Transactions
Gulf Coast Association of Geological Societies
A Section of the American Association of Petroleum Geologists
and the
Gulf Coast Section of the Society of Economic Paleontologists and Mineralogists
A Section of SEPM, The Society for Sedimentary Geology

Volume LI
2001

Michael T. Roberts
Editor — GCAGS

Mary L. Barrett
Editor — GCSSEPM

Lana Czerniakowski
Editor — Frontal Section

Prepared for the:
51st Annual Convention
of the
Gulf Coast Association of Geological Societies
American Association of Petroleum Geologists Regional Meeting

and the
48th Annual Convention
of the
Gulf Coast Section of the Society of Economic Paleontologists and Mineralogists

in
Shreveport, Louisana
October 17th – 19th 2001

Hosted by the Shreveport Geological Society

Technical Papers and Abstracts

Topographic Irregularities on the Base Zuni Supersequence Boundary and their Initial Cretaceous Sediment Fill, Central Texas
Stacy C. Atchley, Lisa M. Zygo, and Jason R. Wallgren .................................................. 1

An Unusual Dinosaur Coprolite from the Campanian Aguja Formation, Texas
Nina L. Baghai-Riding and Joseph N. DiBenedetto ............................................................ 9

Arid Continental Sand Bodies and Stratal Geometries in the Haynesville Formation as Interpreted from Coherency Processing of a 3-D Seismic Data Cube, Monroe County, Alabama (Abstract)
Lawrence R. Baria .................................................................................................................. 21

Exploration Implications of the Geometry and Orientation of Paralic and Shelf Sands, Wilcox Group (Paleogene), South Texas
John A. Breyer, Justin B. Bellamy, and Prasertchai Phornprapha ........................................... 23

Petrophysical Characteristics, Depositional Systems, and Model of Geological Evolution in the Golden Lane Carbonate Sequences
Jiajie (Jeff) Chen, Carlos Acosta Aduna, Fernando Sanchez Lu, Jaime Patino, and Miguel Olivella ........................................................ 31

Landscape Modification of the Smackover Field, Arkansas
Alison D. Culver and Mary L. Barrett ...................................................................................... 45

Formation of Northern Louisiana Ironstones
René A. De Hon, Paul A. Washington, Lloyd N. Glawe, Leonard M. Young, and Eric A. Morehead .................................................... 55

Correlation of the Wilcox Producing Zones (Late Paleocene – Early Eocene) of Southwestern Mississippi with the Type Midway/Wilcox Section of Alabama
David T. Dockery III ............................................................................................................. 63

The Producibility of Coalbed Methane from Wilcox Coals in Louisiana
John B. Echols ....................................................................................................................... 75

Review of Late Jurassic Depositional Systems and Potential Hydrocarbon Plays, Northern Gulf of Mexico Basin
Thomas E. Ewing ..................................................................................................................... 85

Paleoenvironmental Trends in Paleocene Wilcox Tew Lake Marker Beds, LaSalle Parish, LA
Lloyd N. Glawe and Alan M. Bailey ....................................................................................... 97

Geology of Louisiana Army Ammunition Plant, Minden, Louisiana (Abstract)
Danny W. Harrelson, Mansour Zakikhani, Judith C. Pennington, William Sniffen, and Maureen K. Corcoran .................. 105
Sequence Stratigraphy of the Smackover Formation in Northern Louisiana (Abstract)
   Ezat Heydari and Lawrence R. Baria .......................................................... 107

Fluvial Sedimentation in the Cotton Valley Group in the Stringer Field, Jasper County, Mississippi
   Ezat Heydari and Roger N. Townsend .......................................................... 109

3D Seismic Recognition of the Jurassic Smackover Reservoir of Grayson Field Using Leading Edge Reservoir Characterization Seismic Processing
   Kevin B. Hill ................................................................................................. 121

Is 3-D Seismic Data the Bass-Finder of Oil and Gas? Examples of some “Honey-Holes” in Southwest Alabama
   Kevin B. Hill ................................................................................................. 133

Sediment Deposition in Apalachicola Bay, Florida: a 200-Year Chronicle
   Wayne C. Isphording and Maria E. Bundy ..................................................... 141

Detection of Pay Zones and Pay Quality, Gulf of Mexico: Application of Geochemical Techniques
   Daniel M. Jarvie, Alejandro Morelos, and Zhiwen Han .................................. 151

