Table of Contents

Preface I
Organization XI

Site characterization

Evaluating the impact of natural acid drainage on Colorado watersheds using hyperspectral remote sensing

Hydrogeochemical investigations on the site of “Schneckenstein”, Germany
*T. Naamoun, S. Kutschke & S. Gottschalk*

Use of the New Mexico Mines Database in reclamation studies involving mine waste rock piles and tailings
*V.T. McLemore, G.K. Hoffman, P. Johnson, M. Wilks & G.R. Jones*

Aquatic toxicity assessment of two abandoned mine sites in the Lake City Mineral District, Colorado
*A. Bazin, T.R. Wildeman, N. Heflin & R.H. Robinson*

Turkish gold mining and monitoring in Ovacik gold-silver mine
*A. Akcil*

Design, operation and disposal

The design and construction of a dual function tailings facility
*D.C. Rowe*

Design of the Ruby Gulch Repository, Gilt Edge Mine, South Dakota
*D.B. Paul, M.J. Gobla, R.K. Frobel & K. Wangerud*

Solution collection design issues on large heap facilities
*J.F. Lupo, J.S. Harmon & K.F. Morrison*

Quantified comparisons of disposal of thickened and unthickened tailings
*G.E. Blight*

Advances in predicting performance properties and cost of paste backfill
*M. Fall & M. Benzaazoua*

Conceptual model for estimating water recovery in tailings impoundments
*C. Wels & A. MacG. Robertson*

Influence of tailings dam settlement on decant towers and pipelines
*R.J. Stuart, T.C. Holmes, M. Jurcevic, I.B. Watt & G.D. Janse van Rensburg*

Tailing injection deposition method theoretical model
*J.F. Lupo & M.A.J. Tremblay*
Geotechnical considerations

Strength properties in varying cement dosages for paste backfill samples
E. Yilmaz, A. Kesimai & B. Ercikdi

The influence of material structure on the performance of Red Mud
T.A. Newson, T.D. Dyer & C. Adam

Slope stability of leached copper stockpiles

Seismic slope stability & deformation analyses for a heap leach facility

Assessment of the potential for static liquefaction of a tailings dam using laboratory and field testing
B.F. Ulrich & A.B. Fourie

Assessment of unsaturated soil properties for seepage modeling through tailings and mine wastes
M.D. Fredlund, D.G. Fredlund, S.L. Houston & W.(B.) Houston

Risks associated with construction on submerged tailings beaches
É. Masengo & M.R. Julien

Liners, covers and barriers

Effects of acid mine drainage (AMD) on the engineering properties of geosynthetics
S.B. Gulec, C.H. Benson & T.B. Edil

Revegetation of mining waste using organic amendments
D. Byrne-Kelly, J. Cornish, I. Licis & R. Gordon

An examination of the erosive effect of wind on the slopes and interior surfaces of tailings impoundments
G.E. Blight

Surface water quality

Limnological and geochemical comparisons of two sulphide mine pit lakes
M. Lu, E. Carlsson & B. Öhlander

Modeling pit lake water column stability using Ce-Qual-W2
L.A. Colarusso, J.A. Chermak, J.C. Priscu & F.K. Miller

Stratification of mining Lake Goitsche during flooding with river water
B. Boehrer, M. Schulze, S. Liefoed, G. Behlau, K. Rahn, S. Frimel, U. Kiwel, B. Kuehn, I. Brookland & O. Böttner

Seasonal variation of water chemistry and metals mobility in a watershed affected by acid rock drainage: case study in the Lake Creek Watershed, Colorado
D.A. Bird, M.A. Sares, D.C. Peters, P.L. Hauff & F.B. Henderson

Groundwater and geochemistry

Mineralogical investigations on the tailings of "Schneckenstein" Germany
T. Naamoun

Remediation and reclamation

Passive treatment of acid rock drainage (ARD): state of the practice | 293  |
L.H. Filipek, C. Hatton, J. Gusek & T. Tsukamoto                   |      |
A pre-treatability study to provide data for construction of a demonstration bioreactor | 305  |
D.J. Reisman, J.J. Gusek & M. Bishop                               |      |
Biological sulphate and metal removal from a copper and nickel mine effluent | 317  |
H. Greben & J. Maree                                               |      |
Recommended guidelines for the stabilization of historic underground mine workings | 323  |
J.F. Lupo & K.F. Morrison                                           |      |
Chemical stabilization of metal hydroxide sludge                    | 329  |
J.F Fiset, J.M. Zinck & P.C. Nkinamubanzi                          |      |
Getchell heap leach final permanent closure                         | 333  |
R.J. Frechette                                                     |      |
Abandonment of Tailings Deposit Casapalca                          | 339  |
H.I. Parra & A. Perez M.                                            |      |
Anchor Hill pit lake two-stage in situ treatment, Gilt Edge Mine superfund site, South Dakota, USA | 345  |
N.M. Lewis, K.W. Wangerud, B.T. Park, S.D. Fundingsland & J.P. Jonas |      |
Land evaluation methods for use in mining- and smelting-contaminated environments | 359  |
Flushing of water from mill tailings at the Homestake Grants reclamation project | 365  |
G.L. Hoffman & A.D. Cox                                            |      |
Reclaimed mine area runoff control using culverts                    | 375  |
T.G. Michel & T.W. Hardgrove                                        |      |

Reprocessing, utilization and treatment

Beneficiation of graphite fines from moulding factory mine wastes | 385  |
S. Koca & H. Koca                                                   |      |
New technologies and approaches

Electrochemical remediation technologies for metals treatment
W.A. McIlvride, J.L. Loventritt, D.G. Hill, F.R. Doering & N. Doering

Thiocyanate inhibition of microbial sulfide oxidation for the control and prevention of acid rock drainage
G.J. Olson, T.R. Clark, T.I. Mudder & M. Logsdon

Effective biological water treatment through biological process control
B. Wahlquist & T. Pickett

Reduction of zinc-containing metallurgical residues in a fluidized bed furnace
S.M. Taghavi & M. Halali

Applications of explosive compaction for tailings volume reduction
W.B. Gohl, D.A. Ward & R.J. Elliott

Probabilistic assessment of long term surface subsidence due to room and pillar mining
Y.A. Hegazy & R.E. Snow

Policies and procedures

Procrastination may not pay in tailings management
B.C. Ruse & D.V. Boger

Tailing dam failures – the human factor
A.H. Gipson

Water quality: the real driver of reclamation
J.T. Malcolm

Progress toward remediation of uranium tailings in Mailuu-Suu, Kyrgyzstan

Case histories

Demonstration of subaqueous disposal of mill wastes, Jasper County, MO
D.R. Hinrichs, D.M. Doolan, C.J. Wienecke & W.R. Morse

Remediation of the Eagle Mine superfund site: a biological success story
W.K. Naugle, D.R. Hinrichs & J.B. Groy

Stabilization and decommissioning of the Sillamäe Radioactive Tailings Pond, Estonia

Uranium tailings of “Schneckenstein” Germany, present conditions and perspectives
T. Naamoun

Residue disposal at Sadiola Hill Gold Mine: an owner/operator’s perspective
T. Mulpeter, T. Lloyd & M. Robins

Blue Lagoon pond closure, Pirdop, Bulgaria
J. Pellicer, P. Corser, J. DeFraye, G. Devos, J. Tack & I.S. Kaltchev

Unusual mine waste dam shakes off magnitude 8.3 earthquake
J.R. Swaisgood & U.G. Oliveros
