Influences of Wave Steepness on Wave-Induced Liquefaction in Sand Layer
Yoshi-Hiko Maeno, Tetsuo Sakai, and Hajime Mase ........................................... 3945

The Fourth Alternative—Beach Stabilization by Beachface Dewatering
John W. Adams ................................................................. 3958

Assessment of a Two-Layer Beach Fill at Corpus Christi Beach, TX
James M. Kieslich and Dewey H. Brunt, III ....................................................... 3975

DCM (Deep Cement Mixing) Works at Tianjin Port, China
Shigeru Nishioka, Hisashi Hosomi, and Tong Ming Zhang ............................ *

Moundless Breakwater with Wide Footing on Soft Ground
Takeshi Monji and Toshirou Okamura ........................................................... 3985

The Upton/Jones Amendment and Zone of Imminent Collapse
Michael K. Buckley and Perry E. Rhodes ......................................................... 3999

SESSION 62: INSTITUTIONAL CONCERNS AND INTERAGENCY PLANNING AND COORDINATION

Conflict Resolution in Coastal Zone Management—The Effects of Environmental Values, Technical Information, and Knowledge Holding
Dennis L. Soden .................................................................................. 4010

Conflict Resolution—Techniques and Case Studies
Joseph E. Petrillo ..................................................................................... *

Coastal Zone Management and the National Estuary Program—Why Both?
Ellen L. Gordon ...................................................................................... 4022

Building Consensus on Land Use and the Chesapeake Bay
Richard C. Collins and Elizabeth B. Waters .............................................. 4029

Federal Participation in Shore Protection Projects Changes Due to the Water Resources Development Act of 1986
Donald Barnes .......................................................................................... *

Chesapeake Bay Communication Plans—Md., Va., Pa., and the District of Columbia Working Together
Helene Tenner .......................................................................................... *

Implementing an Erosion Rate Setback—The North Carolina Experience
Melissa McCullough ..................................................................................... *

Institutional Constraints to Coastal Zone Management in Hawaii—A Review and Critique
Chennat Gopalakrishnan and Jack R. Davidson ........................................... 4036

International Developments in Ocean Incineration Policy
Daryl W. Ditz ............................................................................................. 4041

Virginia’s Chesapeake Bay Preservation Act—History and Prospects for Success
Richard C. Collins and Timothy Beatley ..................................................... *

A Federal Agency View of the Chesapeake Bay Program
Colonel Bernard E. Stalmann and Larry J. Lower ........................................*

Alternative Conflict Management Methods for Scientific and Technical Disputes in the East Everglades
Kathleen Shea Abrams ................................................................................ *>
SESSION 63: DATABASES AND INFORMATION MANAGEMENT

Climatic Data Sources in the Coastal Zone—Our Climate as a Natural Resource
Robert G. Quayle .................................................. 4053

OCSEAP Data and Information Management
M.J. Hameedi and N.J. Nicolaisen .............................. 4061

Ports and Waterways Management Information System
Ivan M. Lissauer and LT Richard Gaines ...................... 4065

Computer Worded Marine Forecasts
William S. Richardson, David M. Feit and Joann M. Nault ................................. 4075

Marine Data Platforms—An Interactive Inventory
Gary E. Soneira, William E. Woodward and Christopher D. Noe .................. 4085

A Coastal Management Database for East Anglia
C.A. Fleming and I.H. Townend .................................. 4092

Tidal Data Acquisition—Texas Style
George M. Cole and Robert J. Diersing .......................... 4108

North Shore Environmental Management
Dianne Dorland and Barbara Luikkonen .......................... 4116

Managing and Disseminating Data Necessary for Coastal Wetland Management in South Carolina
Robert Somers, Ben Jones, and Steve Snyder ....................... 4125

Problems of Developing a GIS for the FMG
Simeon I. Roberts .................................................. 4129

Integrated Information Systems—The Key to Coastal Zone Management
Peter J. Ricketts, Alan R. McIver, and Michael J.A. Butler .................. 4138

A Multi-Year Effort to Develop a Centralized Marine Mining Database
Edward W. Kruse .................................................. 4146

Data Archive for the South Central Coast Cooperative Aerometric Monitoring Program
Thomas Chico ....................................................... 4148

SESSION 65: SELECTED TOPICS IN CONSERVATION AND MANAGEMENT

Development of a Model Shoreline Management Atlas for Local Government—The Palm Beach County Example
William T. Buckingham .............................................. 4151

Coastal Zone Management in Boundary Bay, B.C., and Cherry Point, WA
Don B. Gamble and J.C. Day ......................................... 4166

