The Mississippi Gulf Coast welcomes you to Oceans 2002! The exciting "Playground of the South" is located at the northern part of the Gulf of Mexico centered between Mobile, AL and New Orleans, LA. This central, coastal United States location has 26 miles of sugar-white beaches, and many cultural activities. The Gulf Coast offers a wide range of marine interest from the fishing industry, shipbuilding, oceanographic activities, marine education, remote sensing, and oil exploration. The Mississippi Gulf Coast is also the home of the world's largest group of Oceanographers located at Naval Oceanographic Office (NAVOCEANO) at the John C. Stennis Space Center in southern Mississippi. The Center is an advanced technology hub of over 5000 supporting the nation's rocket testing program, the Space Based Laser program, over 30 Federal and State agencies and industrial contractors, and one of the world's largest supercomputer centers.
Volume One

Acoustic Classification - I
Session Chair ...................... Dr. Kenneth Foote
Woods Hole Oceanographic Institution
Woods Hole, MA

Controlled seabed clutter fluctuations and their effects on backscattered signal statistics .................. 1
S. Dugelay, R. Brothers, QinetiQ Bincleaves, Weymouth, UK

High-Frequency Acoustic Sediment Classification in Shallow Water ...................................... 7
Frank W. Bentrem, John Sample, Maria T. Kalcic, Marine Geosciences Division, Naval Research Laboratory, Stennis Space Center, MS, Michael E. Duncany, Planning Systems Incorporated, Slidell, LA

Detection and Classification of Underwater Transients with Data Driven Methods Based on Time-Frequency Distributions and Non-Parametric Classifiers ....................................... 12
Paulo M. Oliveira, Victor Lobo, ESCOLA NAVAL Alfeite, Almada, Portugal, Victor Barroso, ISR/IST Torre Norte, Rovisco Pais, Lisboa, Portugal, Fernando Moura-Pires, Universidade de Évora, Departamento de Informática, Évora, Portugal

Identifying “Skylites” for AUV Operations under Pack Ice: Insights from Ice-draft Profiling by Moored Sonar .................................................. 17
D.B. Fissel, J.R. Marko, ASL Environmental Sciences Inc., Sidney, B.C., Canada, H. Melling, Institute of Ocean Sciences Fisheries and Oceans Canada, Sidney, B.C., Canada

Acoustic Classification - II
Session Chair ...................... Dr. Kenneth Foote
Woods Hole Oceanographic Institution
Woods Hole, MA

Superellipse fitting for the Classification of Mine-like Shapes in Side-Scan Sonar Images ............ 23
E. Dura, J. M. Bell, D.M. Lane, Oceans Systems Laboratory, Department of Computing and Electrical Engineering, Heriot-Watt University, Edinburgh, Scotland, UK.

Acoustic Detection
Session Chair ...................... Dr. Kerry Commander
Science and Technology Coordinator
Coastal Systems Station
Panama City, FL

GRASP Multi-sensor Search Tactics against Evading Targets ..................................................... 54
Donald R. DelBalzo, K. P. Hemsteter, Naval Research Laboratory Stennis Space Center, MS

Acoustic Benchmark Validation of GRASP ASW Search Plans .................................................. 60
K. P. Hemsteter, Donald R. DelBalzo, Naval Research Laboratory Stennis Space Center, MS

3D Spatial Resolution Enhancement Through Environmental Effects with the Time Reversal Operator Decomposition ........................................... 65
Thomas Folégot, Atlantide Technopôle Brest-Iroise, Brest Cedex, France, Claire Prada, Mathias Fink, Laboratoire Ondes et Acoustique, ESPCI, Paris, France

Table of Contents

A Canonical Correlation-Based Feature Extraction Method For Underwater Target Classification ................................................................. 29
Ali Pezeshki, Mahmood R. Azimi-Sadjadi, Louis L. Scharf, Marc Robinson, Colorado State University Department of Electrical and Computer Engineering Fort Collins, CO

A Biologically Inspired Adaptive Underwater Target Classification using a Multi-Aspect Decision Feedback Unit ............................................. 38
Mahmood R. Azimi-Sadjadi, Marc Robinson, Arta A. Jamshidi, Department of Electrical and Computer Engineering Colorado State University, Fort Collins, CO
Gerry J. Dobcek, Coastal Systems Station, NSWC–Dahlgren Division, Panama City, FL

