# Contents

## Volume One

### KEYNOTE LECTURES

**Fifty Years of Low Mobility Grouting**

James Warner

---

**The State of Practice in Deep Mixing Methods**

Masaaki Terashi

---

Stuart Littlejohn

---

Stuart Littlejohn

---

**State of Practice in Dry Deep Mixing Methods**

Göran Holm

---

**Grouting of Rock Masses**

Giovanni Lombardi

---

**State of Practice of Jet Grouting**

Mitsuhiro Shibazaki

### JET GROUTING

**A Ten-Year Perspective of Jet Grouting: Advancements in Applications and Technology**

Gary T. Brill, George K. Burke, and Alan R. Ringen

---

**QA/QC for Jet Grouting in Deep Boston Blue Clay Central Artery/Tunnel Project**

Justice J. G. Maswoswe

---

**Specialist Foundation Construction Techniques used in the Reconstruction of the University Library "Bibliotheca Albertina" in Leipzig, Germany**

Wolfgang G. Brunner

---

J. Nick Shirlaw

---

**Stabilization of Deep Open Excavations in Soft Soil by Jet Grouting**

Chu Eu Ho and Chin Gee Tan

---

**Construction and Quality Control of Jet Grouting Applications in Turkey**

Rasin Düzceer and Alp Gökalp
Development Oversized Jet Grouting .............................................................. 294
Mitsuhiro Shibazaki, Mitsuru Yokoo, and Hiroshi Yoshida

Microtunneling and Horizontal Directional Drilling (HDD) Performance
in Jet Grouted Soil .................................................................................. 303
James Kwong and Mathew Francis

Jet Grout Stabilization of Steeply Excavated Soil Slope .......................... 318
John Meyers, Tim Myers, and Kerry Petrasic

SuperJet Grouting Repairs and Extends the Life of Ailing Coastal
Front Structure ..................................................................................... 330
Dennis W. Boehm and Thomas A. Posey

Ground Treatment Associated with the Construction of Cross-Passages
for the Kowloon-Canton Railway Corporation (KCRC) West Rail Phase I,
Kwai Tsing Tunnels in Hong Kong ......................................................... 342
R. B. Storry, A. Richely, E. Nelson, and D. O. Licuanan

SuperJet Grouting Reduces Foundation Settlement for La Rosita Power Plant
in Mexicali, Mexico ................................................................................ 354
Kenneth R. Bell, José L. M. Clemente, Francis B. Gularte,
and Roberto A. Lopez

Jet Grout Columns Partially Support Natural Draft Cooling Tower .......... 365
John Davie, Mehmet Piyal, Armagan Sanver, and Bahattin Tekinturhan

Case History for Soil Improvement of SETAT 2002 High Rise Residential
by Jet Grouting in Istanbul .................................................................. 377
H. T. Durgunoglu, H. F. Kulac, S. Yilmaz, and D. Kocak

Jet Grout Columns in Mixed Profile to Control Foundation Settlement:
Gerald Ratner Athletics Center ........................................................... 389
Raymond J. Franz and Kyle E. Camper

Case Histories of Ground Treatment with Vertical Jet Grouting Solutions ... 401
Alexandre Pinto, João Falcão, Carlos Barata, Sandra Ferreira, Duilio Cebola,
and Joana Pacheco

Jet Grouting Experience at Posey Webster Street Tubes Seismic Retrofit Project 413
Umakant Dash, Thomas S. Lee, and Randy Anderson

Jet Grout Foundations to Resist Compressive, Uplift and Lateral Loads
at an Operational Power Plant .............................................................. 428
Andrew F. Brengola and Bradford W. Roberts

H. Senapathy, J. R. Davie, and D. Boehm

A Case History of Ground Treatment with Jet Grouting Against Liquefaction
for a Cigarette Factory in Turkey .......................................................... 452
H. T. Durgunoglu, H. F. Kulac, K. Oruc, R. Yildiz, J. Sickling, I. E. Boys,
T. Altugu, and C. Emrem

North Airfield Drainage Improvement at Chicago-O'Hare International Airport:
Soil Stabilization using Jet Grouting ................................................... 464
Dwayne A. Lewis and Martin G. Taube
DEEP MIXING

The Practitioner's Guide to Deep Mixing ................................................................. 474
  Donald A. Bruce and Mary Ellen C. Bruce

Deep Mixing: An Owner's Perspective ................................................................. 489
  David P. Shiells, Thomas W. Pelnik III, and George M. Filz

