## TABLE OF CONTENTS

### VOLUME 1

#### PLENARY SESSION

**PL.1** The Substrate Integrated Circuits - A New Concept for High-Frequency Electronics and Optoelectronics  
P-III - P-X  
K. Wu, D. Deslandes, Y. Cassivi  
Ecole Polytechnique, Montreal, Canada

#### ORAL SESSIONS

### TELECOMMUNICATION NETWORKS

**Invited papers:**

**TN.1** Information-Theoretic Data-Hiding for Public Network Security, Services Control and Secure Communications  
3  
S. Voloshynovskiy, F. Deguillaume, O. Koval, T. Pun  
University of Geneva, Switzerland

**TN.2** Deploying Efficient Business Processes the Way for Small Telecom Operators to Survive  
18  
Ž. Jungić, N. Gospić  
Telekom Srpske, Bosnia and Herzegovina

**Regular papers:**

**TN.3** Open Service Access (OSA) Business Models and Service Level Agreement Aspects  
22  
B. Odadžić, M. Janković  
Community of Yugoslav PTT, Belgrade, Serbia and Montenegro

**TN.4** An ILPF Cell Scheduling Algorithm for ATM Input-Queued Switch with Service Class Priority  
26  
I. Radusinović, M. Pejanović, Z. Petrović*  
University of Montenegro, Serbia and Montenegro  
*University of Belgrade, Serbia and Montenegro

**TN.5** Dynamic Routing Design Under Forecast Uncertainty  
30  
V. Acimović-Raspopović, A. Kostić-Ljubisavljević, V. Radojićić  
University of Belgrade, Serbia and Montenegro

**TN.6** A Model of Non-Stationary Input Stream for Simulation Modeling of Communication Networks  
34  
P. Antonov, D. Razašadov  
Technical University of Varna, Bulgaria

### ANTENNAS AND PROPAGATION

**Invited paper:**

**AP.1** Microstrip and Printed Antennas: Recent Trends and Developments  
39  
D. Guha  
University of Calcutta, India

**Regular papers:**

**AP.2** Application of Adaptive Beamforming for UMTS FDD Mode for Macro-Cell Environment  
45  
T. Szymański, L. Correia*, J. Modelski  
Warsaw University of Technology, Poland  
*Technical University of Lisbon, Portugal
AP.3 Active Patch Antennas Integrated with Rx/Tx Front End .................................................. 49
D. Radulović, A. Nešić, I. Radnović
Institute IMTEL, Belgrade, Serbia and Montenegro

AP.4 Current Distribution Along Loaded Passive Elements Longer Than Half Wave and Its
Applications in Antenna Design ................................................................. 53
B. Reljić
Institute IMTEL, Belgrade, Serbia and Montenegro

AP.5 Coplanar Waveguide Resonator Design for Array Antenna Applications ................. 57
M. Šova, I. Bogdan*
Military Technical Academy, Bucharest, Romania
**Gh. Asachi** Technical University, Iași, Romania

AP.6 Modelling of U-Shaped Dual Band Patch Antenna Using 3D TLM Method ............... 60
J. Joković, T. Randelović
University of Niš, Serbia and Montenegro

Regular papers:

OC.1 Practical Models for Design and Reconfiguration of Virtual Topology in Optical Transport Networks ...... 67
J. Stošić, B. Spasenovski*
Macedonian Telecommunications, MTcom, Skopje, Macedonia
*University Sts. Cyril and Methodious, Skopje, Macedonia

OC.2 Analysis of Signal-to-Noise Ratio in Optical Receivers ............................................. 71
Z. Bielecki, W. Kolosowski, E. Sedek*, M. Borejko**
Military University of Technology, Warsaw, Poland
*Telecommunications Research Institute, Warsaw, Poland
**Scientific – Industrial Center of Professional Electronics, Warsaw, Poland

OC.3 Affine Geometry LDPC Codes in Ultra-Long Haul Optical Transmission Systems ................. 75
I. Đorđević, B. Vasić*
University of Bristol, UK
*University of Arizona, USA

