Proceedings of the 18th Annual Conference on Liquid Atomization and Spray Systems

Organized by the Institute of Liquid Atomization and Spray Systems – Europe (ILASS – Europe) and the Laboratory for Research in Combustion Technology (LITEC)

Zaragoza, Spain 9th - 11th September 2002

Edited by: Antonio Lozano
## TABLE OF CONTENTS

### PREFACE

XIII

### Invited Lectures

DYNAMICS OF SECONDARY DROP BREAKUP – A RATE-CONTROLLING PROCESS IN DENSE SPRAYS.  .............................................................. 3  
Gerard M. Faeth

RECENT ADVANCES IN ELECTROATOMIZATION  ........................................... 5  
Antonio Barrero, J. López-Herrera and I.G. Loscertales

### I. Engine Sprays

A NEW MODEL FOR CAVITATION INDUCED PRIMARY BREAK-UP OF DIESEL SPRAYS ................................................................. 15  
Carsten Baumgarten, J. Stegemann and G.P. Merker

HIGH QUALITY GASOLINE SPRAY BY USING CO2-DISSOLVED MIXTURE  ................. 21  
Alexander Rashkovan, B. Rivin, V. Kholmer and E. Sher

ISOTHERMAL COMPRESSION BY DENSE WATER SPRAYS IN A RECIPROCATING PISTON COMPRESSOR .................................................... 25  
P L Stephenson, A. Malmgren, M Coney, R. A. Huxley and R. A. Richards

INFLUENCE OF THROTTLE EFFECTS AT THE NEEDLE SEAT ON THE SPRAY CHARACTERISTICS OF A MULTIHOLE INJECTION NOZZLE ................................. 31  
J. Stegemann, J. Seebode, J. Baltes, Carsten Baumgarten and G.P. Merker

EXTERNAL AND INTERNAL BEHAVIOR OF THE NEAR FIELD DIESEL JET AT HIGH INJECTION PRESSURE : DUAL SOURCE VISUALIZATION AND A MULTIPLE ANGLES TOMOGRAPHIC EXPERIMENTS. ........................................ 37  
Jérôme Yon, Jean-Bernard Blaisot and Michel Ledoux

RELATIONS BETWEEN INTERNAL FLOW STRUCTURES AND DISINTEGRAZTION PROCESSES IN SPRAY FORMATION. ........................................ 43  
K. Triballier, J. Cousin and Christophe Dumouchel

NON-EVAPORATING LIQUID SPRAY SIMULATIONS WITH THE ETAB AND WAVE DROPLET BREAKUP MODELS ................................................. 49  
Ossi Kaario, Martti Larmi and Franz X. Tanner

MODELING AUTOIGNITION IN MODERN D.I. DIESEL ENGINE .......................... 55  
Rossella Rotondi

VAPORIZATION OF MULTICOMPONENT FUEL DROPLETS NUMERICAL AND EXPERIMENTAL EVALUATION ...................................................... 61  
Kai Gartung, Stefan Arndt and Christian Seibel
VALIDATION OF AN ENHANCED LIQUID SHEET ATOMISATION MODEL AGAINST QUANTITATIVE LASER DIAGNOSTIC MEASUREMENTS ........................................... 67
Christos Chryssakis, Katherine D. Driscoll, Volker Sick and Dennis N. Assanis

IMAGING OF CAVITATION, HOLLOW JETS AND JET BRANCHING AT LOW LIFT IN A REAL SIZE VCO NOZZLE .......................................................... 73
R. Miranda, Humberto Chaves and F. Obermeier

TIMESCALE CONSIDERATIONS FOR INTERNAL COMBUSTION ENGINE SPRAYS .......................................................... 79
H. Lienemann and John S. Shrimpton

SPATIAL VELOCITY MEASUREMENT OF INTERNAL CAVITATING FLOW AND CHARACTERISTICS OF LIQUID JET ATOMIZATION OF 2-D HOLE NOZZLE ........................................... 85
Tetsuya Oda and Yhu Yasuda

