Proceedings of E-Learn 2002
World Conference on E-Learning in Corporate, Government, Healthcare, & Higher Education

October 15-19, 2002; Montréal, Canada
Voice vs Text-based Discussion Forums: an implementation of Wimba Voice Boards
Philip Marriott, University of South Australia, Australia

Developing Componentware for Education: A Programming Approach Providing Teachers More Creative Control of Course Design
Ryoji Matsuno, Prefectural University of Kumamoto, Japan; Yutaka Tsutsumi, Kumamoto Gakuen University, Japan; Richard Gilbert, Kumamoto University, Japan

Developing an Organisational E-Learning Strategy: A UK University Case Study
Robert McClelland, Liverpool John Moores University, UK

Evidence of the Need to Support the Development of On-line Collaborative Skills: An Action Research Study
Jennifer Sclater, Laura April McEwen, Concordia University, Canada

Community Building: Facilitating successful online courses
Mae McSporran, Stuart Young, UNITEC Institute Of Technology, New Zealand

Enhancing Web-Based Materials with Video Clips
Susan Mehringer, Cornell Theory Center, USA

Self and Peer Assessment in an Online Collaborative Learning Environment
Marylu Menchaca, Carolyn Awalt, Paul Resta, University of Texas at Austin, Mexico

ELearn: A collaborative educational virtual environment
Anna Michailidou, University of Macedonia, Greece

Computer Support for Vicarious Learning
Rachada Monthienvichienchai, M. Angela Sasse, University College London, UK

A Model Driven Process for Web-based Instructional Content Development
Sudhir Mudur, Concordia University, Canada; Prachi Ghrapure, S. P. College of Engg., India; Parvati Rajan, SNDT University, India

Digital Lecture Halls Keep Teachers in the Mood and Learners in the Loop
Christoph Trompler, Computer Operating Group, Department of Computer Science, Darmstadt University of Technology, Germany; Max Muehlhaeuser, Telecooperation, Darmstadt University of Technology, Germany

A Campus Wide Project Of Web-Based Academic Instruction - A Research Framework And Preliminary Results
Rafi Nachmias, Tel-Aviv University, Israel

Using DVD Technology to Disseminate Classroom Teaching Practices
Richard O'Connor, University of Arkansas-Monticello, USA; Rhonda Richards, University of Arkansas at Monticello, USA

Hybrid e-Learning System for a Cooperative Linkage between University and Industry
Toshio Okamoto, Graduate School of Information Systems, University of Electro-Communications, Japan; Mizue Kayama, Senshu University, School of Information and Network, Japan; Hisashi Inoue, Joetsu University of Education, Japan

An Evaluation of Scaffolding for Virtual Interactive Tutorials
Claus Pahl, Dublin City University, Ireland

Data Mining Technology for the Evaluation of Web-based Teaching and Learning Systems
Claus Pahl, Dave Donnellan, Dublin City University, Ireland

Learner Relationship Management: Impacting the Top and Bottom Line
David Palumbo, Sapient Corporation, USA

Combining Cognitive, Affective, Social and Metacognitive Learner Attributes for Assistance in Distributed Learning Environments
Anne Brisebois, LICEF Research Center, Télé-université; CEGEP André-Laurendeau, Canada; Diane Rueland, LICEF Research Center, Télé-université, Canada; Gilbert Paquette, LICEF Research Centre, Télé-université, Canada

Minimizing the Gender Equity Gap in Science and Technology
Maria Victoria Pérez Cereijo, University of Texas at Arlington, USA; Tandra Tyler-Wood, Jon I. Young, University of North Texas, USA

Student Perceptions of Online Synchronous Courses
Maria Victoria Pérez Cereijo, University of Texas at Arlington, USA; Tandra Tyler-Wood, Jon I. Young, University of North Texas, USA

AutoTutor Passes the Bystander Turing Test
Natalie Person, Mary Erkel, Rhodes College, USA; Art Graesser, University of Memphis, USA
CMI Theory and Practice: Historical Roots of Learning Management Systems ........................................... 929
   Michael Szabo, University of Alberta, Canada

Students Develop Real-World Web and Pervasive Computing Systems .................................................... 937
   Charles Tappert, Pace University, USA

Creating and assessing web-based learning environments: the relationship between knowledge type, pedagogy, and technology ................................................................. 945
   David Tarcy, David Tarcy, University of Alaska Anchorage, USA; Chris Allen, Chris Allen, George Henik, George Henik, New York University, USA; Richard Satterfield, Richard Satterfield, University of Alaska Anchorage, USA