OC.4 Optical Signal Detection in the Presence of Intersymbol Interference, White Gaussian Noise and Pulse Noise ................................................................. 79
D. Drača, P. Spalević*, Lj. Spalević*, L. Zejinović**
University of Niš, Serbia and Montenegro
*University of Priština, Serbia and Montenegro
**University of Mostar, Bosnia and Herzegovina

OC.5 Timing Jitter as a Performance Limiting Factor when Signal Propagated along a Nonlinear
and Dispersive Fiber .............................................................................. 83
D. Drača, A. Panajotović, B. Mirkic, D. Doličanin*, Dragoljub Martinović**
University of Niš, Serbia and Montenegro
*University of Priština, Serbia and Montenegro
**University of Belgrade, Serbia and Montenegro

OC.6 The Optical WDM Network Reconfiguration due to Link Failures ......................... 87
G. Marković, V. Aćimović-Raspopović
University of Belgrade, Serbia and Montenegro

Regular papers:

MCI.1 On the Impact of Antenna Diversity in IEEE 802.11b DCF with Capture .............. 93
Z. Hadži-Velkov, B. Spasenovski
University Sts. Cyril and Methodious, Skopje, Macedonia
MCI.2 Implementation of an IEEE 802.11a Compliant Low-Power Baseband Processor ..................................................97
M. Krstić, K. Maharatna, A. Troya, E. Grass, U. Jagdhold
IHP Microelectronics, Frankfurt, Germany

MCI.3 Pico Cell Radio Base Unit for a Centralized Wireless Access Architecture ..................................................101
K. Samardžić
Smart Com d.o.o., Ljubljana, Slovenia

MCI.4 Quality of Multimedia Services in 3G Mobile Networks .........................................................................................104
Z. Perišić, Z. Bojković*
Army of Serbia and Montenegro, Belgrade, Serbia and Montenegro
*University of Belgrade, Serbia and Montenegro

MCI.5 Controller for Mobile Control and Monitoring via Short Message Services ..................................................108
R. Ivanov
Technical University of Gabrovo, Bulgaria

MCI.6 QoS Framework for Wireless IP Networks ...........................................................................................................112
T. Janevski
University Sts. Cyril and Methodius, Skopje, Macedonia

INTEGRATED CIRCUITS

Invited papers:
IC.1 Control of Charging in High Aspect Ratio Plasma Etching of Integrated Circuits ..............................................119
Z. Petrović*, T. Makabe**
*Institute of Physics, Belgrade, Serbia and Montenegro
**Keio University, Japan

IC.2 Metamaterials: A New Concept in the Microwave Technique ............................................................................127
B. Szentpali
Research Institute for Technical Physics and Materials Science, Budapest, Hungary

Regular papers:
IC.3 Optimization of Test Signals for Analog Circuits .................................................................................................133
V. Guliashki, B. Burdiek*, W. Mathis*
Institute of Information Technologies, Sofia, Bulgaria
*Institute of Electromagnetic Theory and Microwave Technique, Hannover, Germany

IC.4 One Application of FPGA Integrated Circuits - CMOS Camera and LCD Display Controller Design .137
Z. Pele, T. Samardžić, N. Maluckov, N. Teslić
MicronasNIT, Novi Sad, Serbia and Montenegro

IC.5 High Resolution Time-to-Digital Converter Utilizing Dual-Slope Principle ......................................................139
G. S. Jovanović, M. Stojčev, G. Lj. Đorđević, B. Petrović
University of Niš, Serbia and Montenegro

IC.6 Statistical Optimization of TV Modules in the Simulator IESD ...........................................................................143
G. Marinova
Technical University of Sofia, Bulgaria

MODULATION TECHNICS

Regular papers:
MOD.1 Performances Analysis of the WCDMA Downlink Channel .................................................................149
T. Palade, M. Szekely
Technical University of Cluj-Napoca, Romania

