JOURNAL OF COASTAL RESEARCH
SPECIAL ISSUE #37

2002
CONTENTS

Introduction ...................................................... Michael J. Kennish and Robert J. Orth 3
Effects of Motorboats and Personal Watercraft on Nesting Terns: Conflict Resolution and the Need for Vigilance .................................................. Joanna Burger 7
Resuspension of Sediments by Watercraft Operated in Shallow Water Habitats of Anne Arundel County, Maryland .......................................................... 18
.................................................. M. Stephen Ailstock, Sally G. Hornor, C. Michael Norman, and Eileen M. Davids
Effect of Wave-Wash from Personal Watercraft on Salt Marsh Channels .......... Franz E. Anderson 33
Secondary Wake Turbidity From Small Boat Operation in a Shallow Sandy Bay .............. Richard E. Crawford 50
Impact of Boat-Generated Waves on a Seagrass Habitat .......................... Evamaria W. Koch 66
The Role of a Hurricane in the Expansion of Disturbances Initiated by Motor Vessels on Seagrass Banks .......................................................... Paula E. Whitfield, W. Judson Kenworthy, Kamille K. Hammerstrom, and Mark S. Fonseca 86
Assessment of Propeller Scarring in Seagrass Beds of the South Texas Coast ........... Kenneth H. Dunton and Susan V. Schonberg 100
Identification and Management of Fishing Gear Impacts in a Recovering Seagrass System in the Coastal Bays of the Delmarva Peninsula, USA .......................... Robert J. Orth, James R. Fishman, David J. Wilcox, and Kenneth A. Moore 111
Production of Rhizome Meristems by the Tropical Seagrass Thalassia testudinum: The Basis for Slow Recovery into Propeller Scars .................. John Andorfer and Clinton Dawes 130
Sources, Fate, and Effects of PAHs in Shallow Water Environments: A Review with Special Reference to Small Watercraft .......................................... Peter H. Albers 143
Sediment Contaminant Concentrations in Estuarine and Coastal Marine Environments: Potential for Remobilization by Boats and Personal Watercraft ................ Michael J. Kennish 151
Toxicological Assessment of Aquatic Ecosystems: Application to Watercraft Contaminants in Shallow Water Environments ......................................... Parley V. Winger 179
Conclusions and Recommendations ..................................................... Michael J. Kennish 192
Appendix 1. Abstracts of Additional Presentations at the Rutgers Workshop on Impacts of Motorized Boats on Shallow Water Systems ............................... 197
