Stored Product Protection

Proceedings of the 7th International Working Conference
On Stored-product Protection

14 – 19 October 1998
Beijing, P. R. China

Edited by Jin Zuxun, Liang Quan, Liang Yongsheng, Tan Xianchang and Guan Lianghua

Contents

Volume 2

PHYSICAL METHODS FOR GRAIN QUALITY MAINTENANCE 989

Keynote Address

Spin-off from Paddy Drying by Fluidization Technique - Somchart Soponronnarit, Adithap Taweerattanapanish, Somboon Wetchakama, Ngamchuen Kongseri, and Sunanta Wongpiyachon 991

Advances in grain drying technology in China - Zhao Simeng 1000

The current situation of grain drying in China - Cao Chongwen 1013

Flowing performance and drying characteristics of paddy in a triangular spouted-bed - L. Hung Nguyen, R.H. Driscoll, G. S. Srzednicki 1016

Application of two-stage drying for effective and economical wet grain handling in selected rice and corn farmer cooperatives in the Philippines - Justin A. Tumambing, Manolito C. Bulaong, Robelyn E. Duquila and Lorena N. Miranda 1025

Mathematical simulation of grain drying through ventilation and the test findings - Yang Guofeng, Yang Jin and Wan Zhongming 1040

Measuring and analysis on fractal dimension of stress cracks in corn - Zhu Wenxue, Chen Zhaocuan and Cao Chongwen 1047

Popcorn conditioning and pest control - Dirk E. Maier, Darren J. Zink, Michael D. Montross, Linda J. Mason, and R. David Crompton 1052

Aspects of comparison and selection of grain dryers - Liu Fangjiu, Xiao Yuanzhuang, Hong Jiale and Xu Zengtao 1059

Melanization process in irradiated larvae of moths and beetles, pests of stored products - Stanislaw Ignatowicz and Dorota A. Lupa 1065

Detection methods for irradiated pests of stored products - Stanislaw Ignatowicz 1076

Aspects of grain storage at low temperature in China - Wan Zhengqun 1083

Heat sterilization as an alternative to methyl bromide fumigation in cereal processing plants - Alan K. Dowdy 1089

Study on microwave drying of grain - Yu Xiurong, Su Ya, Wang Youan, Zheng Tiesong, Zhao Simeng and Huang Shezhang 1096

Radiation-induced changes in the midgut of insects, pests of stored products - Maryla Szczepanik and Stanislaw Ignatowicz 1102

In-store drying of high moisture japonica rice - Li Gang 1111

The system for decreasing temperature by ventilation in grain silo - Zhang Lailin, Li Chaobin, Wang Jinshui and Li Zongliang 1115

An approach to grain storage with overlapping wave - Lu Xianrong 1118

The influence of heat shock treatment on dehydration of ginkgo seed during storage - Feng Tong, Yu Xing, Pang Jie and Zhang Baichao 1126

Study on comprehensive technique of radio-preservation of walnut pips - Chen Yuntang, Bi Yanlan, Zhang Jianwei, Luo Jiquan, Wang Yingchang and Fan Jialin 1129

The position design of drying fans in different grain drying processes - Zhang Huajie, Jiang Chenguang and Ju Ge 1134

The analysis on the computing methods for wheat resistance of grain layer - Wang Jun’an and Zhang Hongwei 1137

A study on using heat pipe technology for lowering temperature for storing up grain - Zhu Zhi-Ang 1143

Application of radiation technology in the storage of Chinese herbal medicine and vegetables - Shen Weiqiao, Fu Junjie, Zhou Jianhua 1148

Microwaves at higher frequencies - can they be used for stored product pest control? - R. Pfarre, S.L. Halverson, W.E. Burkholder, T.S. Bigelow, and M.E. Misenheimer 1152

Electrohydrodynamic mortality of insects: a plausible mechanism - N. Shayeesh and N. N. Barthakur 1158