MOD.2 Coded MC-CDMA Systems for Power Line Communications ............................................................153
P. L. Katsis, G. D. Papadopoulos, F.-N. Pavlidou
Aristotle University of Thessaloniki, Greece

MOD.3 Efficiency of AWGN Communication System for Transmission of MPSK Signals in the Presence of Cochannel Interference .................................................................157
M. Stefanović, G. T. Đorđević
University of Niš, Serbia and Montenegro
MOD.4 Digital Signal Shaper for 16QAM Direct Modulator .......................................................... 160
  M. Penić, M. Stojanović, M. Zečević
  Institute IMTEL, Belgrade, Serbia and Montenegro

MOD.5 An Exact Analysis of an Adaptive GBN Scheme with Retransmission Cycles Mechanism .......... 163
  R. Vojinović, G. Petrović*, Z. Petrović*
  University of Podgorica, Serbia and Montenegro
  *University of Belgrade, Serbia and Montenegro

MOD.6 Combined Optimal Power Allocation and Adaptive Modulation for MIMO Systems with Imperfect CSI .......................................................... 167
  P. Ivanis, D. Drajić
  University of Belgrade, Serbia and Montenegro

MOD.7 Time Signal Processing for CDMA using Given Receiving Configuration with RAKE Receivers ...... 171
  M. Sarevska
  University of Niš, Serbia and Montenegro

Invited papers:

AEM.1 Semi-Analytic Models for Photonic Circuits .......................................................... 177
  T. Benson, A. Vuković, P. Sewel
  University of Nottingham, UK

AEM.2 Design Advances in PCB/Backplane Interconnects for the Propagation of High Speed Gbit/s
  Digital Signals ..................................................................................................................... 184
  F. Gisin, Z. Pantić-Tanner*
  Backplane Technology and Signal Integrity Design, Sanmina-SCI, San Jose, USA
  *University of Texas, San Antonio, USA

AEM.3 Optimization of Optical Receiver Parameters for Pulsed Laser Tracking Systems .................. 192
  Ž. Barbarić, L. Manojlović*
  University of Belgrade, Serbia and Montenegro
  *Pupin Telecom DATACOM, Belgrade, Serbia and Montenegro

AEM.4 Decoupled Region Hybrid Method for Solving Propagation Parameters of Coupled
  Fibre Waveguide ............................................................................................................. 202
  P. Odry, A. Marinčić*
  Technical School, Subotica, Serbia and Montenegro
  *University of Belgrade, Serbia and Montenegro

AEM.5 A New Class of Electromagnetically Coupled Printed Antenna Arrays .................................. 206
  A. Nešić, D. Nešić*
  Institute IMTEL, Belgrade, Serbia and Montenegro
  *IHTM-Center, Belgrade, Serbia and Montenegro

AEM.6 Simultaneous Measurement of Frequency and DOA by Frequency Scanning Array ................. 210
  N. Candan, A. Hizal*, S. Koç*
  Baskent University, Ankara, Turkey
  *Middle East Technical University, Ankara, Turkey

AEM.7 Linearization of Multichannel Amplifiers with the Injection of Second Harmonics into the
  Amplifier and Predistortion Circuit.................................................................................... 214
  D. Budimir, N. Maleš-Đilić*, B. Milić-Milovanović*, M. Tomić**
  Westminster University, London, UK
  *University of Niš, Serbia and Montenegro
  **063 MOBTEL, Belgrade, Serbia and Montenegro

AEM.8 Microwave Circuits Based on Six-Port Junction ............................................................. 218
  B. Jokanović, A. Marinčić*
  Institute IMTEL, Belgrade, Serbia and Montenegro
  *University of Belgrade, Serbia and Montenegro

IV
AEM.9 Analysis of Real Feed Probe to the Resonant Frequencies and Field Distribution in the Cylindrical Metallic Cavity Using 3D TLM Method ................................................................. 223
B. Milovanović, A. Marinčić*, N. Dončov**, V. Marković, J. Joković, A. Atanasković
University of Niš, Serbia and Montenegro
*University of Belgrade, Serbia and Montenegro
**Flomenics Ltd, EM division, Nottingham, UK

