Instructional Design for Multimedia Learning

Proceedings of the 5th International Workshop of SIG 6 Instructional Design of the European Association for Research on Learning and Instruction (EARLI), June 27–29, 2002 in Erfurt
## Contents

### Editorial

---

### Immersive Agent-Based Multimedia Environments: Identifying Social Features for Enhanced Learning

*Roxana Moreno* ................................. 9

### Designing Metacognitive Support for Hypermedia Learning

*Maria Bannert* ................................ 19

### Model-based Learning and the Progression of Mental Models

*Norbert M. Seel, Katharina Schenk* .................. 31

*Rik Min* ........................................ 57

### Deconstructing Instructional Design Models: Towards an Integrative Conceptual Framework for Instructional Design Research

*Wolfgang Schnotz, Antje Eckhardt, Markus Molz, Helmut Niegemann, Dirk Hochscheid-Mauel, Silvia Hessel* .............. 71

### Reconstructing Instructional Design Models: Developing a Heuristic Advisory System as a Tool for Instructional Design Research

*Wolfgang Schnotz, Antje Eckhardt, Markus Molz, Helmut Niegemann, Dirk Hochscheid-Mauel, Silvia Hessel* .............. 91

### Complex Learning in Multimedia Environments – Which Kind of Learning and How to do Research on it?

*Franz Schott, Sabine Al Diban, Dirk Hillebrandt, Thomas Schubert, Nora Heyne, Udo Herrmann* .................. 99

### How Instruction Guides Attention in Multimedia Learning

*Roland Brünken, Jan Plass, Detlev Leutner* .............. 113

### Encouraging the Active Processing of Information During Learning with Multiple and Interactive Representations

*Daniel Bodemer, Rolf Plötzner* .................. 127

### The Design of Innovative and Sustainable Virtual Learning Spaces:
A User-Centered Approach

*Fanny Klett* ........................................ 139

### The Exercise Format Editor: A Multimedia Tool for the Design of Multiple Learning Tasks

*Antje Proske, Hermann Körndle, Susanne Narciss* .................. 149
Instructional Examples in Hypertext-Based Learning and Problem-Solving: Comparing Transformational and Derivational Approaches to Example Design
   Peter Gerjets, Katharina Scheiter, Stefan Kleinbeck .......................... 165

How to Design Informative Tutoring Feedback for Multimedia Learning
   Susanne Narciss, Katja Huth .......................................................... 181

The Effect of Feedback on Child-Computer Interactions
   Afke Donker, Inez Berends, Pieter Reitsma ...................................... 197

Exploring the Features of Multimedia Learning
   Joost Lowyck, Steven Utsi .............................................................. 211

Distance Learning: a Dimension Without Presence?
   Chiara Giorgi, Dieter Schürch ....................................................... 223

Knowledge Communication in Synchronous and Asynchronous Virtual Teams
   Karin Schweizer, Manuela Paechter, Bernd Weidenmann ...................... 237

Students’ Conceptions about Learning from Multimedia
   Alessandro Antonietti, Marisa Giorgetti ......................................... 249

Authors .................................................................................................. 267
