# Table of Contents

## Session ESI: Data and Database Analysis

1. Complexity and Guarantee of Permutation Assertion for Sorting                                           1
   Pei-Chi Wu
   National Penghu Institute of Marine & Management Technology, R.O.C.

2. Existence Conditions and Classification of the Inconsistencies in the Database Integration           6
   Julius Stuller
   Institute of Computer Science-Academy of Science of the Czech Republic, Czech Republic

3. Safety and Translation of Complex Value Calculus Queries                                           14
   Hong-Cheu Liu and Jeffrey X. Yu
   The Australian National University, Australia

4. Type Checking Issues for Dynamically Changing Types in Object-Oriented Database Systems           22
   Raymond K. Wong, H. Lewis Chau
   University of Sydney, Australia

5. Database Clustering and Data Warehousing                                                        30
   Mei-Ling Shyu, Shu-Ching Chen and R.L. Kashyap
   Purdue University, U.S.A.

6. Data Management in a Flash Memory Based Storage Server                                          38
   Mei-Ling Chiang, Paul C. H. Lee, and Ruei-Chuan Chang
   National Chiao Tung University, R.O.C.

7. Design and Implementation of Version Control for the QBOE Multimedia Database System            46
   Ye-In Chang and Hong-Nian Chen
   National Sun Yat-Sen University, R.O.C.

## Session ES2: Spatial Database and Access Techniques

1. A Multi-Channel Storage Arrangement Scheme of Pictorial Database for Concurrent Spatial Match        54
   Jau-Ji Shen and Chin-Chen Chang
   Chaoyang University of Technology, R.O.C.

2. D-tree: A Bi-Level Technique for Indexing Rectangle Data in Spatial Database Systems              61
   Kien A. Hua, Ying Cai and Yu-Lung Lo
   Chao Yang University of Technology, R.O.C.

3. The Study of Indexing Techniques on Object Oriented Databases                                     69
   Yin-Fu Huang and Jau-Min Chen
   National Yunlin University of Science and Technology, R.O.C.

4. A Hyper-Controllable and Hyper-Recordable Medical Image Application Based on Pattern Technology     77
   Ku-Yaw Chang and Lih-Shyang Chen
National Cheng-Kung University, R.O.C.

5. A New Similarity Metric Based on 2D Vector for Iconic Image Retrieval .......................................................... 85
   Peir-Cheng Chieng and Been-Chian Chien
   I-Shou University, R.O.C.

6. An Extensible Architecture for Supporting Spatial Data in RDBMS ................................................................. 93
   Yun Wang, Gene Fuh, Jyh-Herng Chow, Jean Grandbois, Nelson Mattos and Brian Tran
   IBM Santa Teresa, LAB, U.S.A.

7. Using Thesauri for Term-Based Component Retrieval: A Distributed and Adaptive Model ............................. 102
   Yuen-Chang Sun and Chin-Laung Lei
   National Taiwan University, R.O.C.

Session ES3: Information Retrieval, Algorithms and Operating Systems

1. Signature-Based Chinese Character Retrieval Schemes Using DAYI Input Method ........................................... 109
   Chin-Chen Chang and Kuo-Lung Hong
   National Chung Cheng University, R.O.C.

2. A New Content-Based Video Retrieval System-Data Model and Query Processing ......................................... 115
   Pu-Jien Cheng and Wei-Pang Yang
   National Chiao Tung University, R.O.C.

3. Transition from ANSI to Unicode: Multilingual Support in Operating Systems and Programming Languages .................................................. 123
   Pei-Chi Wu
   National Penghu Institute of Marine & Management Technology, R.O.C.

4. An Efficient Algorithm for Computing Partial Transitive Clouseres ................................................................. 129
   Yan Feng and Wen-Chi Hou
   Southern Illinois University, U.S.A.

6. The Study of Centralized Load Balance on Distributed Shared Memory Systems ........................................... 137
   Yi-Chang Zhuang, Ce-Kuen Shieh and Tyng-Yeu Liang
   National Cheng Kung University, R.O.C.

7. Implementing LDAP Directory Hierarchy with Relations ................................................................. 144
   Shepherd S.B. Shi, C.S. Yang, and David Lin
   National Sun Yat-Sen University, R.O.C.