Multi-Aspect Discrimination of Underwater Mine-Like Object Objects using Hidden Markov Models ............................................................. 46
Jaime Salazar, Marc Robinson, Mahmood R. Azimi-Sadjadi, Colorado State University, Department of Electrical and Computer Engineering, Fort Collins, CO
Table of Contents

Advanced Measurement Systems - I
Session Chair............................ Ken Sharp
Deputy Director, Ocean Projects Department
Naval Oceanographic Office
Stennis Space Center, MS

An Improved Subsequent Burial
Instrumented Mine.......................... 72
Sean Griffin, John Bradley, Maurice Thiele,
Cuong Tran, Francis Grosz, Jr., Omni Technologies, Inc.,
New Orleans, LA, Michael D. Richardson, Marine
Geosciences Division, Naval Research Laboratory, Stennis
Space Center, MS

Design and Operation of A Long-Duration
Mooring For Ocean Observations............... 78
Daniel Frye, Nelson Hogg, Woods Hole Oceanographic
Institution, Woods Hole, MA, Carl Wunsch, Massachusetts
Institute of Technology, Cambridge, MA

Advanced Measurement Systems II
Session Chair............................... Ken Sharp
Deputy Director Ocean Projects Department
Naval Oceanographic Office
Stennis Space Center, MS

Accelerometer and Fiber Optic Gyro
measurements of an Instrumented Cylinder
used to study Impact Burial.......................... 92
Stephen Theophanis, Naval Research Laboratory, Stennis
Space Center, MS

Development of a Lift-boat Suitable for Offshore
Aquaculture Logistics.......................... 121
Christopher J. Bridger, College of Marine Sciences, The
University of Southern Mississippi, Ocean Springs, MS
Clifford A. Goudey, MIT Sea Grant College Program,
Cambridge, MA, Dennis Good, George T. White, Good
Streak Marine, Slidell, LA

Episodic Wave Data Capture With Miniaturized
Instrumentation.................................. 104
David D. McGehee, Emerald Ocean Engineering, Pensacola
Beach, FL, Marshall D. Earle, Neptune Sciences, Inc.,
Slidell, LA

Aquaculture
Session Chair.............................. Christopher J. Bridger
College of Marine Sciences,
The University of Southern Mississippi
Ocean Springs, MS;
Session Co-Chair............................. Jana L. DaSilva
Senior Geoscientist,
Fugro GeoServices, Inc.,
Lafayette, LA

Open Ocean Aquaculture Engineering............... 111
K. C. Baldwin, B. Celikkol, M. R. Swift, D. Fredriksson,
Center for Ocean Engineering, Chase Ocean Engineering
Lab, University of New Hampshire, Durham, NH; J. D.
Irish, Dept. of Ocean Engineering, Bigelow Lab, Woods
Hole Oceanographic Inst., Woods Hole, MA, I. Tsukrov,
Dept. of Mechanical Engineering, Kingsbury Hall,
University of New Hampshire, Durham, NH, Michael
Chambers, Project Manager, OOA , Chase Ocean
Engineering Lab, University of New Hampshire, Durham,
NH

Development of a Lift-boat Suitable for Offshore
Aquaculture Logistics.......................... 121
Christopher J. Bridger, College of Marine Sciences, The
University of Southern Mississippi, Ocean Springs, MS
Clifford A. Goudey, MIT Sea Grant College Program,
Cambridge, MA, Dennis Good, George T. White, Good
Streak Marine, Slidell, LA

Evolution and Performance of a Single-point
Mooring for an Offshore Aquaculture Cage.......... 126
Clifford A. Goudey, MIT Sea Grant College Program,
Cambridge, MA, Christopher J. Bridger, College of
Marine Sciences, The University of Southern Mississippi,
Ocean Springs, MS

Arctic Operations
Session Chair................................. CDR Steve Warren
Director, National Ice Center
Suitland, MD

Arctic Ocean Research:
Progress and Requirements........................ 131
G.B. Newton, Jr., Arctic Research Commission, Arlington,
VA
Artificial Reefs
Session Chair .................. Christopher J. Bridger
College of Marine Sciences
The University of Southern Mississippi
Ocean Springs, MS
Session Co-Chair .................. Jana L. DaSilva
Senior Geoscientist
Fugro GeoServices, Inc.
Lafayette, LA

Utilizing Side Scan Sonar as an Artificial Reef Management Tool .................. 136
Kerwin J. Cuevas, Michael V. Buchanan, Mississippi Department of Marine Resources, Biloxi, MS
Darren Moss, EdgeTech, Biloxi, MS