Field tests and preliminary assessment on maize dryers in China - Niu Xinghe and Yuwu 1165

Feasibility of in-store drying in China - G. S. Srzednicki and R. H. Driscoll 1171

Ambient-air drying of Macadamia nuts and cooling of canola using a new aeration fan controller - Robert G. Winks 1181
BIOLOGICAL CONTROL OF STORAGE PESTS

Keynote Address

Biological control methods for insect pests of stored grain in the tropics—constraints and prospects for developing countries—R. J. Hodges

Arthropod natural enemies in stored products—overlooked and under-exploited—C P Haines

Evolution of biological control of stored-product pests in China—Deng Wangxi, Zhang Hongyu, Li Yong and Huang Hongxia

Decrease in population size of Rhyzopertha dominica (Coleoptera: Bostrichidae) at two temperatures in different wheat cultivars by the parasitoid Theocolax elegans (Hymenoptera: Pteromalidae)—Michael D. Toews, Gerrit W. Cuperus and Thomas W. Phillips

Studies on control potentiality of mutants of Indianmeal moth, Plodia interpunctella (Hübner) (Lepidoptera: Pyralidae) to its population—Zhang Hongyu, Yang Changjiu, Yang Zhihui and Hu Jianfang

Bionomics of Lariophagus distinguendus (Föerster) (Hymenoptera: Pteromalidae) parasitizing Callosobruchus chinensis (Coeoptera: Bruchidae)—Deng Wangxi, Yang Shicheng and Li Ruhai

Possibilities of biological control of stored food mites—Eva ĺrková and Radek Fejt

Distribution and characterization of Bacillus thuringiensis from warehouse toxic to Plodia interpunctella (Hübner) (Lepidoptera: Pyralidae)—Zhang Hongyu, Deng Wangxi and Yu Ziniu

Vulnerability of wheat varieties to stored-product psocide—Zuzana Kurovd

Evaluation of Bacillus thuringiensis emulsion YW-1 for controlling coleopteran pests infesting stored product—Zhang Hongyu, Wan Kaiyu, Deng Wangxi, Yang Changjiu and Yu Ziniu

Vulnerability of wheat varieties to stored-product psocide—Zuzana Kurovd

Bionomics of Lariophagus distinguendus (Föerster) (Hymenoptera: Pteromalidae) and its control effectiveness to Maize weevils—Li Zhanhui, Zheng Fangqiang, Ye Baohua, Liu Guilin, Li Qiang and Li Haiping

Surveys for fungal pathogens of storage pests infesting maize in Kenya; first records of Beauveria spp.—George Oduor, Sue Smith, Ephraim Chandii, Lucy Karanja, John Agano and Dave Moore

The use of Blattisocius tarsalis (Acari: Ascidae) for biological control in flour mills—Per Sejerø Nielsen

Inhibition of pheromone biosynthesis and mating in the stored product moth, Plodia interpunctella—Ada Rafaeli and Carina Gileadi

Biological Control of Storage Pests—Session Summary

POSTHARVEST TECHNOLOGICAL MANAGEMENT

Keynote Address

Modeling aeration and storage management strategies—Dirk E. Maier, and Michael D. Montross

Preliminary study on China’s grain storage region according to its climate—Tang Zijun, Wang Mingjie and Wu Suqiu

Preventing insect entry into welded-steel hopper—D. D. Mann D. S. Jayas, N. D. G. White and W. E. Muir

Theoretical and experimental investigations on storage of maize in cribs—B. K. Bala and M. A. Hossain

Participatory and rapid rural appraisal for addressing post-harvest problem: a case study in Malawi—Marsland, N. And Golob

Study on relationship of infestation of the Angoumois grain moth, Sitotroga cereallela (Lepidoptera: Gelechiidae), to wheat cultivars—Wu Junxiang and Duan Yongpeng

The development of a storage strategy for malting barley—D. M. Armitage and J. L. Woods

On-farm storage losses of cowpea and bambara groundnut in Northern Ghana—Golob, P., Andean, H. F., Atarigiya, J. and Ran, B. M. D.