Session ES4: Java and Internet/Web Computing

1. Dynamic Java Program Corpus Analysis .......................................................... 154
   Chung-Chien Hwang, Shih-Kun Huang, Min-Shong Lin, Chorng-Shiuh Koong and Deng-Jyi Chen
   Academia Sinica, R.O.C.

2. Applying Program Dependence Analysis to Java Software ................................................................. 162
   Jianjun Zhao
   Fukuoka Institute of Technology, Japan
4. A Tool Set to Support Web Application Testing
   Ji-Tzay Yang, Jiun-Long Huang, and Feng-Jian Wang
   National Chiao Tung University, R.O.C.

5. A Pre-Fetch Mechanism for Proxy Servers: Using Association Rules
   Kuen-Fang J. Jea and Cho-Jan Chen
   National Chung-Hsing University, R.O.C.

6. Web-Based DNA Sequence Annotation Tools for Functional Genomics
   Chung-Shyan Liu, Wei Kuo, Lan-Yang Chang, Wen-Chang Lin, and Shih-Ping Tung
   Chung Yuan C. University, R.O.C.

7. A Collaborative Internet Documents Access Scheme Using ACIRD
   Shian-Hua Lin, Chi-Sheng Shih, Meng Chang Chen, Jan-Ming Ho, Ming-Ta Ko, and Yueh-Ming Huang
   Academia Sinica, R.O.C.

Session ES5: Requirements Specification, Testing and Maintenance

1. Visual Requirement Representation
   Chorng-Shiuh Koong, Wu-Chi Chen, Chung-Chien Hwang, and Deng-Jyi Chen
   National Chiao Tung, University, R.O.C.

2. Server-based Maintaining Software Integrity for Computer Classroom Workstations
   Chiung-San Lee
   National Taipei College of Nursing, R.O.C.

3. Testing and Metrics for Concurrent Computation Based on Rendezvous Mechanism
   Ying-Hong Wang, Chi-Ming Chung, Huan-Chao Keh and Chia-Yu Chien
   TamKang University, R.O.C.

4. A Petri Net Model for Object-Oriented Class Testing
   Chun-Chia Wang, Wen C. Pai and Jung D. Chiang Kuang Wu
   Institute of Technology and Commerce, R.O.C.

5. A High Level Process Modeling Technique Based on UML and Action Cases
   Shih-Chien Chou and Jen-Yen Jason Chen
   National Chiao Tung University, R.O.C.

6. Discovering Anomalies in Access Modifiers in Java with a Formal Specification
   Wuu Yang
   National Chiao-Tung University, R.O.C.

7. Usage Based Test Scenario Generation from Object-Z Formal Specification
   Auburn University, U.S.A.
Session ES6: Tools, Reuse and Object-Oriented/Component Software

1. An Integrated Measurement System for Documentation and Programs
   Timothy K. Shih, Wen C. Pai, Yule C. Lin, Lawrence Y. Deng, Chuan-Feng Chiu, and Wei-Hui Chang
   Chung-Shan Institute of Science & Technology, R.O.C.

2. Reuse Linux Device Drivers in Embedded Systems
   Chi-Wei Yang, Paul C. H. Lee and Ruei-Chuan Chang
   Academia Sinica, R.O.C.

3. A Unified Model for Software Component Classification
   Yuen-Chang Sun and Chin-Laung Lei
   National Taiwan University, R.O.C.

4. Adaptation of the Object-Oriented Language/Software in Adapter++
   Chao-Hsin Lin
   National Kaohsiung First University of Science and Technology, R.O.C.

5. An Interactive LOTOS Toolset for Users in Industry
   Soosun Cho, Kwangyong Lee, Youngbae Oh and Heung-Nam Kim
   ETRI-Computer & Software, Technology Laboratory, Korea

6. Development and Application of Reverse Engineering Measures in a Re-engineering Tool
   S. Zhou, H. Yang, P. Luker, and William C. Chu
   Tung Hai University, R.O.C.

7. A Computer-Aided Environment for ISO-9000 Standards Certification
   Ching-Hong Tsai, Bin-Shiang Liang and Feng-Jian Wang
   National Chiao Tung University, R.O.C.
