

Proceedings of

Second European Conference on Small Burner and Heating Technology

ECSBT 2

Stuttgart, March 16 - 17, 2000

Volume II

Models, Design Tools and their Application
Special Fuels
Boilers and System Behaviour
Low Input Burners
Poster Session

Hosted by:

Lehrstuhl für Heiz- und Raumluftechnik, IKE,
Universität Stuttgart, D-70569 Stuttgart

TOC

UB/TIB Hannover

Volume I

Surface, Porous and Catalytic Burners.....	1
Burner Technology.....	53
Thermo Acoustics.....	111
Emissions.....	159
Sensors and Burner Control.....	209

Volume II

Models, Design Tools and their Application.....	257
Measuring Techniques and Experiments.....	361
Special Fuels.....	411
Boilers and System Behavior.....	447
Low Input Burners.....	499
Poster Session.....	519

Volume I

Surface, Porous and Catalytic Burners

Investigations on the Dependency of Equivalence Ratio on Injector-Type Gas Burners with Porous Media Flame Stabilization <i>F. Burmeister, R.E.Leyens, H. Janssen, H. Kremer</i>	1
Low Emission Burner Based on Staged Combustion in an Inert Porous Medium- Experimental and Numerical Investigations <i>O. Pickenäcker, D. Trimis, F. Durst</i>	11
The Porous Medium Oil Burner applied to a Household Heating System <i>Th. Heiderman, A. Rutsche, D. Tanke, O. Hatzfeld, H. Köhne, K. Lucka, I. Rudolphi, F. Durst, D. Trimis, K. Wawrzinek</i>	21
Modelling of Ceramic Foam Surface Burners using Flamelet-Generated Manifolds <i>F.A. Lammers, J.A. van Oijen, P.H. Bouma, L.P.H. de Goey</i>	29
Quasi Homogeneous Combustion of Heating Oil <i>S. Herrmann</i>	39

Burner Technology

Low Swirl, Coanda Stabilised and Partially Premixed Natural Gas Flames <i>K. Vanoverberghe, E. Van den Bulck</i>	53
Using radial momentum for flame stabilisation <i>O. Hatzfeld, H. Köhne</i>	63
Using ignition delay time to separate the vaporization from the flame zone in an oil fired burner for Stirling engines <i>N. Steinbach, C. Dötsch, K. Lucka, H. Köhne</i>	71
Investigation of a Mechanical Pulse Combustor <i>A. Penninger, A. Bereczky, E.C. Fernandes, P. Scharle, A. Hortvath</i>	81
Heat Transfer and Nitric Oxide Formation in Industrial Flame Jet Impingement Furnace. The Process Analysis <i>N.Y. Romanyukha, K.Y. Malikov, B.N. Chetverushkin, Y.K. Malikov</i>	91
Influence of the burner Aerodynamics on the Performance of a Fuel Oil Boiler <i>P. Ngendakumana</i>	101

Thermo Acoustics

Comportement acoustique de bruleurs gaz atmospherique a premelange total <i>P. Gonzalez, G. Perrin, L. Grangy</i>	111
--	-----

Das thermoakustische Verhalten vollvormischender Flächenbrennersysteme in haushaltlichen gasfeuerstätten <i>M. Stach, B. Kempkes, H. Janssen, H. Kremer</i>	121
Experimental study of the dynamic behaviour and acoustic coupling of low-NO _x gas burners for domestic gas boilers <i>K. Zähringer, J.C: Rolon, J.P. Martin, S. Arefi</i>	131
Sound Emission of Oil-fired Burners and its Influence on Combustion Oscillations <i>G. Bramlage, H. Köhne</i>	141
Response of burner-stabilized Flat Flames to Acoustic Waves. <i>R. Rook, K.R.A.M. Schreel, L.P.H. de Goey, R. Parchen</i>	149

Emissions

Feinpartikelemissionen aus Stückholzfeuerungen <i>V. Schmatloch, M. Mohr, U. Lehmann</i>	159
Emissionsverhalten von modernen Oel- und Gasfeuerungen unter praxisnahen Betriebsbedingungen <i>F. Pfeiffer, M. Struschka, F. v. Lepel, G. Baumbach</i>	169
Partikelemission von ölbetriebenen Kleinf Feuerungen <i>M. Mohr, V. Schmatloch, H.P. Zaugg</i>	179
Pollutant Formation of a 20 kW Domestic Gas Burner Operated at Partial Premixing Mode <i>L. Blum, P. Bajaj, J. Gass, D. Poulidakos</i>	187
Abatement of Emissions from Domestic Wood fired Boilers by Catalytic Flue Gas Cleaning <i>M. Berg, L. Rudling, N. Berge</i>	199

Sensors and Burner Control

Miniaturized CO/H ₂ -Sensor for Monitoring and Control Small Burners and Heaters <i>F. Hammer, S. Fasoulas, E. Messerschmid</i>	209
Intelligente Verbrennung: Sensorunterstützte Verbrennung und Ueberwachung von Brennern für kleine Leistungen <i>G. Kostrzewa, St. Rusche, H. Janssen</i>	221
Optimization of Burners by Air-ratio-controlled Combustion based on Wobbe Number Measurement. <i>K. Pickenäcker, K. Wawrzinek, D. Trimis</i>	231
Regelung von Verbrennungsprozessen mit Flammensignalen <i>M. Herrs, H. Nolte</i>	241

