graham 784

Individual Authentication of Users for Secure HIS
  M. Honda, Y. Satomura, T. Suzuki, and H. Yokoi 785

Replacement of Hospital Information System and the Risk: A Survey in National University Hospitals in Japan
  M. Miyamoto, M. Sako, and T. Sakamaki 786

Development of a Knowledge Support System Linked with an HIS
  K. Miyo and K. Ohe 787

An Approach to Electronization of Hand-written Patient Records – Scanned Hand-Written Chart –
  M. Nagira and S. Tsuamoto 788

Implications of a General Data Model for Implementing an OODB/CORBA-based Computerized Patient
Record System
  K. Ohe, K. Miyo, Y. Onogi, K. Ueda, M. Takata, and T. Chihara 789

A Utilization of LOG files to Simulate the Crowding in an Outpatient Clinic
  T. Sakamaki, T. Sugie, Y. Yamakoshi, and T. Ito 790

Clinical Information Support for Emergency Department Workflow

Chapter 9. Patient Care Aspects/Telematics

Improving Dialysis Services through Information Technology: From Telemedicine to Data Mining
  R. Bellazzi, P. Magni, and R. Bellazzi 795

Zora: A Pilot Virtual Community in the Pediatric Dialysis Unit
  M.U. Bers, J. Gonzalez-Heydrich, D. Raches, and D.R. DeMaso 800

Anamnèsis via the Internet – Prospects and Pilot Results
  A. Emmanouil and G.O. Klein 805

Development and Implementation of the Home Asthma Telemonitoring (HAT) System to Facilitate Asthma
Self-Care
  J. Finkelstein, G. O’Connor, and R.H. Friedman 810

TeleMedMail: Free Software to Facilitate Telemedicine in Developing Countries
  H.S.F. Fraser, D. Jazayeri, L. Bannach, P. Szolovits, and St J.D. McGrath 815

Review of Virtual Reality Treatment for Mental Health
  D. Gourlay, K.C. Lun, and G. Liya 820

Use of an Electronic Medical Record in Disease Management Programs: A Case Study in Hyperlipidemia
  J. Hunt, J. Siemienczuk, P. Erstgaard, J. Slater, and B. Middleton 825

Experiences from Development of Home Health Care Applications based on Emerging Java Technology
  L. Lind, E. Sundvall, and H. Åhlfeldt 830

The Role of Wireless Technology in Home Care Delivery
  N. Maglaveras, V. Koutkias, S. Meletiadis, I. Chouvarda, and E.A. Balas 835