Texture, Mineralogy, and Petrophysical Properties of Geopressured Shales, Gulf of Mexico
   Jin-wook Kim, Robert R. Berg, Joel Watkins, and Thomas T. Tieh .................. 161

Tepees and other Surficial Deformation Features of Cretaceous Rocks in Central and West Texas, Resulting from Late Cenozoic Caliche Formation
   Brian E. Lock, Suk-Joo Choh, and James J. Willis ........................................ 173

Recent Salt Related Uplift and Subsidence at Sour Lake Salt Dome, Hardin County, Texas
   Karl M. Looff ................................................................................................. 187

Modern Analogs for Paleocave-Sediment Fills and Their Importance in Identifying Paleocave Reservoirs
   Robert G. Loucks ......................................................................................... 195

Outcrop Analogs for Reservoir Characterization and Modeling of Smackover Microbial Reefs in the Northeastern Gulf of Mexico Area
   Ernest A. Mancini and William C. Parcell .................................................... 207

Economic Geology of the Gulf of Mexico and the Blake Ridge Gas Hydrate Provinces
   Alexei V. Milkov and Roger Sassen ............................................................... 219

Siliciclastic Facies Belt Formation and the Late Oligocene to Middle Miocene Partial Drowning of the Southern Florida Platform
   Thomas M. Missimer ..................................................................................... 229

Field Evidence of Subsidence and Faulting Induced by Hydrocarbon Production in Coastal Southeast Texas
   Robert A. Morton, Noreen A. Purcell, and Russell Peterson .......................... 239

Relation between Sedimentation and Diapirism at the Davis Hill Salt Dome, Liberty Co., Texas
   Asif Muzaffar, J. Richard Kyle, and Bruno Vendeville .................................. 249

Reexamination of Late Jurassic Reef Building in the East Texas Basin; a Maturing Gas Play
   Edward M. Norwood and Lise Brinton ......................................................... 259

Cretaceous to Recent Rifting in the Gulf of Mexico Basin
   Jack M. Reed ................................................................................................. 273

High Maturity Gas in the Main Pass Area: Comparison to the Central Gulf of Mexico Slope
   Roger Sassen, Joel S. Watkins, Carrie Decker, Stephen T. Sweet, Debra A. DeFreitas, and Steven Losh ......................................................... 285

Climatically Controlled Redox Cycles of the Upper Cretaceous Mooreville Formation in Mississippi
Ezat Heydari .......................................................... 435

3D Seismic Recognition of the Jurassic Smackover Reservoir of Grayson Field Using Leading Edge Reservoir Characterization Seismic Processing
Kevin B. Hill .......................................................... 121

Is 3-D Seismic Data the Bass-Finder of Oil and Gas? Examples of some “honey-holes” in Southwest Alabama
Kevin B. Hill .......................................................... 133

Field Studies of Breton Sound Blocks 37, 39 and 49, Offshore Louisiana (Abstract)
Chacko J. John, Bobby L. Jones, Brian J. Harder, Reed J. Bourgeois, and Richard P. McCulloh ......................... 445

Shoreline Characterization of the Geomorphological Impact of Hurricane Georges on the Chandeleur Islands: Southeast Louisiana (Abstract)
Jennifer Koch and Shea Penland .................................. 451

The Deleterious Effects of Phosphates in the Preparation of Ostracode Shells (Abstract)
Mervin Kontrovitz .................................................... 455

High Resolution Airborne Magnetics Used to Describe Initial Prospect Leads in the Development of Oil and Gas Drilling Prospects in the Transition Zone of the Gulf Coast
John P. Land, Richard L. Coons, and J. David Lazor .................. 457

Measuring Modern Sedimentation Rates in Caddo Lake (LA, TX) Using $^{137}$Cs Depth Profiles
Jerry Lisantti .......................................................... 459

Modern Analogs for Paleocave-Sediment Fills and Their Importance in Identifying Paleocave Reservoirs
Robert G. Loucks .................................................... 195

Louann Salt Advances with Variable Deposition Rates from Highstand to Lowstand and Impacts on Geologic Processes in Deep-Water Northern Gulf of Mexico (Abstract)
Allen Lowrie, Susan J. Moffett, Thomas Klekamp, Ian Lerche, and Neil M. Sullivan ........................................ 463

Smackover Gray Sand Interpretation — Williamette Industries 33 #1-Alt Well, Bossier Parish, Louisiana (Abstract)
Wendy Straatmann, L. Mark Larsen, Jerry S. Kier, and David A. Fenton ......................................................... 465