Ground Stabilization in the United States by the Scandinavian Lime Cement Dry Mix Process ................................................................. 501
  Melvin I. Esrig, Peter E. Mac Kenna, and Edward P. Forte

The Application of Various Deep Mixing Methods for Excavation Support Systems ................................................................. 515
  Kenneth B. Andromalos and Eric W. Bahner

Guidelines for Design and Installation of Soil-Cement Stabilization ......................... 527
  David L. Druss

Design and Construction Aspects of Soil Cement Columns as Foundation Elements ................................................................. 540
  Gyimah Kasali and Osamu Taki

Mass Stabilization of Organic Soils and Soft Clay ............................................... 552
  Nenad Jelisic and Mikko Leppänen

Effects of Lime-Cement Soil Stabilization Against Train Induced Ground Vibrations ................................................................. 562
  Mehdi Bahrekazemi and Anders Bodare

Soil Mixing to Stabilize Organic Clay for I-95 Widening, Alexandria, VA .................... 575
  James R. Lambrechts, Margaret A. Ganse, and Carrie A. Layhee

Laboratory Tests on Long-Term Strength of Cement Treated Soil ................................ 586
  Masaki Kitazume, Takeshi Nakamura, Masaaki Terashi, and Kanta Ohishi

Field Observation of Long-Term Strength of Cement Treated Soil ................................ 598
  Hirochika Hayashi, Jun'ichi Nishikawa, Kanta Ohishi, and Masaaki Terashi

Measured and Predicted Five-Year Behaviour of Soil-Mixed Stabilised/Solidified Contaminated Ground ................................................................. 610
  A. Al-Tabbaa, B. Chitambira, R. Perera, and N. Boes

Measured Permeabilities in Stabilised Swedish Soils .............................................. 622
  Helen Åhberg

Evaluation of Property Changes in Surrounding Clays due to Installation of Deep Mixing Columns ................................................................. 634
  Shui-Long Shen, Norihiko Miura, Jie Han, and Hirofumi Koga

Strength Properties of Soil Cement Produced by Deep Mixing ................................ 646
  Osamu Taki

Prediction Method for Ca Leaching and Related Property Change of Cement Treated Soil ................................................................. 658
  Takahiro Nishida, Masaaki Terashi, Nobuaki Otsuki, and Kanta Ohishi
Coring Soil-Cement Installed by Deep Mixing at Boston's Central Artery/Tunnel (CA/T) Project........................................................................................................... 670
James R. Lambrechts and Scott Nagel

Column Penetration Tests for Lime-Cement Columns in Deep Mixing—Experiences in Sweden .................................................................................................. 681
Morgan Axelsson and Stefan Larsson

In Situ Techniques for Quality Assurance of Deep Mixed Columns ............................................. 695
Ali Porbaha and Anand J. Puppala

GROUTING FOR ENHANCEMENT FOR PILES AND PIERS
Study on Bearing Capacity of Bored Cast-in-Situ Piles by Post Pressure Grouting .... 707
Xudong Fu and Zhengbing Zhou

Base Grouted Bored Pile on Weak Granite .................................................................................. 716
Chu Eu Ho

Pile Foundation Improvement by Permeation Grouting ................................................................. 728
Aimer E. C. van der Stoel

Underpinning of a Pier by Microfine Cement Grouting and Compensation Grouting. ....................... 740
Georg Breitsprecher and Paul Stefan Tóth

GROUTING FOR MICROPILES AND ANCHORS
The Basics of Drilling for Specialty Geotechnical Construction Processes .......................... 752
Donald A. Bruce

Reliability of Estimated Anchor Pullout Resistance ................................................................. 772
Yasser A. Hegazy

Grouting of Micropiles in Scandinavia ...................................................................................... 780
Jouko Lehtonen and Stefan Aronsson

Rehabilitation of Union Pacific Railroad Tunnel, Ryndon, Nevada ................................ 791
Francis B. Gularte and Gerry Millar

Volume Two

COMPENSATION GROUTING
Railroad Embankment Stabilization Demonstration for High-Speed Rail Corridors .................. 803
Andrew Sluz, Theodore R. Sussmann, and Gopal Samavedam

Active Settlement Control with Compensation Grouting—Results from a Case Study .............. 813
Clemens Kummerer, Helmut F. Schweiger, and Reiner Otterbein

Frac Grouting—A Case History .................................................................................................. 824
Douglas M. Heenan, Janne W. Vataja, and Trent L. Dreese