Comparative Performance of maize genotypes in storage—D. P. Giga, U. M. Mazarura and J. Canhao

Rodents control in the Republic of Croatia—Irma Kalinović, Marija Iveci, Vlatka Rozman, Hrvoje Žagi

Assessment of on-farm storage of seed grains in dry land areas of Kenya in the light of grain market liberalisation—Kimondo
Mutambuki
The using of PVC polyvinyl alcohol fiber double-coated plastic tarpaulin covering for grain storage in the open air—Jing Xianliu

A survey of rural storage loss of grain in Jiangxi Province of China—Zheng Wei

Pests in tobacco storehouses and their control in China—Cheng Xingsheng, Wei Chongsheng and Wang Fangxiao

Review and prospect of grain storage technology applied in Hubei, China—Yun Changjie

A study on grain barns in coastal area of Hebei province—Wang Haimin, Deng Fengxiang, Qian Liyan, Du Dewei and Zhu Zhu

Effects of temperature on rice quality and mass loss—Gao Ying, Yang Jianxin, Lan Shenbin, Zhan Huachang, Shuanglin, Chen Lan

Grain postharvest status in Bhutan—Chetem Wangchen and George Srzednicki

Postharvest Technological Management—Session Summary

SAMPLING AND TRAPPING

Keynote Address
Computerized monitoring of stored-product insect populations—Dennis Shuman and Nancy D. Epsky
The sensor-based probe traps for monitoring stored-product insects—Yao Wei, Fu JianPing and Zhang Yanjun
Chemical, visual and acoustic stimuli in the courtship of Pyralid moths infesting stored products—Pasquale Trematerra

Technological problems associated with use of insect pheromones in integrated pest management of stored-products—Pasquale Trematerra

Suppression of Cigaretta beetles, Lasioderma serricome (Fabricius) by focused mass trapping—Lawrence H. Pierce
Estimation of the optimum number of pheromone baited flight traps needed to monitor phytocine moths (Ephestia cautella and Plodia interpunctella) at a breakfast cereal factory—a case—David Rees
Comparison between use of pheromone baited traps and counting resting moths as population measures of phytocine moths (Ephestia cautella and Plodia interpunctella) infesting a breakfast cereal factory—David Rees

The effect of modified pheromone traps for capturing Indian meal moth, Plodia interpunctella (Lepidoptera: Phycitidae)—Zhao Qi, Tian Benzhi, Zhao Chengde, Li Liang, Wang Zhongwu and Liu Yunhe

Probe trapping technology for monitoring stored-product insects without impurity in stored grain—Yao Wei, Wang Yan, Guo Xiaoxia, Wang Jianbin and Tao Longhai

The affecting of temperature and Population density on trapping amount of three species of beetles—Yang Dacheng and Liang Yongsheng

The capture effect of probe traps on stored-product insect natural enemies—Chen Chuan, Yao Wei, Wang Yan and Wang Jianbin

Investigation on the distribution of stored-product insects in underground storage wheat by using GJ89 type probe traps—Wang Shicheng, Mong Shuiwei and Yang Zhihong

Using GJ 89 type probe traps to monitor stored-product insects in steel granary—Sun Mingchang, Mo Bingwen and Zhao Shuguan

The use of GJ89 probe trap for monitoring annual insect distribution in bulk wheat—Wang Yanan and Liu Mengyuan

Capture of four stored—grain Coleoptera with WB probe II traps in different cereals—Pasquale Trematerra

The effect of insect age on the response of three species of Sitophilus to 4S, 5R-sitophilure and food Volatiles—M. E. Wakefield

The utility of spatial analysis in management of storage pests—R. T. Arbogast and R. W. Mankin

The effect of various trapping methods for monitoring stored grain insects in small warehouse—Chen Pin and Lin Yu-hui