Myette Point Natural Gas Condensate Spill and Subsequent Natural Resource Damage Assessment, St. Mary Parish, Louisiana (Abstract)
Steven P. Tischer, Daniel R. Womochel, and Shea Penland ......................................................... 467

Similarities and Differences in Mesozoic Strata in Mexico and the U.S. Gulf Coast
James Lee Wilson and Clif Jordan .................................. 411

Ages of Maximum Flooding Surfaces, Third- and Fourth-Order Depositional Sequences in the Cenozoic and Mesozoic Worldwide
Walter W. Wornardt Jr. ............................................. 471

Revision of the Late Miocene, Pliocene and Pleistocene Sequence Cycles
Walter W. Wornardt Jr., Bernie Shaffer, and Peter R. Vail ................................................................. 477
Technical Papers and Abstracts (By Session)

THURSDAY MORNING, OCTOBER 18, 2001
TREND STUDIES & NEW PLAYS

Economic Geology of the Gulf of Mexico and the Blake Ridge Gas Hydrate Provinces
Alexei V. Milkov and Roger Sassen .......................................................... 219

Exploration Implications of the Geometry and Orientation of Paralic and Shelf Sands, Wilcox Group (Paleogene), South Texas
John A. Breyer, Justin B. Bellamy, and Prasertchai Phornprapha .................................. 23

A North Louisiana Gas-Prone Hosston Slope-Basin Sand Trend
Ronald K. Zimmerman and Donald A. Goddard .................................................. 423

Review of Late Jurassic Depositional Systems and Potential Hydrocarbon Plays, Northern Gulf of Mexico Basin
Thomas E. Ewing ................................................................................................. 85

Outcrop Analogs for Reservoir Characterization and Modeling of Smackover Microbial Reefs in the Northeastern Gulf of Mexico Area
Ernest A. Mancini and William C. Parcell .............................................................. 207

Reexamination of Late Jurassic Reef Building in the East Texas Basin; a Maturing Gas Play
Edward M. Norwood and Lise Brinton ................................................................. 259

Resurgence of Salt Dome Exploration in the Gulf Coast Mesozoic Basins in Texas, Louisiana, and Mississippi
James R. Turner, Carl E. Gray, and Nick B. Polland .................................................. 349

SELECTED GEOLOGIC STUDIES I

Siliciclastic Facies Belt Formation and the Late Oligocene to Middle Miocene Partial Drowning of the Southern Florida Platform
Thomas M. Missimer ........................................................................................... 229

Biostratigraphy and Paleoecology of Diagnostic Invertebrates and Vertebrates from the Type Locality of the Oligocene Rosefield Marl Beds, Louisiana
Gary L. Stringer, Sylvester Q. Breard, and Mervin Kontrovitz ............................... 321

Modern Analogs for Paleocave-Sediment Fills and Their Importance in Identifying Paleocave Reservoirs
Robert G. Loucks ................................................................................................ 195

OUTCROP STUDIES

An Exposed Evaporite Weld and Related Deformational Structures, Edwards Plateau, I-10 Corridor, Kerrville-Junction-Sonora Area, Texas
James J. Willis, Brian E. Lock, Kristie C. Cornell, and Daniel A. Ruberg .................. 389

Tepees and other Surficial Deformation Features of Cretaceous Rocks in Central and West Texas, Resulting from Late Cenozoic Caliche Formation
Brian E. Lock, Suk-Joo Choh, and James J. Willis ................................................... 173

Characterization of Opening Mode Fracture Systems in the Austin Chalk
Julia F. W. Stowell ............................................................................................... 313

Topographic Irregularities on the Base Zuni Supersequence Boundary and their Initial Cretaceous Sediment Fill, Central Texas
Stacy C. Atchley, Lisa M. Zygo, and Jason R. Wallgren ............................................... 1

THURSDAY AFTERNOON, OCTOBER 18, 2001
GEOLOGY OF MEXICO

Petrophysical Characteristics, Depositional Systems, and Model of Geological Evolution in the Golden Lane Carbonate Sequences
Jiajie (Jeff) Chen, Carlos Acosta Aduna, Fernando Sanchez Lu, Jaime Patino, and Miguel Olivella .............................................................. 31
Similarities and Differences in Mesozoic Strata in Mexico and the U.S. Gulf Coast (Abstract)
James Lee Wilson and Clif Jordan Jordan ................................................................. 411

Field Examination of Exposed Evaporite-Related Structures, United States and Mexico: Relations to Subsurface Gulf of Mexico Examples
James J. Willis, Brian E. Lock, Daniel A. Ruberg, and Kristie C. Cornell ........................................ 399