The effectiveness of educational technology: Will the Enhancing Education Through Technology Act of 2001 really expand our knowledge of teaching and learning with technology? ........................................... 948
   Elaine Terrell, University of Arkansas, USA

Accessible Adult Learning in the Health Professions: Interactive Uses of Distance Technology ......................... 953
   Elizabeth Townsend, Dalhousie University, Occupational Therapy, Canada; Janet Curran-Smith, Dalhousie University, Canada

Coaching the transition to e-learning: re-thinking instructional design ...................................................... 961
   Chris Trevitt, Centre for Educational Development and Academic Methods, Australia

Advanced Interactive Web Technologies in Industry Training ................................................................. 968
   Tania Vassileva, Dimitar Bojkov, Technical University, Bulgaria; Ilario Astinov, Ingenatic Company, Germany

An Evaluation Framework for the Development Process of an Online Curriculum ....................................... 976
   Ron Wakkary, Karen Beller, Simon Fraser University, Canada

Lessons from An Action Research on Project-based Learning in a Web-based Learning Environment ............... 984
   Chien-hsing Wang, National Changhua University of Education, Taiwan

The Design of an Integrated System for Web-based Distance Education .................................................. 992
   Hongxue Wang, Athabasca University, Canada

The Study of Learning Progress for Distance Education Students in Taiwan .............................................. 999
   Sheng-mei (Jenny) Wang, The National Huiwei Institute of Technology, Taiwan

A Framework for Managing Personal Knowledge Activity in Education ................................................... 1006
   Toyohide Watanabe, Nagoya University, Japan

Transcultural learning in Internet-based learning environments - European methods and experiences .......... 1013
   Dr. Peter J. Weber, University of Hamburg, Germany

Presenting Complex e-Learning Content on the Web: A Didactical Reference Model ................................. 1018
   Franz Weitl, Institute of Information Systems and Software Engineering, Germany

Is eLearning Effective?: A Review of Literature from 1993-2001 ......................................................... 1026
   Robert Whelan, Jan Plass, New York University, USA

Tools of the Web-Based Learning Trade .................................................................................................... 1029
   Sumant Kailas, Koremax Consulting, Canada; Kay Wijekumar, The Pennsylvania State University Beaver, USA

Integration of e-Learning and Knowledge Management .............................................................................. 1035
   Darrell Woelk, Elastic Knowledge, USA; Shailendra Agarwal, Ph.D, Docent Inc., USA

XML Based Course Websites ....................................................................................................................... 1043
   Michael Wollowski, Rose-Hulman Institute of Technology, USA

Factors Limiting the Proliferation of E-learning within Small to Medium Sized Enterprises ....................... 1049
   Dan Wood, NTP Information Solutions Limited, UK; Jason Watson, The University of Huddersfield, UK

On-line Learning Courses: A review and usability attributes ...................................................................... 1056
   Panagiotis Zaharias, Athens University of Economics & Business, Greece

Accessible Multimedia for the Web ............................................................................................................. 1063
   Nicholas Zaparyniuk, University of Alberta, Canada; Jillianne Code, Grant MacEwan College, Canada
E-Learning: Lessons Learned from Three Studies ................................................. 1069
Sheila Cassidy, Selma Sax, Wexford Inc., USA; Deborah Jolly, Texas A&M University, USA

Portraying Yourself Online: A Discussion of Teaching Styles in Online Courses .......... 1071
Sue Steinweg, Susan Colaric, Plummer (Al) Jones, Diane Kester; East Carolina University, USA

Advantages of the Various Online Course Designs .............................................. 1079
Raymond Rose, Concord Consortium, USA; Zahrl Schoeny, Curry School, University of Virginia, USA; Alese Smith, Concord Consortium, USA

Supporting Learners for E-Learning ................................................................. 1081
Diane Ruelland, LICEF research center, Canada; Jane Pilling-Cormick, Professional Learning & Training, Canada; George Piskurich, Organizational Learning and Performance Consultant, USA; Donna Gabrielle, United States Military Academy, USA; Gail Derrick, School of Education at Regent University, USA

Panel Discussion: A Successful Online Education Program .................................. 1085
Paul Lakey, Raye Lakey, Abilene Christian University, USA; Kaye Shelton, Dallas Baptist University, USA; George Saltsman, Abilene Christian University, USA

Open Source Software Can Open Minds and Help Solve the U.S. Technical Education Problem ................................................................. 1089
Matthew Szulik, Chairman/CEO, President—Red Hat, USA