FLASH BOILING EFFECT ON SWIRLED INJECTOR SPRAY ANGLE .......................................................... 91
Lucio Araneo, K. Ben Slima and R. Doné

II. Spray Impact on Walls

DEVELOPMENT OF A SPRAY WALL IMPACTION MODEL WITHOUT DISCRETISATION INTO DROPLET SIZE CLASSES .................................................. 99
Eduardo Lemini and Paul Watkins

EXPERIMENTAL AND NUMERICAL STUDY OF THIN WALL LIQUID FILM SPREADING ON A HEATING SURFACE. .......................................................... 105
Stephane Giroud-Garapon, G. Heid, G. Lavergne and O. Simonin

SECONDARY DROPLET ATOMISATION FROM SINGLE DROP IMPACTS ON HEATED SURFACES .......................................................... 111
G.E. Cossali, M. Marengo, M. Santini and J. Watanabe

ANALYSIS OF DROPLETS FALLING ON HOT VERTICAL SURFACE .......................................................... 117
Amedeo Amoresano, G. Langella and C. Noviello

CFD MODELLING OF IMPACT AND SPREADING OF DROPLETS ON A SMOOTH SURFACE .......................................................... 123
Mirko Garbero, Marco Vanni and Giancarlo Baldi

BUBBLE PRODUCTION OCCURRING ON THE PERIODIC IMPACT OF VISCOUS DROPS .......................................................... 129
P. L. Torres Sanchez, Humberto Chaves and F. Obermeier

EXPERIMENTAL STUDY OF A CR DIESEL SPRAY .......................................................... 133
Luigi Allocca, A. De Vita and L. Di Angelo

FLOW ON A WALL SURFACE DUE TO SPRAY IMPACT .......................................................... 139
Ilia Roisman and Cam Tropea

COMPARISON OF FRONT-TRACKING AND FRONT-CAPTURING COMPUTATIONS WITH EXPERIMENTAL DATA OF DROPLET IMPACT ONTO SHALLOW LIQUID POOLS .......................................................... 145

SPRAY IMPINGEMENT ON A FLAT PLATE UNDER CROSS FLOW CONDITIONS .......................................................... 151
M. R. Panão and António Moreira
THE DYNAMIC BEHAVIOUR OF SINGLE DROPLETS IMPACTING ONTO A FLAT SURFACE ................................................................. 157
A. S. Moita and António Moreira

III. Medical

NEAR-ORIFICE PDA MEASUREMENTS AND ATOMISATION MECHANISM OF A PHARMACEUTICAL PRESSURISED METERED DOSE INHALER ......................................................... 165
G. Wigley, H.K. Versteeg and D. Hodson

NEAR-ORIFICE SPRAY AND VALVE FLOW REGIME OF A PHARMACEUTICAL PRESSURISED METERED DOSE INHALER ................................................................. 171
H.K. Versteeg and G.K. Hargrave

AN ALTERNATIVE SPRAY PRODUCTION METHOD FOR PRESSURIZED METERED DOSE INHALER ......................................................... 177
Yusuf Al-Suleimani and A. J. Yule

A NOVEL SPRAY CONFINEMENT TECHNIQUE FOR MEDICAL SPRAYS: DETAILED INVESTIGATIVE MEASUREMENTS OF SIX GEOMETRICAL CONFIGURATIONS .............................................. 183
Yusuf Al-Suleimani, Hassan M. Abduljalil and A. J. Yule

A NOVEL SPRAY CONFINEMENT TECHNIQUE FOR MEDICAL SPRAYS: ADVANCED PROCESSING AND CORRELATION WITH TIMP MEASUREMENTS ..................................................... 189
Hassan M. Abduljalil, Yusuf Al-Suleimani and A. J. Yule