Side Scan Sonar in Oyster Management .................. 141
Diaz, Dale, K. Cuevas, M. Buchanan, S. Gordon, W.S. Perret, Office of Marine Fisheries, Mississippi Department of Marine Resources, Biloxi, MS

The Webbing Reef: A Tool used in the Study of Juvenile Red Snapper (Lutjanus campechanus) .................. 146
Ian K. Workman, Daniel G. Foster, National Marine Fisheries Service, Pascagoula, MS

Autonomous Underwater Vehicles (AUVs) I
Session Chair .................. Claude P. Brancart
NextFish
Brunswick, ME
Session Co-Chair .................. D. Richard Blidberg
Autonomous Undersea Systems Institute
Lee, NH

Robust Design Framework for an Underwater Vehicle Motion Controller .................. 173
Jean-Pierre Folcher, Laboratoire d’Informatique, Signaux et Systèmes de Sophia Antipolis (I3S), Cedex, France

Autonomous Underwater Vehicles (AUVs) II
Session Chair .................. Claude P. Brancart
NextFish
Brunswick, ME
Session Co-Chair .................. D. Richard Blidberg
Autonomous Undersea Systems Institute
Lee, NH

DAVOCEANO Seahorse AUV Design, Testing, and Capabilities .................. 151
Applied Research Laboratory, Penn State University, State College, PA

The HUGIN AUV “Plug and Play” Payload System .................. 156
Per Espen Hagen, Norwegian Defence Research Establishment (FFI), Kjeller, Norway, Jon Kristensen, Kongsberg Simrad AS, Horten, Norway

Design of an Inspection Class Autonomous Underwater Vehicle .................. 180
R. Damus, J. Manley, S. Desset, J. Morash, C. Chryssostomidis, Massachusetts Institute of Technology, AUV Lab, Sea Grant College Program, Cambridge, MA

Estimation of Hydrodynamic Coefficients of a Test-bed AUV-SNUUV I by Motion Test .................. 186
Kihun Kim, Joonyong Kim, Hang S. Choi, Kyu-Yeul Lee, Woojae Seong, Department of Naval Architecture & Ocean Engineering, Seoul National University, Seoul, Korea
# Table of Contents

The Evolution of AUV Power Systems .................................. 191
G. T. Reader, Dean of Engineering, University of Windsor, Windsor, Ontario, Canada, J. Potter, Director CHT, Alberta Research Council, Edmonton, Alberta, Canada
J. G. Hawley, Reader in Thermodynamics, University of Bath, Bath, UK

Aluminum Energy Semi-Fuel Cell Systems
For Underwater Applications: The State Of
The Art And The Way Ahead ............................................. 199
Michael Adams, Wojtek Halliop, Fuel Cell Technologies Ltd., Kingston, Ontario, Canada

Autonomous Underwater Vehicles
(AUVs) IV
Session Chair ............................................. Edgar An
Ocean Engineering
Florida Atlantic University
Boca Raton, FL
Session Co-Chair .................. Claude P. Brancart
NextFish
Brunswick, ME

Acoustic Redirection, Reacquisition, and Acoustic/Optical Imaging of Mine-Like Targets in Very Shallow Water Using the CetusII AUV ........................................ 203
G. M. Trimble, Marine Automation & Robotics, Lockheed Martin Perry Technologies, Sunnyvale, CA

Integration of a Hovering Module with the Morpheus AUV: Application to MCM missions ...................... 207
Brett Hobson, Mathieu Kemp, Nekton Research, LLC., Durham, NC, Alexander Leonessa, Florida Atlantic University, Dania Beach, FL

Dynamics Of A High Speed Autonomous Semisubmersible Vehicle ................................................ 210
Louis J. Larkin, Carl J. Thomsen, Perry Technologies, Lockheed Martin Naval Electronics & Surveillance Systems Riviera Beach, FL, Dr. Jerome P. Feldman, Naval Surface Warfare Center Carderock Division, Bethesda, MD

Real Time AUV Pipeline Detection and Tracking Using Side Scan Sonar and Multi-Beam Echosounder ................................ 217
Y. R. Petillot, S.R. Reed, J.M. Bell, Oceans Systems Laboratory, Heriot Watt University, School of EPS, RICCAR Hamilton Campus, Edinburgh, UK