Wim Veen, Willem van Valkenburg, EduTec, Faculty of Technology, Policy & Management, Delft University of Technology, Netherlands; Sicco Santema, Product Innovation & Management, Faculty of Design, Engineering and Production, Delft University of Technology, Netherlands; Ralph Genang, SCGroup, Netherlands

Communities of Practice for Improved Learning Systems in the Corporate, Government, Higher Education and Healthcare Sectors .................................................. 1096
Mary Lynn Benninger, Clarica, Canada; Céline Monette, Aventis Pharma, Canada; Roy Greenhalgh, Roy Greenhalgh Associates, UK; Etienne Wenger, CPSquare, USA; Thomas Ruhl, Lewis and Clark College, USA

BRIEF PAPERS

Designing a Dynamic Course Outline System to Integrate Courseware Features ............. 1100
Jason Abbitt, Michael Odell, Jason Graham, University of Idaho, USA

Classroom Observations through Distance Learning Technology .......................... 1103
Phyllis Adcock, University of Nebraska at Omaha, USA

Automating Evaluation and Assessment in a Technology Course .......................... 1106
Frank Akaiwa, Kelley School of Business-Indiana University, USA

Effect Of Language On E-Learning In The Arab World ....................................... 1109
Adekunle Akinyemi, Sultan Qaboos University, Oman

E-Learning: A Reality In Sultan Qaboos University ............................................ 1113
Adekunle Akinymi, SULTAN QABOOS UNIVERSITY, Oman

Technology and Pedagogy : Changing Roles of Pedagogy in a Project-based Constructivist Environment ......................................................... 1116
Ahmed Ali, Ohio University, USA

(Re-)Designing an Educational Setting - Trails of Competency in an Open Learning Repository .......................................................... 1120
Heidrun Allert, Christoph Richter, Learning Lab Lower Saxony, Germany

Learning Objects on the Semantic Web. Explicitly Modelling Instructional Theories and Paradigms ................................................................. 1124
Heidrun Allert, Christoph Richter, Wolfgang Nejdl, Learning Lab Lower Saxony, Germany

Situated Citizen Photojournalism and a Look at Dilemmatic Thinking ...................... 1128
Mike Ananny, Carol Strohecker, Media Lab Europe, Ireland

The Nature of Electronic International Project Development ................................ 1132
betsy anderton, University of south Alabama, USA
A Framework for Developing and Managing Resource-Based Distance Learning Content in Higher Education ................................................................. 1136
Carlos Araujo, University Cruzeiro do Sul, Brazil

Evaluation of web based communication and cooperation in a course in teacher education at a German University ............................................. 1140
Stefan Aufenanger, University of Hamburg, Germany

Evaluating distributed learning ................................................................... 1142
Carlos Vaz de Carvalho, Instituto Superior de Engenharia do Porto (ISEP), Portugal; Lígia Maria Ribeiro, Faculdade de Engenharia da Universidade do Porto (FEUP), Portugal; Isabel Azevedo, Constantino Martins, Instituto Superior de Engenharia do Porto (ISEP), Portugal

How Can University Professors and Elementary School Teachers Work Together in Virtual Teams? .............................................................. 1146
Mary Kay Bacallao, St. Thomas University, USA; Aldo Bacallao, Lloyd Estates Elementary, USA

Multi-disciplinary E-Learning for Future Educators ................................ 1148
Mary Kay Bacallao, St. Thomas University/ Golden Glades Elementary, USA; Aldo Bacallao, Lloyd Estates Elementary, USA; Carol Wilson, Sandpiper Elementary, USA

Essential Strategies for Connecting with the E-Learner ............................... 1151
Kathleen Bacer, Azusa Pacific University, USA

Evaluation of a Web-based Tutorial on the History of Technology in a University Science-Technology-Society Course ................................ 1155
Patricia Backer, San Jose State University, USA

Blackboard and Beyond ........................................................................... 1159
Alan Bailin, Baruch College, City University of New York, USA

Factors Contributing to the Success of a Successful Distance Education Program ............................................................... 1163
William Barber, Mary Bell, Appalachian State University, USA; Sherry Bell, Mitchell County Schools, USA; Tonya Patterson, Appalachian State University, USA; Kathy Taibo, Iredell County Schools, USA

Evaluation of the Q-matrix Method of Fault Tolerant Knowledge Assessment ................................................................. 1167
Tiffany Barnes, Donald Bitzer, North Carolina State University, USA

Facilitation Considerations and Tips for Online Educators and Trainers ............................................................................................. 1171
Julie Batovsky, Syrtis Technology-enhanced Instructional Solutions, USA