DEPOSITION OF PARTICLES IN THE UPPER RESPIRATORY TRACT ......................................................... 195
Tevfik Gemci, B. Shortall, T.E. Corcoran and N. Chigier

SPRAY CHARACTERIZATION FOR FLUIDIZED BED GRANULATION PROCESSES ......................................................... 201
Tevfik Gemci, N. Chigier, P.P. Godbole and P. Strickland

IV. Electrosprays

SPRAY CHARACTERISTICS OF CHARGE INJECTED ELECTROSTATIC PRESSURE-SWIRL NOZZLE ......................................................... 209
G. N. Laryea and Soo-Young No

DETERMINATION OF INDIVIDUAL DROPLET CHARGE IN ELECTROSpraYS FROM PDPA MEASUREMENTS ......................................................... 215
Tevfik Gemci, R. Hitron and N. Chigier

V. Agricultural

PARTICLE SIZE CHARACTERISATION OF AGRICULTURAL SPRAYS USING LASER DIFFRACTION ......................................................... 223
Paul Kippax, Steve Parkin and Clive Tuck

PERFORMANCE OF HYDRAULIC AND ROTARY ATOMISERS FOR MOSQUITO SPRAYING ......................................................... 229
VI. Fundamentals of Break Up

LIQUID ATOMIZATION BY ANNULAR SWIRLING GAS ........................................... 237
Arnaud Dunand, Remy Sorin, Jean Louis Carreau and Francis Roger

THE EFFECT OF THE DIAMETER RATIO ON THE ABSOLUTE AND CONVECTIVE
INSTABILITY OF FREE, COFLOWING JETS ......................................................... 243
A. Sevilla, Carlos Martín-Bazán and J.M. Gordillo

DISINTEGRATION OF LIQUID PHASES IN PRESSURIZED GASES - INFLUENCE
OF MASS TRANSFER .......................................................................................... 249
Matthias Hobbie and R. Eggers

VII. Spray Diagnostics

SENSITIVITY TO OPTICAL NOISE OF THE MEASUREMENTS OF CONCENTRATION
AND VOLUME FLUX WITH A PHASE DOPPLER PARTICLE ANALYZER IN DILUTE
AND DENSE SPRAYS ....................................................................................... 257
E. Palacios, A. Lecuona, M. de Vega and P. Rodríguez

DETECTION OF NONSUPERIAL DROPLETS OF INJECTION SPRAYS IN A HIGH
PRESSURE - HIGH TEMPERATURE CELL .................................................. 263
B. Ineichen

MEASUREMENTS OF THE TURBULENT BREAK-UP OF BUBBLES USING HIGH
SPEED VIDEO IMAGES ..................................................................................... 269
Javier Rodríguez, Carlos Martín-Bazán and J.L. Montañés

APPLICATION OF SHADOW DOPPLER VELOCIMETRY TO ARBITRARY-SHAPED
DROPLET MEASUREMENT IN WATER SPRAY .............................................. 275
Kazuaki Matsuura, Minoru Komaki and Koji Ueyama

A SURVEY OF MODEL FUEL MIXTURES SUITABLE FOR
EXCIPLEX-SPECTROSCOPY FOR LIQUID/VAPOR VISUALIZATION ................. 281
Fredrik Persson, Michael Försth and Arne Rosén

CHARACTERISATION OF SPRAY UNSTEADINESS .............................................. 287
Roland Domann and Yannis Hardalupas

CHARACTERISATION OF HIGH PRESSURE DIESEL FUEL SPRAYS BY ENTROPIC
EDGE DETECTION .............................................................................................. 293
Pedro Luis Luque Escamilla, Jérôme Seneschal, Juan Francisco Gómez Lopera,
Christophe Ducottet, José Martínez Arozá and Jean-Claude Champoussin

PIV-INVESTIGATIONS OF INTERNAL SLIT NOZZLE FLOWS AND THEIR
INFLUENCE ON LIQUID SHEET BREAKUP .................................................. 299
Jochen Scholz, Karsten Roetmann and Volker Beushausen