North Fraser Harbour Environmental Management Plan
Gary L. Williams and George W. Colquhoun ......................... 4181

The Impact of War on Environmental Management in Sri Lanka
Alan Potkin ........................................................ 4191

Developing Policies to Improve the Effectiveness of Coastal Flood Plain Management
Barbara V. Braatz and Frank S. Arnold ............................. 4205

Water Dependency as a Coastal Management Principle
Alison Rieser and Barbara Vestal .................................. 4209

Implementing Area Designations in the Fraser River Estuary
Michael W. McPhee .................................................. 4206
SESSION 66: BARRIER ISLANDS IV: SOUTH CAROLINA TO LOUISIANA

The Ponds and Lagoons of Horn and Petit Bois Islands, Mississippi
Stephen V. Cofer-Shabica ................................................................. *
Analysis of Barrier Island Dynamics for Ship Channel Planning at Ship Island, Mississippi
Stephen C. Knowles ................................................................. *
Erosion and Washover in Coastal Louisiana
William Ritchie and Shea Penland ........................................ 4220
Morphodynamic Signature on the 1985 Hurricane Impacts on the Northern Gulf of Mexico
Shea Penland, John R. Suter, Randolph A. McBride, Karen A. Westphal, and
William Ritchie ................................................................. *
The South Carolina Coast I—Natural Processes and Erosion
Timothy W. Kana ................................................................. *
The South Carolina Coast II—Development and Beach Management
Timothy W. Kana ................................................................. *
A Review of the South Carolina Method for Establishing Coastal Setback Lines
Christopher P. Jones and William C. Eiser ................................................................. *
Dredge Disposal Monitoring by Fourier Shape Analysis
Amy C. Frankenburg and Robert Ehrlich ................................................................. *
Shoreline Change Along the South Carolina Coast
Fred J. Anders and David W. Reed ................................................................. *
Louisiana Barrier Island Erosion Study—Further Results
Asbury H. Sallenger, Jr., Shea Penland, and S. Jeffress Williams ................................................................. *
Dealing with Louisiana’s Barrier Island Erosion Problem—Can It Be Solved?
John M. Armstrong, Charles Kureth, Marc Rogers, and Mary Wise ................................................................. *
Charleston Harbor Jetty and the Evolution of Folly Island—Management Implications
Mark Hansen and David Harris ................................................................. *

SESSION 68: PERMITTING REVIEW AND ENFORCEMENT

A Comprehensive Look at the California Coastal Commission’s Regulation of Offshore Oil and Gas Operations
Susan M. Hansch ................................................................. 4235
SESSION 69: PROTECTED LIVING COASTAL AND MARINE RESOURCES

Marine Wildlife Protection Program
Clark Hull and Thomas McCloskey .................................................. *

Coastal Refueling Sites for Global Bird Migrants
Brian A. Harrington and J.P. Myers ................................................ 4293

What the Fix is and How We Developed It
C. Deming Cowles and David Benton ............................................. 4208

Piping Plover and Roseate Tern—Endangered Birds of the Coastal Zone
Ralph Andrews .................................................................................. *

Melvin H. Goodwin, Andrew S. Mount, and Albert E. Sanders ............ 4319

Sea Turtle Nesting Activities, Habitat Encroachment, and Preservation Activities in East Central Florida
Frank E. Marshall, III ........................................................................ *

SESSION 70: SPECIAL AREA MANAGEMENT PLANNING

The Evolution, Status, and Future of Florida’s Aquatic Preserve Program
Steve Leitman and Russell Danser .................................................... *

Special Area Management Planning in Ecuador
Louis Arriaga and E. Ochoa ............................................................. *

The RI Coastal Lagoon Special Area Management Plan—A Review of its Accomplishments and Effectiveness
Virginia Lee ........................................................................................ *

Coastal Resources Management Initiatives in Sri Lanka—A Review
H.J.M. Wickremaratne .......................................................................... *

Coastal Resources Management in Phuket, Thailand
Sirithan Paiojboriboont and Dr. William Branan ............................... *

Training Courses for Application of Coastal Resources Management Laws and Statutes in Ecuador
Efrain Perez and Rafael Gonzalez ...................................................... *
SESSION 71: SHORELINE VARIATIONS: MEDITERRANEAN AND WEST AFRICAN STUDIES

