TABLE OF CONTENTS

MONDAY, SEPTEMBER 9

Concurrent Session I: Hydrology: PMF

*Hydraulic Modeling of Tom Miller Dam* ................................................................. 5
John S. Wollhope, P.E., Project Manager, Jerome W. Scanlon, P.E., Project Manager,
and John R. King, P.E., Principal, Freese & Nichols, Inc., Austin, TX; Michael Johnson,
Ph.D., P.E., Utah State University, Logan, UT; and Gregor Forbes, Program Manager,
Lower Colorado River Authority, Austin, TX

*Reduced Design Floods - What Are The Savings?* ............................................. 19
Greg Paxson, P.E., Senior Engineer; and John Harrison, P.E., Associate Schnabel
Engineering Associates, West Chester, PA

*A Return Period Specific Unit Hydrograph* ......................................................... 31
Norman D. Folmar, E.I.T., Ph.D. Candidate; and Arthur Miller, Ph.D., Professor, Penn
State University, University Park, PA

Concurrent Session II: Gates

*If It Ain't Broke ... Or Is It?* .................................................................................. 43
Greg Hammer, P.E., Dam Safety Engineer, Colorado Division of Water Resources,
Greeley, CO

*Arrowrock Dam Outlet Works Rehabilitation* ......................................................... 51
Ronald M. Arrington, P.E., Design Team Leader, US Bureau of Reclamation, Denver, CO

*Failing Spillway Trunnion Thrust Washers at Priest Rapids Dam* ...................... 63
David D. Moore, P.E., Dam Safety Engineer, George W. Thompson, P.E., Civil Engineer,
and Raymond E. Ellis, P.E., Mechanical Engineer, Grant County Public Utility District,
Ephrata, WA

Concurrent Session III: Dam Construction and Rehab Case Studies

*Throwing Rocks At The 1/2 PMF* ............................................................................. 75
R. Lee Wooten, P.E., Design Division Manager; and Katherine E. Wood, P.E., Geotechnical
Engineer, GEI Consultants Inc., Winchester, MA

*Lyman Dam Failure Forensics Avoid Major Design Changes & Costs in Earth Dam
Rehabilitation* ........................................................................................................... 87
Jon M. Benoist, P.E., Senior Engineer, and Brett A. Howey, E.I.T., Engineer I, AZ
Department of Water Resources, Dam Safety Section, Phoenix, AZ; and Dan R. Lawrence,
P.E., R.L.S., Deputy Director for Dam Safety, TetraTech, Inc., Phoenix, AZ

*Tunnel Repairs Through a Manhole* ...................................................................... 103
James T. Passage, Senior Project Manager, MWH Energy & Infrastructure, Bellevue, WA;
Bill Kiel, Senior Geologist, Energy-Northwest, Richland, WA; Gerry Miller, Manager of
Technical Services, Milbor-Pita Associates, Inc., Bellevue, WA; and Kim de Rubertis,
Consulting Engineer, Cashmere, WA
Concurrent Session I: Hydraulics: Scour

Tailwater Restoration at Livingston Dam
Ingo Fox, P.E., Technical Director; and Jean-Pierre Minois, P.E., Chief Hydraulic Engineer, TAMS an Earth Tech Company, New York, NY; William Holder, R.S., Livingston Dam Site Manager, Trinity River Authority of Texas, Livingston, TX; and Jimmie Sims, Southern Regional Manager, Trinity River Authority of Texas, Huntsville, TX

Evaluating Energy Dissipation for RCC Stepped Spillway Chutes
Craig E. Savela, Geologist, Donald W. Shanklin, Jon B. Fripp, Morris N. Lobrecht, Larry A. Goertz, D.N. Clute, Thomas A. Brown, and L.F. Fragomeli, USDA Natural Resource Conservation Service, Fort Worth, TX

GOLDDFE: New Software for Three-Dimensional Modeling of Plunge Pool or Spillway Scour
Todd M. Lewis, Project Engineer; and Michael L. Jacobs, Principal Golder Associates, Inc., Lakewood, CO; and Rodney J. Wittler, Research Hydraulic Engineer, US Bureau of Reclamation, Denver, CO

Concurrent Session II: Dam Emergencies

Methodology for Risk Analysis of Dam Gates and Associated Operating Equipment Using Fault-Tree Analysis
Robert C. Patev, Civil Engineer, US Army Corps of Engineers, Concord, MA; and Chandra S. Putcha, Professor and Head, Department of Civil and Environmental Engineering, California State University, Fullerton, CA