Online Course Design: An MBA Course Example .................................... 1175
Darcy Becker, Univ of Wisconsin - Eau Claire, USA

Digital Literacy and Reflective Competencies ........................................ 1179
Claire Bélisle, LIRE-CNRS, France

Using XML In Elearning Courses ............................................................... 1183
Amine BEKIRAN, EMI Rabat, Morocco; Youssef BELQASMI, ENSET Mohammedia, Morocco; Rachida AJHOUN, ENSIAS Rabat, Morocco

"Teleweb" For Distance Learning: The Evolution Of Televised Teaching Into Web Course ................................................................. 1187
William Bercu, Arizona State University, USA

Cases of Multimedia Applications to Enhance Learning ......................... 1191
Ian Bertie, Pontificia Universidad Catolica de Chile, Chile

Promoting the development of students’ information literacy skills: Insights from a post-secondary classroom ........................................ 1195
Ty Binlet, Loyola Marymount University, USA

Taste the difference. Training and optimization of synchronous, audiovisual, cooperative telelearning ...................................................... 1199
Thomas Bliesener, University of Essen, Germany

Knowledge Management for Italian Public Administrations ..................... 1202
Francesco Bolici, CeRSI, LUISS Guido Carli University, Italy

Component-based Content Development for E-Learning Systems ........... 1206
Roland Mittermeir, Roland Wohlfahrt, Andreas Bollin, University of Klagenfurt / Department of Informatics-Systems, Austria

A proposal for using visualisation to support collaborative learning .......... 1210
Luis Borges Gouveia, Universidade Fernando Pessoa, Portugal; Joaquim Borges Gouveia, University of Aveiro, Portugal
How an online survey was used to market, measure, and develop technical eLearning training for Cisco's Technical Assistance Center Customers

Jashoda Bothra, Jashoda Bothra, Tina Francis, Tina Francis, Cisco Systems, Inc., USA

Virtual-Virtual-Barter For Sustaining And Developing Learning Communities;
The Example Of

Louise Sauvé, Tele-Université Université du Québec, Canada; Gary Boyd, Concordia University, Education Dept., Canada

Support for Mobile Learners in Distributed Space

Oliver Brand, Learning Lab Lower Saxony, Germany

Software Architecture for the International Collaborative Environment (ICE)

Robert Brazile, Robert Brazile, University of North Texas, USA

Knowledge Management Systems in Schools or How to Sort the Garbage Can?

Dr Andreas Breiter, University of Bremen, Germany

Internationalising the interface for e-learning

Ian Brown, Ian Brown, University of Wollongong, Australia

A Development Framework for Re-useable Learning Resources for Different Learning Styles and Requirements

Catherine Bruen, Center for Learning Technology, Ireland

Online Communication: A Success Factor for Blended Learning

Hans Georg Brunn, University of Paderborn, Germany; Christine Frank, University of Paderborn, Germany

Shifting the Unit of Analysis from the Individual to Action: Socio-cultural Approaches to Computer-mediated Communication

Eva Bures, Steven Shaw, Education Department, Concordia University, Canada

Using Virtual Web-Enabled Technologies and Design at Accenture to Enhance Entry Level New Joiner Training

Sandra Burke, Melissa Noonan, Accenture, USA

Independent Study based on the Strategy of Online Workshops to Develop Professional Abilities (TDHP) of UNITEC

Alfonso Bustos, Yolanda Jimenez, Jose Garcia-Santamarina, UNITEC, Mexico

The Impact of Learner Feedback on Program Redesign

Jeanne Butler, Ph.D., Western Governors University, USA

Combining Classroom and Online Approaches for Maximum Learning

Celina Byers, Oakland University, USA

Assessing Sense of Classroom Community in an Urban Community College Online Setting

Cynthia Cadieux, Tidewater Community College, USA

Acquiring, Storing, and Sharing Research Datasets: Policies that Save Resources, Improve Collaboration and Research Activities using IT

Kemal Cakici, Jodi Felberg, The George Washington University, USA

Intercampus: Administration and Teaching shared between eight Catalan universities through Internet

Ramon Martí, Francisco Calvino, Univ. Politecnica de Catalunya, Spain

Web Portals: A Different View for Faculty Development

Patricia Carlson, Rose-Hulman Institute of Technology, USA

Veterinary Multimedia Repository: An Example of a Web-Based Collaborative Tool for Organizing, Archiving and Retrieving Pedagogical Chunks

Eric Norman Carmel, Denis Harvey, André Desrochers, LITIEM - Faculté de médecine vétérinaire of Montreal University, Canada