Sedimentation of Nile Delta Coast
Farouk M. Abdel-Aal ...................................................... 4321
Coastal Erosion Processes and Evolution of the Morphology: Two Examples in Africa—"The Small Coast" in Senegal and the Gabonese Coast
E.S. Diop and M. Sall ..................................................... 4334
Erosion Along the Western Niger River Delta, Nigeria
Erich R. Gundlach, Malcolm Spaulding, and Maylo Murday ........................................* 4345
A Model for Cuspate Delta Erosion
Enzo Pranzini .............................................................. 4345
Coastal Erosion in Italy—An Analysis of the Last Century
Antonio Brambati ...........................................................* 4358
Coastal Processes Related to Alternative Outlets of Torrent St. Agata on the Jonian Coast of Reggio Calabria (Italy)
E. Benassai, M. Di Natale, W.D. Eysink, and R. Postorino .................................................. 4358
Evolution of a Beach Profile During a Sea Storm
M. Di Natale, A. Pennarola, and Arturo Ragone ......................................................... 4375
Coastal Processes on the Trabucador Beach, Ebro Delta, Spain
J.M. Grassa and A. Lechuga ........................................* 4375

SESSION 72: COASTAL PROCESSES II

Historical Climatic Fluctuations in Southern California and Their Impact on Coastal Erosion and Flooding—1862 to Present
Gerald G. Kuhn and Robert H. Osborne ................................................. 4391
Historical Shoreline Changes in Southeast Florida
Rebecca J. Savage and Emmett R. Foster .......................................... 4406
Methods of Historical Shoreline Analysis
Emmett R. Foster and Rebecca J. Savage ........................................ 4420
Historic Shoreline Changes in Southwest Florida
Emmett R. Foster and Rebecca J. Savage ........................................ 4434
Grain Size Parameters and Depositional Environments of River, Beach, and Coastal Dune Sediments Near Karwar, West Coast of India
G.N. Nayak ........................................................................ 4449
Inland Coastal Erosion Processes, Lake Sakakawea, ND
John R. Reid and Wayne Dorough ................................................ 4460
The Shoreline Variability Measurement Technique—An Innovative Analysis and Application of Shoreline Change Data
James F. O'Connell and Jeffrey R. Benoit ........................................* 4460
The Paraiba do Sul Retrogradation and the Atafona Environmental Impact
Mauro Sergio F. Argento ..........................................................* 4470
Recent Erosion in the "Stable" Ipanema-Leblon Beach in Rio de Janeiro
Paulo C.C. Rosman and Enise Valentini ........................................* 4470
SESSION 73: USE OF COMPUTER AND VIDEO TECHNOLOGIES IN PORTS AND HARBORS

Computer Applications for Regional and Local Contingency Planning for Ports
T.J. Reilly ................................................................. 4471
A Hazardous Chemical and Oil Spill Response Information System (SRIS) for the Port of New Orleans
Gilbert Rochon ......................................................... *
Vessel Navigation Simulation in Ports and Harbors Development—An Update
John L. Townley ...................................................... 4481
Computer-Assisted Video Instruction for Port Administrators
Frederick J. Smith .................................................... 4490
The Graphic Simulator for Port Planning
Chan S. Park and Chui-Yu Chiu .................................... 4498

SESSION 74: WATER LEVELS: MEASUREMENT AND ANALYSIS

The Next Generation Water Level Measurement System—The Next Step in Real-Time Data for Navigation
Daniel W. Farrell ......................................................... *
Methodology for Determination of the Joint Probability of Long and Short Term Lake Levels for the Great Lakes
Thomas L. Johnson ..................................................... *
A Field Survey of Tide Heights to Determine Tidal Datum Planes for Use as Wetlands Boundaries of Norfolk, VA
Larry H. White, Edwin L. Rosenberg, and Carvel H. Blair ..................................................... *
Eastern United States Extreme High Water Levels
Raymond A. Smith .................................................... 4508
Approximate Determination of Tidal Datums in U.S. Estuaries
Cyril Galvin ............................................................... *

SESSION 75: BOLSA CHICA—CAN THE PUBLIC AND PRIVATE INTERESTS BE RECONCILED? A CASE STUDY

A Historical Perspective—Application of the Public Trust Doctrine to Public Land Management
James F. Trout, Daniel Gorfain, and Curtis L. Fossum ................................................................. 4523
The Opportunity—Developing a Multi-Use Project
Darlene A. Shelley ..................................................... 4537
Federal Interest in Water Resources Development at Bolsa Chica, California
Robert S. Joe and Ron Ganzfried ................................ 4551
Planning for the Bolsa Chica Development—A Regional Perspective
Robert G. Fisher ....................................................... 4559
Protecting the Resources of Bolsa Chica Through Planning and Regulation
Jack Liebster ........................................................... 4568
SESSION 76: AN EXAMINATION OF THE IMPORTANCE OF THE COASTAL ZONE ACT OF 1972 ON A DENSELY POPULATED COASTAL STATE: NEW JERSEY