Volume II

Models, Design Tools and their Application

Calortecnica: The Use of Frontier Tools to Design Domestic Boilers <i>R.S. Stella</i>	257
Topdec Project: New Tools and Methodologies for the Design of Natural Gas Domestic Burners and Boilers <i>M. Perrin, P. Miquel, A. Gamaud, F. Lasagni, S. Hasko, H. Levinsky, J.C. Rolon, J.P.Martin, A. Soufiani, H.R. Volpp, T. Dreier, R.P. Lindstedt</i>	267
Numerical Study of a Prototype Natural Gas Burner <i>P. Azevedo, I. Gulyurtlu, I. Cabrita, J. Ventura</i>	277
Experimentell abgesicherte, mathematische Modellierung der Wärmeübertragung in wandhängenden, häuslichen Gasfeuerstätten <i>R. Albus, H. Janssen, H. Kremer</i>	285
Simulation Tools for the Design of Natural Gas Domestic Burners <i>M. Hilka, V. Quilichini, O. Gicquel, N. Darabiha</i>	295
Using the ILDM method with a new prolongation technique to compute partially premixed laminar flames in a domestic burner <i>O. Gicquel, V. Quilichini, D. Thevenin, M. Hilka, N. Darabiha</i>	303
Accurate Reduced Models for the Chemistry of Natural Gas Combustion <i>T. Blasenbrey, U. Maas,</i>	313
Design of a Ceramic Diffusion Burner for the Glass Processing Industry <i>P.H. Bouma, J.L.L. van der Heijden, A.P.G.G. Lamers</i>	323
Porous burner combustors for household applications: Modelling and Simulation <i>I. Malico, X.Y. Zhou, J.C.F. Pereira</i>	333
On the Application of Measurements and modelling Studies for the Optimisation of mixing and Combustion Processes in Small Scale Wood Heaters <i>S. Unterberger, R. Berger, K.R.G. Hein</i>	343
A CFD-based model for small scale wood-burning fireplaces <i>M. Huttunen, L. Kjälman, T. Norström, P. Kilpinen, S. Boström, M. Hupa, J. Saastamoinen, H. Oravainen, A. Kolsi</i>	353
Measuring Techniques and Experiments	
Flow Field in Atmospheric Induction Burners. Effect of the Geometry and the Density Ratio on Air Entrainment and Dynamic Field <i>I. Serres, C. Chauveau, B. Sarh, I. Gokalp</i>	361

The importance of Accurate Measurements in the Development of New Technologies: State of the art in the EU
C.H. Christiansen, I. Jacobsen, J. Schweitzer.....371

Optical and Spectroscopic Diagnostics for the Study of Laminar Partially Premixed Injectors and Natural Gas Boilers
L. Brenez, J.P. Martin, A. Soufiani, J.C. Rolon.....381

Steady State and Start/Stop Emissions of Unburned Hydrocarbons of Domestic Natural Gas Appliances
E. Van den Bulck, K. Vanoverberghe, M. Desprets.....391

Laser Techniques as Diagnostic Tool for Small Scale Combustion Devices
W. Meier.....401

Special Fuels

Design and Test of a Partial Oxidation (POX) Process for Fuel Cell Applications using Liquid Fuels
L. Hartmann, K. Lucka, C. Mengel, H. Köhne.....411

Test Burner for Staged Firing of Waste Gases
A. Wopera, I. Zsömbör.....419

Combustion of Olive Husks in a Small Scale BFB Facility for Heat and Steam Generation
A. De Riccardis, F. Miccio, M. Miccio, P. Stefanizzi.....429

An Investigation of Atmospheric Burners Supplied with Low Caloric Natural Gases in Domestic Heating Equipment
T. Dobski, D. Szewczyk, W. Kruszewski, A. Swiderski.....439

Boilers and System Behaviour

Corrosion protection of condensing boilers with organic coatings
M. Faller, M. Schicker, P. Richner.....447

Optimised Interaction between Condensing Gas Boiler and Heating Systems in Practice
K.V. Frederiksen, B. Spiegelhauer.....457

Modulierende Brenner und ihr Beitrag zur Senkung der emittierten Schadstoffe infolge verringerter Schaltspielanzahl
B. Lehmann, H. Dreher.....467

Kompakte Brennwertkessel bis 1000 kW
J. Haep, M. Nani.....477

Emulation als Werkzeug für Entwicklung und Abnahme im Bereich der HLK-Technik
R. Grob.....489

Low Input Burners

Small Oil Burner Concepts Based on Low Pressure Air Atomization
T. Butcher, Y. Celebi, G. Wei, B. Kamath.....499

Bruleurs Fioul de faible Puissance
Y. Wehbe, G. Couturier.....509

Poster Session

Entwicklung planarer Sensoren am IRS Fertigung und Funktion
F. Hammer, S. Fasoulas, E. Messerschmid.....519

Optimization of a low NO_x Methane Combustion Chamber using CFD-simulations
C. Del Taglia.....523

Der emissionsarme COSTAIR-Gasbrenner
R. Giese, A. Al-Halbouni, R. Sontag, P. Käferstein.....525

The Multiple Applications of "BOILSIM" : a Boiler Model developed in the EU
J. Schweitzer, C. H. Christiansen.....527

Modelling of a Porous Burner Surface
B.W. Creemers.....529

Small Oil Burner with Airblast Atomization
B. Lenze, H. Eickhoff.....531

Numerical Investigations on a Methane-Air Premixed Planar Matrix Burner
C. Del Taglia, J. Gass.....533

Intelligent Control of Gas Flames using the Flame Signature Method
J.B. Michel, O. Chetelat, J.-C Gaillard, O. Sari.....535

Vorstellung eines neuen Düsensystems zur stufenlosen Darstellung von
Heizleistungen
M. Bürgermeister.....537

Systemvergleich von gasbeheizten Trinkwassererwärmern
G. Claus, H. Messerschmid, F. Roskamp.....541
