FIN FTH NATIONAL CONFERENCE ON
TRANSPORTATION PLANNING METHODS
APPLICATIONS - VOLUME II

A COMPENDIUM OF PAPERS BASED ON A
CONFERENCE HELD IN SEATTLE, WASHINGTON
IN APRIL 1995

Final Report - Two Volumes

June 1995

Edited By
Lynette J. Engelke
Texas Transportation Institute
1600 E. Lamar Blvd., Suite 112
Arlington, Texas 76011

Distributed By
Jerry M. Faris
4106 Tralee Road
Tallahassee, Florida 32308
TABLE OF CONTENTS

VOLUME II

SESSION 15: TRAVEL MODELS III

Traffic Demand Estimation Based on Activity Chains Using VISEM-Modeling Approach as Part of Transportation Planning
   Martin Fellendorf, Ph.D., and Thomas Haupt, PTV System .................. 15-3

Beyond the BPR Curve: Updating Speed-Flow and Speed-Capacity Relationships in Traffic Assignment
   Rupinder Singh, Metropolitan Transportation Commission, Oakland ...................... 15-17

Forecasting Travel Time
   David B. Roden, JHK & Associates .................................. 15-27

Application of Integrated Highway/Transit Networks in Superregional Travel Demand Forecasting
   Michael Doherty, URS Consultants
   Edward F. Granzow, Urban Analysis Group .......................... 15-39

Innovative Applications of Level of Service Standards
   Donald Samdahl, JHK & Associates .................................. 15-41

A Time-Space Based Traffic Assignment
   Jau-Ben Chang, Ph.D., and Robert S. Tung, Ph.D., RST International,
   University of Washington ........................................ 15-43

SESSION 16: MAJOR INVESTMENT ANALYSIS II

Major Investment Analysis for the SR 509/South Access Road Project
   Timothy A. Bevan and Robert Meadows, CH2M HILL
   Craig Stone, Washington State Department of Transportation .............. 16-3

Major Transportation Investment Study in a Small Urban Area
   Linda Wilshusen, Santa Cruz County Regional Transportation Commission .................. 16-15
# Table of Contents

**East Metropolitan Waterfront Corridor Transportation Study**  
*A.R. Gordon and R.C. McLean, The Municipality of Metropolitan Toronto*  
................................. 16-17

**Planning for the 21st Century - The I-235 Experience**  
*M. C. Sexton, P.E., Wilbur Smith Associates*  
................................. 16-29

**Major Investment Analysis of a Multimodal Project in an Urban Corridor**  
*R. S. Marshment, University of Oklahoma*  
................................. 16-35

**SESSION 17: GEOGRAPHIC INFORMATION SYSTEMS I**

**The Role of Geographic Information Systems in Regional Transportation Planning**  
*Dr. John C. Sutton, GIS/Trans, Ltd.*  
................................. 17-3

**Using Digital Cartographic Data and Geographic Information Systems to Develop Transportation Networks**  
*J. Greg Yarbrough, Wilbur Smith Associates*  
................................. 17-17

**Using GIS to Select Model Zone Centroids**  
*Shih-Lung Shaw and David Harris, Florida Atlantic University*  
*Shi-Chiang Li, Florida Department of Transportation*  
*Reid Ewing, FAU/FTU Joint Center*  
................................. 17-19

**Approaches to GIS-Assisted Dynamic Network and Zonal Structure Generation**  
................................. 17-31

**Emergence of Geographic Information Systems as a Transit Planning Tool**  
*Robert J. Newhouser and James J. Barry, New York City Transit*  
................................. 17-33

**Land Use, Air Quality, and Transportation Integrated Modeling Environment (LATIME)**  
*Charles J. Hanley, Sandia National Laboratories*  
*Norman Marshall, Resource Systems Group, Inc.*  
*Martin Lewis, Barton-Aschman Associates, Inc.*  
................................. 17-35
SESSION 18: MANAGEMENT SYSTEMS II

Model State Intermodal Planning Grants - Results and Implications
  Dane Ismart, Federal Highway Administration .......................... 18-3

Congestion Management Requirements and Comparisons
  Shawna Mulhall, Berryman & Henigar ................................. 18-5