Enduring Change

Bruce Carter, Sheffield Hallam University, UK

Supporting The Development Of Students' Virtual Enterprises: An E-Learning Environment

Nunzio Casalino, CERSI - LUISS G. Carli University, Italy

Education Web Site Review and Redesign

Cathy Cavanaugh, Terence Cavanaugh, University of North Florida, USA

College Website Review and Revision for Accessibility

Terence Cavanaugh, University of North Florida, College of Education and Human Services, USA
Web/CD Hybrid model for the Distance Learning Environment .................................................. 1296
Terence Cavanaugh, University of North Florida, College of Education and Human Services, USA

National Effort Goes to Support E-Learning: An Example In Taiwan’s Academic Learning Paradigm ......................................................................................................................... 1300
Chipping Chan, National Center for High Performance Computing, Taiwan

Eclectic ........................................................................................................................................ 1304
Ivy Chan, The University of Hong Kong, China; Naubahar Sharif, Cornell University, USA

An exploration of virtual community in Macau ........................................................................... 1308
KAN KAN CHAN, University of Macau, Macau

Learning Systems Modeling with PDA, a Case Study ................................................................. 1312
Tom Chan, Southern New Hampshire University, USA

Using e-learning to scaffold reflection and to support collaborative learning: A case study ............................................................................................................................................... 1315
Christina C. Chao, Penn State University, USA

Measuring the Digital Divide: Liberal Arts Students’ IT Skills .................................................... 1317
Tracy Chao, Faculty of Arts Technologies for Learning Centre, University of Alberta, Canada

Computer-Assisted Collaborative Learning in Art Education: An Experimental Study ............ 1321
Wei-Fan Chen, Chung-Pei Chuang, The Pennsylvania State University, USA

Quality Management Systems for Distance Learning ................................................................. 1325
William Chernish, University of Houston, USA

Communication Preferences and E-Learning ............................................................................. 1327
Mark Chignell, Leonardo Ruppenthal, Mei Leung, Heather Parker, University of Toronto, Canada

Organizational Considerations for Designing Fully Online Learning Environments .................. 1331
Elizabeth Childs, Tammy Dewar, Doug Hamilton, Dave Whittington, Royal Roads University, Canada

Harnessing IT for learner-centred self-directed music education .............................................. 1335
Ying Hwee Chua, Indiana University - Bloomington, USA

Web screen design: background color impacts posttest performance ........................................ 1339
Roy Clariana, Penn State University, USA

E-learning as a Teleworking Training Tool .............................................................................. 1342
Nancy Clementino, UFSC, Brazil

The Virtual Poster Session in a Distance Education Course ....................................................... 1346
Patrice Clemson, Pennsylvania State University, Canada

AMEE: Annotated, Multi-modal Electronic Evaluation for Dynamic Student Modeling ............. 1349
John Coffey, Institute for Human and Machine Cognition, USA

Developing a Virtual Community of Learners ........................................................................... 1353
Susan Colaric, East Carolina University, USA

How Does A Sales Organization Best Support A Distributed Sales Force From A Learning, Communication And Support Standpoint? ........................................................................... 1356
David Connal, Maritz Canada, Canada

Accessibility and usability in complex web based learning applications: lessons from the PEARL project ........................................................................................................................... 1358
Telmo Amaral, Faculade de Engenharia da Univesidade do Porto, Portugal; Chetz Colwell, Open University, UK; Martyn Cooper, Open University, UK

graW: A Web Interactive Environment to Support Undergraduate Courses ............................ 1363
Cidorvan Leite, Marcello Junior, Rodrigo Paes, Evandro Costa, Universidade Federal de Alagoas, Brazil

Supporting Self-Regulation in Student-Centered Web-Based Learning Environments ............ 1366
Nada Dabbagh, Anastasia Kitsantas, George Mason University, USA

REDI, on line educational resources for the development of professional multimedia skills ................................................................................................................................. 1370
Ricardo Dal Farra, INET - National Ministry of Education - Argentina, Argentina

QuikQuiz: Complementing WebCT Tools for More Learner Interaction .................................. 1374
Michael M. Danchak, Rensselaer Polytechnic Institute, USA; Joshua T. Pedersen, Rensselaer Polytechnic Institute, USA

Using the Internet to Create an Integrated Thematic Unit Across the Curriculum ..................... 1378
Terry Daniels, St. John’s University, USA

Applying Multi-Intelligent Adaptive Hypermedia to Online Learning ....................................... 1382
Benay Dara-Abrams, University of San Francisco and BrainJolt, USA