Modern Insights for Improving Your Dam Safety Emergency Action Plan from the U.S. Fish and Wildlife Service Emergency Action Planning Program
Duane M. McClelland, Water Resources Engineer, GEI Consultants, Inc., Englewood, CO; and Brian Becker, Chief, Dam Safety Branch, US Fish and Wildlife Service, Denver, CO

Emergency Response at Pine Lake Dam
Dallon (Tom) Thomas Woosley, P.E., Permitting and Compliance Unit Program Manager, GA Department of Natural Resources, Atlanta, GA

Concurrent Session III: Case Studies and Lessons Learned

Foundation Pressure Reduction and Monitoring at Skelton Embankment Dam
R. Craig Findlay, PH.D., P.E., G.E., President, Findlay Engineering, Inc., Westbrook, ME; and Michael A. Pelletier, P.E., Senior Dam Safety Engineer, FPL Energy Maine Hydro LLC, Lewiston, ME

Ford Lake Dam Emergency Spillway Project
Thomas F. Prehoda, P.E., Project Manager, A. Rieli & Associates, LLC, Ypsilanti, MI

Solving The Diversion During Construction, Drawdown and Low Flow Augmentation Design at Lake Fort Smith
Rebecca A. Kuhr, P.G., Sr. Geological Engineer; and Galen E. Miller, P.E., Associate Vice President, Burns & McDonnell Engineers, Kansas City, MO; and Richard Domingues, Ph.D., P.E., Associate Civil Engineer, Burns & McDonnell Engineering Company, Jacksonville, FL
Concurrent Session I: Dam Owner Issues

The Path to Failure Mode Analysis, An Owner's Experience
Richard M. Rudolph, P.E., Supervisor/Hydro Engineering, Xcel Energy, Eau Claire, WI

The Role of A Board of Consultants in Site-Specific PMP and PMF Studies
George A. Harper, P.E., General Manager, Framatome ANP DE&S, Marlborough, MA; Barry D. Keim, Ph.D., State Climatologist, University of New Hampshire, Durham, NH; and Jerry A. Gomez, P.E., Gomez and Sullivan Engineers, P.C., Utica, NY

Dam Maintenance Without Regulation

Concurrent Session II: Geotechnical Issues: New Technology

A New State-of-the-Art In Grouting - AIA Grouting Systems
David B. Wilson, P.E., Vice President, and Trent L. Dreese, P.E., Senior Geotechnical Project Manager, Gannett Fleming Inc., Harrisburg, PA

A Historical Review of the Use of Epoxy Protected Strand for Prestressed Rock Anchors
Donald A. Bruce, Ph.D., C. Eng., President, Geosystems, L.P., Venetia, PA

Rehabilitation of A Small Dam Outlet Works Without Draining The Reservoir – A Case Study
Rodney W. Eisenbraun, Associate Vice President, ECI, Greenwood Village, CO

Concurrent Session III: Potpourri

Modification of Embankment Core Material for Erosion Resistance
Mark Pabst, MSCE, MSGE, P.E., Geotechnical Engineer, US Bureau of Reclamation, Denver, CO

Remediation Options For An Embankment Dam On Liquefiable Foundation
Vlad Perlea, Ph.D., P.E., Civil Engineer; David L. Mathews, Section Chief; and William B. Empson, Project Manager, US Army Corps of Engineers, Kansas City, MO

Monument Lake Dam Rehabilitation - Construction Aspects
Darren J. Brinker, P.E., Associate Engineer; and Ed A. Toms, P.E., Managing Engineer, Boyle Engineering Corporation, Lakewood, CO

WEDNESDAY, SEPTEMBER 11

General Session: Research Needs

Hydrologic Research Needs for Dam Safety
Jeff Harris, Hydraulic Engineer, Arlen Feldman, Chief, H & H Tech Division, and David Goldman, Hydraulic Engineer, US Army Corps of Engineers, Hydraulic Engineering Center, Davis, CA
Concurrent Session I: Roller Compacted Concrete

RCC Tests, Testing & Test Sections - Lessons Learned

Kenneth D. Hansen, P.E., Principal, Schnabel Engineering Associates, Englewood, CO; and Charles M. Kahler, P.E., Project Engineer, Schnabel Engineering Associates, Alpharetta, GA

Timber-Faced RCC Dam - An Historic Look With State-Of-The-Art Technology

Paul G. Schweiger, Senior Project Manager; Rodney E. Holderbaum, Vice President; and Donald P. Roarabaugh, Engineer In Training, Gannett Fleming Inc., Harrisburg, PA

Finding Flexibility in a Rigid Material

Charles Kahler, P.E., Project Engineer, Schnabel Engineering Associates, Inc., Alpharetta, GA; and Gary Horninger, P.E., Associate, Schnabel Engineering Associates, Inc., West Chester, PA; and Kevin Ellerton, Project Manager, Barnard Construction Co., Bozeman, MT