High Resolution Bathymetric Sidescan Sonar ............ 223
Weiqing Zhu, Min Zhu, Xiaodong Liu, Feng Pan, Xiangjun Zhang, Yuling Wang, Changhong Wang, Institute of Acoustics, Chinese Academy of Sciences Beijing, China

Autonomous Underwater Vehicles
(AUVs) V
Session Chair ............................................. D. Richard Blidberg
Autonomous Undersea Systems Institute
Lee, NH
Session Co-Chair .................. John Bunce
Neptune Sciences
Slidell, LA

AUV Control in the Presence of Fin Actuator Faults ........................................ 228
Doug Perrault, Neil Bose, Ocean Engineering Research Centre, Memorial University of Newfoundland, St. John’s, NF, Canada, Siu O’Young, Centre for Instrumentation and Control Automation (INCA), Memorial University of Newfoundland, St. John’s, NF, Canada, Christopher D. Williams, National Research Council Canada, Institute for Marine Dynamics, St. John’s, NF, Canada

Semi-autonomous Touching of Underwater Object by Unmanned Untethered Vehicle ................... 236
Takumi Imai, Tamaki Ura, Yosiaki Nose, Underwater Technology Research Center, Institute of Industrial Science, University of Tokyo Tokyo, Japan

Control of an AUV with Saturating Actuators: Classical and LMI based Design Approaches ......................... 242
Jean-Pierre Folcher, Abel Piña, Laboratoire d’Informatique, Signaux et Systèmes de Sophia Antipolis, Cédex, France

The Effect of Forward Vehicle Velocity on Through-Body AUV Tunnel Thruster Performance .......... 250
Aaron Saunders, Space and Subsea Robotics Laboratory, University of Victoria, Victoria, B.C., Meyer Nahon, Department of Mechanical Engineering, McGill University, Montreal, Quebec, Canada
Table of Contents

Using Near Field Model Predictions to Detect and Map an Outfall Sewage Plume with an AUV ................................................................. 285
Patrícia Ramos, Instituto Superior de Contabilidade e Administração do Porto, Instituto Politécnico do Porto  Rua Padre Costa, Porto, Portugal, Instituto de Sistemas e Robótica  Rua, Porto, Portugal,  Mário V. Neves, Faculdade de Engenharia da Universidade do Porto  Rua Porto, Portugal

Fernando L. Pereira, Instituto de Sistemas e Robótica Rua, Porto, Portugal, Faculdade de Engenharia da Universidade do Porto  Rua Porto, Portugal

Recognition of Sacrificial Anodes using Parallel Lighting for Fully Automatic Underwater Inspection by Autonomous Underwater Vehicles .............................................. 291
Son-Cheol Yu, Tamaki Ura, Takashi Sakamaki, Underwater Technology Research Center, Institute of Industrial Science, University of Tokyo, Tokyo, Japan

Autonomous Underwater Vehicles (AUVs) VIII
Session Chair ....................... Claude P. Brancart
NextFish
Brunswick, ME

Session Co-Chair ...................... Brian Morr
Technosphere, Inc.
Houston, TX

Underwater Robot Navigation Using Benthic Contours .................................................. 299
M.-J. Rendas and S. Rolfes, Laboratoire d’Informatique, Signaux et Systèmes de Sophia Antipolis, Sophia Antipolis Cedex, France

Ice Profiling Sonar for an AUV: Experience in the Arctic .................................................. 305
Nicole S. Tervalon, Richard Henthorn, Monterey Bay Aquarium Research Institute, Moss Landing, CA

Autonomous Underwater Vehicles
(AUVs) VII
Session Chair ....................... Claude P. Brancart
NextFish
Brunswick, ME

Session Co-Chair ...................... John Bunce
Neptune Sciences, Inc.
Slidell, LA

An Analysis of Steady Descending Motion of a Launcher of a Compact Deep-sea Monitoring Robot System .............................................. 277
M. Ueno, T. Nimura, National Maritime Research Institute, Tokyo, JAPAN

Autonomous Underwater Vehicles
(AUVs) VI
Session Chair ....................... Claude P. Brancart
NextFish
Brunswick, ME

Session Co-Chair ...................... Brian Morr
Technosphere, Inc.
Houston, TX

Results from Mechanical Docking Tests of a Morpheus Class AUV With a Dock Designed for an OEX Class AUV .............................................. 260
J. C. Lambiotte, R. Coulson, S. M. Smith, E. An,  Department of Ocean Engineering, Florida Atlantic University, Boca Raton, FL

