Interaction Design and Children

Proceedings of the international workshop 'Interaction Design and Children'

August 28 - 29, 2002
Eindhoven - The Netherlands

Editors:
M. M. Bekker
P. Markopoulos
M. Kersten-Tsikalkina
Table of Contents

Table of Contents iii
List of reviewers v
Preface vii

Section I: Keynote Talk
Children as our technology design partners: The surprising and the not-so-surprising 1
A. Druin

Section II: Innovating for and with Children
Design for experience: the “Look, mama!” experience 4
R. Hoenderdos, A. Vermeeren, M. Bekker and A.Pierik

Interaction design of a collaborative application for children 11
D. Grammenos and C. Stephanidis

Experiences of designing with children and teachers in the StoryStation Project 29
J. Robertson

Case Study: Designing with ‘Difficult’ Children 42
Lorna Gibson, Peter Gregor and Scott Milne

Section III: Design Methodology: Involving Children in Design
An Investigation of Participatory Design with Children – Informant, Balanced and Facilitated Design 53

Developing the ‘Future Technology Workshop’ method 65
G.N. Vavoula, M. Sharples and P. D. Rudman

Designing with Children: The Video Camera as an Instrument of Provocation 73
O.S. Iversen

Section IV: Innovation Informed by Theory
Dissappearing Computer, Emerging Creativity: An Educational Environment for Cooperative Story-Building 82
F. Decortis, P. Marti, C. Moderini, A. Rizzo and J. Rutgers

Using Tangibles to Support New Ways of Playing and Learning 88
S. Price, Y. Rogers, M. Scaife, D. Stanton and H. Neale

Comics, Programming, Children, and Narratives 93
M. Kindborg
Section V: Interactive Services and Applications for Children

How to attract early teens to your mobile network  
E. Hammann and J.M. Hennessey  

The International Children's Digital Library: Viewing Digital Books Online  
J.P. Hourcade, B.B. Bederson, A. Druin, A. Rose, A. Farber and Y. Takayama  

Partnering with Children to develop design guidelines for an interactive encyclopaedia  
B. Sadler Takach and C. Varnhagen  

Section VI: Methodology

KidReporter: a method for engaging children in making a newspaper to gather user requirements  
M. Bekker, J. Beusmans, D. Keyson and P. Lloyd  

Using Peer Tutoring in Evaluating the Usability of a Physically Interactive Computer Game with Children  
J. Höysniemi, P. Hämäläinen and L. Turkki  

How to compare usability testing methods with children participants  
P. Markopoulos and M. Bekke  

Section VII: Multi-modal interfaces for Children

Children are ready for speech technology - but is the technology ready for them?  
A. Nicol, C. Casey and S. MacFarlane  

An Evaluation of Digital Cuddly Toy Museum Guides  
H. Sundholm and N. Dahlbäck  

Touch the Sound: The concept of the 'Object Sonore' as a design metaphor  
M. Breinbjerg, O. Caprani, L. Kramhøft and R. B. Lunding  

Section VII: Interactive Play

'TheraPlay' - the design of a new developmental toy system for children with motor learning disorders  
N. Kamm  

Endurance, Engagement and Expectations: Measuring Children’s Fun  
J. Read, S. MacFarlane and C. Casey  

TOONS Toys. Interaction toys as means to create a fun experience.  
M. Stienstra and J. Hoonhout