SEISMOLOGY

3D Seismic Recognition of the Jurassic Smackover Reservoir of Grayson Field Using Leading Edge Reservoir Characterization Seismic Processing
Kevin B. Hill ................................................................................................................... 121

From Seismic Stratigraphy to Seismic Sedimentology: A Sensible Transition
Hongliu Zeng .................................................................................................................. 413

Is 3-D Seismic Data the Bass-Finder of Oil and Gas? Examples of some “Honey-Holes” in Southwest Alabama
Kevin B. Hill .................................................................................................................. 133

AVO Analysis of Long Offset Seismic Data Using 3-D Graphical Analysis (Abstract)
Fuping Zhu and Richard L. Gibson ................................................................................. 421

WILCOX FORMATION STUDIES

Correlation of the Wilcox Producing Zones (Late Paleocene-Early Eocene) of Southwestern Mississippi with the Type Midway/Wilcox Section of Alabama
David T. Dockery III ......................................................................................................... 63

The Producibility of Coalbed Methane from Wilcox Coals in Louisiana
John B. Echols ................................................................................................................ 75

Paleoenvironmental Trends in Paleocene Wilcox Tew Lake Marker Beds, LaSalle Parish, LA
Lloyd N. Glawe and Alan M. Bailey ............................................................................. 97

SALT DOMES: STRUCTURE, STRATIGRAPHY, AND HISTORY

Relation between Sedimentation and Diapirism at the Davis Hill Salt Dome, Liberty Co., Texas
Asif Muzaffar, J. Richard Kyle, and Bruno Vendeville ..................................................... 249

Recent Salt Related Uplift and Subsidence at Sour Lake Salt Dome, Hardin County, Texas
Karl M. Looff .................................................................................................................. 187

Structure and Stratigraphy of the Calcasieu Lake Salt-Withdrawal Minibasin, Onshore Louisiana (Abstract)
James J. Willis, Adam E. Wheeler, and Randolph Blackburn ........................................ 409

100 Years of Exploration and Production at Jennings Field
Jeff A. Spencer and Byron Miller ................................................................................ 305

FRIDAY MORNING, OCTOBER 19, 2001
STRUCTURAL GEOLOGY: FAULTING & RIFTING

Evidence for Strike-Slip Faulting in the Smackover Formation of Northeast Texas and South Arkansas and Its Geological Implications
James R. Turner ............................................................................................................ 339

Cretaceous to Recent Rifting in the Gulf of Mexico Basin
Jack M. Reed ................................................................................................................ 273

Evidence for Significant Neotectonic Thrust Faulting in and Around the Monroe Uplift
Paul A. Washington ....................................................................................................... 359

SELECTED GEOLOGIC STUDIES II

Paleoenvironmental Interpretations Based on Vertebrate Fossil Assemblages: An Example of their Utilization in the Gulf Coast
Gary L. Stringer and Melissa Miller ............................................................................ 329
An Unusual Dinosaur Coprolite from the Campanian Aguja Formation, Texas
Nina L. Baghai-Riding and Joseph N. DiBenedetto ........................................... 9

Formation of Northern Louisiana Ironstones
René A. De Hon, Paul A. Washington, Lloyd N. Glawe, Leonard M. Young, and Eric A. Morehead ............... 55

GULF OF MEXICO

Texture, Mineralogy, and Petrophysical Properties of Geopressured Shales, Gulf of Mexico
Jin-wook Kim, Robert R. Berg, Joel Watkins and Thomas T. Tieh ................................. 161

Geopressure Compartmentalization in Keathley Canyon Deep Water, Gulf of Mexico
Selim S. Shaker ........................................................................................................ 293

High Maturity Gas in the Main Pass Area: Comparison to the Central Gulf of Mexico Slope
Roger Sassen, Joel S. Watkins, Carrie Decker, Stephen T. Sweet, Debra A. DeFreitas, and Steven Losh ................. 285

Detection of Pay Zones and Pay Quality, Gulf of Mexico: Application of Geochemical Techniques
Daniel M. Jarvie, Alejandro Morelos, and Zhiwen Han ............................................. 151

ENVIRONMENTAL STUDIES

Geology of Louisiana Army Ammunition Plant, Minden, Louisiana (Abstract)
Danny W. Harrelson, Mansour Zakikhani, Judith C. Pennington, William Sniffen, and Maureen K. Corcoran ........... 105