New Acoustic Systems for AUV Tracking, Communications, and Noise Measurement at NSWCCD-ARD, Lake Pend Oreille, Idaho ................................. 266
Doug Odell, Keith Hertel, Craig Nielsen, CDNSWC Acoustic Research Detachment, Bayview, ID

Ocean Surface Wave Measurements Using a Small Autonomous Underwater Vehicle ...................... 272

Ice Profiling Sonar for an AUV: Experience in the Arctic ................................. 305
Nicole S. Tervalon, Richard Henthorn, Monterey Bay Aquarium Research Institute, Moss Landing, CA
# Table of Contents

## Autonomous Underwater Vehicles (AUVs)

(AUVs) IX  
**Session Chair** .................. Claude P. Brancart  
NextFish  
Brunswick, ME  
**Session Co-Chair** .................. D. Richard Blidberg  
Autonomous Undersea Systems Institute  
Lee, NH

MASA: a Multi-AUV Underwater Search and Data Acquisition System .......................................................... 311  
Mathieu Kemp, Brett Hobson, Jim Meyer, Ryan Moody, Heather Finnix, Bryan Schulz, Nekton Research, Durham, NC,

Real-time Classification of Buried Targets with Teams of Unmanned Vehicles ............................................. 316  
J. R. Edwards, Massachusetts Institute of Technology, Department of Ocean Engineering, Cambridge, MA

Using a Fleet of Slocum Battery Gliders in a Regional Scale Coastal Ocean Observatory .................. 320  

## Autonomous Underwater Vehicles (AUVs)

(AUVs) X  
**Session Chair** .................. Edgar An  
Ocean Engineering, Florida Atlantic University  
Boca Raton, FL  
**Session Co-Chair** .................. Claude P. Brancart  
NextFish  
Brunswick, ME

Autonomous Undersea Systems Network (AUSNET) Development Status Update ........................................ 325  

UUUV Teams, Control From A Biological Perspective .......................................................... 331  
P. McDowell, B. Bourgeois, Naval Research Laboratory, Stennis Space Center, MS, J. Chen, Louisiana State University, Baton Rouge, LA

## Biotechnology

**Session Chair** .................. Dr. Jay Grimes  
The University of Southern Mississippi  
**Session Co-Chair** .................. Christopher J. Bridger  
College of Marine Sciences  
The University of Southern Mississippi

Microbial Degradation of Mussels removed from the Surface of Marine Structures .................................. 338  
Haruo Mimura, Kobe University of Mercantile Marine, Kobe, Japan

Experimental Study on Algae Enhancement Technology by Throwing Type of Iron Fertilizer .................. 342  
Kyoichi Okamoto, Kenji Hotta, Dept. of Oceanic Architecture and Engineering, Nihon University, Narashinodai, Funabashi, Chiba, JAPAN, Tetsuo Suzuki, Coastal Environmental Lab., Okaishiki, Numazu, Shizuoka, JAPAN

Data Collection and Management for a Groundfish Study Fleet .................................................. 347  
Clifford A. Goudey, Center for Fisheries Engineering Research (CFER), MIT Sea Grant College Program, Cambridge, MA

## Boundary Interaction

**Session Chair** .................. Kevin Williams  
Applied Physics Laboratory  
University of Washington  
Seattle, WA  
**Session Co-Chair** .................. Raymond Lim  
Coastal Systems Station  
Panama City, FL

Towards Better Sonar Performance Predictions .................................................. 352  
H. Terrill Vosbein, NRL Naval Research Laboratory, Stennis Space Center, MS

The Generation of N-layered Geoacoustic Descriptions of the Subbottom Using NAVOCEANO-Collected Environmental Data .................................................. 358  
David W. Harvey, Allen Lowrie, Rafal D. Filipczyk, Naval Oceanographic Office, Stennis Space Center, MS
Table of Contents

Frequency Acoustics Seafloor Scattering with Emphasis on Development of a New Side-Scan Sonar! ......................................................... 363
Jerald W. Caruthers, Ralph R. Goodman, The University of Southern Mississippi, Department of Marine Science, Stennis Space Center, MS, Marcia A. Wilson and Stephen J. Stanic, Naval Research Laboratory Acoustics Division, Stennis Space Center, MS

Broadband Sensing
Session Chair ........................ Jose Fernandez
Naval Coastal Systems Center Panama City, FL
Session Co-Chair .................... Bruce Johnson
Naval Explosive Ordnance Disposal Technology Division Indian head, MD