Insect monitoring outside paddy rice grain storage facilities in southern Brazil—Maria Cristina, Z. De Paula, Flavio Antonio Lazzari and Sorria Maria N. Lazzari

Insect monitoring outside grain storage facilities in southern Brazil—Paulo R. V. S. Pereira, Sonia M. N. Lazzari and Flavio A. Lazzari

The comparison of five determination methods for hidden insect infestation—Hou Xingwei, Tan Xianchang and Wu Jianchun

Sampling and trapping—Session Summary
STORAGE ENGINEERING

Keynote Address

The performance of a novel grain cooling system – M. Ahmad and G. R. Thorpe 1545
Guidelines for sealing steel grain bins for fumigation – Ronald T. Noyes, Thomas W. Phillips, Gerrit W. Cuperus and Edmond L. Bonjou 1556
Engineering design of high-power microwave applicator for stored product protection – Halverson Steven L., Timothy S. Bigelow, Rudy Pratte and Thomas W. Phillips 1570
Underground grain storage engineering – Lin Zaiyun and Wu Lina 1576
Experiment report of grain in underground earth storage – Wang Zilin 1581
Review and prospect of grain fumigation machinery development in China – Lin Xinchun and Chen Yi 1589
A discussion on the technology and equipment in china’s grain distribution – Guan Jintao 1594
Design of 24-m span hyperbolic shell slab and is application in the construction of grain depots – Feng Tianmin 1599
Research on silo’s new type airtight material and airtight technology – Zhao Zenghua, Zhao Simeng, Yu Jian, Yang Jinting, Liang Hongsheng and Long Jinjiang 1602
A hanging steel silo – Wang Ronghui and Yang Shizong 1607
The development of grain silo in Tianjin of China – Zhang Chengguang 1610

STORcD-PRODUCT QUALITY AND STANDARD

Keynote Address

New quality requirements in international exchanges of major cereal grain – Francis Fleurat-Lessard 1617
Effect of cereal seed storage interval on germinability – Julijo Martinicic and Vlado Guberac 1642
Study on the factors effecting germinated wheat flour and improving effect – Wang Ruolan 1647
Study on ideal quality criterai of further wheat processing – Wang Jinshui, Zhao Youmei 1652
Relation of insoluble amylose to texture characteristics of stored-rice – Wang Jinshui, Zhao Youmei and Bian Ke 1656
Study on rice fissing during intermittent drying – Li Yebo, Cao Congwen and Li Jian 1660
A study on elasticity of thermal values and nutrient variations of rice stored for different number of years – Bai Mingling, Hua L. M., Bei S., Liang Y. J., Zhang Z. R., Yao L. J., An L. and He P. F 1665
The use of microwave to inactive enzymes in rape seeds – I. Irfan, E. Powerzik and W. Luecke 1667
Microwave treatment of rape to ensure seed quality during storage – E. Powelzik, I. Irfan and W. Luecke 1671
Studies on influence of mechanical aeration and temperature to the quality of stored rice and fungi growth rules – Chen Xuehua, Lin Saizhi, Chen Ronghua and Guo jinbian 1676
Experimental study on the storage of heat-stabilized rice bran – Hong Qingci, Hua Wei, Zheng Yong and Chen Chongyi 1685
Effect of Tissue type, variety and storage on cell wall chemistry of onion – Ng Annie, Smith Andrew C. and Waldron Keith W. 1689
Cell wall chemistry of carrots during maturation and storage – Ng Annie, Adrian, J. Parr, Lindsay M. Ingham, Neil M. Rigby and Keith W. Waldron 1693
Influence of cold shock treatment on CAT activity of ginkgo seed during storage – Yu Xin, Feng Tong, Pang Jie and Zhang Baichao 1698
Effect of radiation sterilization on pine pollen storage quality – Fu Junjie, Shen Weiqiao and Zhou Jianhua 1701
Detection of spoilage of cereal grain in storage bin – Kiyokazu GOTO, Yoshihiro MIWA and Motohiro MORI 1705
Research on method for determination of amylose content of rice – Yuan Jian, Yang Xiaorong and Wang Zhaoci 1710
Development of a simplified analytical method for ergosterol determination in paddy rice – S. Wattanannon and G. Szczednicki 1715
New approaches to understanding and controlling cell separation in relation to fruit and vegetable texture – Annie Ng, Keith W. Waldron, Andrew C. Smith, Adrian J. Parr and Mary L. Parker 1717
The sago industry in Malaysia: Present status and future prospects – Tek-Ann Chew, Abu Hassan bin Md. Isa and Mohd Ghazali bin Mohyidin