VIII. Cryogenic

NUMERICAL INVESTIGATION OF DROPLET HEATING, VAPORIZATION, AND
IGNITION OF METHANOL AND LOX DROPLETS IN A CONVECTIVE FLOW FIELD .... 307
INFLUENCE OF J AND WE NUMBER ON GH2/LOX IGNITION PROCESS ........................................ 313
V. Schmidt, O. Gurliat, M. Oschwald and Oskar J. Haidn

IX. Atomizer Design

PERFORMANCE OF INTERNAL MIXING AIR-ASSISTED NOZZLES FOR HEAVY FUEL OIL BURNERS .................................................. 321
E. Lincheta, Jorge Barroso, J. Suárez, Félix Barreras and Antonio Lozano

DROPLET SIZING AND CHARACTERIZATION OF WATER MIST FIRE PROTECTION SPRAY NOZZLES .................................................. 327
Stefan Schürmann

INTERNAL FLOW IN A Y-JET ATOMISER—NUMERICAL MODELLING— ........................................ 333
Zoili Tapia-Ramirez and A. Chávez

SAMPLE INTRODUCTION IN ATOMIC EMISSION SPECTROMETRY (AES). DIFFERENT PNEUMATIC NEBULIZERS AT COMPARABLE OPERATING CONDITIONS .................................................. 339
Sascha Groom, H. Wiggers and Peter Walzel

INFLUENCE OF SOME GEOMETRICAL PARAMETERS ON THE CHARACTERISTICS OF EFFERVESCENT ATOMIZATION .................................................. 345
Miroslav Jicha, Jan Jedelsky, Jan Otahal and Jaroslav Slama

A COMPUTATIONAL AND EXPERIMENTAL STUDY OF THE INTERNAL FLOW IN A SCALED PRESSURE-SWIRL ATOMIZER .................................................. 351
Kim Granly Hansen, Jesper Madsen, Chinh Minh Trinh, Claus H. Ibsen, Tron Solberg and Bjorn H. Hjertager

ENHANCEMENT OF ATOMIZATION OF HIGH VISCOUS LIQUID JET BY PRESSURE ATOMIZED NOZZLE .................................................. 357
Nobushige Tamaki and M. Shimizu

DYNAMIC CHARACTERIZATION OF A PRESSURE SWIRL HOLLOW CONE SPRAY .................................................. 363
J.L. Santolaya, L.A. Aísa, J.A. García, I. García Palacín and E. Calvo

PERFORMANCE DIAGNOSTICS FOR NOZZLES FED WITH MULTIPHASE FLOW .................................................. 369
Deepak Kirpalani and T.W. McCracken

NOVEL DEVELOPMENTS IN ACTUATOR DESIGNS FOR FLASHING HOUSEHOLD AEROSOLS .................................................. 375
R. A. Sharief, A. J. Yule and K. Laidler

X. Spray Deposition

RHEOLOGICAL MODEL OF COMPOSITE SLIDING BEARING COMPRISING HARD COATING ON SOFT POLYMER INTERLAYER .................................................. 383
M.V. Kireitseu, S.G. Yerakhavets, Ion Nemerenco, M. Istomin, M.A. Belotserkovski and A. Fedaravichus

CERAMIC FORMING BY ELECTROSTATIC ATOMIZATION .................................................. 389
Suwan Jayasinghe and M.J. Edirisinghe

DEPOSITION OF LIQUID FILMS FROM NEAR-WALL SPRAY JETS IN A CYLINDRICAL CHANNEL .................................................. 395
Victor Terekhov, K.A. Sharov, A.F. Serov and A.D. Nazarov
SIMULATION OF THE SPRAY COATING PROCESS USING A PNEUMATIC ATOMIZER ....................................................... 401
Q. Ye, Joachim Domnick and E. Khalifa