A Portable, Self-contained, 5MSa/s Data Acquisition System for Broadband, High Frequency Acoustic Beamforming ......................................................... 369
Koay Teong Beng, Tan Eng Teck, John R. Potter, Acoustic Research Laboratory, Tropical Marine Science Institute, National University of Singapore, Singapore

Detection of Passive Weak Signals Based on High Gain Wide-band Beamformer ......................................................... 379
Yang Yixin, Sun Chao, Institute of Acoustic Engineering, Northwestern Polytechnical University, Xi'an, Shaanxi, P.R. China

Broadband Low Frequency Sonar for Non-Imaging Based Identification ......................................................... 383
B. H. Houston, J.A. Bucaro, T. Yoder, L. Kraus, J. Tressler, Naval Research Laboratory, Washington, D.C., J. Fernandez, Coastal Systems Station, Panama City, FL, T. Montgomery, Applied Research Laboratory, Pennsylvania State University, T. Howarth, NUWC, Newport

Buoy Technology I
Session Chair ........................ Dr. Walter Paul
Woods Hole Oceanographic Institution Woods Hole, MA
Session Co-Chair .................... Craig Cumbee
Naval Oceanographic Office Stennis Space Center, MS

Study of Power System Upgrades for NDBC Buys ......................................................... 388
Gilbert Chew, Dennis G. Pelaccio, Science Applications International Corporation, Littleton, CO, Diane Johnson, Stennis Space Center, MS 3929

Development of an Autonomous Bioluminescence Buoy (BioBuoy) for Long-Term Ocean Measurements ......................................................... 396
D. Lapota, J. Andrews, S. Lieberman, G. Anderson, SPAWAR Systems Center, Environmental Sciences Division, San Diego, CA

High Speed Two Way Data Communications Used in the Texas Automated Buoy System (TABS) ......................................................... 402
John N. Walpert, Norman L. Guinasso Jr., Linwood L. Lee III, Geochemical and Environmental Research Group, Texas A&M University

Buoy Technology II
Session Chair ........................ Dr. Walter Paul
Woods Hole Oceanographic Institution Woods Hole, MA
Session Co-Chair .................... Craig Cumbee
Naval Oceanographic Office Stennis Space Center, MS

Ocean and Coastal: Buoy Technology Floating Buoy Solution Offers Dock Side Retrofit and Improved Stability in Storms ......................................................... 408
Richard D. Haun, P.E., Vice President of Engineering, OPE Inc., Houston, Texas

A New Type of Directional Wave Module to Extend UK Smart Buoy Measurement Capabilities ......................................................... 413
Marshall D. Earle, Neptune Sciences, Inc., Slidell, LA
David K. Mills, David J. Pearce, Centre for Environment, Fisheries and Aquaculture Science, Lowestoft, Suffolk, UK
Mark B. Rawlinson, Eco-Sense, Ltd., Selborne, Hants, UK

Drag Reduction of a Small, Man Deployable Buoy ......................................................... 417
Justin C. Smith, University of Texas, Applied Research Laboratory, Austin, TX
# Table of Contents

## Buoy Technology III

**Session Chair** .................................................. Dr. Walter Paul  
Woods Hole Oceanographic Institution  
Woods Hole, MA  

**Session Co-Chair** .................................................. Craig Cumbee  
Naval Oceanographic Office  
ennis Space Center, MS

**Non-Traditional Usage of Marine Buoys** .................. 425  
Ralph F. Cambre, National Data Buoy Center (NDBC),  
Edward J. Peak, P.E., Science Applications International Corporation,  
Landry J. Bernard, Advance Buoy Initiatives, University of Southern Mississippi  

**A Combination Air Deceleration and Mooring Module for A-Sized Buoys** .......... 433  
Frederick R. Driscoll, Dusan Curic, Tom Pantelakis,  
Florida Atlantic University, Dania Beach, FL,  
William Venezia, Naval Surface Warfare Center Carderock Division, Dania Beach, FL  

**Universal Buoy System Supporting Subsea Production** ........ 441  
David W. Eggers, PE, Mentor Subsea Technology Services, Inc., (a J. Ray McDermott Company),  
David Bone, Ocean Resources Mentor Subsea Technology Services, Inc.,  
Houston, TX

