Professional Program

Advanced Ultrasonic I

Keynote Speech
Nat Faransso, ASNT Chairman
Combating Unscheduled Shutdowns And Outages By Utilizing Non-Intrusive Inspection Technology.......................... 13
William Sharp, Cooperheat -Saudi Arabia
Detection of Mechanical Damage in Transmission Pipelines
Using Nonlinear Harmonic Sensors........................................... 15
A. Minachi, A. E. Crouch, SWRI, USA
Practical Long Range Guided Wave Inspection-Managing Complexity ................................................................. 30
Peter Cawley, David Alleyne, Imperial College, UK
Benefits of Risk Based Inspection to the Oil and Gas Industry .................................................................................. 49
I K Rao, Dr. Jens Tronker
Online Rapid Screening of Flow Line Pipe
David Alleyne, Guided Ultrasonic Limited, UK

Advanced Radiography

The Use of X-Ray Computed Tomography (CT) Techniques to Study the Internal Structures of Concrete ..................... 75
Dr. Habeeb H. Saleh, Dr. Richard Livingston, Federal Highway Administration, USA
Modeling Compton Backscatter Imaging Using Monte Carlo Simulation ........................................................................... 85
Fatah Z. Khiari, M. N. Belkaid, A. Oukebdane, KFUPM
Digital Radiography
Ulrich Huhn, Krautkramer NDT Ultrasonic System
Radioisotopes Technology as Applied to Pre- Shutdown
Colin Smalley, Synetix Services (Tracerco)

Advanced Ultrasonic II

Multi-Frequency Features Extraction of Defect Impulse Response in Ultrasonic NDT................................................................. 181
Dr. Ahmed Yamani, KFUPM

Basic TOFD Inspection, Theory and Applications
Jim Carswell, Saudi Aramco

Rapid Tube Screening Using Guided Waves
David Alleyne, Guided Ultrasonic Limited, UK

Evaluation of Stresses within Structures Using a Low-Cost Ultrasonic Apparatus ................................................................. 189
Abdelmalek Bouhadjera

Development of Permanently Attached Guided Wave Array for the Monitoring of Structural Integrity ......................................... 191
Peter Cawley, P.D. Wilcox, P.D. Fromme, Imperial College, UK

General NDT I

Non-Destructive Metallurgical Assessment of Plant Equipment by Replica Technique ................................................................. 209
Dr. Fakhruddin Habiby, Ahmed H. Mutairi and Raja Rizwan Imtiaz, Petrokemya-SABIC

Health Monitoring of Piping and Plate Using the Magnetostrictive Sensor (MsS) Guided Wave Technology ......................... 229
Glenn Light, Hegeon Kwun, Sang Kim, and Robert Spinks, SWRI, USA

An EMAT Array for the Rapid Inspection of Large Structures using Guided Waves ................................................................. 247
Peter Cawley, P.D. Wilcox, M.J.S. Lowe, Imperial College, UK

Strengths and Weaknesses of Different NDT Methods
Prashant V. Wagh, GTC

Thickness Measurement with Ultrasound not Knowing the Sound Velocity – a New Technology ................................................. 261
Peter Renzel, Agfa - NDT GmbH
General NDT II

NDT Technologies for Local Industry ................................................................. 265
Marwan Baswari, Saudi Aramco

Non-Intrusive Identification of Thermally Fractionated Petroleum Cuts ......................................................... 281
E. Hegazi, KFUPM

Boiler Condition Assessment at Saudi Aramco Operation Facility
Mirza Al-Thunian, Saudi Aramco

Detection of Ageing High-Voltage Electrical Cables Using Fluorescence Signals ................................................. 297
E. Hegazi, KFUPM

Laser Interference Glucometry .................................................................................. 313
H. El Ghandoor, Nabil Maaleg, Dallal Al-Tammimi, and I. M. Nasser

Pipelines NDT

Comprehensive Inspection of Pipeline by Ultrasonic MFL Tools an Approach to Cost-Effective Pipeline Management
Valery Khafizov, GISCO

The Inspection of Bitumen Coated Pipe including Road Crossings
David Alleyne, Guided Ultrasonic Limited, UK

Leaks from 12" Underground Firewater Line ............................................................. 317
Peter Falah Azizi, SHARQ- SABIC

Pipeline Asset Management ....................................................................................... 319
Cees Bal, Rosen Inspection

The Inspection of Concrete Lined Piping using Guided Waves
David Alleyne, Guided Ultrasonic Limited, UK
General NDT III

Leak Detection in Pipes Using Acoustic Wave Propagation
Rob Long, Imperial College, UK

Preparing for Visual Inspection ............................................... 323
Surya Kumar Sarangi, SABIC

Galvanic Corrosion in a LERA Column: A Case Study ............... 325
Sami Al-Ghamdi, SHARQ-SABIC

Industrial Radiography Incident Prevention
Tom Scales, Saudi Aramco

Laser NDT I

Performance of a Laser-Based Ultrasonic Detector using
Confocal Fabry-Perot Interferometer ....................................... 329
Abdulaziz M. Aljalal, KFUPM

Testing of the Optical Behavior of Liquids Layers using
Laser Sheet Method .................................................................... 347
H. EL-Ghandoor, Ibraheem Nasser, and M.A. Abd-EL Rahman

Application of Laser Speckle Pattern for Measuring Surface
Roughness of some Metals ......................................................... 349
H.EL Ghandoor and N.EL-Onaizan

Nondestructive Testing of Crude Oil Using Capillary Tube
Moiré Interferometer .................................................................. 351
H.EL Ghandoor, I.M.Nasser, E.Hegazy and G.M.Behery
General NDT IV

Training and Certification of Guided Wave Operators
David Alleyne, Guided Ultrasonic Limited, UK

Precise Crack Sizing Using Advanced Automated Ultrasonics Equipment
Mohd Abu -Four, Saudi Aramco

Inspection for CUI in JGP
Mohd AL-Shehri, Saudi Aramco

How to Prepare for ASNT Level III Examination
Prashant V. Wagh, GTC

Importance of Leak Testing in Modern Industry
Prashant V. Wagh, GTC

Electromagnetic Testing

A New Eddy Current Imaging System for Enhancement of Nondestructive Evaluation
Ibrahim Elshafiey and Lalita Udpa, Cairo University and University of Michigan USA

High Resolution MFL Tank Bottom Inspection Tool (TBIT)
Chris Broekmullen, ROSEN

Non-Destructive Testing Simulator for Eddy Current Testing
G. L. Burkhardt and J. L. Fisher, Southwest Research Institute, USA

Boiler and Heat Exchanger Inspection Techniques
Abdulhai S. Mahasnah, Saudi Aramco

In-Service Wall Thinning Monitoring by Pulsed Eddy Current of Downcomers from the Hydrocracker Reactor
Effluent Air Coolers at Saudi Aramco Shell Refinery (SASREF) in Al Jubail (KSA)
E.W.J. van Hunnik, SASREF
Reliability II

Integration of Risk Based Inspection in a Data Management Program
Paul Schlenker, SOS Engineering Software
393

SASREF’s Plant Integrity Management Model
Mohmd Al Sayegh, SASREF

Corrosion Problem in Sulfolane Extraction Unit
Abdulmunem AL Harbi, SASREF, Jubail
421

Non-linear Harmonic Sensors for In-Line Detection of Mechanical Damage in Pipelines
A. E. Crouch, G. L. Burkhardt, SWRI, USA
427