Physico-chemical and cooking properties of agad paddy produced by heat treatment (accelerated aging) – R. Ahmad and S.N. Syed Abdullah

Selection and application of methods for wheat quality control as a raw material for human food – Marija Saric

Stored Product Quality and Standards—Session Summary

QUARANTINE AND QUARANTINE TREATMENT

Keynote Address

Phytosanitary measures and safe trade – Robert L. Griffin

The research on and development of grain quarantine in China – Yao Wenguo and Guan Lianghua

Risk assessment of pests carried by imported wheat and phytosanitary measure options – Zhang Congzhong and Xu Yan

RAPD assessment of three sibling species of Trogoderma Dejean (Coleoptera:Dermestidae) – An Yulin, Diao Caihua, Zhu Hongbing and Jiao Guoyao

The study on multimedia expert system of plant quarantine pests identification (PQ-Pickbugs) – Li Zhihong, Shen Zuorui, Geng Bingjin, Wang Yijun and Chen Hongjun

Multimedia computer system of Dermestidae in stored products (MCSDSP) – Lin Wei, Zhang Shengfang, Zhao Baoqing, Wang Naiyang and Chen Ke

A new species of Trogoderma (Coleoptera:Dermestidae) found damaging stored grain in China – Zhang Shengfang, Liu Yongping and Jang Xiukun

A primary study on ecosystem of plant quarantine objects – Chen Yunqing and Wei Houde

Coping strategies employed by farmers against the large grain borer in east Africa: Preliminary observation – Golob P., Marsland N., Nyambo B., Mutambuki K., Moshy A., Kasalile E.C., Birkinshaw L. and Day R.

Assessment on prevention of invasion of Prostephanus truncatus (Horn) (Coleoptera:Bostrichidae) in Hainan province, China – Xu Wei, Ye Qixian, Guan Lianghua and Zhang Shengfang

Studies on feeding behavior a Prostephanus truncatus (Horn) (Coleoptera:Bostrichidae) in different diets and its ability to reproduce and cause damage – M.N. Marshed-Kharusy and R.H. Smith

Host selection or mate selection? Lessons from Prostephanus truncatus, a pest poorly adapted to stored products – Hodges R.J., Birkinshaw L.A. and Smith R.H.

Geographical variation in body size and the ability of Prostephanus truncatus (Horn) to damage stored maize – M.N. Marshed-Kharusy and H.A. Dawah

Bacterial presence in Prostephanus truncatus (Horn) (Coleoptera:Bostrichidae) – M. Vazquez-arista, G. Basurto-cadena, R. Vargas-becera and R.E. Hinoiosa-rebollar

Seed-bearing and seed-transmission of soybean phytophthora root rot – Zhou Zhaohui and Yan Jin

Plesiocis sp. (Coleoptera:Ciidae) – A pest insect infesting the Mount Tai glossy ganoderma in Shandong province, China – Yan Jian, Guan Lianghua, Xie Genfa, Wang Shouguo, Zhang Chengbiao, Lu Ling and Lai Fan

The damage of Heterobostrychus aequalis (Waterhouse) on stored products and its quarantine treatment – Liang Guanqin, Xu Wei, Liang Fan, Yang Guohai and Zou Jinqiao