Regular papers:

BC.1 Delivering MHP Applications into a Real DVB-T Network, OtaDigi .............................................. 231
C. Herrero, P. César, P. Vuorimaa
Helsinki University of Technology, Finland

BC.2 Software Architecture of Advanced Features DVB TV Receiver, Case Study DVR Application .......... 235
A. Živković, N. Teslić, V. Mihić, T. Maruna, U. Strohbeck*
Micronas NIT, Novi Sad, Serbia and Montenegro
*Micronas GmbH, Munich, Germany

BC.3 Software Defined Radio – Simulation for Audio Broadcasting Applications ....................................... 238
I. M. Berca, S. Halunga-Fratu, O. Fratu
POLITEHNICA University of Bucharest, Romania

BC.4 A Model for Cable Television Development in Serbia ................................................................. 242
D. Bogojević, S. Lazović*, V. Aćimović-Raspopović*
VF Holding a.d., Zemun-Belgrade, Serbia and Montenegro
*University of Belgrade, Serbia and Montenegro

BC.5 Studies on the Reliability of Two-Way Cable TV Network .......................................................... 246
K. Koitchev, S. Nemtsov, S. Sadinov
Technical University of Gabrovo, Bulgaria

BC.6 IP Telephony Over a Coaxial Cable Television Network ............................................................... 250
K. Koitchev, S. Sadinov, S. Nemtsov
Technical University of Gabrovo, Bulgaria

BC.7 Infrared Camera on the Base of Pyrovidicon with Modernized Mode of Operation ............................. 254
Z. Hrytskiv, P. Kondratov, V. Hoy
Lviv National Polytechnic University, Ukraine

Invited papers:

MCII.1 Variable Step-Size LMS Adaptive Filters for CDMA Multiuser Detection ........................................ 259
K. Egiazarian, P. Kuosmanen, R. Ciprian Bilcu
Tampere University of Technology, Finland

MCII.2 OFDM System Performance over Time-Selective Fading Channels ............................................... 265
M. Pejanović-Dunšić
University of Montenegro, Serbia and Montenegro

Regular papers:

MCII.3 Doppler Effects on CDMA Monouser Detection with UMTS Applications ...................................... 271
O. Fratu, S. Halunga-Fratu
POLITEHNICA University of Bucharest, Romania

MCII.4 Influence of Fading Channel Prediction on the Performance of QPSK System in the Presence of PSK Interference ........................................................................................................ 275
N. Milošević, B. Dimitrijević, Z. Nikolić
University of Niš, Serbia and Montenegro
MCII.5 Rayleigh Fading and Pulse Interference Influence on the QPSK System Performance
M. Stefanović, M. S. Milošević
University of Niš, Serbia and Montenegro

MCII.6 DPSK Diversity System Performance in the Presence of Shadowing
M. Živković, N. Milošević, Z. Nikolić
University of Niš, Serbia and Montenegro

Invited papers:

FT.1 High Tuning Accuracy Design of Variable IIR Digital Filters
G. Stoyanov, I. Uzunov*, M. Kawamata**
Technical University of Sofia, Bulgaria
*Tampere University of Technology, Finland
**Tohoku University, Japan

FT.2 Efficient Multirate Filtering Using EMQF Subfilters
Lj. Milić, M. Lutovac*
Institute "Mihajlo Pupin", Belgrade, Serbia and Montenegro
*Institute IRITEL, Belgrade, Serbia and Montenegro

FT.3 Design of Recursive Digital Filter without Analog Conversion
V. Stojanović, A. Micić, S. Nikolić
University of Niš, Serbia and Montenegro

Regular papers:

FT.4 An Adaptive Amplitude Learning Algorithm for Nonlinear Adaptive IIR Filters
S. L. Goh, Z. Babić*, D. Mandić
Imperial College of Science, Technology and Medicine, London, UK
*University of Banja Luka, Bosnia and Hercegovina