XI. Gas Turbines

SPRAY INTERACTION AND DROPLET COALESCENCE IN TURBULENT AIR-FLOW. AN EXPERIMENTAL STUDY WITH APPLICATION TO GAS TURBINE HIGH FOGGING .......................................................... 409
S. Savic, G. Mitsis, C. Häriel, S. Khaidarov and P. Pfeiffer

DIESEL SPRAY EVAPORATION MODELLING IN A "COOL FLAME" ENVIRONMENT: A NOVEL APPROACH ............................................................... 415
D. Kolaitis and M. Founti

A MULTI-COMPONENT DROPLET EVAPORATION MODEL FOR REAL AVIATION FUELS AT ELEVATED PRESSURES ........................................... 421
Matthias Burger, Roland Schmehl, P. Prommersberger, O. Schaefer, R. Koch and S. Wittig

XII. Metal Manufacturing

MELT ATOMIZATION BY HEATED GASES .......................................................... 429
H. Lohner, U. Fritsching and K. Bauckhage

APPLICATIONS OF ATOMIZATION AND SPRAY PROCESSES IN STEEL INDUSTRY ............................................. 435
Jing Guo Zhang and B. Yan

XIII. Ultrasonic

ULTRASONIC ATOMIZATION SPRAY ANALYSIS WITH A THREE-PARAMETER GENERALIZED GAMMA FUNCTION ................................................. 443
Christophe Dumouchel, Daniel Sindayihebura and L. Bolle

MODELLING AND SIMULATION OF THE DISINTEGRATION PROCESS IN AN ULTRASONIC STANDING WAVE ATOMIZER ........................................... 449
Oliver Reipschläger, Dieter Bothe, Hans-Joachim Warnecke, Burkhard Monien, Jan Prüss and Bernhard Weigand

A CFD PREDICTION OF WAVE DEVELOPMENT AND DROPLET PRODUCTION ON SURFACE UNDER ULTRASONIC EXCITATION ........................................... 455
Yusuf Al-Suleimani and A. J. Yule

XIV. Spray Combustion

APPLICATION OF A LAMINAR FLAMELET COMBUSTION MODEL TO LPG AND DIESEL SPRAYS ................................................................. 463
Albert Yoong and Paul Watkins

THE INFLUENCE OF ORIFICE DIAMETER ON FLAME LIFT-OFF LENGTH ................................................................. 469
Pär Bergstrand, Michael Försth and Ingemar Denbratt
XV. Spray Modelling

TRANSIENT 3D SIMULATION OF HEAT TRANSFER FROM SPHERICAL AND STRONGLY DEFORMED DROPLETS AT HIGH REYNOLDS NUMBERS ................................. 489
M. Hase and Bernhard Weigand

ADVANCED MODELING OF DROplet DEFORMATION AND BREAKUP FOR CFD ANALYSIS OF MIXTURE PREPARATION ....................................................... 495
Roland Schmehl

NUMERICAL SIMULATION OF PINCH-OFF JET PROCESS BY THE LEVEL SET METHOD .................................................. 503
Y. Pan and K. Suga

MODELLING OF TURBULENT ATOMIZATION WITH A COMBINED EULER/LAGRANGE EULER/EULER APPROACH: STARTING WITH A TWO-FLUID MODEL IN THE DENSE SPRAY REGION ........................................ 509
Elke Platzer and Martin Sommerfeld

AN EULERIAN MODEL TO IMPROVE THE PRIMARY BREAKUP MODELING OF ATOMIZING JET .................................................. 515
G. Blokkeel, X. Silvani, François-Xavier Demoulin and R. Borghi

SPRAY FORMATION BY BI-COMPONENT LIQUID FLASHING: A THEORETICAL APPROACH .................................................. 521
T. Bar-Kohany and E. Sher

PRIMARY BREAK-UP MODEL FOR DIESEL JETS BASED ON LOCALLY RESOLVED FLOW FIELD IN THE INJECTION HOLE .................................. 527