Management Aspects
John Weingart ................................................................. *
Impacts of the CZM Act (1972) on New Jersey—Science
Susan D. Halsey ............................................................... 4576
Coastal Area Facility Review Act—The Ebb and Flow—Legal Aspects
Michael Gross ................................................................. 4582

Environmental Aspects
D.W. Bennett ................................................................. *
The Coastal Management Program in New Jersey—An Economic Examination
Douglas D. Ofiara ............................................................. 4583

Federal Government Aspects
Kathryn Cousins ............................................................. *
Impact of the CZM Act (1972) on New Jersey—Overview
Robert B. Abel ............................................................... 4592

DYNAMIC COASTAL SOLUTIONS FROM AROUND THE GLOBE

The Corine “Coastal Erosion Project”: Identification of Coastal Erosion Problems and Data Base on the Littoral Environment of Eleven European Countries
Roger-Emmanuel Qué Lennec ............................................. 4594

Safety Against Inundation the Dutch Approach
Henrik J. Verhagen and William F. Volker ................................ 4602

The Effect of Groundwater on Beach Erosion
Daniel Urish ................................................................. 4613

POSTER SESSION

Use of Digital Data Sources for Coastal Environmental Sensitivity Index Mapping
Basil Savitsky, Bonnie Preedom, Patrick L. Horton, John R. Jensen, and Elijah Ramsey ......................................................... 4614

Structural and Non-Structural Erosion Control Systems on Chesapeake Bay Shorelines
Tracy Eanes Skrabal, C. Scott Hardaway, Jr., and James R. Gunn ................................................................. *

Minerals Management Service (MMS) Environmental Studies of Outer Continental Shelf Coastal Areas Affected by Oil and Gas Development
Colleen S. Benner ............................................................. *
The South Carolina Public Beach and Coastal Access Project
   Nanci Bateman .............................................. 4615
Mapping Waterfront Change—Newport, Rhode Island, 1960–89
   Gerald H. Krausse ........................................... *
A Technique for Public Involvement in Developing Coastal Zone Models
   Robert H. Becker and Thomas M. Bonnicksen .............. 4623
Zooplankton Characterization of an Estuary Under Industrial Stress
   Cristina Santos .............................................. 4628
Effects of Vehicular Traffic in the Secondary Dunes and Vegetated Flats of South Padre Island, Texas
   Frank W. Judd, R.I. Lonard, J.H. Everitt, and R. Villarreal 4634
Harbor Characterization in New England
   Steven W. Congdon ........................................... *
The Coastal Zone Education Center—USC-Beaufort
   Cynthia Park Bothwell ...................................... 4646
Martha’s Vineyard—An Explosive Situation—Dune Restoration After Removal of UXO
   Catherine J. Demos and Judith L. Johnson ............... 4650
Coast of California Storm Tidal Waves Study—An Overview
   Stephen Fine, Andrew L. Kadib, and Pamela Castens .......... *
Fluidization—A New Approach to Channel Maintenance and Sand Bypassing
   James M. Parks .............................................. 4665
Fisheries Resource Management in the South Atlantic Exclusive Economics Zone
   Carrie R.F. Knight, Jane DiCosimo, and Gregg T. Waugh ..... *
Mapping and Analyzing Economic Activities and Environmental Quality in the U.S. Coastal and Exclusive Economic Zones
   Maureen A. Warren, Timothy R. Goodspeed, Thomas J. Culliton, Davida G. Remer, and Carol M. Blackwell ........... *
Estuarine Pollution Susceptibility—An Approach to Classification
   C. John Klein, III ............................................ *
Automated Coastal Engineering Systems
   David A. Leenknecht ........................................ 4674
Microcomputer Applications in Coastal and Ocean Engineering #2
   Scott M. Noble ............................................. *
Microcomputer Applications in Coastal and Ocean Engineering #3
   J. Craig Swanson ............................................ *
Recreational Pressures in the South African Coastal Zone—Can We Alleviate the Problems?
   Merle R. Sowman and Patrick D. Morant .................... *
Identifying, Supporting, and Attracting Marine-Related Enterprises—A Video Presentation
   Arthur F. Shuey .............................................. 4675
Use of Geographical Information Systems for Coastal Zone Planning
   James A. Dobbin and Eric E. Carlson ....................... *
Who Knows What? Technology Transfer on Coastal Issues
   John Moore, Jr. .............................................. 4682
Interactive Geographic Inventory Display
   Gary E. Soneira ............................................. *
Development of State Marine Recreational Fisheries Licensing on the Atlantic Coast  
Charles J. Moore ............................................................... 4688