FT.5 Architectural Optimization of Decimation Filter using Bitstream Operation in GSM Audio Codec
J. Kuriakose, S. Ristić, D. aan de Stegge, G. de Cremoux
Philips Semiconductors, Nijmegen, Netherlands

FT.6 Architectural Exploration of Filtering Stages in the Transmit Path of a GSM Audio Codec
J. Kuriakose, S. Ristić, D. aan de Stegge, G. de Cremoux
Philips Semiconductors, Nijmegen, Netherlands

FT.7 A Class of Generalized Chebyshev Prototype Filters with Asymmetrically Located Transmission Zeros
Z. Milosavljević
Filtronic LK Oy Handset Components, Kempele, Finland

RF AND MICROWAVE DEVICES

Invited papers:

RFM.1 On the Design of Waveguide Devices Using Multiple Propagating Modes
P. Meyer, C. Vale, W. Steyn
University of Stellenbosch, South Africa

RFM.2 Wireless IC Doppler Radars for Sensing of Heart and Respiration Activity
O. Boric-Lubecke, A. Droitcour*, V. M. Lubecke, J. Lin**, G. Kovacs*
University of Hawaii at Manoa, Honolulu, USA
*University of Florida, Gainsville, USA
**University of California, USA
Regular papers:

RFM.3 Increasing HFHPTA’s Efficiency using Composite Signals
S. Kostić, V. Milošević
Ericsson Systems Expertise Ltd., Operating Division RAC, Dublin, Ireland
*University of Novi Sad, Serbia and Montenegro

RFM.4 Broadband Electrical Characterization of Microwave Substrates Using T-Resonator Technique
B. Jokanović, M. Rakić
Institute IMTEL, Belgrade, Serbia and Montenegro

RFM.5 ETS Method – An Approach to the Analysis of Arbitrarily Shaped Hole in Microstrip Lines
M. Gmitrović, B. Stojanović
University of Niš, Serbia and Montenegro

RFM.6 Microstrip Elliptic Filters with Adjustable Attenuation Poles
Scientific Center, Academgorodok, Krasnoyarsk, Russia

RFM.7 Design of Thick Film Microstrip Lowpass Filters
V. Crnojević-Bengin, D. Budimir*
University of Novi Sad, Serbia and Montenegro
*Westminster University, London, UK

RFM.8 A New Type of Slow-Wave PBG Microstrip Ring Resonator
D. Nešić
IHTM-CMTM Center, Belgrade, Serbia and Montenegro

MULTIMEDIAL COMMUNICATIONS

Invited papers:

MMC.1 Multimedia Traffic Performances - Different Compression Techniques
J. Reljin, B. Reljin
University of Belgrade, Serbia and Montenegro

Z. Bojković, D. Milovanović
University of Belgrade, Serbia and Montenegro

Regular papers:

MMC.3 A State-sharing Mechanism for Providing Reliable SIP Sessions
M. Bozinovski, L. Gavrilovska*, R. Prasad
Aalborg University, Denmark
*University Sis. Cyril and Methodius, Skopje, Macedonia

MMC.4 Fast Numeric Real-Time Transformation for a Distributed Cylindrical Stereoscopic Projection-System
S. Benk
Ruhr-University, Bochum, Germany

MMC.5 Improvement of AIMD Algorithm Considering Multimedia Transfer over Internet
L. Zhao, Y. Jing, G. M. Dimirovski*
Northeastern University, Shenyang, Liaoning, China
*Dogus University, Istanbul, Turkey

MMC.6 Emerging Infrastructures and Platforms: Science and Collaboration
M. Radenković, C. Greenhalgh
University of Nottingham, UK

MMC.7 Telemedicine as a New Multimedia Services: Concepts and Advances
A. Samčović, Z. Bojković, V. Milić-Rašić
University of Belgrade, Serbia and Montenegro
MMC.8 Multimedia, Distance and Web Delivery in Surveying

V. Teofilova

Technical University of Gabrovo, Bulgaria