INVESTIGATION OF UNSTEADY EFFECTS IN PRESSURE SWIRL ATOMIZERS .................................................. 533
Ernst von Lavante, U. Maatje and F. O. Albina

ANALYSIS OF SWIRL INJECTION CHARACTERISTICS .................................................. 539
Masaaki Kato, Kenji Date, Kazutoshi Koie and Takio Oya

XVI. Droplet Collisions

OPTIMISATION OF THE WET FLUE GAS CLEANING PROCESS THROUGH MODELLING THE USE OF DROPLET INTERACTIONS IN OVERLAPPING SPRAYS ............... 547
Ruth Kaesemann, Joachim Neumann and Hans Fahlenkamp

A STOCHASTIC DROPLET COLLISION MODEL WITH CONSIDERATION OF IMPACT EFFICIENCY .................................................. 553
S. Blei, C. A. Ho and Martin Sommerfeld
THE EFFECT OF NON-NEWTONIAN FLOW BEHAVIOUR ON BINARY DROPLET COLLISIONS: VOF-SIMULATION AND EXPERIMENTAL ANALYSIS .......................... 559
Michael Motzigemba, Norbert Roth, Dieter Bothe, Hans-Joachim Warnecke, Jan Prüss, K. Wielage and Bernhard Weigand

INFLUENCE OF PARTICLE-PARTICLE COLLISIONS IN A ROUND JETladen WITH SOLIDS .................................................. 565
Santiago Lain, J.A. García, L.A. Aisa and Martin Sommerfeld

 XVII. Sheet Instabilities

LAMELLA DISINTEGRATION AT SHEET FORMING NOZZLES, ESTIMATES FOR DROP SIZES .................................................. 573
Peter Walzel and Peter Broll

SPRAY FORMATION THROUGH LIQUID SHEET BREAK-UP CONTROLLED BY VIBRATIONAL EXCITATION ..................................... 579
Günter Brenn, Z. Prebeg and A.L. Yarin

THE INFLUENCE OF AIR CO-FLOW CHARACTERISTICS ON THE OSCILLATION OF A LIQUID SHEET ............................................. 585
Christian Siegler, Antonio Lozano and Félix Barreras

Posters

SPRAY DRYING OF SUSPENSIONS USING FLASH-EVAPORATION ................................................................. 593
Karsten Monse, Tanja Linnepe, Sascha Groom and Peter Walzel

DROP SPRAYING USING A VIBRATING SURFACE UNDER INFLUENCE OF AN ELECTRIC FIELD .................................................. 593
S. Alzuaga, J.F. Manceau and F. Bastien

PRODUCING MONOSIZED DROPLETS BY VIBRATIONAL EXCITATED PNEUMATIC NOZZLES ............................................. 594
Tanja Linnepe, M. Heitkamp and Peter Walzel

MIXING OF CO-AXIAL NATURAL GAS/LIQUID DIESEL FUEL SPRAYS ................................................................. 594
T. R. White and Brian Milton

DRAG FORCE ON A HEATED SPHERE .................................................................................................................. 595
D. Katoshevski, G. Ziskind, E. Mograbi and E. Bar-Ziv

INFLUENCE OF THE GEOMETRICAL ARRANGEMENT OF THE PHASE CONTACT ON OPERATING CONDITIONS OF INTERNAL MIXING ATOMIZERS .................................................. 595
Martin Dopler, Christian Weiss and Werner Kepplinger

INJECTION CHARACTERISTICS ON THE SURFACE OF A LIQUID JET IN A WIND TUNNEL ................................................................ 596
R. Branam, M. Hammou, A. Volpp and W. Mayer

A RECTILINEAR DROPLET STREAM STUDY: DYNAMICAL AND THERMAL BEHAVIOR .................................................. 596
A. Anthasit, G. Castanet, Y. Biscos, F. Lemoine and G. Lavergne

AUTHOR INDEX ................................................................................. 597