Food rearing observation of Tribolium freemani Hinton (Coleoptera:Tenebrionidae) – Ye Bingyuan, Yang Guohai and Zou Jinqiao

Assessment of role of quarantine in control of Bruchidae – Mei Luiwu

Morphological and reproductive dimorphism in Zabrotes subfasciatus (Boh.) – Deepinderjit Kaur, H.E. Pajni and P.K. Tewari

Quarantine treatment with ammonia to the seed of Johnson-grass and some other dangerous weeds in grain processing – Zhang Jinlan, Tang Zhi, Li Kesen, Zhong Hongqing, Xu Sheng and Feng Bengqing

Fumigation effect of admixture of ALP and MB against insects on large grain ship in bulk – Wang Kaixiang, Zhang Shengan, Li Baisheng, Zhou Hong, Xia Rongtang, Wang Zhigui and Qiao Nanfang

Synergism of sulfuryl fluoride toxicity against Trogoderma granarium Everts by admixture with carbon dioxide – Yue Haiyang and Zhu Shaozhi
Proceedings of the 1th International Working Conference on Stored-product Protection — Volume 2

Quarantine research on the stored-product mites in imported raw sugar — Zhang Yu, Zhang Guanghua, Sun Liang, Zhang Ming and Ran Junxiang 1844

Quarantine and treatment to stored-product insects in provision cell on a foreign vessel — Feng Wencheng and Zhu Chaoyang 1846

Test of treating lumbers with Mirex against Termites — Yang Saijun and Fan Lunpin 1848

Quarantine and Quarantine Treatments—Session Summary 1850

INFORMATION TRANSFER AND ADOPTION 1851

Keynote Address

Implementation and adoption of the stored grain advisor decision support system in the USA — Paul W. Flinn 1853

Computer-Assisted Learning (CAL) to improve the quality of pest management in grain storage systems — Barry Longstaff 1862

A graphic-oriented management system for stored grain protection — Sun Ling and Zhu Zesheng 1868

The role of technological transfer to strengthen food security in the ASEAN region — Mulyo Sidik 1877

Internet resources for stored product protection — Paul G. Fields and Dirk Maier 1881

A new method of monitoring performance of complex stored grain systems — Zhu Zesheng and Sun Ling 1884

The design and development of grain store multimedia encyclopedia — Jian Pu and Li Guangan 1894

FluiDRY 2.0: a PC-based decision support system for fluidized bed pre-drying and cooling of high moisture grains — Justin A. Tumambing and Romualdo C. Martinez 1897

An expert system for the integrated test of a grain depot — Teng Zhaosheng 1910

Evolution of a decision support system with changing market — J. Knight, D. R. Wilkin and D. M. Armitage 1914

Application of PLC and SCADA in auto-control systems for silo grain handling — Zhang Yaozu and Liu Hong 1919

Diagnosis and grading of wheat grain initial quality by a computerised decision support system — Amadou Ndiaye and Francis Fleurat-Lessard 1923

Economic analysis of new post-harvest IPM technologies — Dirk E. Maier and Rodney A. Rulon 1935

The studies and designs of sensor determining moisture of grain bulk — Shi Lin 1939

Purdue post-harvest IPM educator multimedia software — Dirk E. Maier and Linda J. Mason 1942

Application of model ZH-128 grain state detection and control system to storehouse — Wang Yuanhui, Zhang Yuquan, Cao Guangzhi, Leng Yiin, Zhou Nanzhen, Liu Chunhua and Xie Weizhi 1944

GPIC: a decision support tool for identification and management of stored-grain insects and mites — Qin Zonglin, Xu Shengwei, Chen Jun, Zhao Xiaojun, Shen Zhaopeng and Liang Yongsheng 1950

Information Transfer and Adoption—Session Summary 1956

WORKSHOP REPORTS 1959

Trade Exhibitors 1967

List of Participants 1973

Author Index 1998