## Buried Mine Hunting I

**Session Chair** .................................................. Joseph L. Lopes  
Coastal Systems Station  
Acoustics Branch  
Panama City, FL  

**Session Co-Chair** .................................................. Bruce Johnson  
Naval Explosive Ordnance Disposal Technology Division  
Indian Head, MD

**Sensor Technologies for Hunting Buried Sea Mines** .................. 452  
Ted R. Clem, Naval Surface Warfare Center Coastal Systems Station, Panama City, FL  

**Shallow Grazing Angle Sonar Detection of Targets Buried Under a Ripped Sand Interface** .......... 461  
J. L. Lopes, C. L. Nesbitt, R. Lim, Coastal Systems Station, Panama City, FL,  
D. Tang, K. L. Williams, E. I. Thorsos, Applied Physics Laboratory, University of Washington, Seattle, WA

## Buried Mine Hunting II

**Session Chair** .................................................. Joseph L. Lopes  
Coastal Systems Station  
Acoustics Branch  
Panama City, FL  

**Session Co-Chair** .................................................. Bruce Johnson  
Naval Explosive Ordnance Disposal Technology Division  
Indian Head, MD

**Buried Mines Detection and Classification : 2D –SAS Processing Definition and Experimental Results** .................. 468  
Stéphane Guyonic, DCE / GESMA, Brest-Naval, France  
Magali Cellerier, ISEB, Brest-Cédex

**AUV-Based Seabed Target Detection and Tracking** ........ 474  
Te-Chih Liu, Henrik Schmidt, Massachusetts Institute of Technology, Cambridge, MA

**Sonar for Multi-Aspect Buried Mine Imaging** .................. 479  
S. G. Schock, J. Wulf, Department of Ocean Engineering, Florida Atlantic University, Boca Raton, FL

## Cables and Connectors

**Session Chair** .................................................. Tom Coughlin  
Houston, TX  

**Session Co-Chair** .................................................. Robert T. Bannon, President  
Bannon International Consulting  
East Stroudsburg, PA

**Session Co-Chair** .................................................. Pamela J. Hurst  
Manager, Business Development  
Lockheed Martin NE&SS, Perry Technologies  
Westerly, RI

**Cable Engineering: Where Route, Cable, and Fiber Integrate** .................. 491  
Virginia ‘Anne’ Newburn, Senior Manager, Cable Engineering & Technology, Tyco Telecommunications  
Morristown, NJ
High Density Underwater Fiber Optic Systems Security ........................................ 494
Robert Bannon, President, Bannon International Consulting, East Stroudsburg, PA, Douglas Burnett, Partner, Holland & Knight LLP, New York, NY

The Enhancement and Verification of a Pulse Induction based buried Pipe and Cable Survey System ............... 508
Steve Cowls, Simon Jordan, TSS (UK) Ltd., Witney, Oxfordshire, UK

Accelerated Life Testing of Marine Cables and Connectors: Problems, Pitfalls, and Suggestions for Improvements .................................................. 512
Thomas Ramotowski, Transducer Materials Branch, NUWC, Newport, RI

Coastal Observing Systems I
Session Chair ............... Professor Scott Glenn
Institute of Marine and Coastal Sciences
Rutgers University
New Brunswick, NJ

Wave Measurements from NDBC Buoys and C-MAN Stations ........................................... 517
Chung-Chu Teng, National Data Buoy Center, Stennis Space Center, MS

Water-level and Directional Wave Data Collection in Mississippi Sound and the Gulf of Mexico near Pascagoula, MS ..................... 525
W. Corson, J. Rhee, US Army Engineer Research & Development Center, Vicksburg, MS, L. Lillycrop, P. Robinson, US Army Engineer District, Mobile, AL

A Coastal Ocean Observing System and Modeling Program for the West Florida Shelf ......................... 530
Robert Weisberg, Ruoying He, Mark Luther, John Walsh, Rick Cole, Jeff Donovan, Cliff Merz, Yemba Subramanian, College of Marine Science, University of South Florida, St. Petersburg, FL

Coastal Observing Systems II
Session Chair ............... Professor Scott Glenn
Institute of Marine and Coastal Sciences
Rutgers University
New Brunswick, NJ

Camp Lejeune Integrated Observation Network ...... 535

The Carolinas Coastal Ocean Observing and Prediction System ........................................ 541
Earle N. Buckley, Department of Marine, Earth, and Atmospheric Science North Carolina State University, Raleigh, NC, Madlyn M. Fletcher, Belle W. Baruch Institute for Marine Biology and Coastal Research, University of South Carolina, Columbia, SC, Leonard J. Pietrafesa, College of Physical and Mathematical Sciences, North Carolina State University Raleigh, NC, Marvin K. Moss, Center for Marine Science University Of North Carolina, Wilmington, NC

