PROCEEDINGS OF THE
2002 ENGINEERING TECHNOLOGY
CONFERENCE ON ENERGY
ETCE2002

PART A

COMBUSTION AND ALTERNATIVE ENERGY TECHNOLOGY
COMPOSITE MATERIALS DESIGN AND ANALYSIS
COMPUTERS IN ENGINEERING
DRILLING TECHNOLOGY
ENVIRONMENTAL ENGINEERING TECHNOLOGY
MANUFACTURING AND SERVICES

Presented at
2002 ENGINEERING TECHNOLOGY CONFERENCE ON ENERGY
FEBRUARY 4-5, 2002
HOUSTON, TEXAS

Conference Organized and Sponsored by
THE PETROLEUM DIVISION, ASME
PART A

COMBUSTION AND ALTERNATIVE ENERGY

The Transient Development of Natural Convective Flow Due to Liquid Evaporation Within a Vertical, Open Cylindrical Enclosure
R. M. Bunama and G. A. Karim ................................................................. 1

Numerical Modeling of a Turbulent Gas Jet Flame in a Swirling Air Stream
Ala R. Qubbaj, S. R. Gollahalli, and John Villarreal .................................. 11

Aspect Ratio Effects of Elliptic Co-Flow on Turbulent Jet Flame Structures
Ahsan R Choudhuri, Sayela P. Luna, and S. R. Gollahalli .............................. 21

Submerged Gas Injection in Microgravity
J. Carrera, R. N. Parthasarathy, and S. R Gollahalli .................................... 29

Linear Temporal Stability Analysis of a Low-Density Round Gas Jet Injected Into a High-Density Gas
Anthony L. Lawson and Ramkumar N Parthasarathy .................................. 37

Effects of Burner Diameter and Fuel Type on Smoke Point and Radiation Characteristics of Diffusion Flames
S. F. Goh, S. Kusadomi, and S. R. Gollahalli ........................................... 47

Modeling and Simulation PEM Fuel Cells With CO Poisoning
Jeffrey J. Baschuk and Xianguo Li .......................................................... 55

Examination of the Flame Blowout Characteristics of a Jet Diffusion Flames Burner in Co and Cross-Flowing Air
M. G. Kibrya and G. A. Karim .................................................................. 63

Unsteady Heat Transfer During the Rapid Compression and Expansion of Air
Y. Bakhsan, G. A. Karim, and S. H. Mansouri ........................................... 69

Performance of a Co-Fired Boiler Burner With Water Injection
K. Annamalai, C. J. Chen, B. Thien, and J. Sweeten .................................... 77

Numerical Simulation of Combustion in a Cylindrical Porous Medium
A. A. Mohamad ......................................................................................... 85

Lift-Off, Reattachment and Blowout Limits of Co-Flow Jet Diffusion Flames
M. Karbasi and I. Wierzba ......................................................................... 93

Ignition and Propagation of Flammable Gas Mixtures in Vessels With Small, Complex Geometries

The Mechanism of Flue Gas Injection for Enhanced Light Oil Recovery

Excess Enthalpy Flames
V. S. Babkin, I. Wierzba, and G. A. Karim ................................................ 115

The Catalytic Oxidation of Heated Lean Homogeneously Premixed Gaseous-Fuel Air Streams
A. Depiak and I. Wierzba ........................................................................ 123

Oxidation Characteristics of Light Hydrocarbons for Underbalanced Drilling Applications
Helen A. Ferguson, S. A. Mehta, R. Gordon Moore, Nancy E. Okazawa, and Matthew G. Ursenbach ............................................................... 129

A Neural Network Based Predictive Emission Monitoring Model for NOx Emission From a Gas Turbine Combustor
G. Kibrya and K. K. Botros .................................................................... 137

Use of Offshore Drilling Waste In Hot Mix Asphalt (HMA) Concrete as Aggregate Replacement
N. M. Wasiuddin, Nouman Ali, and M. R. Islam

A Management Plan for the Offshore Disposal of Drilling Muds and Cuttings in Brunei: A Receiving Environment Based Approach
T. Earle Hickey, Mike M. J. Seymour, and Stephen D. Sayle

Decommissioning Offshore Production Facilities
Fabio M. Ruivo and Celso K. Morooka

Calculating Benzene Concentration Emitted During Tanker Loading
Takahiro Majima, Hiroshi Yamanouchi, and Kotsuji Yamaguchi

Decommissioning of Offshore Installations: Experience Related to Safety and Environment and the Philosophy — How Clean is Clean Enough?
Mina Hynne Bjerkelund

MANUFACTURING AND SERVICES
Use of Multiphase Meters in Process Control for Oil Field Well Testing: Performance Enhancement Through GVF Control
Jack D. Marrelli, Ram S. Mohan, Shoubo Wang, Luis Gomez, and Ovadia Shoham

Performance and Control of Liquid-Liquid Cylindrical Cyclone Separators
Rajkumar Mathivaredu, Shoubo Wang, Ram S. Mohan, Ovadia Shoham, and Jack D. Marrelli

The Role of Well Testing in Recognizing Deferred Production Revenue
P. Mehdizadeh and D. T. Perry

Test Facility for Multiphase Flow Problems
Charels L. Britton

Effect of Inlet Configuration on Flow Behavior in a Cylindrical Cyclone Separator
Ferhat M. Erdal and Siamack A. Shirazi

PART B
OFFSHORE TECHNOLOGY
New Micromechanics Formulations for the Assessment of Elastic Moduli of Granular Assemblies
Linbing Wang, Emir Macari, and Eyassu Woldeenet

A Parametric Study on Natural Frequency of Sandwich Panel Using Refined Shear Model
Qunli Liu and Yi Zhao

Development of High Pressure Composite Butt-Weld Joint
Guoqiang Li, Su-Seng Pang, Randy J. Jones, Mark Hale, Ben T. McCurry, and Kevin Schmit

Preliminary Development of a Composite Pipe Tee-Joint Using Heat Coupling Technology
Su-Seng Pang, Liangfeng Sun, Arthur M. Sterling, and Randy A. Jones

Sensors in Virtual Reality Experiments
Wei Guo, Amitava Jana, Patrick F. Mensah, Samuel Ibekwe, and Maria C. Dunn

Shear Strength Characteristics of an Ultrasonic Welded Lap Shear Joint
Samuel Ibekwe, Patrick F. Mensah, Amitava Jana, Guoqiang Li, and Michael A. Stubblefield

Finite Element Analysis of Composite-Concrete Adhesion
Eyassu Woldeenet and Haftay Hailu