The Use of Travel Time Data for the Massachusetts Congestion Management System
  James Gallagher, Eft Pagitsas and Vernon Chow, Central Transportation Planning Staff ........................................ 18-7

Implementing Travel Time as a Congestion Management Performance Measure
  Steven A. Smith, JHK & Associates ................................. 18-21

Financially Constraining Washington's Transportation Plan
  Brian Ziegler and Eric Meale, Washington State Department of Transportation ........................................ 18-23

SESSION 19: TRB DATA COMMITTEE PAPERS

Household Travel Survey Non-response Estimates: The Chicago Experience
  Ashish Sen, Siim Sööt, University of Illinois at Chicago
  Lidan Yang, Metra
  Edward Christopher, Chicago Area Transportation Study ............... 19-3

Adjusting Household Survey Expansion Factors
  Ian Harrington and Chen-Yuan Wang,
  Central Transportation Planning Staff .................................. 19-15

A New Approach to Route Choice Data Collection: Multi-phase, Cati Panel Surveys Using a GIS Database
  Mohamed A. Abdel-Aty, Paul P. Jovanis, Prasuna Reddy and Kenneth M. Vaughn, University of California at Davis
  Ryuichi Kitamura, Kyoto University, Japan .............................. 19-27
# Table of Contents

Incentives and Rate of Return for Travel Surveys  
*Melissa S. Tooley, P. E., University of Arkansas*  
19-29

Choosing a Household-based Survey Method: Results of the Dallas-Fort Worth Pretest Presentation Abstract  
*Leslie Goldenberg and Cheryl Stecher, Applied Management and Planning Group*  
*Ken Cervenka, North Central Texas Council of Governments*  
19-41

**Session 20: Travel Models IV**

MWCOG’s Multi-year Models Development Plan for Meeting ISTEA/CAAA Requirements  
*Ronald J. Milone, Metropolitan Washington Council of Governments*  
20-3

Developing Long Range Transportation Plans for Small Urbanized Areas in the ISTEA Era: the Tallahassee 2020 Plan Update  
*Robert G. Schiffer, AICP, Post, Buckley, Schuh and Jernigan, Inc.*  
20-15

The Implications of Improved Traffic Forecasting Procedures for Regional/Corridor Transportation Planning and Project Selection  
*Sam Granato, Linn County (Iowa) Regional Planning Commission*  
20-17

Access Management/Impact Simulation Using GIS and Traffic Simulation  
*Konstadinos G. Goulias, Jin-Hyuk Chung and Jun Ma, The Pennsylvania Transportation Institute, The Pennsylvania State University*  
20-23

Santa Barbara Travel Model for Mobile Source Emissions Analysis  
20-33

**Session 21: The Planning Process II**

General Consulting, A State and Consultant Perspective  
*Robert J. Krzeminski, P.E., Florida Department of Transportation*  
*George L. Reed, P.E., URS Consultants, Inc.*  
21-3
# TABLE OF CONTENTS

Least-Cost Planning Implementation  
*Cy Ulberg, Jane Meseck Yeager and Matthew Hansen, University of Washington* ........................................ 21-13

Planning Statewide Routes to Serve Urban Areas  
*Joseph W. Guyton, HNTB Corporation* ........................................ 21-25

Implementing Statewide ISTEA Planning with Limited Resources: The South Carolina Experience  
*Ronald Althoff, P.E., AICP, South Carolina DOT*  

Comparative Analysis of Land Use and Transportation Scenarios: An Application to the Tel-Aviv Metropolitan Area  
*B. Bocher, P. Vovsha, S. Bekhor, The Israel Institute of Transportation Planning and Research* ........................................ 21-37

**SESSION 22: TRANSIT**

Integrating GIS for Transit Planning  
*Shirley Hsiao, Orange County Transportation Authority* .............. 22-3

Using Multiple Criteria Evaluation for Long Range Transit Planning - SEPTA's Regional Rail System  
*Gerald J. Kane, Southeastern Pennsylvania Transportation Authority* ........................................ 22-5

An Access Strategy Model - BART's Initial Experience  

The Application of a Simultaneous Route-Level Transit Patronage Model  
*Zhongren Peng and Kenneth J. Dueker, Portland State University* .. 22-21