Concurrent Session II: Instrumentation. Monitoring & Investigations

Thermal Investigations for Seepage, Lower Highland Lake Dam, Goshen, Massachusetts

Joseph H. Birman, Ph.D., R.G., President, GSi/water, South Pasadena, CA; Thomas E. Jenkins, P.E., Project Engineer, Baystate Environmental Consultants, East Longmeadow, MA; and R. David Clark, P.E., Chief, MA Office of Dam Safety, Lancaster, MA

Monitoring Tailing Dams and Levees With Radiowave Imaging Method (RIM) Instrumentation

Imaging The Anatomy of Earthen Dams Using Ground Penetrating Radar

Scott J. Ludlow, Ph.D., P.E., Principal Engineer; and Mark J. Howell, P.G., Earth Exploration, Inc., Indianapolis, IN

Concurrent Session III: Thinking Outside the Box

The BAT Search - Focused or Random

Richard R. Zavesky, Ph.D., P.E., Civil Engineer, Federal Energy Regulatory Commission, New York, NY

Split-Leaf Gates: Automate Your Stoplogs

Dean S. Steines, P.E., Water Resources Engineer; and Todd M. Rudolph, Water Resources Engineer, Ayres Associates, Eau Claire, WI

Rehabilitation of Black Rock Dam "Seepage & Inadequate Spillway"

TUESDAY, SEPTEMBER 10

General Session: EAPs and Liability

Combining New and Old Technologies for Dam Breach Analysis

Cecil R. Bearden, P.E., Senior Engineer, Oklahoma Water Resources Board, Oklahoma City, OK; and Michael Grounds, Principal, Beacon Resources, Madison, AL
GIS for EAPs: Preparation and Training Applications .................................................. 253
Daniel M. Hill, Water Resources Director, Burgess & Niple, Ltd., Columbus, OH; and
James (Jeff) Brooks, Dam Safety Coordinator, Columbus Division of Water, Columbus, OH

Emergency Action Plans: A Legal and Practical Blueprint ........................................... 257
Denis Binder, Professor, Chapman University School of Law, Orange, CA

Concurrent Session I: Environmental Issues and Dam Removal

A "Natural" Approach to Dam Removal or Fishpassage .................................................. 285A
Laura A. Wildman, Associate Director of Dam Programs, American Rivers, Glastonbury, CT

River Continuity Alternatives – An Evaluation Process for Use at Small Dams .................. 287
James G. MacBroom, Milone and MacBroom, Cheshire, CT

Aspen Institute Initiative: Status Report .............................................................. *
Meg Galloway, State Dam Safety Engineer, WI Dept of Natural Resources, Madison, WI

Concurrent Session II: Geotechnical Issues: Seepage

Long-Term Slope Stability Computations for Earth Dams Using Finite Element Seepage
Analyses .................................................................................................................. 295
Stephen G. Wright, Professor, University of Texas at Austin, Austin, TX

Slough Slides In Embankments With High Plasticity Clays ........................................... 311
Larry A. Cooley, P.E., Principal; and Glen R. Anderson, Sc.D., P.E., Senior Geotechnical
Engineer, Burns Cooley Dennis, Inc., Jackson, MS

Seepage Control in Glacial Foundations - A Lesson in Humility .................................. 329
John W. France, P.E., Senior Principal, URS Corporation, Denver, CO

Concurrent Session III: Spillways and Outlet Works

Sliplining at Lake Toxaway - Problems and Solutions ............................................... 345
Russell Bendel, P.E., Project Engineer; and Donald Basinger, P.E., Project Manager,
Schnabel Engineering Associates, Greensboro, NC

Construction of Supplemental Principal Spillway at Clear Fork of the Trinity, Site 23 ....... 355
Kenneth R. Worster, Civil Engineer, Thomas A. Brown, P.E., Civil Engineer; Donald
Shanklin, P.E., Civil Engineer, and Larry Goertz, Civil Engineer, USDA Natural Resources
Conservation Service, Fort Worth, TX;

Drake Lake Dam - A Case History ............................................................................. 365
William Butler, P.E., Senior Geotechnical Engineer, STS Consultants, Ltd., Green Bay, WI;
Ted D. Bushell, P.E., Principal Engineer, and William H. Walton, P.E., S.E., Principal Engineer,
STS Consultants, Ltd., Vernon Hills, IL; and Ravi Mathur, P.E., S.E., Chief, Structural/Geotechnical Design, Unit, IL Department of Natural Resources, Springfield, IL