Environmental Management of Coastal Areas and Terrestrial Ecosystems Influencing the Marine Environment of the Wider Caribbean  
Beverly Miller ................................................................. *

Considerations About the Models that are Able to Describe the Evolution of a Sandy Shore  
Franco Amatucci and Graziano Piro ........................................... *

Balancing the Competing Interests in Providing Shoreline Public Access  
William Travis ............................................................... 4701

Coastal Management of Waterfront Project, Kuwait  
Muhammad Al-Sarawi and Timothy W. Kana ..................................... *

Unlinear Processes in Salinity Gradient of Estuaries  
V.V. Khlebovich ............................................................... *

Phytoplankton Productivity in the Gulf of Paria, Trinidad  
Eugene K. Ramcharan ............................................................ 4714

The Effects of Baselines and Set Back Lines of the South Carolina 1988 Beach Management Act  
Gered Lennon ................................................................... *

Remote Sensing and Eco System Modelling of Coromandel Coast, South India  
S.M. Ramasamy, R. Palanivelu, and S. Sanjeevi ..................................... 4727

Economic Potentiability of the Coastal Zone of South Tamilnadu, India, and its Need for Protection  
V.J. Loveson and G.V. Rajamanickam ............................................ 4737

Coastal Hazard Area Management in New York State  
Sally F. Ball, Paul R. Lanza, and Aram V. Terchunian .......................... 4749

Nancy A. Kunz and Garry Brown ................................................. *

Ecological Stresses on the Segara Anakan Lagoon, Cilacap, Indonesia, and Its Coastal Resource Management  
Mulia Purba ........................................................................ 4761

Parks on the Waterfront—Confluence of Mandate and Need  
Karen L. Tsao and Ann L. Buttenwieser ......................................... 4776

Coastal Erosion in Ghana—The River Volta Delta  
James F. Abban .................................................................... *

Depositional Character and Shoreline Changes of the Nandujiang Delta, Hainan Island, China  
Wang Baocan and D. Eisma ......................................................... *

Geographical Information Systems for Coastal Research  
William K. Michener, David J. Cowen, and W. Lynn Shirley .................. 4791

Lithodynamics of the Coastal Zone and its Problems  
R.D. Kos’yan and V.V. Longinov ................................................... *

Human-Induced Damage to Coastal Marine Ecosystems  
S.N. Messieh ...................................................................... 4806
Strategies for Integration of Point and Nonpoint Pollution Controls in North Carolina's Coastal River Basins
Douglas N. Rader ................................................................. *

Environmental Evaluation Procedure for Coastal Development Proposals in South Africa
Merle R. Sowman ................................................................. *

Sub-Tropical Coastal Flora—A Possible Source of Forage Substitute
A.J. Joshi and Manoj Misra .................................................. *

Scott T. McCreery ................................................................. *

Local Marine Fisheries Impact Program
Michael A. Kahoe and Terry L. Tillman ........................................ 4817

Integrating Water Quality Management and Land Use Planning—Approaches in the Narragansett Bay (Rhode Island) National Estuary
Charles T. Roman and Caroline A. Karp ........................................ *

Latin American Development Projects—The Broadening of Successful Coastal Management in Argentina and the Southern Cone
Aldo Brandani ................................................................. *

Mangroves and Development Around Xiamen, China
P.J. Hogarth, Jiang Jinxiang, Cai Erxi, Andrew R.G. Price, and R.F.G. Ormond ........................................ 4832

Monitoring of the Coastal Environment by Means of a Remote Controlled Balloon-Borne Camera (LAP-Technique)
Chr. Preu, H. Sterr, and W.-D. Zumach ........................................ 4847

Quantitative Monitoring of the Coastal Environment Along Kiel Bay, Southwestern Baltic Sea, With Respect to Tourism and Recreation
H. Sterr ................................................................. 4862

Educational Foundations and Coastal Preservation
Kenneth L. Richards ................................................................. 4877

The Southwest Florida Water Management District’s Commitment to Estuarine Management
Michael J. Perry ................................................................. 4890

Boat Live-aboards in the Florida Keys
Gustavo A. Antonini, Leonard Zobler, and Howard M. Tupper ........................................ 4899

Ocean Management in Danish Waters
Hans Christensen and John Tychsen ........................................ 4900

The Remote Sensing Applications and the Survey of Shallow Sea’s Configuration and Terrain
Li Tiefang and Yi Jianchun .................................................. 4910

The Statistic Information Features of Coastal Zone Remotely Sensed Image
Yi Jianchun and Li Tiefang .................................................. 4923

Subject Index ................................................................. 4961

Author Index ................................................................. 4971