SEA-COOS: Southeast Atlantic Coastal Ocean Observing System ........................................ 547

Coastal Zone Management
Session Chair .................. James P. Burgess
NOAA
Silver Spring, MD

The Conservation and Reinvestment Act: Introduced Legislation With Lasting Effects for Coastal Zone Management ..................................... 556
James P. Burgess, Chair of the Marine Technology Society Coastal Zone Management Committee and Director of Budget Formulation for NOAA Fisheries

On marine winds, waves and swells over West African Coast for effective coastal management - a case study of Victoria Island beach in Nigeria ............................ 561
E. Olaniyan, E. A. Afiesimama, Marine and Oceanography Laboratory, Nigeria Meteorological Agency, Lagos, Nigeria

Enhancing Public & Private Partnerships Through Undersea Exploration Outreach and Education ................................................. 569
Jason S. Goldberg, NOAA Office of Oceanic and Atmospheric Research, Silver Spring, MD
Katherine L. Croff, NOAA Office of Ocean Exploration, Silver Spring, MD, Michael T. Murphy, NOAA National Marine Sanctuary System, Silver Spring, MD
Ed Myers, NOAA National Undersea Research Program, Silver Spring, MD, Jim D. Murray, NOAA National Sea Grant College Program, Silver Spring, MD
Table of Contents

Communication Networks I
Session Chair ...................... David E. Everhart
Future Systems Program Manager
NSWCDD Coastal Systems Station
Panama City, FL
Session Co-Chair .................... John Meyer
Technical Deputy Director (acting),
Commander, CNMOC,
Stennis Space Center, MS

Combined Differential Doppler and Time Delay
Compensation for an Underwater Acoustic
Communication System ......................... 581
J. S. Dhanoa, R. F. Ormondroyd, Cranfield University,
Department of Aerospace, Power and Sensors, Royal
Military College of Science, Shrivenham, Swindon, UK

A Network-Centric UUV Acoustic Measurement
Range System .................................. 588
John Walrod, Planning Systems Inc., Long Beach, MS
Craig Nielsen, Keith Hertel, Doug Odell, CDNSWC
Acoustic Research Detachment, Bayview, ID

Performance Comparison of RAKE and
Hypothesis Feedback Direct Sequence Spread Spectrum
Techniques for Underwater
Communication Applications ...................... 594
F. Blackmon, Naval Undersea Warfare Center, Newport, RI,
E. Sozer, J. Proakis, Northeastern University, Boston, MA,
M. Stojanovic, MIT, Cambridge, MA

A Network Protocol for Multiple
AUV Localization ................................ 604
M. Stojanovic, J. Leonard, P. Newman, Massachusetts
Institute of Technology, Cambridge, MA, L. Freitag,
Woods Hole Oceanographic Institution, Woods Hole, MA

Communication Networks II
Session Chair ...................... David E. Everhart
Future Systems Program Manager
NSWCDD Coastal Systems Station
Panama City, FL
Session Chair ...................... John Meyer
Technical Deputy Director (acting),
Commander, CNMOC,
Stennis Space Center, MS

Multiuser Robust CDMA Detection for Underwater
Acoustic Communication Channels ................. 612
Evriclea Voudouri-Maniati, Manhattan College Electrical
and Computer Engineering Department, Riverdale, NY

Miniature Low Power Network Nodes for
Undersea Systems and Sensor Networks .............. 619
Mark E. Henderson, John Walrod, D. Wayne Francis,
Planning Systems, Inc., Long Beach, MS

Application of BP Neural Network Based PN Code
Acquisition System in Underwater DSSS Acoustic
Communication .................................. 627
Jiang-Yao Chen, Shun-Hsyung Chang, Department of
Electrical Engineering, National Taiwan Ocean University
Keelung, Taiwan

Volume Two

Communication Networks
Session Chair ...................... David E. Everhart
Future Systems Program Manager
NSWCDD Coastal Systems Station
Panama City, FL
Session Chair ...................... John Meyer
Technical Deputy Director (acting),
Commander, CNMOC,
Stennis Space Center, MS

Oceanographic High Throughput
Communications System ....................... 633
